It’s time to regulate the internet as a public utility.

Title II of the Communications Act of 1934 already grants you the authority to declare the internet a public utility and provide greater regulation to the telecommunications industry.

The internet is a cornerstone of modern life -- from our day-to-day live to businesses and jobs. We simply can’t live without it, so it’s time to declare that it is a public utility, not a private “service.”

It’s long past time to declare the internet a utility.

	First Name	Last Nam	Zip	Stat	Comment
1	Mary	Kallenbor	60452	IL	Your job is to protect the major of people not to protected the greedy companies who do nothing but screw their customers.
2	Carolyn	Scott	88210	TX	Your establishment of an internet so-called fast lane goes against everything free enterprise is about.
3	William	hardy	95824	CA	Your decition smells of conflict of interest.
4	Jill	Yeagley	87110	NM	Your decision to create a two-tier system is an outrageous, undemocratic action that you need to retract.
5	Dee & Jack	Rosenfelc	94115	CA	Your Committee makes decisions based on what the American people need and want, not your personal bias. Please do!
6	Loretta	Ayrer	29588	SC	You're there to look out for the PUBLIC not corporations!!!!
7	James	Geta	93551	CA	You're supposed to work for the people, not Big-Telecom!
8	Ryan	Reeves	91790	CA	You're supposed to work for the people, not big business.
9	Gregg	Bragg	29455	SC	you're supposed to be working for US, the AMERICAN PEOPLE now
10	Peter	Risman	78248	TX	you're supposed to be watching out for OUR interests, not the cable companies. just categorize the internet as a utility and be done with it.
11	Kathleen	Slater	45208	OH	YOU'RE NOT GETTING THIS ONE, OLIGARCHS.
12	Christine	Carrs	98119	WA	You're kidding, right?

13	Ron	Williamsc	74127	OK	You'll probably do what you want anyway, but you'll have to explain how you ignored millions of taxpayers in doing so.
14	Eric	Harris	32720	FL	You wouldn't do this to yourself.
15	Laurie	Burnside	80219	CO	You will unleash the hounds of hell if you persevere in your quest to give the internet the same level of wealth inequality that we currently experience in the economy!
16	Nancy	Miller	21207	MD	You will NOT win this one. People are fed up with your efforts to create a two-tiered society by creating a 2-tiered internet. Watch us STOP you.
17	Tim	Dunleavy	16803	PA	You will kill business if you create a 2 tiered internet.
18	duncan	hawes	98281	WA	You were supposed to protect US
19	Lyndia	Blue	44647	OH	You were setup to protect my interests. So protect them. Don't allow corporate providers to usurp and extort consumers.
20	Richard	Sommer	10598	NY	You well underway to creating the same kind of double ended pay stream to big businesses that has been allowed on cable. Net neutrality must remain for so many reasons but the most important one is so that small voices can remain to be heard.
21	Janet	Gordon	40118	KY	You want me to PAY for Internet? - - I live on $1800./month. Yes, you read it right - $1,800.00/month. - - My rent is $790. - - I pay $270. for Time Warner Internet, phone and cable already. - - I have MS and am disabled. The rest of my income goes to health insurance, co-pays, food, - - and medicine. - - The Internet and TV are the ONLY sources I have to get to the outside world. If you charge - - me MORE to use the Internet, I will have to cut it. - - DON'T DO IT. - - IT'S WRONG. - - Janet Gordon - - Fairdale, KY - - janetg32@gmail.com
22	Christina	Dunn	61010	IL	You people have become unhinged. THIS IS MONOPOLIES we are talking about.
23	Christopher	Robin	22009	VA	You pay extra, and leave me alone!
24	Wayne	Bates	01505	MA	You MUST stop the idea of having a multi-tiered system for the internet - it's crazy! PLEASE do not go forward with this!

25	Molly	Stevens	94112	CA	You must show respect to the citizens of the United States. If you choose not to, then don't expect our support in your time of need. And your time will come.
26	Cynthia	Ryan	89511	NV	You must protect net neutrality. Anything less is unacceptable.
27	Ron	Currens	30340	GA	You MUST preserve Net Neutrality!
28	J	O'Gara	33785	FL	you must not permit a two-tiered internet... it is antithetical to what it is about. it was developed by government, private corporations should not be able to dominate and usurp it.
29	Grace	Cooley	27712	NC	You know we're correct.
30	E	B	10033	NY	You know that internet service is a public utility. You know it to be true.
31	Ned	Smith	78749	TX	You know it's the right thing to so just do it and start acting like the "public servant" you're supposed to be.
32	Janette	Todd	30117	GA	You just want the large companies to hurt people and make more money.
33	Thomas	Corcoran	16120	PA	You jerks!
34	Toni	Garmon	30534	GA	YOU IDIOTS WORK FOR US....NOT THEM.....REMEMBER ?????
35	Carolyn	Hidy	59874	MT	You have the whole world depending on you to keep the internet the same for everyone. I can't even imagine why you would CONSIDER allowing big money to have privileges the startups of the future would not have until they were already a huge, big money corporation. This would be a perfect way to ensure the end of competition, and therefore, advancement, of internet companies.
36	Norbert	Neel	97403	OR	You have no right under the constitution to listen without a SEARCH WARRANT! This is unreasonable search and seizure prohibited BY LAW!
37	Arnold	Scott	81401	CO	You have no right to change the internet. We are tired of the government screwing the public.
38	Christine	Thomas	80020	CO	You Have no business in this area.
39	Aileen	Kaye	97392	OR	You have already given away AM and FM to thr right wing. Please leave us equal access to the internet.

40	Marc	Kessler	05487	VT	You have a responsibility to the public to see that monopolistic utilities act fairly. Net Neutrality is in the public interest. Do not allow cable companies to run roughshod over that principle.
41	Sandra	Cutter	98221	WA	You have a duty to the public to keep the internet free and open!!!!!
42	Jim	Hoffmast	90004	CA	You have a chance to do the right thing, not for cable companies, but for everyone.
43	Don	Bliss	95482	CA	You guys have been promoting "cable company fuckery" for decades. - - It's time to reverse course.
44	Peggy	Kelpe	63332	MO	You go, John!
45	DeWayne	Youts	39183	MI	You fuckers are supposed to be protecting us, not selling us out to corporations.
46	Douglas	Rees	95126	CA	You don't want to go down this road. The objective is too obvious. You guys govern best in darkness.
47	James	Reaume	49953	MI	You do not have the right to steal a public resource and make a gift of it to your billionaire friends!
48	kathy	dewispela	68104	NE	You do not have the moral authority to sell the internet to the highest bidder. This is wrong and you know it. Do your job and protect the public, not big business.
49	Stacey	de Sorgo	77840	TX	You did not create the internet. The individual who did created it to be FREE FOR ALL. What is being proposed is an affront to the concepts of freedom and equality, which seem to have been eclipsed by the capitalistic bottom line.
50	jon	sumner	93635	CA	You cannot move to change the rules of a game, once everyone has agreed to them. The internet has become a vital utility to the People of the United States. - - - - Any action to restrict or give unfair access is breaching your duties to the People.

51	Susan	Thompso	55305	MN	You cannot be serious about your two-tiered plan. The cable companies are running roughshod over us as it is. I have to pay for a landline - even though I don't have one - just to get a decent price on my cable/internet. The internet is public. It does not belong to our corporate masters. Start doing your jobs and actually regulating how they use it now (ridiculous bundling, lack of competition, outright thievery) - and for god's sake, don't make it worse.
52	warren	drummor	90019	CA	You CAN'T HAVE TIERS in the internet!!!
53	Carolyn	Douglas	48073	MI	You can set up a different 'fast lane' for companies...leave the rest of us alone.... What is the matter with all of you?????
54	Richard	Thomas	98102	WA	You can be sure that soon after the favored companies get the best access the GOP/Teabaggers will do the same to help spread the Reich-wing propoganda
55	George	Thomas	93225	CA	You are to serve the whole country.
56	Sandra V.	Mueller	59047	MT	You are there to SERVE THE PEOPLE, not the corporations!!!
57	Bruce	Bernard	21613	MD	You are there to protect the public NOT support industry goals...if you want to do the latter...WORK FOR INDUSTRY.
58	Lee	Wilhoite	91602	CA	You are the FCC. You do not cow-tow to cable companies. Or do you?
59	Randall	Morris	92399	CA	You are supposed to act in the PUBLIC'S interest not corporate interests.
60	Leslie	McQuistir	98422	WA	You are still working for the Telcos!! How dare you sell your position to rip off people like myself, who already resent Comcast's constant overcharging.
61	sharon	ivicevic	37700	TN	you are doing it again !!!!!!!!!!!!!!!
62	Robert	Waddell	60102	IL	You are charged with protecting the rights and privacy of the people not the profit opportunities of corporate giants.
63	Iris	Newman	98109	WA	YOu all need to support us, the people and stop being criminals by giving our things to the wealthy olograchs. SHAME on you.

64	Rhonda	Simons	64064	MO	You (AT&T) have already made my internet life hell, just give me the speed that is available and quit restricting bandwidth to those of us without giant pockets.
65	Marcy	Donaldso	80220	CO	Yet another corporate takeover of our government. You have the power to reclassify the internet as a utility and you should think long and hard for not doing it. As the last few days have shown, you're poking a really angry bear - we the people - - (not the 1%).
66	Lonna	Malmshei	17013	PA	Yet another attack on the little democracy we still have.
67	Mary Ann	Beaser	48104	MI	YES! to net neutrality
68	Peter	Thomas	98133	WA	Yes!
69	Marsha	Mathews	63116	MO	Yes, what they said. Preserve free speech! It's the law of the land.
70	PETER	Adams	94510	CA	Yes, the FCC chairman is a dingo.
71	William	Eddy	41101	KY	Yes, once again, privilege for the privileged and scraps for the rest of us...typical!
72	Valerie	Colter	96778	HI	Yes, internet should be classified as a telecommunications service. Big companies already have enough power. Keep the internet neutral.
73	Jerold	Arvisais	98002	WA	Yes, I am in my 70's and I use the internet. Keep the damn thing free the way was built and don't give control to corporate jerks!
74	Deborah	Benitez	87144	NM	Yes the Internet is a public utility benefiting the lives of all Americans in increasing knowledge
75	Kenneth	Landis	17837	PA	Yes keep the internet free. Until we stop allowing the rich to become richer at the expense of the common man then then we can never be really free.
76	Betty	Smisek	55118	MN	yes it is quit!
77	Phillip	anderber	32159	FL	Yes it is a public utility
78	Sandra	Brady	33781	FL	Yeah, like Bright House, is looking after our best interests!!!!! Not to mention Time Warner, Comcast and all the others who have gotten richer and richer off of the local yokels who pay exorbitant sums just to have 300 TV stations. How could anyone ever watch 300 stations?

79	Patricia	Parraga	11757	NY	Yeah, because big telecoms need all the help they can get, right? Let ' We The People' own the airwaves and internet!
80	Rodd	Ringquist	55025	MN	Ya it was created with PUBLIC MONEY
81	laureen	picciani	95437	CA	WTF?
82	thomas	nicholson	03825	NH	WTF guys
83	JERRY	FERRIER	98112	WA	wtf did Obama saddle us with a GOP Chairman - - -

97	Ted Fallon	Fallon	19425	PA	Why would the FCC even consider the right of a few over the rights of many, or the rights of companies over the general public? Money?.
98	Stephanie	Wright	98258	WA	Why was this ever even a question???
99	Kenneth	Schilling	49507	Grar	Why should corporate rights trump citizen rights?
100	Paula	Kenitzer	85635	AZ	why must the government take all our freedom in the name of terrorism!!! its a lie!
101	Mary	Lattimore	87504	NM	Why is this the direction we are taking the internet? The majority wants net neutrality. Not a tiered system!
102	Mary	Gildea	17547	PA	Why is the FCC trying to "fix" something that isn't broken?
103	carol	schultz	98109	WA	Why is everything in this country seem to be based on the bottom line nowadays? Let's try doing things for the common good. If this were applied to interstate highways, the wealthier can't drive faster than others because they pay for it.
104	Gerard	Pintal	01826	MA	Why is changing the current open internet even being considered? The current openess (net neutrality) of the Internet, has created jobs, served the American people and businesses very well as it currently stands. Internet Service Providers (ISP) already have the ability to manage and control the flow of digital packets through their systems depending on how much you pay for your service! ISPs already have levels of service established. This whole situation is a ridiculous plot and hoax by the money hungry service providers to squeeze more money out of the pockets of their subscribers. The FCC must wake up and see this for what it is. More money grabbing tactics by business that already have a monopoly on the services they provide. Put this whole idea to bed and leave the Internet as it is!

105	Richard	Gonzales	91745	CA	Why i. s it that some of you gov. agencies including the three branches of government. Think the populous isn't paying attention to what is going on in our country. Is it because they are distracted with music, movies, sports etc. Your probably correct most people don't pay attention to what's going on politically or financially. most people don't realize that most countries are run by politics and Money
106	Brenda	Curtis	92620	CA	Why don't you protect the people for once?
107	Jack	Lawrence	37210	TN	Why don't you just sell all the interstate highway system while you're at it?
108	Terry	Smith	30309	GA	why don't you do something for the people and not the money grubbing corporations for a change, you giant steaming turds
109	sandy	kennedy	45005	OH	Why don't we just give everything to "The companies". Leave my public access alone. I am sure you have plenty of other things to screw up!
110	Gary	Groesbec	95370	CA	Why does the US have one of the poorest and most expensive internet system in the world? Why aren't we the leaders?
111	Mary	Chapman	34949	FL	Why does it take a Brit to hold a mirror to America's citizens and help us realize just how much greed influences our country?
112	Mary	Chapman	34949	FL	Why does it take a Brit to hold a mirror to America's citizens and help us realize just how much greed influences our country?
113	Cliff	Moyes	53032	WI	Why does everything in this country have to be sold to the highest bidder? Is there nothing the government won't sell for the right price?
114	bob	nyboer	80503	CO	Why do you want to hit poor consumers with even more expenses? Give a break, please!
115	David	Shand	48176	MI	Why do we have to fight for net neutrality??
116	Paul	Stettner	80487	CO	Why do I think that the FCC is being bought off by the big $ corporations? It can't just all be about money -or can it?
117	Kelly	Gray	98665	WA	Why do I have to pay Comcast 85.00 a month to access the internet so I can look for a job? Stay current on the literature in my field?
118	Diane	Crawford	50849	IA	Why can't they just leave well enough alone?

119	mike	degive	95003	CA	why can't there be a federal agency that takes up for people, instead of giving more and more and more and more and more power and money and opportunity to the richest people in the world?
120	PETER	KLUGE	11238	NY	Why are you trying to fix something that is working so well?
121	Brady	Keister	97527	OR	Why are you bureaucrats so stooped?
122	David	Shearer	28783	NC	Why are all the things that are the "commons" for use by all of us sold outright to the highest bidder by those who were elected to serve "WE THE PEOPLE"?????????
123	Brant	Alper	10467	NY	Who's interests are you assigned to protect?
124	Lon	Polk	96822	HI	Who regulates the internet? Egypt, China, Chile, Cuba....
125	anne	carpenter	33321	FL	Who paid you off to even consider this???
126	Loren	Clift	48034	TX	Who owns you now baby?
127	dan	odell	80621	CO	Who owns what you do?
128	Maurice J.	Mollan	02138	MA	Who owns the internet? No one entity, yet. We can stop Verizon from co-opting the internet by insisting on NET Neutrality. All of us deserve without exception the same speed on the super net highway and no I do not agree to give diabled people more speed than I have or will have in the future. Just let everyone have the same speed on the net, that is a simple, just and egalitarian solution to co-opting the Net and selling off speed the the highest bidder when infact it is an asset of the American people, not the super-rich, business-oligarchs.
129	Janis	Fensch	98226	WA	who is paying you off that you would even consider such a plan ??
130	Jacalyn	Strouble	27312	Nort	Who is lobbying to kill net neutrality? Only those few who stand to make massive profits. Not small businesses. Not consumers. Not start-ups. Not public interest groups. Not the average American, like me. We WANT net neutrality.
131	Ruth	Fichter	48237	MI	Who is it EXACTLY that the FCC REALLY works for? It is, almost certainly, NOT the average American citizen.

132	Gleneda	Borton	94901	CA	Who in their right mind would trust a cable company to do the right thing for the public, rather than whatever will put money in their executives pockets?
133	Catharine	McCray	41071	KY	Who came up with this stupid idea? More corporate greed. Shame on you for even thinking about it.
134	Bonnie L.	Lee	85710	AZ	Who are your representing Corporations or the "little people" of America. It appears to be the former. KEEP THE INTERNET FREE AND OPEN!!!!
135	Bob	Simm	97411	OR	who are your masters?
136	John	Caudill	46383	IN	Who are you trying to fool? Stop the sell out!
137	Lois K	Williams	44512	OH	Who are you serving, the people or special interests? Are you aware of what is happening in other countries whose internet service is working well with net neutrality?
138	Robert	Krause	11378	NY	Who are you people taking bribes from that you are open to ignoring the obvious? Giving rich corporations better access to how they send data, is like saying "separate but equal" when it comes to segregated schools. It took a while for the social conscience of the country to say it was wrong, and at this point, we generally all agree. This is no different. What if the most worthwhile sites for John Q Public to go to cannot afford to pay a premium, so no one goes? What about educational sites? Non-profit sites? Start-up businesses that no one will bother waiting for their site to load, so maybe they fail? And why is their site so slow? Because Some big company is paying some corrupt SOB in a telecom company to monkey with their data stream. You think that would never happen? The ONLY thing keeping it from happening is figuring out how to keep it hidden. And big corporations are pretty good at that. If you don't think so, may I remind you about derivatives in the financial sector not being underwritten properly (on purpose). If you can let there be a two lane highway on the internet, it's only because as a former lobbyist for the companies asking for it, you still owe them.

139	Alfred	Adamore	60478	IL	While the Internet is not publicly owned it does provide Interconnectivity and commerce access to public and private users. Control of such by any one corporation with an expressed intent of a tiered system hands over control and ownership. This limits access while negating competition creating a clear path for increased rates. When millions of subscribers are affected the utilization of an entity is indeed public and must be protected from monopolization by private entities.
140	Jay	Mark	10024	NY	Whether or not the internet was intended to be a public utility, that's what it is, and all of us should have equal access to it. In truth, we shouldn't even have to pay for it on an individual basis, as it is almost as much of a necessity in today's world as air. THIS is the perspective you should have in any current or future efforts to determine how it operates.
141	Julie	Tillar	90278	CA	When will you people (the FCC) pay attention to what's good for the PEOPLE of your own country, rather than Corporations???? Haven't they hurt us enough?! Are you just pushing us to find our breaking point? Cuz you're close.
142	Ken	Deshaies	80122	CO	When will the FCC understand that their obligation is to the people, and not to major corporations?!
143	John	Canepa	03278	NH	When was the last time you hard of a single man-in-charge doing anything good and constructive for the general population? Never. And this brainstorm of yours is the kiss of death to a fair and equal internet. Are you people imbeciles?
144	Bryan	Robinson	11217	NY	When the game gets close to the end there are fewer and fewer players, until there is only one. Then the game is over, there's a winner and a lot of lossers. There will be nothing left for you to regulate, there will be no purpose for an FCC. Your job is to keep the game competitive, think if it as a salary cap. Without one the league would cease to exist because nobody wants to see the same team win the championship 10 years in a row, the sport will die. The jobs that your revolving doors lead to will dwindle and the door will lead nowhere.

145	Kathleen	Darlingto	32904	RI	when phone service started, there was something known as "universal" service. Everyone was entitled to have access to a phone.....now everyone needs equal access to the internet! They can pay for all the high speed access circuits that they want, but once we get to the internet, we should all be equals!!
146	Linda	Skinner	97030	OR	When our prices go up because these corporations start charging us more maybe the government can start subsidizing us too.
147	Karl	Seidel	52577	IA	When moneyed interests win America loses.
148	Melinda	Howarth	97535	OR	When is enough, enough?
149	Carol	Laurich	97223	OR	When did our country stop being a democracy for the people?
150	Gregory	Gressle	60660	IL	When are you people going to start doig the job that you were created to do?? You work for us.
151	Terry	Meek	78681	TX	When are you going to shut down Fox News stations/network? Their "news reporting" is almost laughable if it weren't so stupid and childish. Are they drinking some heavy laced kool-aid before going on the air? The ideas they come up with are out of this world. Close them down because there are just enough people that don't know they really lie just to have something to say and they believe every word coming out of their mouths. They hurt a lot of people with their blatant lies and should be stopped.
152	Janis	Prusis	49341	MI	When are the little guy's going to get a break?????
153	janet	wallace	37209	TN	Wheeler, as a cable industry lobbyist, it's criminal that you're even head of the FCC. Now that you're on the other side of the fence, you need to do the right thing here and say fuck you to the cable companies who want to turn an even playing field into a cash cow for NO ONE's benefit but their own. Forget your ego and your pocket book and think about the future you want to live in, about the contribution you want to leave behind and how to best SERVE, not take, from the people. - - - - Get your brown nose out of your wallet and do the right thing. NET NEUTRALITY for ALL.

154	Linda	Madon	12946	NY	Wheeler isn't a mustache twirling cartoon villain. - - He is a out and out paid shill for Comcast, a corporation who wants to squeeze every last penny out of our pockets for internet service without improving the hilariously mediocre service they already provide. - - - - The moment Wheeler steps down from his post and succeeds in destroying Net Neutrality, he will head right back to his pay masters for a huge payday. We have seen this movie before...countless times. - - - - It is the Washington DC Revolving Door 101. How can you not see this? Not a rhetorical question.
155	gloria	gordon	30223	GA	Whatever happened to free TV. WiFi and mobile broadband services are terrible. Netflix is not good. As a public we were asleep at the wheel. These companies just had their way with the airwaves and the internet.
156	Lawrence	Tucker	96755	HI	What's wrong with you FCC, how much money do the big comm. companies need, you they will be satisfied with just this?? If you give this to them, in a short time they will want more and more, till only the 1% will be able to afford the internet!! Please say no to this proposal!!
157	Linda	Treadwel	95540	CA	What's the matter with you people? Why don't you get it? Net neutrality...for all. No special tracks for your coal fired monied interests so they can earn even more money shafting consumers? Is that really your job to make sure corp's make more $ than they do now? What's the matter with you people!!!!!!!!!!!!!!!!!!!!! OINK!
158	Julie	Sosa	60302	IL	What's next? Slowing down satellite TV and radio broadcasts?
159	Jack	Broderick	32136	FL	What's next? BOOK BURNING!
160	Catharine	Gunderso	95062	CA	What's going on at the FCC that it makes such awful decisions? Like musical chairs with Michael Powell. Get him out of there. The FCC is supposed to do a JOB for the people, not the rich corporations.

161	Richard	Hildreth	53719	WI	What was funded, nurtured and developed by the US Government using American taxpayer dollars is in no way appropriately usurped by fascist corporate entities. It was initiated and must remain a part of the commons.
162	Alexis	Keith	10023	NY	what they want is for the Internet to remain free-as-in-freedom (& toward that end, for the FCC to put the Internet back under Title II where it belongs).
163	Bridgett	Hollowell	91910	CA	What the hell were you thinking?!!!
164	Al	Criswell	33770	FL	What the HELL is wrong with you people?? Everybody knows this is nothing more than a money grab for the cable companies and YOU ARE FORCING IT DOWN OUR THROATS!
165	Mark	Collins	66044	KS	What the fuck is wrong with you people. Do you just want an insurrection?
166	John	Sarette	55803	MN	What the changes you are considering would do is let ISP's double dip. I already pay my ISP for the speed I desire/can afford. Under the proposed changes the ISP's could also charge the content providers. Its not a free and fair market when the same item (internet speed to my device) is sold both to me and to the content provider.
167	Mary Baine	Campbell	02138	MA	What part of "the internet is a public utility" don't you understand? Given the nature of your solemn public responsibility, one would have thought you'd have that down pat.
168	Mina	Jensen	10039	NY	What Oliver said!
169	Joe	Crocker	15717	PA	What motive could the fcc have except,allowing more ways for big corporations to screw the general public, for the sake of making more billions, maybe we should have the jerks at the fcc investigated!
170	Debotah	Bayer	94804	CA	What makes the internet work is that it is open communication. Represent the public for a change, not big corporations who have dollar signs in front of their eyes (and are waving them in front of yours).
171	Tim	Ogrady	80466	CO	What John said!

172	Samuel	Woods	98382	WA	What is this the 3rd or 4th run made at net neutrality by the FCC? We need this agency to do its job, its job is not doing the bidding of cable and internet companies.
173	Deanna	Stropes	85351	AZ	What is it about saving democracy in America does the FCC not understand?
174	Steve	Claassen	93602	CA	What is it about "One Internet For All" that you don't understand?!?! If you love kissing the ass of your betters, you must be a Tory. That's ok, just go back to the mother country. This is democratic USA where we kicked aristocratic England's ass and stuffed Tories up it 240 years ago.
175	Patricia	Coln	34286	FL	What is he thinking???
176	Donald	McFall	85259	CA	What in the living hell is wrong with you people? Commons are commons!
177	olivia	destanda	94606	CA	What HE said!
178	MARIA	GARCIA-E	92064	CA	WHAT HAPPENED TO ANTI TRUST LAWS?
179	Peter	Froiland	53110	WI	What happened to all the old ma Bell (+ successors) fees they collected to pay for new infrastructure--as on fiber optics?????)
180	Roslyn	Walker	90292	CA	WHAT EXACTLY IS IT YOU DON'T LIKE ABOUT DEMOCRACY??????
181	Margaret	Goodwin	93023	CA	What ever happened to 'the airwaves are a public common'? I still can't believe Time Warner took away PBS and CSPAN from my basic services! It's criminal!! Do your job, and REGULATE FOR THE PEOPL not the CORPORATIONS!!!!
182	Norm	Hartz	07410	NJ	What else would millionaires do!
183	David	Andrews	21239	MD	What else might it be?
184	LaMar	Olk	95445	CA	What else is for sale ?
185	George	Corrado	08865	NJ	What does the phone do? It permits person to person communication. - - What does the internet do? It permits person to person communication. - - A utility is a utility. - - So you would side with greedy corporate leaders to obstruct the basic tool of democracy. Easy and equal communications for all. - - The very fact that you even consider such a blockade to open communications with "poll tax" lets me know you are a shaky US citizen much less a leader who supports our form of government. - - I sincerely hope you prove me wrong.

186	Turhon	Murad	95926	CA	What does netnutrality mean if not to encourage freedom and creativity, and what would be the advantage to the US to stifle both.
187	Daryl	Sherman	53711	WI	What does it take to convince you that most Americans (who are not corporate CEOs or flacks) consider net neutrality is a good idea and a fast track is a terrible one? I hope this does it because I am among those who have been telling you that for the last two or three years, at least.
188	CHRIS	PALLAS	92270	CA	What does it take for you understand whaat we are telling you! - - You should be thinking of us the people and representing us NOT the corp. providers who are doing very well thank you !
189	Beth	Andersen	48105	MI	What Charlie Dean said.
190	Jerome	Cullors	48223	MI	What can the people call their own
191	Teresa M	Crayne	16057	PA	What can I say that you haven't heard/read a thousand times over? But to repeat: the internet should (must) remain an open internet. Its character and its usefulness would be impeded, otherwise. So consider it a public utility. - - - - Did the telephone have this much difficulty at its inception? Or was there not so much chance for huge profits if it had been commandeered by one corporation or another? - - - - Public utility, okay?
192	Roy	Doolittle	02067	MA	What are you people thinking? Are you taking bribes? Just curious, because I can't think of another reason why you'd rule against net neutrality.
193	linda	cacopardo	59043	MT	what are you people thinkin' !!!!!!!! How could a 2 tiered system EVER in sync with the basic concept of FREE SPEECH ?
194	Herbert	Levinson	33328	FL	What a ridicules argument for Verizon to assume. They are not helping the blind, deaf or dumb. They are helping themselves to dumb down the majority public dissent.
195	Keith	Leewis	60030	IL	what a great way to become a 3rd world country the haves and the have nots. do the right thing for a change nad keep the big money out of these decisions

196	Dave	Kisor	96778	HI	What a fairy tale! If you believe they actually care about the disabled, I've a bridge from Molokai to Oahu I'll sell you real cheap!
197	margaret	riswadkar	23185	VA	what can you say to this kind of corruption.
198	Paul	Trepes	14840	NY	Well...duh!
199	Joe	Calhoun	96746	HI	Well the politicians and the supreme court have managed to take away our democracy so leave this alone. It is a public utility.
200	CRAIG	JACKSON	53704	WI	Well duh... The net was made using tax money. We own it!
201	Judith	Clark	85629	AZ	We're watching you people.
202	kAREN	TATE	90291	CA	We're on to you! Don't screw the American people around - we're SICK OF IT!
203	Paul	Heineck	98370	WA	We'll see whose side your on. You can't hide this.
204	Gerald	Jenkins	32667	FL	We, the people, cannot let big money run everything!
205	Richard	Lyons	94108	CA	WE, the PEOPLE demand that the internet be recognized as a public utility: we communicate with our friends via email, we get much - if not all - of our news on-line, we phone our friends, view movies and read books. How is this NOT a public utility?
206	Pamela	Leighton-	78757	TX	We, the human people, own the internet, not the profit pirate plutocrats.
207	Chris	Moelter	97206	OR	We would not have had the digital revolution and all the advances that has afforded in commerce, technology, social connectivity, and information sharing if the internet was a two-tiered system. Please do not allow the highest bidders to have special privilege and ruin the medium that is the closest to democratic of any we have today.
208	Diane	Hendricks	76374	TX	We WILL NOT let you ruin our internet. You need to MAN UP and throw the public a bone on this one. Corporations do not always get to win and THEY WILL NOT WIN ON THE FREE INTERNET. I'm not young but if my internet is ruined by these greedy F***s I will personally be in your face every day! This will not happen without a fight!!!!!
209	Lee	Barckmar	97070	OR	We want the airways back too. Tell telecom lobbyists to return to the spider holes they crawled out of

210	Amena	Andersso	04680	ME	We want our internet to be no-tiered, thank you. It is a public utility and should remain accessible to all at the same speed.
211	Mary	Kroncke	40601	KY	WE want our internet to be free of the "pay to play" game.
212	Karen	Goodrich	93313	CA	We want no tiers, we want to be able to access the web like any corporation and at a reasonable price. No rate increases and no slow web access for us and fast web for the ne'er do well corporates.
213	VÃ©roniqu	Duncan	33132	FL	We want Net Neutrality. Do not destroy Net Neutrality.
214	Elaine	Hardman	15895	NY	We want democracy
215	Diane	Beeny	07090	New	We want a free and equal internet - Keep Net Neutrality!!
216	Joyce	Dillenberg	98229	WA	We use the internet DAILY for our company (research, fact checking, address and contact lookup, etc.) and also on a personal basis. The internet should be a public domain and should be considered a public utility. We are sick and tired of the PAY TO PLAY philosophy that seems to rule politics and crowd out common sense and public access. LEAVE THE NET NEUTRAL AND OPEN TO ALL!!!!
217	Kenneth	Farrell	10953	NY	We urge you toâ€”as soon as possibleâ€”publicly call on Chairman [Tom] Wheeler and his FCC to reclassify Internet service as a telecommunications service under Title II and implement strong net neutrality regulations that will ban all unreasonable technical discrimination (and define pay-to-play arrangements as inherently unreasonable)
218	barbara	schiffler	92024	CA	we the people....
219	kathy	barrett	18509	PA	WE THE PEOPLE!!!!
220	Alan	Gann	54501	WI	WE THE PEOPLE should count as much as the RICH and RICHPUBLICANS!!
221	David	MacKett	89147	NV	We the people paid for the internet and we the people should keep it - don't give it away to your 1% buddies.
222	Kurk	Schoner	90301	CA	We the People paid for it! It's not for sale!

223	Kenneth	Huey	97206	OR	We the people financed the Internet in the first place, and it should remain, like broadcast media, a public commons.
224	Richard	Goldman	63017	MO	We the people DEMAND Net Neutrality
225	Howard	Switzer	37096	TN	We the People are sovereign, we are the boss, not banks, not our representatives, not corporations.
226	Mary	Demattio	44663	OH	We the people are fed up with this kind of crap!
227	Ronald	Burgher	32724	FL	We really should prevent this cable company fuckery. Really.
228	Bill	Smith	34219	FL	We pay to use the net its not free so why give big business the right to control the net its not.
229	Katherine	Keller	97141	OR	We pay for our internet, we pay for our subscriptions - the FCC wants to double dip - leave the internet alone!!! Shame on Obama for appointing a former cable lobbyist, Tom Wheeler, as the head of the FCC. This whole idea sickens me!! Enough is enough!!!
230	Mr Stagger	Stevenso	98499	WA	We paid for this, it belongs to the people!. - - And why is America's internet speeds inferior to the rest of the developed nations?
231	Dan	Underhill	94044	CA	We paid for the inception and development of the internet. I recognize the tradition of turning over the fruits of our tax dollars to for-profit corporate sociopaths but I must say I disagree with the very idea of that longstanding practice.
232	Mary Robbi	Jones	77706	TX	We paid for it's creation and development and we are it's primary users. Not to mention that it is the backbone of our online economy. Make sure it stays neutral. Declare it a utility which is what it is. Our society, economy, and culture depend on it. That makes it a utility.
233	Dan	Ceppa	13790	NY	We paid for it. It belongs to us.
234	Judy	Osmunds	98248	WA	We paid for it and it is ours to use. Don't sell us out!
235	Janice	Ewers	95123	CA	We no longer have fair and unbiased media; this would be the first step in taking away the last source of open and free communication available.
236	Thomas	Gruenenf	47401	IN	We need to treat the internet as a public good, not as a private profit generating machine.
237	Debby	Whisenar	79102	TX	We need to stop worshiping the almighty dollar.
238	Walter	Oberland	05674	VT	We need to stem the tide further widening the gap of the have's and have not's.

239	Robert	Dickerma	91423	CA	We need to regulate the net as a public utility
240	Katherine	Coup	17847	PA	We need to put PEOPLE ahead of corporations for a change.
241	William	Ronald	46324	IN	We need to protect equal access to the internet.
242	Jim	Paddack	33903	FL	We need to draw a firm line in the sand on this. What makes the internet such a force for innovation & job creation is that it treats all the same
243	Pam	Wanveer	20910	MD	We need the internet to be open not tiered. Keep the internet safe and neutral.
244	Andrew	Causey	60202	IL	We need the internet open and free just like we need the interstate highway system open and free.
245	Ian	McCurdy	09012	AE	We need the internet and the internet needs competition and innovation. Stop approving mega-mega-mergers and do your JOB! The internet is a UTILITY.
246	Joe	Nix	55901	MN	We need REAL net neutrality -- not some watered down, 2-tier compromise!
247	Linda	Peterson	80304	CO	We need net neutrality. We deserve net neutrality.
248	Karen	Joers	77079	TX	We need net neutrality. We are already at the mercy of Internet Service Providers. We pay more for less than almost any other country. Ending net neutrality is a huge giveaway to the ISPs.
249	Nasir	Ali	98033	WA	We need net neutrality, how can you let the corporations get away this making more money with providing poor service. we need more competition.
250	carol	darringto	53210	WI	We need net neutrality to ward off control of how information is "designed" by those with the most money and power. Please stop the potential change in how the internet is used by everyone.
251	Chris	Orth	01778	MA	We need net neutrality
252	Paula	Hutts	48353	MI	We need more kids like him speaking up
253	P Ann	White	76665	TX	We need less corporate control rather than even more.
254	Valerie	Belew	30233	GA	We need Internet neutrality. I have as much right to fast Internet as corporations or the very rich. Leave it alone.

255	Laurene	Arsenault	12309	NY	We need free and open access to the internet!! Please help keep our Democracy a true Democracy!!
256	Beckie	LaSalle	94804	CA	We need free and open access to keep small business flourishing online. We do not want to change a system that is working perfectly well. Thanks
257	Pat	Jaksha	85745	AZ	We need an open internet. Don't let the cable companies have all the bandwidth.
258	Teri	Howatt	98155	WA	We need a level playing field! Leave the Internet as it is.
259	Harold	Withers	92004	CA	We need a free and open internet. It has worked so far, and anything less would be a disaster.
260	sally	ames	93402	CA	We need a free and open internet to insure that our American public stays informed.
261	Bill	Sakach	78733	TX	We need a flat playing field for all Internet traffic. No special speeds or rates for high paying customers!!!!
262	Randy	Olmack	48073	MI	We must, as a nation, maintain net neutrality. Comcast already charges on a tier model and their rates are ridiculous. Now they want to own the Internet and run it the way they want. The telecoms DO NOT OWN THE INTERNET AND MUST NOT BE ALLOWED TO DO SO WITH THEIR METHODS. No more regulations, except to permanently stop the monopoly telecoms from doing any further damage.
263	C	Wright	77098	TX	We must simply end cable company fuckery. I'm afraid, ladies and gentlemen, that it is true.
264	Arthur	Geller	58201	ND	We must protect net neutrality! Allowing telecoms to control speeds will result in slower and inferior service, unless you pay thru the nose. We must protect the internet, NOT Verizon and ATT!
265	D. L.	Payne	27265	NC	WE must prevent cable company fuckery.
266	Carl	Krave	34698	FL	We MUST maintain net neutrality.
267	Jamie	Smith	92833	CA	WE MUST MAINTAIN NET NEUTRALITY! THE INTERNET IS THE LAST BASTION OF FREE SPEECH.
268	Laurie	Miller	21108	MD	we MUST maintain net neutrality - some things must remain fair and the internet should be one of them!

269	kirk	manley	06824	CT	We must maintain full net Neutrality and not even consider a multi tier system that would destroy the equal playing field we now have on the internet.
270	Glenn	Lambert	45503	OH	We must maintain equal and easy access to our Internet in order to maintain our democracy. Without that and with the current economic and political system being rigged against the average American, we will lose our democracy. Don't let that happen!
271	Holly	Chambers	13676	NY	We must keep net neutrality - otherwise the richest will get the best service. That is not a recipe for equal opportunity, or a healthy economy, in the digital age.
272	Laurie	Bomba	66208	KS	We must have net neutrality. Without it, we will kill innovation and progress.
273	Kathleen	Streeter	94550	CA	We must have a free and open internet! Anything else is censorship.
274	Jane	Knisely	28806	NC	We Mean It
275	Zach	Vietze	10002	NY	We live in prison!
276	Jeff	Christens	98110	WA	We lead the world in innovative technology. So we should have fast low-cost internet for everyone. Otherwise, th
277	Peter And L	Clark	59624	MT	We know you're under great pressure from your corporate buddies to institute this new rule, but it's pretty obvious that the people you serve, or are supposed to serve, don't want it.
278	Michael	Conwell	20115	VA	We know you really don't care what the public thinks and you will do this anyway but still need to voice my opinion. This gives the FCC a means to control content as well and decide who should and shouldn't be on the internet when you read the fine print of the bill. Nothing the government does is efficient so why are you looking to screw up the internet and stop progress?
279	Andrea	Grenadier	22314	VA	We know what "net neutrality" means, especially those of us who have been in communications for years. It means monopolies carving up the Internet, regulating speed and access for profit.
280	glenn	rolston	63702	MO	we just can't let the big telecoms control our lives. I oppose this and I oppose the pending merger between t mobile and i forget the other one.

281	Liz	Samoore	60174	IL	We have to stop this cable company fuckery!
282	ben	welsh	21204	MD	We have to stop corporate control over the internet (and the government)!
283	Edith M.	Conrad	28806	NC	We have noticed that no matter how large a percentage of the population signs a petition, the government always chooses to ignore us. Revolution takes more effort but it appears to be our solution as needed.
284	Bobbi	Goff	97453	OR	We have examples in everyday life of taxes for use: electricity, telephone, gasoline, etc.Would be nice if something remained for the every man.
285	Ann	Coon	49421	MI	We have already seen how cable and internet companies slow down access to Netflix during negotiations; why are you giving them free rein to do that with others. By the way Verizon should be fined under FCC rules.
286	Diane	Kegley Re	53402	WI	We have a system thats does not have any second class, all are equal, why is it a good idea to change this? Answer: it is not a good idea to change this! Save net neutrality.
287	Joy	McConne	28711	NC	We have a right to free access. Period.
288	Jonnett	Patton	35740	AL	We have a choice to preserve and protect our democracy, or not. Stop giving it away to the highest bidder.
289	Jill	McFall	46214	IN	We don't want "two Americas".
290	lorelei	kraft	56470	MN	We don't need the pending monopoly. Staratups witll not be able to compete!
291	James	Bodsberg	55071	MN	We don't need the internet to be like cable television, no way!
292	Susan	Acosta	90303	CA	We don't need more mega companies controlling our lives.
293	William	Pina	90255	CA	We don't need more media monopolies its not good for a democratic society .
294	Evelyn	Mancino	33618	FL	We don't need a two-tiered internet.
295	Laura	Bloemker	78664	TX	We don't need "haves" and "have nots" with regard to Internet access, and a company's need for fast Internet access shouldn't trump that of a school.

296	Debra	Whitman	54915	WI	We don't have cable tv, but we do have internet. I can usually watch my network shows on the net, except for shows on some networks, like Time Warner Classic Movies or USA that you have to have cable TV to access on the net. Do I think this 2-tier thing will make things better? NO WAY...and the rich keep getting richer.
297	Peter	Brigham	02140	MA	We don't allow phone companies to provide high fidelity connections to big commercial companies who pay extra, and only provide crackly indistinct connections to local businesses or friends who can't afford the extra fees for the good connections. Why should internet data transmission be any different???
298	Maria	Sheard	32937	FL	We do not want the two-tiered internet plan you suggest.
299	Althea	Iles	34110	FL	We do not want corporations controlling the airway
300	John	Krowiak	01915	MA	We do not want an oligarchy in this country. Do not give in to big business! Please keep the Internet free of big money control!
301	Karen	Osman	19027	PA	We do not want a two tier system. Why do big companies show so much greed?
302	Don	Khan	78230	TX	We do not need two tiers. No mob shake downs. The consumer comes first. Who does the FCC work for. How can the fox be put in charge of the hen house.
303	Marjorie	Yoder	18944	PA	We do not need to have the wealthy corporations have yet another advantage over the average American.
304	Kami	Hunziker	98629	WA	We do not need to be subjected to any more corruption !
305	Vidya	Rajan	19348	PA	We do not need more inequality. Let's keep the net neutral. We need the internet today as a utility - we do not have separate lanes for brighter and less bright lighting; let's not have faster and not-so-fast net speeds either.
306	Sean	Conrad	56368	MN	We do not forgive, we do not forget...
307	Diane	Ruth	37215	TN	We deserve better regulation, FCC. Stop the monopoly with cable companies.
308	Sharon and	Bramlett	32712	FL	We demand fair net neutrality, and freedom of information speed and availability for ALL.

309	Jim	Walsh	19335	PA	We cannot trust companies like Comcast, Verizon, etc. That has to be clear to everyone.
310	margaret	wood	85282	AZ	We cannot loose our access to free unbiased information it is our greatest resource for change learning and communication
311	Lynn	Sparling	20769	MD	we cannot have big corporations in control of information in a democracy. period.
312	sherri	mornings	92691	CA	We can see through your BS with the big companies. They should also be regulated.
313	Maria	Fernande	10510	NY	We can not have special tiers on the internet.
314	Mike	Kardinal	85234	AZ	We built it. It is a public utility of the greatest importance. Almost as important as the great Telcom executive position the FCC board chairman plans to "retire" to.
315	Linda	Muirhead	06511	CT	We are tired of being walked over in your rush for more money and less service!
316	Mary	Richardsc	36526	AL	We are the PEOPLE!!!!!!!!!
317	David	Arshawsk	91730	CA	we are taking names of the people that are behind this sleazy monopoly gambit. Be prepared to answer for it .
318	Kathy	Marsh	06906	CT	we are paying through the nose for all services as it is, and you dare to give 'some' better service than others! This does not stand with PUBLIC INTEREST... We The Taxpayers (who pay your salary) say NO!
319	Barbara	Baer	98264	WA	We are PAYING for the Internet already. Keep it FAIR, OPEN & FREE ACCESS FOR ALL.
320	Patricia	Tursi	65802	MO	We are one. Keep the internet open.
321	Susan	Terry	14072	NY	WE ARE GETTING SCREWED ENOUGH BY THE CABLE COMPANIES, THE BANKS, THE OTHER BIG CORPORATIONS.. KEEP NET NEUTRALITY.
322	glenn	mcminn	85119	AZ	We are already being ripped off by the phone and cable companies. They do not need any more help.
323	Patricia	Squyres	92284	CA	we are all created equal - in all thngs
324	Jason	Phelps	90013	CA	We are a nation, not a invading army. If our government and it's offices, like the FCC doesn't start acting like you work for us, the economy will crash again. We can only take so much of our government selling out to big corporations.

325	Lonny	Taggart	19380	PA	We already pay the highest in the world for our internet when other Countries have faster service. Don't kill net neutrality.
326	John	Lee	33312	FL	we already pay for speed from our ISP supplier AAT Comcast
327	Mark	Dotson	85750	AZ	We already pay for bandwidth. You want a faster connection you pay more. Why make us pay again?
328	Joan	Wry	34293	FL	We already have two tiered schools and two-tiered neighborhoods as well as many other two-tiered system
329	Todd	Cline	43019	OH	We already have a two-tiered political system and a two-tiered economy, we don't need a two-tiered (Rich vs. poor) internet. Internet equality is internet freedom itself.
330	Robert	Uba	19508	PA	We already have a system where you pay for faster internet, we don't need a system where we have to pay for a certain speed on websites. If a website wants to charge, fine, but that should not be the choice of anyone but that website, and by putting a fee on the speed at which some sites operate, you create a system where new sites are automatically at a disadvantage. Don't do it.
331	Paul	Lipiarski J	55419	MN	We all, large and small users should continue to have equal access to the internet.A super highway and a rural road are not equal just because they are both named roads.
332	Bruce	Doxey	89448	NV	We all want faster internet service. Other countries have it, why not the USA. It should remain free to all.
333	Cheryl	Rogers	76634	TX	We all need to be on an equal footing here. Don't pander to the corporations.
334	Chris	Casper	53719	WI	We all need the internet-it should be accessible to everyone no matter what their income status is.
335	Joyce	Clark	03467	NH	We all need Net Neutrality
336	Alan	Neuman	33021	FL	We all need a fair deal. Stop the privileged few from crushing our freedom of choice.
337	Johnny	Counce	42029	KY	We ain't all rich. Don't abandon us please.
338	Ginny	Lynns	85712	AZ	Watch John Oliver

339	Calvin	Jennings	77355	TX	Wasn't buying the government and the Supreme Court enough for these greedy corporations? Don't let them control the last bit of freedom we have left.
340	Gini	Brooks	55406	MN	Want the Internet to remain free
341	denis	buckley	12477	NY	Wake up! The REAL people of this country don't want to be taken advantage of any longer!
342	Ann Marie	Henrie	84015	UT	WAKE UP! The internet is a public utility!
343	david j.	lafond	01040	MA	Wake up FCC! The internet was created with public money and should serve the public good, NOT corporate telecom/ISP profits. The internet is a public utility except that you have failed to declare it so.
344	dave	shroomer	32117	FL	Vote with 'We the People'' Not the greed corporations .
345	William	Mulvaney	07306	NJ	vote all republicans out of office
346	Karen	Kwong	97035	OR	very important
347	Frank	Beach	22201	VA	Verizon wants to kill net neutrality so that they can help the blind, deaf, and disabled. Don't fall for this bull. Verizon only cares about the C-suite and shareholder value--not people.
348	Carrie	Hewerdin	89403	NV	Verizon has ripped us off enough already. Don't let this happen, too.

349	Lori	Walsh-Za	11729	NY	husband was a Verizon Employee for almost 18 years. After suffering injuries in a car accident that was 100% not his fault, he return to work at Verizon after being out almost a year. Six weeks in he was injured at work and was out on Worker's Comp for six months. He returned to work and was fired within a few weeks. Verizon claims he was employed while out on Worker's Comp. My husband has never been employed by anyone in the past 18 years except for Verizon. Though 5 IME reports from Verizon's own doctors all say my husband could not work during the time he was out, my husband's boss has zero tolerance for absence. My husband was fired for playing the drums at a friends birthday party, Verizon says that was employment whether paid or unpaid. Playing the drums was an approved, non weight baring activity, that his doctors told him he could do. He has played the drums since he was 5, it is not a job it is a hobby. Verizon says it's employment. So now people can not have hobbies. He broke his foot, he needed to use it to get it strong enough for his extremely physical job. Verizon just used this lame excuse to fire him because he was out for an extended period of time. Verizon does not care about their own disabled employees, why would they care about disabled strangers. After 18 years Verizon and Comcast didn't invent and don't own the Internet. Why on earth are you letting them dictate what will happen with a taxpayer built system.

391	Frank	Tigue	47303	IN	To the FCC: Pkease do not alter what isn't broken in the name of big business and special interests. Please construe the internet as a public utility.
392	Marla	Allen	90029	CA	To preserve both commerce and general communication, the internet needs to be treated as what it is, a public utility. TV was ruined and made unaffordable by cable, and now they want to ruin the internet and make it unaffordable in the same way.

396	Rodger	Clutter	43964	OH	To even propose this shows whose side the FCC is on
397	Matt	Miskie	17042	PA	To end net neutrality would be absolutely unforgivable.

398	antonia	mazza	20852	MD	To destroy Net Neutrality would be a colossal black eye to our Democracy. Don't do it.
399	Eric	Berkal	10033	NY	To deny that the Internet must be regulated as a utility is to deny the current reality. Please heed the call of the majority of Americans and regulate this important asset as the public utility it is. The nation will benefit greatly in the long run.
400	Lawrence	Fontes	97035	OR	To call the internet anything other than a common carrier/public utility is to dissemble for the sole purpose of private gain. The FCC represents the people not the corporations.
401	Michael	Gregoire	98059	WA	To bad the commissioner of the FCC is a cable company lacky.. But maybe this will make a difference.
402	Deborah	W. Harris	24091	VA	To allow a two-tiered internet is an obnoxious greedy scheme. Society now depends on the internet for communication, commerce, connecting, and research.
403	Rachel	Fuchs	11784	NY	Title II needs to be implemented and we need to have an open, equal neutral internet. There should be no fast lane.
404	ELLEN	ANding	92056	CA	Tired of the monopolys charging us for channels we don't even want!
405	Janice	Glyn-Gall	61107	IL	Tired of being screwed over by every agency in the government. We need an uprising to remove the head of the FCC and get the corporatists out of Washington. This is fascism at its finest. I say, don't let this happen to America!!!!!!
406	Cheryl	Crist	98110	WA	Times change and there is now a new public utility, The Internet. Please keep it neutral, not skewed toward the richest providers. Thank you.
407	Nilo	Otero	90272	CA	Time to try NOT rolling over for the good of large corporations at the expense of individual citizens. Keep the net an open playing field to encourage innovation.
408	Sam	Gish	19123	PA	Time to stop letting the tail (in this case Comcast/Time Warner and their cohorts) wag the dog (the citizens of the US and the government). Do your job, understand that the Internet is a public utility and not a private corporate fiefdom.

409	David	Longan	81303	CO	Time to do your job FCC. Yes it is more complicated than looking for boob shots during the SuperBowl.
410	Dennis	Paquin	34291	FL	Time to de-Monopolize the cable and communications industries
411	Andrew	Statler	64068	MO	Tiered services on the internet are contrary to innovation and only serve the monied interests. Abandon your proposed rule on net neutrality and maintain a free and open internet.
412	Will	Stockwin	95713	CA	Those of us living in rural areas and depending on spotty satellite service because telecom giants such as Verizon refuse to make high-speed internet available will never benefit from the FCC's proposed two-tier system favoring the rich. Do we really have to infect internet access with the income inequality that is rampant in so many other sectors of American society?
413	Erika	Starks	98382	WA	This would negatively impact people of lesser means and those who live in rural communities. This should not be a service provided where those who can afford to pay more get more. We should all have equitable access to the internet.
414	Tanya	Scott	30223	FL	This will cost hundreds of thousands of jobs. Please don't take my job away. My employer won't be able to pay extra for better speed and I will lose my job.
415	Pat	Goudey C	05674	VT	This utility does not belong to cable companies to use for their own aggrandizement. The American people funded the creation of this resource and now the world uses it, which is fine. It's being developed further the people everywhere, which is fine. But it is NOT private property and must not be made so to the detriment of the U.S. or people the world over! It's a needed utility and it must be kept neutral.
416	Oscar	Dixon	14830	NY	This type of change in the internet would break all chances of a real American Recovery! It would also end most peoples trust in using it.
417	Jean & Roge	Owen	98225	WA	This two-tiered internet is just another profit scam by big business. It has no place in a free society. Please reject this a priori. - - - - - - Next they will want us to

418	david	Elk	73012	OK	This two tiered system is too much like the desytruction of a prosperous life in this country as is happening already...too much like the 1% shitting on the bottom 90%!!!
419	Cheryl	Quinn	48651	MI	This two -tiered internet plan smells to high heaven.The citizens of this country want net neutrality.
420	David	Reeser	93023	CA	This tiered system will put small web businesses like myself, out of business.
421	Paula	Schwaner	30601	GA	This tiered policy does not enhance our ideals of a nation for openness, equality, and democracy.
422	Dona	Stallwortl	78759	TX	This takes no brains!! The net is definitely a public utility! Hands off.

425	John	Kennedy	34222	FL	this should stay pubic
426	Charles	Sheperd	30039	GA	This should really need no comment. How can you not see the disadvantages you would be creating? Push the money away from your eyes and look at this from the perspective of the average net user.
427	Carl	Lucas	85234	AZ	this should be a no brainer for most persons past Neanderthal intelligence
428	richard	nordstror	45410	OH	this sham of a deal has been exposed to the light of public scrutiny. please, abandon any plans of "two tiered internet" service. listen to the public outrage that i am sure you must be able to hear.
429	Holly	Beaumon	87508	NM	this resource belongs to the people NOT to big corporations. protect our rights! that what you are paid to do...by taxpayers.
430	Susan	Walker	44685	OH	This resonates from the past when public schools didn't exist and only the wealthy could afford to educate their children. We can't return to a time when only the wealthy can afford to gain information.
431	wayne	johnston	70047	LA	This reminds me of "Animal House", all animals are equal, but some are more equal than others. The Internet should be kept as a public utility. Giving a cable company the right to throttle down some speech makes that speech in danger of being strangled.

432	Frank	Smith	67018	KS	This proposal would sell a public asset to the highest private bidder. Who would think this was a good idea, if they were supposed to be a guardian of hte public interest?
433	William	hanson	02333	MA	This proposal is just a big ruse for Corporate favoritism, and we, the people are not going to stand for it.
434	Paul	Langner	88310	NM	This part of a free press, which is fundam ental to a free democracy.
435	Susan	Savion	13224	NY	This overtake must be stopped.
436	BOBBY	KETCHAM	65201	MO	This one will not be allowed to go through. - - - - The people are screaming it at the top of their lungs as long and as loudly as it is going to take...no backing up on this, no sitting down on this, no shutting up on this. - - - - No Sir...Respectfully, we are asking you, Do Not Do This...Do Not Please Do Not. - - - - Respectfully,
437	Kay	Allen	98005	WA	This nonsense about the disabled needing to have the "super fast lanes" is ridiculous! Most of the disabled I know are on limited incomes. How many of them are going to be able to afford the "fast lane"? None. And that would mean they would be shoved to the snail lanes, which could actually be detrimental to their health and well-being. Shame on you for using that as an excuse to make the internet private.
438	Linda	Engman	55071	MN	This needs to stop.
439	Marc and Su	Severson	85710	AZ	This must be done now.
440	John	McCreery	45339	OH	This metaphor of communications freedom must NOT be commercialized.
441	Dan	Tong	60645	IL	This merger is Anti-Competitive and can only result in far less choice and increased prices for all customers. Even some of the poorer countries in Europe have less costly and far faster internet communication, and countriles like Korea makes us look like we're back in the middle ages.

442	Tom	Tolman	97439	OR	This measure would effectively enhance profits for Comcast and a couple of other service providers, the costs for which would simply be passed along to the such users as Netflix, in turn resulting in increased cost for consumers...of which I am one. -- More onerously, web content and access would become biased in favor of major corporations.
443	Jason	Snider	55422	MN	This land is your land, this land is my land.
444	Patricia	Winn	85501	AZ	This just can not happen it would so change the way the world as we know it.
445	Ski	Sullivan	75050	TX	this isn't about fueling innovation to make the public experience richer. It is entirely about restoring monody-like power over the digital realm ... the likes of which haven't been seen since the Bell breakup.
446	Deborah	Zajac	85281	AZ	This is your opportunity to do something right by the people.
447	Kathie	Aberman	12754	NY	This is wrong. The internet should be part of "the commons" that we all share, collectively, and pay for equally and fairly.
448	Charlene	Lauzon	98036	WA	This is wrong and shouldn't be allowed.
449	Greg	Dent	98144	WA	This is why you exist. Do your job.
450	Kathryn	Goldberg	98814	WA	This is very important. Save our internet. Do not allow the corporations to sell higher speeds to the highest bidder.Save net neutrality!
451	Kevin	McDonal(	90039	CA	This is unbelievable! How is this type of thinking even possible in America in 2014???!!
452	David	Scanga	27278	NC	This is truly awful. Please do not cripple the ability for small players in the internet world to make it virtually impossible to get a start using this medium. Do not cave to the polititians! - - David Scanga

460	Jean	Callaghan	22151	Virgi	This is so important! The internet does not belong to big companies, it belongs to THE PEOPLE!!
461	James	Elliott	53703	WI	This is so crucial to the future of this country that it saddens me to have to even be asking you to do the right thing!
462	James	Gonos	80017	CO	This is so Clear
463	Joseph	Ferri	29414	SC	This is seriously your opportunity to serve citizens rather than corporations.
464	Judy	Robertson	24121	VA	This is serious - we need to protect the internet - NO 2 tier! The $$'d should not be able to cut everyone else out of equal opportunity.
465	James	Kern	98004	WA	This is ridiculous that the cable/internet companies are trying to influence even more control than they currently have. Are they going to start charging for the air we breathe?
466	Randy	Laurie	92104	CA	This is really pissing me off.
467	Constance	Goldberg	01264	MA	This is really important. Keep the internel free and open to the public and for the public.
468	Jeanne	Meadows	97420	OR	This is really fuckery! Too much censorship.
469	Anthony	McMillan	49242	MI	This is probably the dumbest thing the FCC has ever done and that's saying a lot.
470	Suzanne	Michael	48420	MI	This is plain and simple BS! You just don't want the average person to have access to the internet where we all get the most of our news. We sure can't rely on whats on tv. and charging extra for an open internet is just your way of showing us we don't deserve the whole truth. You're definately over stepping your boundries which is happening too often through government agencys. We're tired of our freedoms being stepped on and will not stop fighting this. Kepp the internet open for all peope, not just the rich!!!!!!
471	elliott	nicholson	28753	VA	THIS IS PITIFUL, IS THERE NO SHAME IN THESE GREEDY BASTARDS?

476	Diana	Murray	07981	NJ	This is obscene what you are doing, KEEP NET NEUTRALITY!!! Don't ruin something that was NOT BROKEN and did not need to be fixed.
477	Victor	Parks	77070	TX	This is not negotiable. Declare the Internet a public utility or we, the People, will declare the FCC incompetent and obsolete.
478	VIRGINIA	TIBBS	49657	MI	this is not china
479	Lynn	Fuhrman	79912	TX	This is not a good idea. Don't fix something that is not broken. You will break it.
480	Barbara	Magnuso	81223	CO	This is not a country for only the wealthy, by the wealthy and the internet should be treated as a utility. Wise up.
481	Jim	Burns	19320	PA	This is long overdue ...
482	jerry	wiseman	97027	OR	This is just another way to bilk the public by another large corporation.

484	MaryBeth	Stincic	44057	OH	This is just another case of the big guys running over the rest of us. Stop it!!!!!
485	Larry	Trout	19083	PA	This is just a BAD IDEA!!!!
486	Karen	Pedersen	95476	CA	this is institutionalized fascism and corporations are NOT people! what happened to FREEDOM & EQUALITY FOR ALL!?
487	Dyanne	DiRosario	91201	CA	This is insanity. - - Corporations are more important than people and the government? Cuz that is was this ruling says and that is every kind of WRONG!!!!
488	Juan Carlos	Colosso	94024	CA	This is insanity -- The control of what content has more priority than other in the hands of those who control access means nothing but as the most profitable business proposition for ISP, particularly cable companies, and NEVER and advantage to either consumers or regular companies who will NOT be able to complete with those who will pay top dollar to the ISPs
489	Karin	Brands	85710	AZ	This is insane! The disabled will only be harmed by fast lanes. By and large they live on very limited incomes.

490	Beverly	Kontney	60015	IL	This is important! Preserve internet neutrality.
491	Simon Pete	Alciere	01376	MA	This is important to my small business, and it's important to the country.
492	Corky	Lewis	64064	MO	This is important for our freedom of speech.
493	adriana	hall	94044	CA	this is illegal! fcc do your job!
494	Tanya	Forsberg	94577	CA	This is fuckery. Pure and simple.
495	David	Beauchan	32257	FL	This is exactly why we have anti-trust laws. To protect the public from the big corporate machine.
496	scott	durma	72756	AR	This is crazy. Big companies just don't like competition . That's all there is to it.
497	D.	Kilgore	95229	CA	This is completely unnecessary legislation. It smacks of wholesale payoff by cable lobbyists
498	Loren	Bennesch	66047	KS	This is clearly a move to create a monopoly by companies known for such tactics. The lack of public enlightenment on the issue is frightening considering the amount of money there will be made off speed levels. I am against broad sweeping policy that puts access to information and social media at risk via price controls.
499	Ashley	Minick	93955	CA	This is bullshit.
500	Darold	Smith	75402	TX	This is as bad as increasing income inequality by giving the privileged more access thereby exacerbating instead of balancing access to all.
501	Joyce	Downer	98632	WA	This is another really important thing this government should go down in history for PROTECTING. Net neutrality MATTERS!!--Even to old retired people like me!!
502	Barbara	Heisler	49341	MI	This is another hit at the middle class and the poor.
503	emilie	goodyear	64151	MO	This is another blatant attempt of those in power to maintain that power by limiting those without power the means to attain power.
504	Christine	Schworer	32765	FL	This is an outrage. Leave it to the monopolizing cable companies to further their greedy enterprises. No!
505	Janice	Colvin	97304	OR	This is an outrage.
506	Todd	Christians	56073	MN	This is an outrage.
507	Carol	Brevard	06498	CT	This is an outrage! Net neutrality is absolutely necessary for equal access for all. - - I beg you...yes, beg you...to not burden the middle classes and poor more than they already are.

508	Abra	Bigham	10043	NY	This is an opportunity for the FCC to prove they are not in the pocket of the oligarchs, and actually safeguarding the public interest, as they should be doing.
509	Robert	Hall	65803	MO	This is an open channel of communication. One of the last left alive. Leave it alone.
510	John	Vincent	55105	MN	This is an issue? Seriously? One arm of the government is concerned that poor and rural students need better access to the Internet to succeed. Another is working on dismantling the rules that prevent the virtual monopoly cable companies from being able to act like actual monopolies. - - - - Bravo. - - - - The only thing dumber would be if one arm of the government worked to keep food prices high whilst another gave people money so they can afford food.
511	Sofia	Sepulveda	78216	TX	This is an infringement of our freedom of speech. Allowing companies to pay for a faster way to deliver their mortgage and having people unable to sell the truth cuz the internet only allows us to watch honey boo boo is a slap on the face of democracy!
512	Georgiann	Camus	18072	PA	This is all about greed and screwing the public. Enough already.
513	Jan	Storbo	92253	CA	This is about net EQUALITY for everyone. This is important. Please do the right thing: keep equal access to the internet and regulate the internet as a public utility.
514	Dan	Joiner	10025	NY	this is a Republican ploy to keep us ignorant... the head of the FCC says he's for Net Neutrality... yet he's a Republican and really only wants money...
515	Lee	Helmle	95035	CA	This is a public utility, not just a cash cow for Comcast and the other predators. Please don't destroy the internet.
516	William	Hermes	60048	IL	This is a no-brainer.
517	Sharon	Findling	97462	OR	This is a no brainer...what else is there to say?
518	Brad	Walden	95621	CA	This is a no brainer. Leave the internet as it is now, since the overall population generally doesn't keep a lobbying firm on retainer, this is the only way we can get the FCC to pay attention..

519	Polly	O'Malley	90025	CA	This is a no brainer. - - Not to mention that the internet itself was created through taxpayer dollars via the defense department. So it IS a public trust better for the greater good of everyone.
520	Kelly	Frame	44240	OH	This is a no brainer.
521	DAVID	LEWIS	90019	CA	This is a no brainer!
522	ADDISON	GAINOUS	36305	AL	THIS IS A NO BRAINER
523	Patricia	Roles	40222	KY	This is a free country. Please keep access to the internet free and open to everyone!
524	j	bezek	55448	MN	this is a bigger threat to a free USA then hitler was.
525	Stuart	Holme	22901	VA	This is a bad, bad idea. Internet service providers and backbone companies must remain agnostic to the content they forward. We should have a law instead saying all bandwidth costs must be universal: one cost per MBps, regardless of the amount of MBps the customer is buying, who they are, and what the content is.
526	David	Tinsley	33064	FL	This is a â€←no brainerâ€←.
527	Darcy	Long-Curt	97058	OR	This internet is public infrastructure and the public use should not be determined or limited by private corporations. Our Democracy will be hurt if we start allowing anyone to control and/or limit the flow of information and knowledge dissemination on the internet.
528	Loraine	Fowler	97734	OR	This INTERNET is for EVERYONE to Use, Not just the noodle heads of THE RICH! YOU DO THIS WITH THE INTERNET AND THERE WILL BE A WAR! MARK MY WORD!
529	Isabel	Samaras	94706	CA	This idea is so obscenely wrong it's astonishing the FCC would even *consider* it.
530	Debbie	Belknap	85051	AZ	This idea is not good for the vast majority of users. The internet is special for all of us . We pay enough already. Just say no...
531	Kay	Tealer	94070	CA	This has to be taken seriously!
532	antonio	toro	94708	CA	This has been the greatest economic and social equalizer the world has ever known. Let's not gut it because some company CEO needs to make even more money...

533	Michael	May	90274	CA	This has been the architecture of the Internet from the beginning, as it should be, and everyone should understand that. Money cannot be allowed to control how we communicate.
534	Robert	Jacobson	85705	AZ	This has been obvious since cable became a common carrier per common law.
535	tanya	marquett	12561	NY	This has been my feeling for many years. It is impossible to work and live in today's world without internet which works in the way a telephone does--pay a monthly service bill and you get to call/contact whoever you want. We don't get slower phone service because we are not millionaires.
536	Lorrie	Horning	99508	AK	This goes against net neutrality, a free market, and our democratic sensibilities.
537	Alexandria	Lestat	85745	AZ	This FCC proposal is not okay. FCC, the internet is a public utility! Make sure of that fact.
538	John	Grosklags	30062	GA	This fast/slow crap is just that, crap! This might be the only level playing field we have and it should stay that way.
539	LISA	RICE	64118	MO	This disabled woman does not want you screwing with her internet!!!!!!! I don't buy your BS for one minute, and the sooner you stop licking the a** of the Republican Party and do things correctly for your consumers, the better off everyone will be!!!!!!!!
540	kay	kin	13042	NY	This country is the ONLY one in the world that has the balls to provide crap internet/wifi service and insists on charging more cash! How appropriate.
541	Joycene	Harwood	34219	FL	This country is becoming livable only for those who have money. Guess what will happen when people end up on the street. It won't be pretty. I just can't believe any portion of our government would think this is a good idea. You must be Repubics.(stet)
542	Ruben	Rosario	33410	FL	This country has fallen into the hands of greedy fascists who mentality is beyond comprehension, where money is their God.
543	Joelle	Craft	98106	WA	This cannot happen. It is ridiculous to split the net speeds. Stop caring only for the rich and actually do your job.
544	Amy	Hines	94517	CA	THIS CANNOT HAPPEN

545	Sandra	Jahr	53704	WI	This can't happen. Everyone one of you a$$h@!e$ will ever get re-elected. Time to clean house. the internet is a public utility and we should not have to be even discussing this differently.
546	Jennifer	McKenzie	32205	FL	This can not be allowed to pass
547	Greg	Herman	97031	OR	This belongs to the people not a handful of greedy corporations.
548	michael	moore	28607	NC	This allows corporate enrichment at the expense of the public interest.
549	Susi	Schaeffer	37917	TN	This act would irreparably harm equal access to the internet's potential for all. Please do NOT pass this rule!!
550	craig	raynor	33990	FL	This a phony proposal from the start ! - - Just another way for Corporate entities to take advantage of a system that does not and has not needed them.....It's foundation ? In a word GREED ! - - Craig n Raynor
551	rick	gutierrez	87106	NM	think people not corporate greed
552	Holly	Dupre	91913	CA	Think of seniors ho depend on the Internet and are on very limited budgets. You will be throwing them off the bus!
553	Sara	Wyman	99362	WA	Think of all the businesses that will fail if the internet becomes so slow and cumbersome that present users abandon it in droves? Wise up, folks! Right now everyone has a good thing going!
554	will	duff	87059	NM	Think Citizens, not Corporations. Please.
555	Doug	Jones	24450	VA	Think about what you're doing!
556	Marjorie	Pastalanie	77089	TX	They people who want the change are the bigwigs at Verizon etc. It is all about money for them. It must mean big money sent they have spent so much to influence this change. American people and most business does Not want this. Why should a few overrule the many?
557	Nuno	Rodrigues	02860	RI	These parasites need to roll over and die!!!
558	Brian	McCarthy	85262	AZ	These leaches are at the trough again. They can't deliver a reliable cost effective signal as it is...allowing them to rig network speed is a disaster for the consumer. Stop the support.

559	Aaron	Van Pelt	50014	IA	These greedy people working for greedy companies don't need any more leverage. In fact, why don't we start encouraging competition like the free-market they claim to love would do. Oh, and big mistake making a leading lobbyist the new head of FCC. Just fucking stupid. Unbelievable. You think he will do an unbiased, consumer-concerned job? Please.
560	George	Mabry	97415	OR	These FCC bastards need to rot in hell like the fucking pigs they are!
561	Virginia	Hildebran	18707	PA	These companies that would benefit from this wrong-headed idea did not create the internet. Why should they be allowed to control it? The internet is a public utility.
562	Matthew	Sorvillo	89104	NV	These bastards already have enough money. You don't work for the good of the companies, you're supposed to work for the good of the People. The fact that this is even an issue your agency is considering shows just how far out of line your prioties are from the American people's.
563	John	Townsend	90068	CA	There will be consequences if the Internet is fucked with in ways not to the liking of the general public.. Count on it...
564	Jonathan	Minard	06231	CT	There should be total NET NUTRALITY. - - Why does Internet Service cost more in this country than in any other part of the world?. Why is our internet 40 times slower than that in Japan? Why do we not have fiber optic cable to every house and business in the country? The Cable companies have been given monopolies in this country and have abused the public.
565	Karen	Anderson	98133	WA	There should be some things in this country that the big corporations can't buy. As they now own our politicians, can't you let the rest of us have the internet? At least we can complain about our government that way, even if there is no way we can compete with the Kochs.
566	Joseph	Kelly	91741	CA	There should be one standard for all internet traffic

567	gail	Huntingtc	27514	NC	There should be one level, and that is Neutral. It has worked so far and will continue to do so as long as you people do your job. No two-tiered system. An open system is what we want and what we deserve.
568	Jan	Batten	20772	MD	There should be no fast lane for corporations such as the unacceptable one you proposed. We know how cable companies and telecom companies behave to customers. They have earned no special privilege for a utility that provides free and open communication within our society. The internet must be designated as a public utility.
569	Roberta	Miner	98033	WA	There should be no controls around the delivery of network services much less controls created and managed by for-profit corporations.
570	Harold	Denenber	19047	PA	There should be no charges for different speeds of service. The thought of pying extra for it is outrageous.
571	Janet	Mallozzi	34109	FL	There must be equal access to the Internet for all people - no pay to play!!
572	Barbara	Ras	78212	TX	There must be a single internet speed for every American. Period.
573	John	High	87108	NM	There is only one "Right" move here. Make the internet a public utility. Net neutrality for an open and free internet. It's the only way this works.
574	Carolyn	Miller	98374	WA	There is nothing broke with the internet as it is today. We do not need a tier system on the internet. Keep net neutrality, please!
575	G.	Wilcken	66049	KS	There is no such thing as compromise in this instance. There is no halfway-measure. This issue is absolutely totally clear, and there is no excuse for obfuscating it or capitulating to corporate lobbyists.
576	keegan	eisenstad	59802	MT	There is no reason to even consider allowing cable companies to separate data into slow and fast lanes, or charge extra for service of internet content. No reason except to provide almost monopoly companies even greater power over our information, public discourse and content use. Please employ common sense and keep the FCC from allowing this to happen.

577	Peter	Grekin	10536	NY	There is no rational, non-corrupt argument for ending net neutrality. To allow companies to differentially charge for the speed of transmission is to (a) cripple the democratically leveling effects of the the Internet, and (b) reveal yourselves to be wholly-owned, corrupt factotums of the telecom and cable companies. There simply is no way in which ending net neutrality serves the national interest. Ergo, to vote in favor of it's demise is to reveal yourself to be owned by the corporations that would benefit. You have the chance to do the right thing here. Please do it.
578	Dave	Kisor	96778	HI	There is no more an internet economy than there was a telegraph or a telephone economy.
579	Pamela	Ball	89148	NV	There is no competition already to keep costs down- getting rid of existing laws will create financial burdens, cost jobs, and an unfair environment - stop monopolies
580	Robert	Beal	62896	IL	There is little to NO reason at all for the high prices of almost all internet providers. With the technology of today and the capacity of speeds of 50+mbs $60/month for 15mbs is ridiculous especially with a cap of 250gig per month.
581	Michael	Charlton	97405	OR	There is just no point to creating a system that penalizes access to those with less money and power.
582	MICHAEL	VAUGHAN	11413	NY	THERE IS ALREADY TOO MUCH CORPORATE INTERFERENCE IN OUR LIVES. THE INTERNET NEEDS TO BE FREE AND ACCESSIBLE TO ALL WITH NO FAVORITES.
583	mark	maginn	60611	IL	There can't be a two tier internet. Enough of the monied carrying the day. Pay attention to those of us without pecuniary power.
584	Ellis	Woodwar	21211	MD	There are no good reasons to limit net neutrality - none. There is, in fact, only one reason for such a limit - Profit (which is never in the interest of the public good in these times.)
585	john	Gee	33701	FL	There are a lot more people than there are corporations. Why do you ignore us?
586	John	Kelly	19136	PA	There already exists a 'Chamber of Commerce'. Oversight for the 'Public Good' is what's requested of your Agency.

587	Jim	Dire	90069	CA	THE-INTERNET-IS-A-PUBLIC-UTILITY.
588	Frank	Buryanek	32459	FL	The world and all its inhabitants should define it as public whats the problem to getting it made, JUST SAY IT !
589	Jon	Schickeda	60035	IL	The whole world is watching. Keep the internet free and open. Comcast can develop their own programming and put it out to the marketplace and then they'll truly be a part of a free market system.
590	Melissa	Haffender	33913	FL	The whole idea of having two speeds of Internet access is so ridiculous I don't even know how to discuss it. And the the hypocrisy of having Mr. Wheeler preside over this decision is utterly shameful. Should we have fast and slow electricity, or water service? Dumb, right? So is this.
591	Charles	Hayes	44907	OH	The whole conservative mindset has an inherent trait that hinders the growth of the low to become the middle or higher. This is just another piece of the puzzle that creates another glass ceiling for those who aspire to grow. They only want true open democracy for countries overseas we want to colonialize. Here they want us all controlled by the powers that their owned by.
592	Hartson	Doak	96782	HI	The Web NEEDS to free, unfettered and universal.
593	Michael	Mc lane	19111	PA	The web is public utility.
594	Michael	Smith	38024	TN	The wealthy will be the only one to be able to use the internet if we don't have net neutrality.
595	Martha	Soukup	94110	CA	The way the world works now, people need the internet the way they used to need land telephone lines, which were subsidized for our poorest citizens with the Lifeline program. Except the internet is even more important. A two-tiered internet makes it impossible for the poorest to do what they need to do, and calcifies the richest at the expense of future innovation.

596	Sarah	Einstein	45701	OH	The value of the Internet has always been in its ability to disseminate information freely to all peoples. The current plan for a two-tiered system will only increase information inequality, and in doing so, make the citizens of this nation less capable of self-governance. I urge you to reconsider.
597	SHARRI	HARWICK	66217	KS	The US: democracy? Keep the internet and open information working for the people. Protect democracy!!
598	Paul	Mooney	13080	NY	The US ranks 41st in the world for internet speed. This is because internet companies are in control. Fix it!!
599	Kevin	Molloy	57722	SD	The US Government has no business allowing unregulated corporations to alter the way the internet has been designed to work since it's inception. Thanks for listening.
600	Keith	Burrough	37130	TN	The US did not invent the internet, the US does not own the internet...how does the Federal Government feel that it has the right to step in and take over in an area it has no business being in...you're going to ruin it just as you've ruined every other entity the Fed has seen fit to involve itself in...
601	Robert	Sackstede	49097	MI	The United States should not allow cable companies to monetize net access. Frankly, cable companies already poorly serve their customers and have inhibited competition in many markets. If the FCC allows two-tiered internet, consumers will experience slower speeds and pay more.

602	William	Taylor	98020	WA	The United States Postal Service was originally established as a means for the People to keep in touch with their Government. Newspapers used to provide excellent coverage of the news with investigative journalism. Then came the radio and TV, which are largely controlled by Commercial interests and conservative corporations. Newspapers began to rely on advertising for most of their support, and when the economy went sour much of that support dried up. So the journalists were laid off and the news became The World According to Murdock. When the Internet came along the People were able to get the news from each other and the few remaining journalists. Then the Commercial interests discovered the Internet and have almost destroyed it with their annoying advertising. Now the Commercial interests want to get a "leg up" on everyone that can't afford to pay a higher price for a higher speed. - - The FCC can stop this from happening. Do your duty and represent the 99% that you are supposed to be serving!
603	Patrick	McGann	32446	FL	The United States of America is a constitutional democracy. We oppose seemingly endless efforts to turn it into a plutocracy. Net neutrality is overwhelmingly the desire of the majority in this country. How often do we have to repeat ourselves before the FCC understands?
604	Derek	Bateman	14222	NY	The United States invented the Internet and yet most residential Internet service in the United States is expensive and relatively slow (not enough competition). A two tiered Internet, one fast and one slow would make this situation even worse!
605	Michael	Wacker	85020	AZ	The two-tiered system is crap... It's like creating a two-tiered system during brownouts - if you can pay more you get electricity....

606	Diane	Saffitz	98020	WA	The two-tiered internet imposes on our freedom of speech. This is crazy... but to be expected by an FCC that is run by people who have worked in the very industry they're supposed to regulate. A conflict of interest? And when they leave office, it's back to the telecom industry for them. Sad for our country, sad for the internet.
607	Sue	Petersen	99577	AK	The two tiered system is not right!
608	John	Schneider	78662	TX	The two tier plan is horrible
609	Daniel	Marcus	12534	NY	The thought that those with lots of money get preferential treatment on internet speed is outrageous. It's time to stand up for all Americans, even those who are not wealthy!!!!!!
610	Lorie	Hawkins	29550	SC	The the internet alone. It's doing fine.
611	Susan	Gallagher	19018	PA	The Telecommunications Act of 1996 The Act's stated objective was to open up markets to competition by removing regulatory barriers to entry
612	Bob	Bennett	28728	NC	The taxpayer paid for the creation of the internet and it has become the most democratized instrument in the world today. You do not have the rights to give it away to your corporate cronies.
613	David	Cooper	97404	OR	The system isn't broken. Don't fix it with the 2-tiered approach.
614	Michael	Spence	98168	WA	The supposed champions of "free enterprise" are once again trying to rig the game in favor of wealthier internet users. Do your job, FCC, and tell them the internet is a public utility, and that there's no excuse for their private "speedy check-out lanes." Quit bending over for the One Percent and its sock-puppets.
615	Stephanie	Andresen	55101	MN	The speed of the internet should not depend on what site you are using. The internet is just like my phone - it's how I access data and communicate with people.
616	Judy	Kaplan	98249	WA	the same internet for all
617	JOHN	SHARKEY	34293	FL	The resources of this country used to belong to the people; when did that change to the rich own everything?
618	Bob	Haddard	37127	TN	The question: Will the federal government sell us out? If it does, who needs it?

619	G Catherine	Orman	94901	CA	The publicis the primary concern here, not the monopolies that are castrating the internet.
620	Susan	Kidder	94941	CA	The Public paid for the research that designed and developed the www - the prototype for the modern Internet. We funded its creation and we own it. It was born as a public utility, and the FCC has no right to sell it off - regardless of whether or not its membership has sold their souls to Comcast et al.
621	Sandra	Clements	80247	CO	The public owns the internet, not the special interests. Preserve net neutrality.
622	Marta	Lichlyter	87112	NM	The public needs a free and open platform for creative, personal expression. Corporate America owns enough of the airways as it is. Share the wealth.
623	Sanford	Cook	93401	CA	The public built it, thus it is a public utility.
624	jeffrey	seabarkrc	62301	IL	The public airways (Radio, TV, wireless broadcasts, etc.) belongs to the public and the FCC should be protecting consumers from the corporate greed. A two-tiered internet plan picks winners and losers. The winners are the corporate media executives and stockholders and the losers are the consumers. DO YOUR JOB and PROTECT THE TAX PAYING CONSUMERS!!!
625	Lori	Coulson	43214	OH	The providers are rich enough -- why are you trying to increase their take?
626	Geoffrey	McIntyre,	33062	FL	The proposed FCC rule, crafted by an anti consumer, cable industry former lobbyist symbolizes the corruption of our regulatory system.
627	John	Cleary	10019	NY	The proposed action is completely crooked and is just another example of corporations screwing consumers. This must not be allowed.
628	Paul	Bellman	94705	CA	The prin
629	john	fenner	33458	FL	The primary concern of the FCC is the benefit of the people, not corporations.
630	Harry	Wiener	95465	CA	The preservation of the internet as a common carrier will allow us to become a Nation of the people, by the people, and for the people again.
631	Edith	Pinegar	13037	New	The populous is tried of big business and money trying to control everything.

632	Dave	Kalata	98133	WA	The phone and cable ISPs are "common carriers" and should be classified that way. These companies classify themselves as Title II so that they can reap benefits available only to "common carriers" anytime they wish to access public rights of way such as roads, poles, etc. - - - - Don't let the irony be lost on you - - - - PAID PRIORITIZATION musty be banned as it's not in the public good. - - - - In the end, the FCC is there to protect the American Internet consumer rather than being held hostage via regulatory capture. - - - - Stop playing the "Cable Company F*ckery" game!
633	Mary	Raz	95819	CA	The people will win.
634	john	najarian	80919	CO	The people paid for the development of the internet and it should remain in their hands to the largest extent possible. The internet in the hands of corporations set the US back relative to other countries and the innovation we have experienced will cease.
635	John	Tenopir	68502	NE	The people of the USA paid for this decades ago as ARPANET. The beginnings of the internet. Therefore, it is a public utility, we already paid for this. - - And since the people are the economy, the people are suppose to be in control of this, not the companies and corporations.
636	Robert	Chevere	19904	DE	The people of America financed the creation of the internet, it is public domain and it should remain a level playing field, in order to support the creation of the next Facebook.Do not end net neutrality, no two tier system.
637	Jeffrey	LeClair	85284	AZ	The owners of the infrasructure shouldn't be allowed to control content any more than they could under dsl rules, or the electric companies and phone companies. Internwt is a public utility, like telephone, cable tv and electricity.

638	Dennis	Marceron	98144	WA	The only ones who support the proposed changes are cable companies. Comcast is second largest lobbiest in Congress- over 18 billion dollars. And the FCC chairman used to run Comcast. These changers are oppossed by Facebook, Netflix, Amazon and consumer groups. We pay more than any other country for services and our actual product we receive is less than Estonia. Time Warner and Comcast are consistently the worst ranked by consumers in quality of service. These changes only benefit them. We cannot trust these communications companies and the changes they are proposing. It will only benefit them and it will hurt competition from start up companies who cannot afford the fees.
639	Denise and	Charno	14580	NY	The only decision that makes sense is to designate the internet as a public utility. It is blatantly obvious that you need the Internet has become nothing but, a public utility. It is a part of everyone's everyday life, and something everyone needs to use to make their way in the world today. Please do the right thing for the citizens of this country, and re designate the Internet as public utility!
640	Michael	Bean	55430	MN	The Oligarchs own and control everything else, giving them the Internet would be the final nail in our coffin.
641	Jan	Hull	84109	UT	The obvious solution!
642	Tim	Meier	45223	OH	The new rules will prevent internet fairness for all and also hurt the economy.
643	Michael	Schwarz	22314	VA	The network is a common-carrier. All data should have equal access. The value of information is not proportional to payment.
644	lana	mosley	70466	LA	The net should remain the way it is. No company should have the means to slow down or block any content.
645	Dick	Hawkins	21661	MD	The net should remain neutral!
646	Robert	Poulsen	95062	CA	The net should be a public utility.
647	Gerald	Nelson	92283	AB	The net must remain neutral!!!!
648	Robert Bob	Castle	92019	CA	The net must remain neutral,if the US is to remain competitive with the rest of the world.

649	Rich	Moore	80023	CO	The net must remain neutral or it will be used to kill or slow down free speech
650	James	Barnes	32952	FL	The net must remain free. Our first amendment rights must not be for sale or used by the rich or rich corporations. Protect those under age 18 YES but the net must be protected under the first amendment at all cost. We (poor and middle class) are subjected to the propaganda spread by big corporations and the rich too much now. Signed by my own hand and sound mind, James T Barnes, USAF Msgt Retired
651	Steve	Basile	78759	TX	The net must remain COMPLETELY neutral. NO pay for speed on the part of the providers..
652	John	Flynn	18977	PA	The NET MUST be EQUAL for all - PERIOD !
653	James	Mooney	85120	AZ	The net is the Last bastion of freedom since Citizen's United gave our government away. Leave it alone. It's been working fine.
654	Laura	Bramble	30252	GA	The Net is one of the only places that is truly equal, where ingenuity and smarts can trump money. Don't take that away--it is
655	Julie	Huston	60510	IL	The net is everyone's!
656	Jeff	Tatom	97526	OR	The net is a public utility, it's the public square. And who's the idiot that thought putting a cable lobbyist in charge of the FCC was a good idea. Talk about your rhetorical fox in the hen house. Fire that corporate tool!
657	Cliff	Jordan	40299	KY	The net is a public utility ... the fcc is a public utility in the sense of a men's room
658	Anthony	Adamczyl	06040	CT	The Net does NOT belong to the corporations - even though the FCC apparently does.
659	Brent	Langman	60964	IL	The net belongs to everyone. Those who can pay should not get better service. Keep the net neutral.
660	Paul	Deering	96734	HI	The net belongs to everyone, just like the airwaves, just like the air!
661	Farrah	Farley	30106	GA	The need to declare the Internet to be a public utility is all the more crucial now, as the various providers consolidate into a very anti-competitive oligopoly.

662	Virginia	Bennett	96822	HI	The more your Repubs side with BIG everything (Business, Oil, Communications, etc.) the more the American electorate becomes convinced that you're all just "in their pockets" when you vote. It's clear that you're not on the side of the 98%!!
663	Mary	Hunt	55426	MN	The men who INVENTED the Internet and the WWW have publicly stated their stance against the 2-tier system. They could have become billionaires but chose to do the right thing and make the technology free to the world.
664	Richard	Maxwell	53590	WI	The loss of net neutrality would be just another freedom lost. Comcast and Verizon are playing their cards to ultimately control people. They own Wheeler, bet on it.
665	Dave	Marsh	40515	KY	The Lobbyist in charge of the FCC has a conflict of interest and should be FIRED immediately. If he is Not FIRED immediately ... President Obama should be Impeached. I am a life long Democrat.
666	erin	lynch	85701	AZ	The kid is right.
667	Warren	Senders	02155	MA	The Jeffersonian ideal of a "well-informed citizenry" is fatally compromised by any notion of dividing the internet into fast and slow lanes. Don't do it.
668	Kris	Rosvold	97760	OR	The Internet, as defined by your own regulations and by Congresses Intent is a Public Communications Utility. You are REQUIRED, by your Charter to regulate it accordingly. Do your God Damned JOB or GET THE HELL OUT OF OUR WAY!
669	David	Kraus	92648	CA	The Internet, as a conduit of information for ALL must remain as a public utility!! It is as fundamental to the survival of human society as the Scientific Method!!
670	Penelope	Pnortney	95358	CA	The internet with net neutrality protections is one of the few level playing fields average Americans have left. Please stand with the people, instead of the special interests that would further destroy our democracy. Thank you.
671	Sharon	Oda	94901	CA	The internet was/is and should remain free!

672	Harriette	Jensen	94619	CA	The internet was originated by the government, which is supported by its citizens through their taxes. Corporations regularly skip out on paying their taxes and should not be given a priority.
673	Jeff	Dziuban	53168	WI	THe internet was originally regulated as a utility, and can declared to be so again. As a utility, the FCC has the authority to maintain an open non-tiered internet which promotes the freest exchange and availability of ideas, the free and open exchange of ideas also being one of the necessities of better democracy and thereby better government. - - - - Keep the internet open, re-declare it a utility, and previous FCC rules to maintain it open and non-tired that have blocked by court action become feasible once again. - - - - I do not understand why tis is such a difficult issue, except for the lobbying efforts of largecorporations more concerned with their potential profits than with the well-being of the general public and their government.
674	Ronald	Ranft	93436	CA	The Internet was not invented so that corporations could take it over and profit from it. It was never intended that corporations could regulate content, censor, or impede the free flow of information. Like the Bill of Rights it was intended to make everyone equal. To do anything that transfers the right of the ordinary citizen to go anywhere, anytime on the internet is to violate their rights. This 2 tiered system is another attempt by the corporatists to take what is not theirs. The FCC had better not do this.
675	Robb	Hindle	15003	PA	The Internet was not designed for the ultra rich to make money on. Do not let them con you into doing so.
676	Marc	Driftmeye	99223	WA	The Internet was fully funded by Congress and tax subsidies to choke a nation by the Fed and the Congress. Make it a public utility arm. - - - - If Verizon wants a custom pipe they can build out the fiber and last mile fiber to the node/home and offer a package above for those who want it. Otherwise, stay the hell out of our lives.

677	Kevin	Attaway	53527	WI	The internet was financed by the American taxpayer, and is thus a public utility. To allow private interests to segregate the internet based on how much a person is willing to pay is unfair and is corrupt. Maintain net neutrality!
678	George	Long	12061	NY	The internet was developed with public funding, and belongs to the public.
679	Rich	Fairbanks	97530	OR	The internet was developed with our tax dollars. Do not give it away.
680	Michele Par	Zuniga	80501	CO	The Internet was developed using tax-payer money. It should continue as a public utility.
681	Fred	Bronson	93550	CA	The Internet was developed by the government using taxpayer dollars. Do not privatize it.
682	Bill	Blommer	85286	AZ	The internet was developed by our government using taxpayer dollars. Letting corporations profit from this system by acting as a conduit should not be allowed as it will affect the entire world usage. The Arab Spring shows the power of this system to help spread democracy and freedom. Freedom of access, expression, and development must be maintained for this system which has rapidly morphed into an indispensable worldwide utility.
683	Julie	Anders	92056	CA	The internet was developed by government research paid for by taxpayers. Don't give it away to the big telecom corporations now. That's wrong!
684	Gail	Nuckels	98333	WA	The internet was developed with tax payer funds and should be regulated as a public utility. There should be NO 2-track system - one for the haves and one for the have nots!
685	Catherine	Alter	28801	NC	The internet was designed to be a public utility. We don't have two tiers of electrical service, trash pickup, recycling, etc. Please don't let people with lots of money get better service; we little folk deserve better!!

686	Scott	Silva	18302	PA	The internet was created with taxpayer dollars. It belongs to the people! It should not be given over to greedy corporations who don't pay their fair share and are about killing competition. How can you have a free market if you have to pay an entrance fee? What about the American dream? Are these corporations that afraid of competition?!
687	charlene	canonica	98146	WA	The internet was created as a free public utility and never meant to be the cash cow for the cable companies or any business. As we know since to access the internet we do pay the cable companies or other private companies. It is no secret that they control the speed at which a business or individual recieves the service. This should be stopped also. They advertise you will get a certain speed and unless you constantly call and complain you will get a much slower speed. Now they are trying to control the other speeds. Do no sell out to these big businesses. This belongs to each indiviual equally. Thank you
688	Curt	Frederick	55011	MN	The Internet was built with all of our dollars, not just the big corporations. It should be equal access for everyone, especially the average person.
689	Michael	Cunningh	40292	KY	The internet was built using public funds, and should be regulated like other utilities. No fast lanes for fat cats!
690	L. Ray	Roberts	15206	PA	The internet was and is a public utility. From how it was created to the wireless frequencies it transmits over -- it was created with DARPA funds and scientists and the wireless frequencies are owned by the public. AT&T, Cox, Comcast and Verizon do NOT get to rebrand the internet as if they own it. It was, is and must remain a public utility. Don't be fooled by the astroturf lies.

691	Jerry	Flieger	10024	NY	The internet used to be a truly free and valuable research tool. It has already become hopelessly commercialized to sell, sell, sell...by tracking our every move. There should NOT be preferential bandwidths and speeds for companies to make some services unusable without a hike in rates. This is only the latest outrage in the way 'information' is sold and handled in this country by a very few wealthy sources
692	Edward	Mattos	20851	MD	The internet today is what the telegraph was in the 19th century; a way to send and receive information as quickly as humanly possible. I suppose that the telegraph companies would have liked to charge more for "premium" service, but the infrastructure to do so would have been cost prohibitive. Such service would also have altered the intention of telegraphy. Instead of enhancing vital communication, it would have become a plaything for the wealthy, blocking messages from non-premium users and driving up costs for everyone.
693	Mark	Stevens	32539	FL	The internet stands for progress and anything that inhibits it impedes progress.
694	Bonita	Yarboro	06512	CT	The internet shoyld be free abd should not contain a "two lane" designation. This will hurt the average internet user and help corporations and the more affluent. Pkease keave the net alone.
695	Patricia	Samuelso	29464	SC	The Internet should stay open and available to all. Small businesses can reach a larger customer base and thrive with an open Internet. Please don't destroy these opportunities.
696	Bonnie	Westbroc	28461	NC	the Internet should remin free and be treated as a public utility, not turned into a practical monopoly.
697	Steven	Norton	33713	FL	The internet should remain open to all - - Individuals and corporations alike. You two tiered idea is wrong and allows an advantage to large corps. I completely disagree with you.individual
698	Alicia	Haggerty	49544	MI	The internet should remain open and accessible to all, not just to the highest bedders.

699	kate	Raudenbu	10009	NY	the internet should remain neutral. the FCC should not play favorites with corporations. The FCC should be acting out of social interest, not greed.
700	Julie	Holmberg	60615	IL	The internet should remain neutral and for the people!
701	Peggy	Jayne	96737	HI	The internet should remain just as it is now.
702	Janice	Barnes	32236	FL	The internet should remain free, fair and open for all; speed and content should not controlled by monopolies.
703	Dorothy	Poole	38111	TN	The internet should remain free in every sense of the word for everyone, everywhere.
704	Garland	Riggs	20706	MD	The internet should remain free and open to all, at the same level. Keep Net Neutrality.
705	David	Stutsman	85302	AZ	The internet should remain free and corporations should never be allowed to control it.
706	Wayne	Foote	11787	NY	The internet should remain equally available to all. No favorite treatment to big money. Treat the internet like any other utility.
707	Phil	Key	85250	AZ	The internet should remain a net neutrality public utility. Please do not allow the large corporations, including cable and phone companies, to gain special treatment on this public utility. Thank you, Phil Key
708	Avra	Leigh	22802	VA	The internet should not become a corporate revenue generating asset.
709	Jean	Kluge	63348	MO	The Internet should NOT be taken over and held hostage by the telecommunication companies--in fact, good fast ineternet service should be provided for free to low-income people in the US.
710	James	Rogerson	28213	NC	The Internet should not be served in slices like a pizza. You have to wait 15 minutes for a pizza. What about access to the internet? How long a wait? Even 15 seconds is too long a wait..
711	David	Filing	44313	OH	The internet should not be regulated in any manner. It should not be throttled, slowed down, charged-for, or censored in any fashion, for any reason.
712	Roma	Lamor	85716	AZ	The internet should not be owned. It's for everyone.

713	Timothy	McLaughl	02360	MA	The Internet should not be for sale to Wall Street and corporate America. The Internet belongs to the American public to enjoy, appreciate, and share equal opportunity with each other regardless of the size of one's wallet.
714	Dennis	Rouse	11758	NY	The internet should not be controlled by anyone let alone cable companies who controls our basic programming for money.... - - - - DR
715	susan	gordon	07060	NJ	The Internet should not be another item stolen from the public and sold to the highest bidder.
716	Dixie	McGrew	50063	IA	The Internet should definitely be ruled a utility. In the present day, that is what it is.
717	Jeff	Aerts	53913	WI	The internet should continue as a public utility with all people and companies having the exact same access. It is important to maintain net neutrality.
718	susan	oliver	73567	OK	The internet should belong to the public.
719	Gail	Bain	98004	WA	The internet should be viewed as free speech and equally available to all. Our congress and judiciary are already being ruined by big money, don't let our internet be taken away, too.
720	Jimmy	Brown	62901	IL	The Internet should be used for the good of the people it serves, not to fill the pockets of ISPs. We already pay for service inferior to other nations thanks to their inability to give the public what it wants.
721	David	Fritsch	32258	FL	The Internet should be treated as a public utility. Don't fuck it up.
722	kathlyn	Powell	91364	CA	The internet should be treated as a public utility for the purposes of regulation.
723	Matt	Young	80304	CO	The Internet should be treated as a common carrier.
724	Drollene	Brown	32668	FL	The Internet should be the same for all. Let us have one thing in this world that isn't divided into the haves and have nots.
725	Judith	Clemens	48381	MI	The internet should be regulated like a public utility. I don't like the comcast merger either!
726	Alice and E	Halsted	01230	NY	The internet should be regulated as a public utility. Period.
727	Linda	Freedmar	01945	MA	The internet should be regulated as a public utility.

728	Cheryl	Kennedy	85373	AZ	The internet should be regulated as a public utility only. Do not give it away, it is the last of the commons.
729	Laura	Galvin	20814	MD	The internet should be regarded and regulated as a utility in the 21st century similar to how electricity and water were in prior centuries. The internet is no longer a "nice to have", but a "need to have" and should be considered as such in the U.S.
730	Stephen	Seliy	15232	PA	The internet should be reclassified as a utility.
731	Therese	Baker	60089	IL	The internet should be open to all. Not regulated by cable companies and telecommunications companies on a sliding scale usage. You should define it a utility just like water, gas and electric.
732	Thomas Ber	Bertrand	46208	IN	The Internet should be open to all equally!
733	david	cosloy	67220	KS	The internet should be open and no one gets priority!
734	Rich	Cook	97405	OR	The internet should be managed like a public utility company and everyone be treated the same.
735	Daniel	McCay	27510	NC	The internet should be like power and water; a regulated utility that is equally accessible to all.
736	Brenda	Kemp	40065	KY	The Internet should be home as any other public utility. The FCC need not allow faster speeds for wealthy corporations opposed to the general public it is no more less than the electric company the water company for the gas company
737	Patti	Scott	18049	PA	The internet should be free. I pay an outrageous price for cable and internet access already. They should not be allowed to have different levels of access. - - I say no Fast lane for corporations and rich people.
738	Alexandra	Graff	33907	FL	The internet should be FREE, but if I am stuck paying for it then it needs to be a utility.. 150 dollars a month for basic internet and cable is ludicrous!
739	Jane	Spencer	97212	OR	The internet should be free for all citizens not just the rich.
740	Phillip	Long	85019	AZ	the internet should be for ALL the people. NOT just for the people that have money.
741	Elisabeth	Newman	37312	TN	The internet should be fair for everyone - small and large!

742	Willa	Rolfes	89117	NV	The internet should be exactly the same for everyone, just like the airwaves are for radio.
743	james	israel	95816	CA	The internet should be designated what it is: a public utility. And protected as such. Don't let big money take over our last vestige of democratic expression!!!
744	John	Lozier	26505	WV	The internet should be designated as a common carrier. Net neutrality must be preserved. The First Amendment, protecting freedom of speech, should protect access to essential and speedy internet.
745	Anne	Stanley	04105	ME	The internet should be declared part of the commons
746	Cheryl	Lennig	12211	NY	The internet should be considered a public utility--available to all equally!
747	Marjene	Graze	94608	CA	The internet should be available to we the people, not the rich cats only.
748	Elinor	Shukan	01106	MA	The internet should be an open utility, equally available to everyone. Noone should be able to pay more for better speed. It's bad enough we have money controlling elections. Leave it out of the internet.
749	Frederick	Wiese	32825	FL	The internet should be a public utility. Private companies should not be allowed to charge for express access. Please don't let this happen.
750	Adam	Gabriel	67209	KS	The Internet should be a public utility. It is a gift, a source for information to the masses.
751	Dixie	Grossmar	85012	AZ	The internet should be a public utility. Countless organizations use the internet to conduct business and consumers of their services and products are in most cases expected to have access to the internet...consider insurance, banking, investments, utilities etc. Don't monetize and de-equalize the internet with preferential status to the big telecom companies.
752	Steven	Joy	50169	IA	The Internet should be a public utility.
753	Tina	Klaus	16443	PA	The internet should be a public utility, the public uses it. No one should be able to decide what and how fast I get to see what I am searching for. This ultimately would raise the price of what they are selling and create an unfair market place for the rest.

754	Katharine	deZengot	02045	MA	The internet should be a public utility, managed for the public good.
755	john e	keevert jr	14610	NY	The Internet should be a public utility, information shouldn't be the prerogative of the rich.
756	Joseph	Jordan	08094	NJ	The internet should be a public utility
757	Kinsey	Brock	48182	MI	The internet should be a level-playing field. No fast-lane for corporate giants!
758	Steve	Raley	98006	WA	The internet should be a level playing field...NO slow lanes!
759	Thom	Jones	53704	WI	The internet should be a level playing field for all.
760	Caroline	Scott	02460	MA	The internet should be a free entity, not something that only the rich are able to access
761	John	Schroede	87144	NM	The internet should be a "public utility" just like the phone network. I can't believe that the Chairman of the FCC has dared to make the internet basically a private channel for the biog companies. This HAS TO STOP!
762	Ryan	Welkom	17820	PA	The internet should always be free to use for everybody.
763	Jodie	Wigren	02446	MA	The internet really is a public utility
764	George	Moxley	23229	VA	The Internet providers want to have a monopoly and rip us off.
765	Andy	Miller	70507	LA	The internet providers already charge for different levels of service based on speed. This change the ISP's are requesting is not about speed but about the ability to censor, and it should not be approved.
766	Ann	Rider	98466	WA	The internet now takes the place of a Fourth Estate. It must not be sold to the highest bidder or individual freedom is truly lost.
767	Mary	Mooney	55406	MN	The Internet needs to remain the way it is now. NO TWO TIERED SYSTEMS!!!!!
768	Karen	Mueser	60068	IL	The internet needs to remain equal for all users.
769	David	Sink	60625	IL	The internet needs to remain a public utility.
770	Mary	Fleming	10128	NY	The internet needs to REMAIN a public utility.
771	Cheryl	Kenter	64015	MO	The internet needs to remain a public utility period.
772	Randall	Parker	92262	NV	The Internet needs to be reclassified as'Title II' communications, so it may be regulated as such and kept 'NEUTRAL'.

773	Michael	Polito	70722	LA	The internet needs to be open to all without special privileges for the wealthy few, both people and businesses.
774	Robert	Hord	33312	FL	The internet needs to be open to all equally, no fast tracks for those that have the money to pay.
775	Laurie	Kleisinger	81632	CO	The internet needs to be kept free and open for all users, not prioritized for the wealthy. Do the right thing and protect the American people.
776	Belinda	Mathers	98058	WA	The internet needs to be declared a public utility. Mergers with Comcast, another with Time Warner, are not acceptable or in the best interests of the public. Please stand up to these companies and deny the mergers
777	Adrienne	Fabrizio	10598	NY	The internet needs no changes, leave it free as it is now.
778	Robert	Morrow	95616	CA	the internet needs management with equal access for all as a priority. Ramping is a red herring, we need greater bandwidth access and to be in the top 5 in access should be an attainable goal to seek. Make it happen.
779	Gail	Outlaw	95404	CA	The internet must remain open anf fair to all users, not those with the most money and clout. If we want a free country the internet must remain open aailable to all. Otherwise, Big Brother will take over with ease. Would you really want that?
780	Dennis	Warren	80816	CO	The internet MUST remain neutral!
781	Jared	Graham	97306	OR	The internet must remain neutral to all participants - telecommunication companies must not allow "fast lanes" or other ways to financially censor web content.
782	Luis	Cavallone	07853	NJ	The Internet must remain neutral for the sake of real democracy and freedom.
783	Delores	Williams	60189	IL	The Internet must remain "FREE". Put the internet back under Title II.
784	Douglas	Dreher	30189	GA	The internet must remain "free". Any restrictions would restrict "free speech" and would violate Americans right to free speech, much like the buffer zone laws around abortion clinics in some states that were just struck down unanimously by the Supreme Court.

785	Troy	Griner	31008	GA	The Internet must not fall under the control of Cable and Broadband ISPs. Prevent Cable Company Racketeering!
786	Keith	Dorwick	70503	LA	The internet must not be commercialized in this way.
787	jamil	simon	02144	MA	The internet must be treated as a public utility and the providers should be regulated in such a way that they respect the rights of all users, not just the big cable companies.
788	Cheryl	Huntley	39212	MS	The Internet must be maintained as a neutral site to facilitate research and education. To charge by cable source is ludicrous.
789	jon	adams	94618	CA	The internet must be kept neutral. Further, Comcast, ATT, and Verizon should be fined for providing such poor service in a near-monopoly. The FCC needs to regulate them
790	Sabrina	Wojnaros	15238	PA	The internet must be kept neutral or democracy will fail.
791	Grace	Bertalot	92808	CA	The Internet must be designated a utility and given government protection against the distortions and injustices that corporations will foster if allowed to take over.
792	Susan	Dawson-T	61614	IL	The internet MUST be considered a public utility, just as electricity, gas, water and telephone access are utilities. Please DO NOT allow a "fast lane" -- the only ones who will benefit are the wealthy companies.
793	SUE E.	DEAN	85266	CO	The Internet must be classified as type 2 communication, and NOT type 1!
794	c	aras	97413	OR	The internet must be a public utility without any qualifications.
795	Judith	Salzman	85730	AZ	The internet MUST be a common carrier like the phone system!
796	jay	knight	15212	Pen	The internet isn't broken....don't try to "fix" it.
797	Eric	Jansen	90045	CA	The internet isn't broken,DON'T FIX IT
798	Laura	Vale	45064	OH	The internet isn't broken, don't sell out.
799	Kevin	Comerfor	87144	NM	The internet isn't broken and I don't want to see big telcom companies hike their rates to squeeze me of my last dime just so I can get a decent internet connection.
800	Jane	Lindberg	10128	NY	The internet is, indeed, a public utility.

801	charles	pierson	19808	DE	The internet is, in fact, a public utility and all people have an equal right to access to that utility. Large rich corporations have no right to be able to use their wealth to steal equal access from the ordinary people.
802	joel	patruno	01040	MA	The internet is working in its current iteration. Why are we trying to fix something that doesn't need fixing? Really?
803	Sharon	Olson	47713	IN	The Internet is vital to business and private interests alike. Equal access by both small and large groups or individuals is vital to a healthy and thriving society. In the same way, I am also opposed to Time Warner and Comcast joining to form a virtual monopoly of cable service.
804	Bruce	Jackson	93035	CA	The Internet is vital and it's usefulness increases exponentially every year!
805	Faye	Hall	93003	CA	The internet is valuable to EVERYONE. It should be easily accessed at a good speed for EVERYONE. Please don't let the corporatocracy ruin it for all of us!

					business, both commercial and private. Provide needed information; for education, providing answers to vexing problems, a resource for underserved communities. As well as frivolous endeavors of entertainment and recreation. It is a daily used tool for tens of millions of Americans as well as billions around the globe. We already have one of the most expensive, least competitive, slowest running internet systems in the industrialized world. And now you want to allow internet providers to essentially pick economic winners and losers, by allowing established companies to purchase faster speeds that drown any new start-up competitors before they are even born? Allowing the merger of Time Warner and Comcast will increase the already exploding costs for consumers, to unimaginable hights. - - - - This product, like water, gas and electricity, has now become a basic public utility in the lives of Americans. The fact that a lobbyist for the internet providers is the charm an of the FCC. Tells me that once again, the corporations run America. Party no longer matters, they call the shots with their donations and placing their minions in government to do their bidding. And we citizens are just in the way of their profits. Make no mistake when I tell
806	Edmund	Murray M	44883	OH	you. That if this proposed measure does go
807	Marita	Ritchie	64015	MO	The internet is used by the public and should not be used by the cable companies as their private piggy bank.
808	Lora	Boyer	66502	KS	The internet is today's telephone. No matter how rich on poor the person or business placing the call, the calls are handled by the same rules. No matter how rich or poor the person or business sending an electronic message, the messages should be handled by the same rules. - - - - The internet was developed using tax dollars. All should continue to have equal opportunity to access the internet.

809	Christopher	Morgan	78759	TX	The internet is today's new market square. Allowing different charges means crushing new small business, the engine of our economy. Not too mention the costs to consumers will ultimately go through the roof.
810	Lauren	Perreault	90266	CA	The internet is the reason we still have any freedom at all. Do NOT allow there to be any throttles or preferred speed for some companies over others.
811	William	Schwarz	23464	VA	The internet is the public square of the 21st century and should not be for sale to the highest bidder.
812	William	Boyle	60510	IL	The Internet is the phone system of the 21st century. It should be regulated as such so that all US citizens can have access at reasonable cost without data caps and bandwidth throttling.
813	Greg	Scott	19143	PA	The internet is the only open forum there is...
814	Susan	Buckles	98110	WA	The internet is the only "level" playing field available to regular people. Removing that equality would do irreparable damage to our fragile democracy. It would be corrupt and outrageous. DON't do it!
815	Harry	Daniel	33418	FL	The internet is the new library of Alexandria: don't burn it again, FCC!
816	Mary	Mooradia	02482	MA	The Internet is the main public infrastructure project of the 20th and 21st centuries. America used to have leadership in this area--- let's get into that leadership role again...

817	Russell	Roberts	97124	OR	The internet is the last wave of news media available to the people for inform decision from the free press, our implied 4th branch of government. The fact that you want to delay this "preventing cable company f**kery", just before our November election is valid suspicion that you greedy selfish buggers want to circumvent our democratic process of voting from the common people. We have proof that the cable company censored information that may have been able to effect the outcome of the election had they been shown to us. We been waiting for stipulation of laws to prevent this from happening since the Bush administration and it still hasn't been protected. You are not going to get any consent from me nor willfully throw away my love for the constitution and lay down before you to butcher up. You'll have to be the greedy lowlife, selfish transparent thieves that you are and steal it from the people.
818	cheryl	wolff	28804	NC	the internet is the largest PUBLIC utility in the nation to privatize thisutility would be a disaster.
819	Howard	Watkins	93711	CA	The Internet is the greatest tool of democracy we now have. Don't create second class users.
820	Jon	Martz	97204	OR	The internet is the great equalizer. Creating a tiered system will stifle innovation.
821	S	King	64029	MO	The Internet is the electronic equivalent of the USPS. Keep it free and accessible to EVERYONE. Please.
822	Robert	Watson	99801	AK	The internet is the backbone of our modern news, information and communication system. Net neutrality is essential for preserving the free flow of information that is the foundation of a democracy.

823	Mark	Taylor	54632	WI	The internet is such an important and integral part of modern life for both business and personal and political life it needs to be protected from corporate domination. I support a free and open internet with equal access for all providers -- no special "fast" lanes for certain big money users. This is an important issue to me as both a business person and citizen. Don't mess with the internet, FCC.
824	Susan	Jeffries	78254	TX	The internet is still in its infancy. Please don't strangle it in its crib. And yes, that's what you'll be doing, along with putting us behind Europe competitively, if you destroy net neutrality.
825	Jan	Atallo	49685	MI	The internet is so integral to 21st Century communications, locally to globally, it is imperative that you designate the internet as a public utility!
826	tim	dean	53714	WI	The internet is part of the fourth estate, and as such is essential to our democracy. Any curtailing will negatively affect essential information.
827	Paul	Klempere	78723	TX	The internet is part of our modern societal infrastructure.
828	Daryl	Donley	22044	VA	The internet is paradigm of global technological democracy. If we make a 2-tier system, it is the equivalent of transforming the internet into a paragon of a global technological monarchy...or worse. PLEASE keep the playing field level for everyone as it was ORIGNINALLY INTENDED! Thank you!
829	Jerome	Murphy	93650	CA	The internet is paid for by us all. We should not destroy NET neutrality. The rich already have enough hand outs from the government.
830	Rhonda	Nole	94931	CA	The Internet is ours and we have the right to use it freely, and not be price gouged to use it. It is time we start fighting back to corporate greed, lobbyists and government corruption through the control of politics through big money.
831	Helen	Coon	03820	NH	The internet is our public library. Not just there for commercial gain and designed for some to be able to use and benefit more easily than others just because they have more means.

832	Graciela	Huth	90045	CA	The Internet is our last bastion of freedom. If the distribution of water is a public utility because is basic to our survival, the Internet is also a public utility as important as the water we drink.
833	Ric	Prindle	94706	CA	The internet is one of the few remaining vehicles for pure, egalitarian democracy, and its freedom simply must be preserved and protected. If it becomes corporatized, we all lose this precious tool.
834	Susan	Richmonc	98335	WA	The Internet is now just as much a common good as interstate highways. Stop letting private companies take advantage of people's need to use a common good.
835	Linda	Massey	98101	WA	The internet is now an integral part of our society- used for education, communication, commerce. There should not be a internet tiered policy. Not now - not ever!!
836	Greg	Castillo	94703	CA	The internet is now a national data infrastructure crucial to free speech and economic democracy. Don't let corporate extortion make it a pay-to-play commodity!
837	earnest	wilson	97402	OR	The internet is not the property of corporations. It belongs to the public for everyone to use equally.
838	Scott	Evans	98070	WA	The internet is not something to be controlled by the likes of Comcast and Verizon.
839	Laura	Raile	80127	CO	The internet is not now and never should be for sale to the highest bidder or commercial interests. The internet was designed to freely share information, and put all people on an equal footing. This is right and solid.
840	Frank	Mowry	22303	VA	The Internet is not for sale, every individual should have equal access. The corporations did not invent or pay for the Internet so they DO NOT deserve to HOG the Internet for themselves.
841	Michael	Ferlisi	85929	Ariz	The Internet is not for sale to the corporate elite. Net Neutrality now and forever!
842	Dave	Vick	48906	MI	The internet is not broken. Stop messing with it. Abandon all plans for a two tier system and keep the net neutral.
843	Rebeca	Jasso-Agu	87123	NM	The internet is not broken, leave it alone.

844	Debra	Johnson	32064	FL	The internet is not and should not be primarily for corporate profits. Please rule that the internet is a telecom service
845	Donald	Haendige	21122	MD	The internet is not a totally closed corporate concern put in place so mega-corporations can spy on and gouge the general populace far be it. - - The internet is as much a public utility that needs to be controlled and fostered just like the: telephone system; electrical supply system; sanitary systems; water supply systems; local,state and national roads and highways; etc. etc.
846	Mark	Rogers	96745	HI	The internet is NOT a private resource for corporate providers!
847	Samantha	Fairchild	96708	HI	The internet is not a one sided technology. This should obviously be a Title II classification. Unlike television we can interact with it, with each other, immediately like no other form of communication before. i demand access to every communication, every political, social, environmental, sad cat diary content out there.
848	Lisa	Reissig	13210	NY	The internet is not soley for the purpose of entertainment or watching movies or downloading movies. It's primary function is to serve as a platform for communication and public information dissemination. This function falls clearly under the FCC's purview.
849	Elizabeth	Hollin	80015	CO	The internet is no longer a want. It has been made into a NEED. We pay bills, go to school, shopping,connect with everyone. We look for and get jobs that are often required to apply on line. The government and the world has made this a basic staple in everyone's life. It should be treated as such. We already pay the highest rates in the world. It is a utility and should be treated as a utility.
850	James	Andersen	48103	MI	The internet is no longer a luxury. It is a necessary service.
851	Shari	Del Maria	49127	MI	The internet is no less a public utility than phone service, gas or electricity and should be treated as one. To be complicit in the ISP's in continuing to shaft the public is criminal.

852	Pam	Halsey	20148	VA	The Internet is most definitely a utility. It is necessary to have unfettered access to the Internet to live in our world today. [illegible] encyclopedia, a mail carrier, an entertainment venue, a gathering space, a tracking system (alas, for both good and bad), an historical record, and a host of other roles. - - - - But none of the Internet's roles should have any precedence over any of its others. No one or multiple entities, whether an ISP, a content creator, a content aggregator, a search engine, or anything else should have the power to control who sees what and at what speed. Real, absolute "net neutrality," which has only one lane with the same speed limit for all its traffic, is the only valid format for the entirety of the Internet. This is the PUBLIC's information carrier. There can be no "owners" or "traffic cops" holding up some part of movement to let other parts move through more quickly. If there are traffic jams during rush hours, so be it. But under no circumstances should there be any private property anywhere along the route involving rights of way, gates, or stop signs. Any format of the net involving those concepts is a violation of both the intent and practice of any society that deems itself democratic (or republican, for that matter). - - - - Do NOT, I urge you, implement the plan you've forwarded for consideration. No plan is necessary. All you need is
853	Bill	Barish	94530	CA	a simple declaration that your policy is one of
854	Glenn	Lanum	94025	CA	The internet is like my phone system, it is a public utility.
855	hannah	clark	04038	ME	The internet is like air, and should not be governed by anyone:
856	LUANNE	PARRISH	38834	MS	the internet is like a light bulb...why should I have to pay more for the exact same light!?!
857	JM	Shubin	94947	CA	The internet is just like Television, the phone system and the electric and gas systems and belongs to the PUBLIC. Keep it so.
858	Malick	McGregor	80017	CO	The internet is imperative to the growth of human knowledge and culture. Don't sell it.

859	David	Mischel	94122	CA	The Internet is functionally a utility, not a service, and we need it regulated accordingly. Please preserve net neutrality in its current form and do not sell our democratic network to corporations for their profit and information stranglehold.
860	Marcy	Lucas	94702	CA	The internet is for the public, not to be regulated or bought by others. Stop this.
861	Robert	Johnson	92345	CA	The internet is for the people. Not some mockery of a dumb corporation, robbing the folks of the USA.
862	Sirina	Sucklal	20723	MD	The Internet is for the people not corporations.
863	Ash	Luster-Co	67211	KS	The internet is for the people by the people. How much more American can you get than that?
864	Janet	Tauer	55406	MN	The Internet is for everyone. You don't own it and have no right to give it to the highest bidder
865	Katie	Jacob	48008	MI	The internet is for everyone. Please act in the people's interest and make sure it stays that way
866	Kathryn anc	Crawford	61938	IL	The internet is for everyone. No fast track or special privilege for big companies. They are not more special than any individual. Save Net Neutrality, AKA No Cable Company Fuckery.
867	Ken	Paris	53590	WI	The internet is for everyone.
868	Donald	Roberts	48067	MI	The internet is for everyone not for the ones who can pay more. This is the United States we are all equal, we all should have equal access.
869	Ben	Sandford	85122	AZ	The internet is for all equally.
870	travis	Peterson	55020	MN	The Internet is fine. All you have to do is not screw it up. Please don't!
871	Carol	Potts	44601	OH	The internet is fine just as it is. You greedy bastards need to leave it alone.
872	Paul	Bodine	85351	AZ	The Internet is far too vital a tool for the general public to be messed with for the benefit of any company's profits.
873	Gordon	Gottbehe	54457	WI	The internet is every bit as important as telephone service or more.
874	Donna	Williams	43202	OH	The Internet is essential for free speech. Making some people pay more limits the exchange of ideas.
875	Gregg	Roebuck	90014	CA	The Internet is democracy at its finest. It shouldm be left that way.

876	M.	Jackson	87106	NM	The internet is DEFINITELY a public utility. It's wrong to think of it as simply an entertainment venue.
877	Donnella	MItchell	98395	Was	The internet is definitely a public utility and should be treat as such.
878	Michelle	vonAhn	80010	CO	The internet is deeply embedded into our lives, just as much as electricity. Please make it a public utility, not a private profit-venture.
879	Donald	Turken	80113	CO	The internet is de facto an integral part of 'the commons', of our infrastructure and daily lives of everyone. It is unavoidable.
880	Bonnie	Crockett	21211	MD	The internet is currently the only venue where equality still reigns. Do not take that away from us!
881	David	Mishalove	19086	PA	The Internet is clearly a public utility and should be regulated as such.
882	Margaret	Yoder	27410	NC	the internet is by the people, for the people...PUBLIC!
883	Melissa	Strobel	15624	PA	The internet is beyond any one or two companies. It is universal, and no impediments upon its access is warranted or within the grasp of any corporation.
884	Elliot	Robinson	04074	ME	The internet is as vital to todays citizens as the basic black telephone was to the people before us. Electricity and modern communications are key to our mordern life. Rather than granting more power to the rich and powerful, lets try harder to make useable internet access available to all of us, even the "farmers" who live out in the sticks. By farmers, I don't mean agribuisness billionaires either.
885	Jairo	Miller	44691	OH	The internet is as indispensable as water and nobody expects a trickle when the open the internet faucet. FCC get your head out of the corporations asses.
886	Eileen	McCorry	10024	NY	The internet is as important to my daily life as electricity is.
887	John	Hamilton	95210	CA	The Internet is as important as electricity to modern life, treat it as a public utility. Don't allow the cable/phone companies to double dip my charging both ends for the same packet.

888	Thomas	Mora	78641	TX	The Internet is arguably one of the most valuable public resources in modern life. It belongs to all of us. Don't hand t over its control, as a golden gift, to America's ISP's. With "services" among the poorest-quality and highest-priced in the world, they've already shown us that their only interest is in milking it for all it's worth.
889	Eric	Olsen	07512	NJ	The internet is an unmitigated success for commerce, education and personal enlightenment. No not mess with success by creating internet fast lane. Prove to the American people that government cannot be bought by the ISPâ€™s. - - Thanks - - Eric Olsen
890	Perry	Young	78610	TX	The internet is an essential public utility. It is not in the best interest of the people or the country to allow any scheme that would reduce full access at maximum speed for all people.
891	Rod	Rodrigue:	20874	MD	The internet is America's voice and no company has any right to limit or regulate it. - - Government regulation of the internet is an infringement of the 1st amendment.
892	Richard	Cunningh	37801	TN	The internet is already being paid for use now. So you are going to make us pay more. Shame on you for a stupid decision.
893	Jamie	Schulte	97303	OR	the internet is about the only thing left that truly represents this "democracy" we talk so much about. leave it alone. don't you think Comcast/Time Warner have enough power and influence already? let them continue "the old fashioned" way.....by bribing politicians.
894	Jack	Berezny	25414	WV	The internet is a utility. Best to keep it that way or face a public that will institute Draconian measures in retaliation for "pay to play".
895	William	Sharfman	10024	NY	The internet is a utility. Comcast, Verizon, AT&T, companies like them, invented nothing and it is not theirs to control. Net neutrality is the only fair approach, the internet is not for the benefit of big corporations that want to prey on us.
896	Andrew	Singson	08854	NJ	The internet is a utility!
897	Ian	Murphy	60625	IL	The Internet is a utility, just like the phone. Do not bend to big dollars â€” keep access to the Web equal and open to all.

898	Timothy	Irish	94903	CA	The internet is a utility no different than electricity and water. It should be regulated as such and no advantage should be given to any one company or individual over another.
899	Barbara	Green	77521	TX	The internet is a utility and Comcast et.al are monopolies.
900	Denim	Bridges	33773	FL	The Internet IS a utility and allowing providers the facility to reduce bandwidth to customers who cannot pay a premium is - what John Oliver said.
901	Sharron	Helmholz	95008	CA	The internet is a social equalizer. Don't change that.
902	Ashley	simmons	21133	MD	The internet is a safe haven for all and shouldn't be crushed under corporate control like the United States government.
903	michael	landers	52748	IA	The Internet is a roadway for commerce and leisure.it is the same as interstate
904	Patricia	Lafferty	85118	AZ	The Internet is a publiclic utility. PRESERVE NET NEUTRALITY- PLEASE!!!
905	Emory	Davis	30318	GA	The internet is a public utity
906	Linda	Mulder	48167	MI	The Internet is a public utility..it just is and don't forget it!
907	kate	dyson	97463	OR	the internet is a PUBLIC UTILITY...say no to corporate lobbyists
908	William	Hudspeth	87102	NM	The Internet is a PUBLIC UTILITY...enough said.
909	Maggie	Duncan-N	95060	CA	The internet is a public utility. Your job at the FCC is to protect the best interest of the public. DON'T SELL US OUT
910	Robert	Thomas	94114	CA	The internet is a public utility. There should be no "fast lanes" and "slow lanes". There should only be one lane for everybody. Any move by the FCC to create "fast lanes" will be followed by a petition for the removal of Tom Wheeler as chairman of the FCC. Thank you for your consideration.
911	Wesley	Erck	94526	CA	The internet IS a public utility. The ISPs and carriers should stop acting like they invented and own it.
912	Christopher	McGahan	01854	MA	The internet is a public utility. Period. Full stop.

913	Thomas	Martin	57730	SD	The internet is a public utility. Now maintain it as such and protect our right as Americans to receive high speed internet. Stop juking and jiving around the issue to protect large corporations. Spend the money to bring the United States into competition with the rest of the world as far as access and internet speed.
914	Nancy	Farha	67211	KS	the internet is a public utility. Leave it alone!
915	Jeremy	Franklin	98155	WA	The internet is a public utility. Keep it free and open. Protect the citizens. Do not place control in the hands of corporations.
916	Mark	Bennett	77511	TX	The Internet is a public utility. I oppose a two tiered Internet.
917	Margaret	Eisenberg	63005	MO	The internet is a public utility. How can anyone not see that? Anyone born since 1980, anyway.
918	Brent	Hepner	23508	VA	The internet is a public utility. DUH!
919	Sheldon	Becker	80302	CO	The internet is a public utility. Don't give it to big-money, even though you're been bought and paid for, FCC.
920	Mitsu	Fisher	94602	CA	The internet is a public utility. Don't change it. Don't go with two tiers. Leave it alone!
921	Melanie	Yacobucc	30120	GA	The internet is a public utility. Do what's right for the citizens you supposedly represent, for a change.
922	George	Parrino	53066	WI	The internet is a public utility. As a public utility in the USA it should remain open to all users. Anything else is an abuse of power and calls for action to keep the internet open and free.
923	Cyrus	Picken	21114	MD	The Internet IS a public utility. Why would you favor corporate interests over the public whose interest your agency is sworn to protect ??? Have you sold out ???
924	Spencer	Stall	87529	NM	The internet IS a public utility. We, the People, decide what we put on the net and what WE download. It shouldn't be "regulated" by for profit corporations!
925	Peter	Jackson	53711	WI	The internet is a public utility. Preventing Cable Company F***ery
926	John	Bosworth	11563	NY	The internet is a public utility. Please maintain the net neutrality rules. How about breaking up Comcast and Time Warner as you did ATT so long ago...

927	Thomas	Moore	85712	AZ	The internet is a public utility. Lets keep it that way!
928	Kathryn	Long	75023	TX	The internet is a public utility. Leave it.
929	John	Born	50265	IA	The internet is a public utility. Keep it that way.
930	Melissa	Lindberg	60625	IL	The internet is a public utility. It should be regulated as such. Cable companies do not provide "innovation," they provide obstacles to customer service. The public can tell you they lie constantly: don't believe them.
931	Susan	Kaman	63118	MO	The internet is a public utility. It developed and grew as an egalitarian space, allowing true free market competition. Decades after the internet became the omnipresent and useful utility it is, corporations have, belatedly, realized that they can make a buck while screwing over small businesses, free speech, and the free exchange of ideas. Now these corporations want to turn America's already pitifully slow internet into something even slower, more bloated, and controlled entirely by their whims. Do not let that happen!
932	Veronica	Tuggle	65548	MO	The internet is a public utility.
933	Lynn	Preston	92629	CA	The Internet is a public utility.
934	MT	Nicholsor	78230	TX	The internet IS a PUBLIC utility.
935	Julie	Mann Val	95008	CA	The internet is a public utility.
936	Judson	Howe	91016	CA	The internet is a public utility.
937	Nancy	Cuffman	94530	CA	The internet is a public utility.
938	David	Bailin	72212	AR	The internet is a public utility.
939	Jim	Ceithaml	60123	IL	THE INTERNET IS A PUBLIC UTILITY!!! - - Just how much do the rich and their corporations want to take away from the few of us left in the middle class?
940	Rhea	Osland	50141	IA	THE INTERNET IS A PUBLIC UTILITY!!
941	Anna	Gooch	84108	UT	The internet is a public utility! Really! Please don't break it!
942	Elizabeth	Calhoun	59937	MT	The internet is a public utility! Preserve net neutrality and a level playing field for small business. I'm a small business owner and I need net neutrality for my business to reach my customer and audience.
943	Carol	DeCosta	87505	NM	The Internet IS a public utility! And you have the power to change it's classification to that. DO IT!

944	Ethel	Morgan	22041	Virgi	The internet is a public utility! - - Don't mess with it!
945	Joan	Lang	44111	OH	The internet is a public utility! Do not offer two speeds on the internet. I'm not rich--I'll be on the slow train. What did I do to you to deserve this?
946	Veronica	Summers	27278	NC	The Internet is a public utility!
947	Linda	Sullivan	38119	TN	The internet is a public utility!
948	dennis	rogers	10512	NY	The internet is a PUBLIC utility!
949	Oweni	Morring	50023	IA	The internet is a public utility!
950	martin	damskov	76133	TX	The Internet IS a Public utility!
951	Timothy	Spurlin	63701	MO	The internet is a public utility, not the playground of the rich!
952	Susan	Mohn	98011	WA	The internet is a public utility, making a slow lane kills the vibrancy and invention that gave us the 'net itself!
953	Richard	Meyers	98178	WA	The internet IS a public utility, like water & - - electricity, or it should be !
954	Steve	Haines	19147	PA	The internet is a public utility, keep it open and unobstructed.
955	Astrida	Onat	98112	WA	The Internet IS a public utility, just needs recognition as such.
956	Dee	Mosi	77091	TX	The internet is a public utility, just like land line phones. Don't let corporation double-talk rob the public of the public utility right. And also enforce phone companies obligations to maintain the aging landlines instead of forcing people to use computer/cable based phones. Uphold democracy, uphold the rights of citizens, stop the support of corporations instead of American citizens.
957	William	Hess	62025	IL	The Internet is a public utility, essential to the advance of personal freedom and public welfare. It is not another cash cow for right wing corporations seeking to suppress criticism and dissent by dominating communications.. Corporate special interests have already neutered the main stream media and our government. The Internet is all that remains of the people's voice. Preserve it for all of us.
958	Don	McAllen	99508	AK	The internet is a public utility, and it is important to allow equal access to all.

959	Michael	Duncansc	48308	MI	The internet is a public utility--and should continue classified as such!!
960	Karen	Kulick	92860	CA	The internet is a public utility with equal service levels for all.
961	Brenda	Clark	49004	MI	The internet is a public utility that should be equally available to ALL people--ACTUAL HUMAN BEINGS--ALL OF THE TIME!!!
962	john	aponick	17110	PA	The internet is a public utility that is similar to water, electricity, and sewerage.. Please make it that and then regulate it.
963	Mary	Robinson	98121	WA	The Internet is a Public Utility that belongs to the public, not the highest bidder.
964	Mike	Antonowi	68516	NE	the internet is a public utility no
965	Joseph	Lockwooc	94133	CA	The internet is a public utility like water.
966	James	Rubins	94558	CA	The INTERNET is a public utility like television, radio, telephone that needs to have public access protected! Not have speed throttled down by the highest bidder.
967	Deborah	Banks	89431	NV	The internet is a public utility like telephones, power, water and cannot be controlled by corporations. Like the other utilities it would be a disaster if controlled in any way by the corporations. Classify the ISPs as common carriers. They have made enough money already.
968	Kelly	Garver	91423	CA	The Internet is a public utility like electricity!
969	Maria Hous	Conzemiu	52240	IA	The internet is a public utility like electricity and water. To say otherwise is to sell your soul to moneyed interests and kill our republic. We've had enough of the plutocrats who own our government, including you.
970	susan	clouser	72764	AR	The internet IS a public utility I ought to know I just retired from Ma Bell.. I'm sorry ATT, after. 36+ years.
971	Susan	Fenster	07726	NJ	The Internet is a public utility for the use of ALL, and must be protected from corporate greed and takeover.
972	Colleen	Spivey	97236	OR	The internet IS a public utility created to a large degree with public money via the U.S. Government. SO KEEP IT PUBLIC and neutral.
973	Mike	Victor	48104	MI	The Internet is a public utility as much as any other pervasive essential form of communication between and among peers.

974	Brenda	Barnes	90404	CA	The Internet is a public utility and/or is a common carrier and/or a telecommunications system. Whatever keeps it so ISPs cannot charge producers of data extra for faster speeds or slow down some, speed up others. You know how to do this, so do it.
975	marion	barnes	07040	NJ	The internet is a public utility and you should - - protect it.
976	Michelle	Owsley	90018	CA	The internet is a public utility and with the corporate purchase of a no longer independent media, the internet remains the last bastion of the "fifth estate" and the weapon of choice for government by and of "the people".
977	Josh	Dowden	89108	NV	the Internet is a public utility and should remain so!
978	Carol	Dickason	95476	CA	The internet is a public utility and should not encourage monopolies. Tom Wheeler should never be the FCC Chairman, he is the fox guarding the hen house.
979	Richard	Moore	95472	CA	The Internet is a public utility and should not be owned by any corporation!
980	John	Fakess	32792	FL	The internet is a public utility and should not be handed over those who would monopolize it for their profit. Chairman Wheeler is not acting in the public interest because of his ties as a lobbyist for the companies that stand to gain from this monopolistic decision.
981	Cheri	Whitehea	92606	CA	The Internet is a public utility and should NEVER be considered for private industry control!
982	Mary	Tabatche	44260	OH	The internet is a PUBLIC UTILITY and should be treated as such. Privatize it and watch U.S. innovation die!
983	Juie	Masterjol	81301	CO	The internet is a public utility and should be regulated by the FCC like other utilities. Do not allow corporations to control the internet...it is not American, ethical or moral.
984	Angel	Pedroza	90601	CA	The internet is a public utility and should be regulated as such. Please make this come to pass.
985	Brian	Jasiorkow	06880	CT	The internet is a public utility and should be recognized as such by the FCC. The FCC must remember that it works for the people of this great nation, not corporations.

986	Carol	Gold	97333	OR	The internet is a public utility and should be equally accessible to all at the same speed. Your plan would benefit companies and hurt the middle class! We don't need any more inequality in this country!
987	JoAnne	Lutz	97438	OR	The internet is a public utility and not open to the highest bidder.
988	Rose Marie	Wilson	11793	NY	The Internet is a public utility and NO ONE should be able to buy special privileges!!!!!
989	Bridget	Wellhoef	55337	MN	The internet is a public utility and MUST be regulated as such.
990	Blake	Burrough	11101	NY	The internet is a public utility and must be regulated appropriately. The corporate greed of cable and telecom companies is myriad, egregious, and notorious. If you refuse to act in accordance with your duties, then We The People are well within our rights to demand your resignation. DO. YOUR. JOB. Or go home. Those are your only 2 choices.
991	Matt	M	40324	KY	The internet is a public utility and any attempt to change it will ruin commerce on the net!
992	John	Burke	11579	NY	The internet is a public utility ... treat it like one ... !
993	Cristina	White	97330	OR	The Internet is a public utility -- protect Net Neutrality and keep the Internet free and open!
994	Vesta	Shapiro	80442	CO	The internet is a public utility - support the people, not a couple of greedy corporations!
995	Jeff	Walls	80516	CO	The Internet is a public utility
996	M.	solomon	17109	PA	The internet is a public utility
997	Dale	Ochalek	34221	FL	The internet is a public utility
998	Harold	Mills	12455	NY	The internet is a public utility
999	david	handell	46373	IN	The internet is a public utility
1000	Pamela	Alexande	27407	NC	The internet is a public utility
1001	Robert	Merrill	93720	CA	The internet is a public system, and should not be allowed to have one fast system for those who have the financial resources to out bit us common folks. equal access for all is important, not the privileged few. The essence of DEMOCRACY is equality for all, anything else is a scam by the corporate world just as the Citizens United decision was.

1002	Cheryl	Bresney	61704	IL	The internet is a public service which should remain available for all. Those who would deny even one citizen proper web access is a fascist, not a democrat. Corporate America has bought every media outlet in this country to control and misconstrue news. Now they want to strap our ability to access everything. Disgusting that a democrat has his sticky fingers in this travesty.
1003	Lynne	Whited	60187	IL	The Internet is a public resource not to be given away to the special interests so that they can make even MORE obscene profits from a public common. Start representing the people and designate it a utility!
1004	Michael	Lippa	10314	NY	The internet is a public place. How about we sponsor the express lanes on roads so only premium cars can drive in them while we are at it.
1005	RayandJack	Guy	19070	PA	The internet is a public domain and you have no right to throttle it for money!!
1006	Lawrence	Liles	20115	VA	The internet is a public commons not to be gamed by providers. US service is already too slow. Make it all hyper-speed for everyone.
1007	Kris	Rosvold	97760	OR	The internet is a primary communication utility. We DEMAND that it be open, neutral, and regulated accordingly. - - IF you choose to ignore that demand We The People WILL rise up and replace you ALL with folks who are actually willing to Do The Job which we pay you to do! - - Read you Charter, and DO YOUR GOD DAMNED JOBS!!
1008	Steven	Whitson	94112	CA	The internet is a packet switched network just like the telephone services has been over at least the last decade. Correct this error and class internet services as public utilities class II common carriers.
1009	Gillian	Barker	17837	PA	The internet is a necessity for consumers, workers, businesses and organizations of all kinds. Treat it as such.
1010	Jonathan	Werbel	02719	MA	The internet is a necessary utility, and it needs to be regulated so as not to benefit only a few people. It was developed by public money, and it needs to be run for the benefit of the public.
1011	Margaret	Best	06410	CT	The internet is a great equalizer of opportunity This country wnts all public institutions to be run for profit. It must stop.

1012	Maria	Hoch	32503	FL	the internet is a daily part of my life, and not in the social sense so much as the norm for conducting business chores. i am 61 yrs old and not a techie & much interraction is going the way of the internet & away from other forms of taking care of daily business: bank, bills, etc. the internet is a utility service, not a luxury or method of choice anymore, and it is just going to be moreso in the future
1013	Paul	Dawson	15601	PA	The internet is a crucial part of our public infrastructure.
1014	Jim	Barber	80439	CO	The Internet is a common carrier. To allow "pay for speed" would be discriminatory to lower-income groups such as children, elders, single parents, and students. It would work to retard or thwart digital innovation and progress. Also, there is the very real possibility of other economic or political misuse.
1015	Bill	Grogan	53911	WI	The internet is a common carrier. - - This comment shows the two way communication
1016	Nathanael	Nerode	14850	NY	The Internet is a common carrier service. I do not want Time Warner Cable or Comcast discriminating and making data from their buddies faster and data from their political opponents slower... but that's what they'll do, unless you declare Internet service to be *common carrier* service, which, legally, it is. Stop breaking the law, please.
1017	Kit	Joel	93103	CA	The internet HAS to be free and open to EVERYONE! - - - - Big corporations have no right to control its content or decide who pays-to-play. - - - - It is unbelievable that this possible takeover by over by over zealous corporations is being proposed, much less taken seriously by the FCC - - - - YES TO NET NEUTRALITY!!!
1018	Julie	Tedeschi	11758	NY	The internet has opened knowledge to all people - finally leveling the playing field. What right does the corporate world have in taking this basic freedom away from us??

1019	Kathleen	Bren	55355	MN	The internet has made it possible for a lot of small companies to start businesses in our small towns. They have equal access to customers because of net neutrality. Now you want to tank this bubble of American creativity for the already already rich and powerful. Oh that's right. The rich and powerful already own this country that used to be a democracy and now is an oligarchy. Free speech will also get shut down too which is probably the plan. If you have the money you can now buy the public airwaves for your candidate anyway-Citizens United-what an oxymoron.
1020	Leslie	Sirag	98512	WA	The internet has in many ways leveled the playing field for people who lived outside cities, didn't have very good schools, etc. Making it a 2-track system with paid advertisers having an advantage would make it bumpier again.
1021	Nathan	Wessel	33334	FL	The internet has help me to grow and learn all sort of wonderful things. Why privatize it when it should be a public utility. This is suppose to be a democracy not and land for we the people not big corporations. Let keep it this way.
1022	Anne	Straub	11201	NY	The internet has been the locus of innovation and has provided a level playing field for businesses of multiple sizes as well as individuals. - - - - An open internet is more important than giving providers another way to increase profits and provide advantage to large companies with bigger budgets.
1023	Stanley	Pannama	33321	FL	The Internet has been free since its inception. The FCC should keep it that way.
1024	David	Klampert	90005	CA	The internet has been established as a public utility and should remain as such. It is unconscionable that it be put out to bid to the highest bribery. We Are Watching!

1025	Rafael	Vazquez	32714	FL	The internet has been a free access for all commodity since its inception. Why does the FCC want to screw it up now. The majority of users are people with very few resources. Large companies who want it for themselves are in the minority. Why should these large companies, who are in the minority, get what they want against the wishes of the general public, who are in the majority. This is a travesty against the concept of "majority rules".
1026	Sharon	Chelton	94619	CA	The internet has been a blessing to ordinary people all over the world. Please don't give corporations yet another advantage.
1027	Patrick	Mclaughli	03036	NH	The internet has become the principal way that many of us get news, communicate, get urgently needed information, and do business. - - - - The idea that such a CRITICAL piece of infrastructure is not a public utility is absurd. - - - - It is. Treat it as such.
1028	Sherry	Thomas-H	94941	CA	The internet has become the primary place for publlic discourse It was founded with R&D money from tax payers. Our democracy cannot function without uncensored discourse. Therefore, the FCC should oversee the internet as a public utility.
1029	Craig	Johnston	97056	OR	The internet has become the modern day equivalent of the RF spectrum and it is not in the public interest for large private firms to selectively restrict access.
1030	Joseph	Holdner	11215	NY	The Internet has become the life's blood of information. Anything that stifles it cuts off the communication of new idea.
1031	Barbara	Warner	91977	CA	The internet has become integral to public communication, information sharing, and the community of nations. It is unconscionable to commoditize access to this utility for the profit of a relative minority, turning the internet into a "haves" and "have nots" proposition. Is there anything in America that's not up for sale?

1032	Ellen	Levine	97530	OR	The Internet has become integral to our daily life. As a senior citizen I depend on access to the web for banking, shopping, monitoring my health and keeping in touch with family and friends. My tax dollars helped pay for the development of the internet. It is a public utility and should remain so forever.
1033	Deborah	Kauffman	80634	CO	The internet has become I dispensable to modern life, as has the telephone before it. And like the telephone, it should be a PUBLIC utility.
1034	Jane	Williams	12561	NY	The internet has become essential to life as we know it in just twenty or so years. And, like access to electricity and telephonic transmission, IT IS A UTILITY.
1035	D.M.	Nelson	92130	CA	The internet has become as integral to our lives as the telephone. In some ways it has replaced the telephone! Do you give better phone connections to companies than to individuals? Don't mess up a good thing. Keep the 'net neutral!
1036	Shay	Gooding	98331	WA	The internet has become a public utility and requires safeguards to keep it an even playing field for all companies, not just those who can buy their way in.
1037	Aletia	Morgan	08816	NJ	The Internet has become a necessity for Americans, as was the telephone in an earlier day, and should be regulated as a public utility!
1038	benjamin	morpurgc	91205	CA	The Internet has become a human right, it is not for you or anyone to say otherwise.
1039	Steven	Page	60091	IL	The internet has and always should be a free and open communication with the rest of the world and not controlled or restricted by corporations.
1040	Steve	Ditore	98125	WA	The Internet has ALWAYS BEEN a public - - utility since its decommission as DARPANET - - and release to the public domain in the mid- - - 1980's. Designed, built, maintained, and - - finally distributed with PUBLIC MONEY. - - Acknowledgement of it *as* what it has - - always been - a PUBLIC UTILITY - - - - doesn't require any leaps of logic or - - establishment of new precedent.

1041	Thomas	Mills	73505	OK	The internet functions just fine the way it is and has been. We do not need big business owning it to the point of total control. They should be participants like everyone else.
1042	Rebekah	Morris	97219	OR	The internet functions as a public utility and must be declared one. Non-profits like the one I work for rely on true net neutrality to do business.
1043	William	Strileckis	02356	MA	The internet does not belong to the phone companies. Keep it neutral and open.
1044	mary	donohue	80111	CO	The Internet DOES NOT BELONG to corporate providers, but to all of us. Internet neutrality is vital to small business, as well as to our democracy.
1045	Brian	Loudermi	03062	NH	The Internet DESERVES Common Carrier Status. Just like land line Telephones.
1046	Mark	Jenkins	01960	MA	The internet cannot be owned
1047	Eva	Boman	02131	MA	The internet cannot be bought and sold by the highest bidder, it must be a public utility!
1048	Audrey	Jordan	76011	TX	The internet can NOT be anything but ONE LEVEL, completely neutral. If it changes in any way it will be because those in power have been compensated.
1049	Karen	Smith	98660	WA	The internet cable companies are already bloated and have no competition. Why should we let them have for free what we pay for in their huge charges for service.
1050	Karen Hedw	Backman	98003	WA	The Internet belongs to us.
1051	Jeffrey	Wagy	33880	FL	The internet belongs to us all just like the airwaves and should not be controlled by big business.
1052	Carol	Senechal	23508	VA	The internet belongs to the world - not YOUR chosen few! Preserve Net Neutrality!
1053	Mary Helen	Venos	32312	FL	The internet belongs to the public, to all of us. Big business has no right to control it and limit access.
1054	Katherine	Wuthrich	60659	IL	The internet belongs to the people. Not - - to the Corporations. Money is not speech - - it is an item and a thing not a person.
1055	Natalie	Fine	08831	NJ	The Internet belongs to the people, not to the corporate interests whose only thought is of the bottom line. Keep the Internet open and free and equal for use by the public, not for more profits to the cable companies.

1056	Ward	Clark	01469	Mas	The Internet belongs to the people, not the telecom cartel.
1057	Paul	Heberlein	53563	WI	The internet belongs to the people, not the corporation people, the real people, don't give it away.
1058	Patricia	DuBose	37683	TN	The internet belongs to the people, not big telecom.
1059	James	Barringto	06412	CT	The internet belongs to the people, not big communications companies. The current net contributes significantly to our national production and economy. Giving the net to big communications companies such as Verizon, Comcast and ATT will only make it difficult
1060	Roland	Buck	60004	IL	The Internet belongs to the people, and not the corporations.
1061	Hector	Cusuman	10956	NY	The internet belongs to the people of the United States not big business
1062	John	deAndrad	97220	OR	The Internet belongs to the people not to the corporations.
1063	Claire	Joseph	91016	CA	The Internet belongs to the people not the Corporations and we demand it stays in our hands.
1064	Mr. & Mrs.	Cadeallad	63138	MO	THE INTERNET BELONGS TO THE PEOPLE NOT CORPORATE AMERICA...THE INTERNET MUST REMAIN OPEN & FREE!!!
1065	John	Hablinski	78405	TX	The internet BELONGS to the people and the people alone. The very idea that the FCC would ever conceive it had the right to give it away to cable providers is absolutely abhorrent and UNACCEPTABLE!
1066	Marc	Habern	85048	AZ	The internet belongs to the PEOPLE !!
1067	Vincent	Acevedo	87121	NM	The internet belongs to the American people, and is not meant to support corporate greed. Tom Wheeler has definitely been lobbied with promise of riches to push this through.
1068	Roberta	Dees	28278	NC	The internet belongs to me, and everybody else!
1069	Clyde	Summere	32218	FL	The Internet belongs to everyone. We all contributed to nurturing and building it. It is not right that a few greedy billionaires and their bought political hacks want to steal it.
1070	Mercy	Drake	85205	AZ	The internet belongs to everyone!!

1071	Mitchell	Maness	75061	TX	The internet belongs to everyone and every company. Money does not get to determine who can and cannot have the same access to the internet as the large providers. This would be an affront to freedom of speech.
1072	Nina	Gregory	22903	VA	The internet belongs to each and every American citizen, not the corporations.
1073	Eileen	Welch	61265	IL	The internet belongs to all the people.
1074	Sharon	Loudon	61333	IL	The internet belongs to all of us. Setting up a two-tiered system will continue to widen the gap between the "haves" and "have nots."
1075	Steve	Deetsch	40205	KY	The internet belongs to all of us.
1076	Virginia	McKay	43050	OH	The internet belongs to all of its users not just a select few.
1077	Laura	Carroll	85716	AZ	The Internet belongs to a free people who rightfully access this common ground tool of democracy.
1078	donald	miller	44907	OH	The Internet belogs to We the people ,not the corporations !
1079	Jeffrey	Sherman	06798	CT	The internet began with government funding, as a DARPA project. A two-tiered system would simply be the FCC giving money to ISPs at the expense of consumers.
1080	Mark	Serpas	94110	CA	The Internet as much of a public utility as electricity, and should be regulated as such.
1081	Kathleen D	Stella	53562	WI	The internet as it currently functions is a wonderful tool for everyone who can afford a computer or has access to one in a public library. It is the best most democratic tool to come along. Let's not let it fall into the hands of those who prefer "pay to play".
1082	Linda	Adams	91344	CA	The internet and the government belong to the people therefore net neutrality should be the rule.

1083	Lisa	Sievers-M	68770	NE	The internet and public tv are about the only forums to which people can find news in the world these days. We already pay our phone company to just have the privilege of using internet at home. Internet access should be a public utility. You've already taken away laws that govern ownership of radio and television stations, please don't make the internet a free for all for companies like Verizon. We need to have net neutrality in order to find unbiased information.
1084	Jessica	Marian	48197	MI	The internet and equal access are not just for those with enough money in their pockets. Do your job and protect the interests of individual taxpayers over the interests of telecom giants. The get enough tax breaks already, don't allow them to create a further divide between the haves and the have nots. Thank you
1085	CJ	Livingstor	98115	WA	The Internet and access to it has definitely entered the level of importance and universal acceptance that utilities have. It needs to be regulated as a public interest as other utilities are.
1086	Martin	Stone	92203	CA	The Internet always was and now even more obviously has become a public utility. It should be regulated as such.
1087	William	Marchion	19003	PA	The internet already has a "Fast Lane" - it's the internet. Creating a special, new "Fast Lane" will actually create a "Slow Lane" for everyone who's now in the Fast Lane but doesn't pay extra. That sort of imbalance sucks on a great number of levels.
1088	Lisa	Champell	47429	IN	The Internet allows for 2-way communication like telephones. Please classify the Internet as a utility.
1089	Mar	Langan	94110	CA	The Internet above all these days has become a public utility as important as the traditional airwaves for the dissemination of public information. Do your job and keep the internet open!
1090	Ann	Rousseau	04862	ME	The internet was meant to be open access, net neutrality must be protected.
1091	Jose	Gomez	75006	TX	The inter et doesn't belong to corporations. It was built with the people's money. It needs to become a utility.

1092	Nova	Fortier	97206	OR	The Information Highway is an integral part of our daily lives. Access to this highway must not be limited in any way, shape or form.
1093	Sharon	McClure	06759	CT	The idea that corporations should get yet another benefit from publicly funded research and development is anathema to me.
1094	Thomas	Bolinger	97229	OR	The idea of the internet becoming a tool that is skewed toward the rich or powerful is abhorent to democracy. The internet belongs to all humanity.
1095	Toni Louise	Carman	45052	OH	The idea of a dual level internet is a travesty.
1096	Myrna	Gilbert	93111	CA	The head of the FCC is a dingo, alright! And the internet is a public utility alright. Let's save net neutrality!
1097	Mary	Brady	52001	IA	The greed of the 2% is a staggering and egrigious travesty. The internet needs to be treated as a utility and not the rich boys and girls toy.
1098	Ronit	Dancis	20815	MD	The government paid to develop the internet. It belongs to the citizens, not the corporations,
1099	Bob	Thompso	53704	WI	The government needs to leave some things alone, and not try to control everything and evryone
1100	George	Wilson	60070	IL	The Government must maintain an even playing field for all, and not sell access to the highest bidder.
1101	Neele	Johnston	20818	MD	The government did not build the Internet as we know it, but the Internet as we know it exists because of government sponsorship, it's role in determining the requirements, and providing the incubation environment that allowed it to thrive and reach critical mass. The telcos were building their own, totally different and drastically inferior solutions. The Internet is now part of the Commons, and needs to be treated and regulated like a public utility, under the law.
1102	Nicolina	Contardo	08690	NJ	The government (us) funded the beginnings of the internet.It's our common property
1103	Ram	Param	68901	NE	The function of the FCC should be to safeguard the interests of the American public, NOT to maneuver clever giveaways to big business.

1104	John	Lester	98119	WA	The function of the F.C.C. is to regulate the purveyors of communication technologies on behalf of the American Public, not give them what they want at our expense.
1105	N	Grisel	06339	CT	The freedoms of the internet are the freedoms of the people, and no corporation or entity should be able to hinder or impede the flow of that information or the speed with which it is given. To do so is an encroachment upon freedom, and a sign that the companies are being held in higher regard than individuals.
1106	Jean	Lewandov	56461	MN	The free exchange of information is the life blood of democracy and should remain free of political and corporate corruption and manipulation.
1107	Lance	Ganassi	15089	PA	The first day after the public comments period ends, the reclassification should begin!
1108	Jeanne	Young	98382	WA	The Fcc's contiued failure to acknowledge it as such is a stunningly clear admission of where the FCC's priorities, and personal interests lie. - - NOT the FEDERAL, but the CORPORATE interests??
1109	Leila	Zai	92104	CA	The FCC's canceling internet neutrality is a little like the federal government's handing over the postal system to FedEx: an indescribably bad idea.
1110	Earl and Mi	Shumaker	60178	IL	The FCC works for the American people not for these corporations The internet belongs to all Americans -not just the rich and powerful If the FCC sides with greedy, corporate CEOs , the FCC will be trashing democracy and transparency in this country
1111	Kevin	Brown	94551	CA	The FCC was unable to competently issue regulations re, commercial volume to benefit consumers. Why wouldn't they allow "Telecom Fuckery" to become the law of the land? Stand up for the little guy, not the number two lobby in congress. Make internet neutrality the law of the land. Kevin Brown
1112	William	Derrah	60558	IL	The FCC was supposed to keep the Electromagnetic broadcast spectrum public do not fail the American People again.
1113	Gary	Stimeling	04941	ME	The FCC was not intended to be a wholly owned subsidiary of corporations. Find some integrity.

1114	Marian	Young	10013	NY	The FCC should reclassify the internet as a Title II communications service so it can remain public and not be taken over by huge companies for their own interest.
1115	Joseph	Pallazola	94703	CA	The FCC should protect and support the American public's right to internet neutrality, and not grant special favors to the two or three virtually monopolistic service providers.
1116	Philip	Fertik	60302	IL	The FCC should have the courage--and that is what it takes in view of the forces arrayed against Net Neutrality--to treat the Internet as a common carrier.
1117	Roseanne	Salyer	80022	CO	The FCC should concentrate on getting assholes like Rush Limbaugh off the airwaves and leave the internet alone. It is a public utility. What will happen when most of us can't pay and spend all our time waiting. You think you got emails, now! Are you sure these guys aren't in Congress? Keep your hands off our internet/
1118	Thomas	Miller	65777	MO	The FCC regulate the AIR WAVES period. It has nothing to do with the internet. The internet is a public utility. It needs to have net neutrality. Hands off!
1119	Ben	Burrows	19027	PA	The FCC proposed rule is a shameful fraud. A tiered access to information based on fees from information sources will set a precedent for tiered access to information receivers, leading to the isolation of information from the public based on their inability to pay
1120	Ramona	Wiles Kra	09705	CA	The FCC needs to show that it is not just a yes man for the cable companies.
1121	Maxine	Luke	48446	MI	The FCC Needs to keep internet free of Comcast, time Warner or any entity that is just looking to make more money on our backs. Make internet a public utility.
1122	Loretta Elai	Madsen	91350	CA	The FCC must not create 2nd class internet citizen/users.

1123	John	Ebert	33304	FL	The FCC must classify Internet Service Providers (ISPs) as common carriers. It's like the telephone, it should be equal access to all users. If you have more money than I do or you are more well connected than I, that should not translate prioritized or faster service. The Internet belongs to the people.
1124	Jonathan	Marten	21702	MD	The FCC is supposed to work for the people, not mega corporations. Do your job correctly!
1125	Jim	Mastro	03820	NH	The FCC is supposed to work for the American people, not a couple of mega-rich corporations.
1126	John	Ballard	98072	WA	The FCC is pretty much useless.
1127	Roger	Wilcox	84092	UT	The FCC is not YOUR career-making toy. You have a responsibility to serve the public interest, which the public overwhelmingly agrees is net neutrality. Cross the public at your own peril.
1128	richard	holloway	12477	NY	The FCC is clearly working against the best interests of the citizens and needs to put an end to enabling the corporatocracy NOW
1129	Glenn	Munson	05761	VT	The FCC is a public function pledged to serve ALL citizens, not pay-off corporate bribe dealers.
1130	Diana	Lee	94705	CA	The FCC is a government agency - your job is to represent the public's interests. DO IT!
1131	Peter	Butt	90009	CA	The FCC has ruined the commercial broadcast business. Now it turns its attention to the internet. What are their plans for the intermediate future? -- what's next on the chopping blocck?
1132	Karen	Rapp	64152	MO	The FCC has not right to change the internet so it favors huge corporations, unless this is an Oligarchy instead of a Democracy. Dear FCC Chair, do you or do you not believe in a DEMOCRACY? Why do you persist in ignoring the many many many in favor of the few? Net Neutrality is the only way for the world and it's democracies to remain free. Fast Lanes are to propel the rich even further and separate the rich from the poor. Shame on you if you think restriction of a free and open internet by way of affordability is the way to go.

1133	A	Martin	56465	MN	The FCC has done a royal job of screwing up the entire over-the-air broadcast industry over the years, radio and television, with ownership rules changes, etc. Instead of a resource for The People, it's become an automated cash cow for the wealthy with very little informational or even entertainment value. Innovation and small broadcasters have been carved out of the picture, just to ship more wheelbarrows of money to those who already have too much. - - - - Don't do the same with the Internet.
1134	Robert	Weiner	90068	CA	The FCC has caved! Try serving the people's interest, for a change.
1135	Marc	Johnson	90292	CA	The FCC exists to protect the interests of citizens, not corporations. The current policy position of the FCC does not do this - instead providing an avenue for corporations to make private deals to ensure their content gets priority passage on the internet. The FCC must take a strong and clear position to preserve net neutrality - i.e., equal priority and carriage for all traffic on the internet, regardless of source, destination, or status of the individuals or entities sending and receiving.
1136	Michael	Petersen	84020	UT	The FCC draft policy on net neutrality is unacceptable. The Internet is a public utility, and all users must be able to use it in a fair and equal way.
1137	Kim	Elmore	20135	VA	The FCC can preserve Net Neutrality only by designating broadband as a telecommunications service under the law. Anything else is an attack on our rights to connect and communicate.
1138	Carol	Rakowski	07430	NJ	The fair use of the internet is important in a democracy- it is a public utility!
1139	Marilyn	Latham	94115	CA	The fact that you, the FCC, is even considering this shows how out of whack your priorities are. Listen to the people. Keep the Internet neutral!!
1140	Rick	Rutherfor	97220	OR	The existing monopoly the cable companies already have should not be further deepened by giving them complete sway over the internet as well. The net should remain an open pipeline for the free exchange of information.

1141	Toni	Seger	04051	ME	The endless greed of Big Business is salivating to swallow the Internet and charge all of us for every single email we send. The FCC doesn't give a hang about those of us who need the Internet. They only care about Big Business and Big Dollars.
1142	Kathleen	Ryan	95821	CA	The end of net neutrality will be a disaster, and one we will never recover from. Don't do it. Just don't.
1143	Cory	Withers	58103	ND	The egalitarian nature of the Internet is the key to its success, sell that, and you sell us all out.
1144	Jennifer	Neff	94536	CA	The death of Net Neutrality means the death of freedom of speech on the Internet.
1145	Stuart	Harper	20740	MD	The current net neutrality proposals are a threat to small businesses and take away any possible competitive edge they may have defining themselves against larger competition. The current proposal is another form of elitist oligarchy that has the public outraged. This is a flagrant abuse of power.
1146	Ellen	Wittman	87505	NM	The current net neutrality proposal should be rejected in favor of regulation of the Internet as a utility - as a Title II common carrier. The notion of examining individual agreements under commercially reasonable standards" is unworkable since each proceeding will be ground down in litigation and the FCC staff will make settlements that are weak and ineffective. Even not prohibiting fast lanes will tacitly allow tham and money will rule the Internet - all the new high speed infrastructure will go to building these fast lanes and service will deteriorate for all others. Since the Internet is SO important now for so many lives and commerce, it must be regulated as a utility - because IT IS."
1147	Michael	Bradley	20164	VA	The course reversal of the FCC is nothing short of stunning. It's readily apparent to even the most conservatively leaning citizen that the internet is a utility that needs to be regulated against being hijacked by those wanting to squeeze every last dime from their subscribers.

1148	Cary	Gersh	48302	MI	The country that invented the internet has among the highest cost and worst service in the developed world, largely because of bad decisions by the FCC. Don't make another one.
1149	brandy	Walter	32935	FL	The corrupt practices you are employing is helping to push the American people into further poverty, ignorance, and oppression. Help stop the decline in our country by supporting Net Neutrality and allowing our people to thrive in a forward moving, progressively technological world. Without making it the FCC's top priority to incorporate the internet as a public utility, making it faster, more reliable, cheaper, and available to everyone in America, then you are being part of the problem. For once, be the solution and help get America back on her feet.
1150	Jo Anne	Viserta-G	92646	CA	the correct thing to do is to keep the internet as a public utility. It's getting to be as bad as people making a fortune selling water - which is just wrong in so many ways.
1151	Evelyn	Asher	14469	NY	The corporations have already bought our government, don't let this happen to the internet. Keep the internet free and make it a public utility.
1152	Richard	Davy	06037	CT	The consolidation of telecom you've already permitted is bad enough, don't give these monopolistic profiteers control over the internet. How can the internet of today be treated as anything other than a public utility??? - - - - We are watching this closely!
1153	stuart	toledano	77077	TX	the communication companies already have private virtual network capability for their customers who want guaranteed bandwidth at a particular speed. - - keep the rest of America's communications network neutral with equal access for everyone. - - get the communications providers out of all content provision and/or control. they are holding america back from the increased bandwidth we need.

1154	Teresa	Blakely	43202	OH	The chairman of the FCC hales from the telecom industry? We need someone from Public Citizen or another consumer protection group to represent the interests of the American peopleat the FCC. Corporations will censor or slow down information that goes against their bottom line in a heart beat. The ability to slow content amounts to a right to censor content. This is very dangerous to our democracy.
1155	Tara	Noland	28401	NC	The cable providers are already a complete monoploy, which is supposed to be illegal in this country. For the love of all that is decent, don't give them anymore power. The internet needs to remain neutral. They are already making billions in profit. Don't give them the power to extort more from us. The internet has become too integrated in the world's daily exsistance to allow any company to have this kind of power over it.

1156	Joel K	Seidman	08004	NJ	long, they deserve every bit of disdain they are getting. My biggest complaint is from many years ago. Comcast raised the cost of service by $1.00 with no valid explanation. It wasn't long after that that they showed off their new building and the multimillion dollar sign in their lobby. Weren't they so lucky they had millions of customers. - - - - - - - - - - - - - - - - Comcast,,,, - - I'm too angry afer the millions of dollars they raised by raising $1.00 to their customers, then showed off theiir miilllion dolllar lobby TV screen that was so big and unecessary. Great bragging rights, so I switched to Verizon FiOS. Couldn't have been happier. Now Verizon service is getting slower and slower and they've been increasing priices and want us to spend more for speed. Have those of us not realized, it now takes as long as two minutes to get on line? But I can get iit faster if I want to pay ten dollars a month more. Now we have two prima donnas in cable. Stop and realize that $10.00 a month translates into millions of dollars for Verizon is become a blood sucker. Your front opening page is so covered that I now get a 2 inch by appox 15 inches to read our email, and thats on a 24 inch screen and the rest of the screen is fillled with ads. If my email doesn't allow me to view in my web browser, I don't readit, I just delete it. It's the cable company already raises my rates whenever they want to and I'm a captive in their system.
1157	Judith	White	98070	WA	Now they want to give rich people a leg up on speed and content??? NO
1158	Victoria	LoSchiavc	44057	OH	The Cable Companies must be brought to heel for the sake of consumers. The FCC needs to do its job.
1159	ELIZABETH	COLASUR	98166	WA	THE CABLE COMPANIES MJST NOT HAVE THE RIGHT TO OFFER SPECIAL DEALS TO COMPANIES WHO WANT TO STREAM CONTENT AT MAX SPEEDS. KEEP NET NEUTRALITY PURE!!

1160	Richard	Haag	77382	TX	The cable companies have already created a monopoly for delivering bandwidth to the last mile. Do not give them another monopoly on what is delivered and how. Ample evidence exists of Comcast downgrading Netflix until the agreement was signed at which point Netflix speeds went through the roof.
1161	Duane	Swanson	93422	CA	The cable companies are the ONLY ones who want this. DON'T DO IT.
1162	Roberta	Altman	89144	NV	The cable companies are creating regional monopolies. Our cable (includes home phones, internet and television)bill has increased four fold on the past 6 years. We pay as there is no competition.
1163	Lisa	Lcorbett	92009	CA	The cable companies are already at a monopolistic level. Please do not allow other companies to manage what we Americans are able to view based on their influence.
1164	Christopher	Straub	30189	GA	The business of data flow, the cost of connecting pipes and cost being related to which side receives more data is set. Do not create a separate class of business to have an unfair advantage, stymie growth and innovation.
1165	Richard	Burdick	97477	OR	The bottom line is why we have some of the slowest Internet among developed nations. We need to keep ISPs from lobbying Congress to let them own the Internet in the USA.
1166	Steve	Hawkins	77571	TX	The big providers don't need any more monopoly
1167	nova	cristea	94530	CA	The big media companies are screwing the middle class as well as the lower class, economically, that is.
1168	John	Belz	22207	VA	The big boys don't need any more help. One Lane only please!

1169	Jane	Lynam	02632	MA	The best thing that could be done for the internet is investment in the infrastructure, not an investment in limiting access and adding even more dollars to the companies who dominate the internet. They didn't develop the internet, they have been using if for free for a very long time. The federal government paid for the development of the internet. It was never meant to be a profit center. Stay on the side of the average American for a change.
1170	Robert M	Culp	29203	SC	The basic issue in the US internet system as it currently stands is that it is alarmingly slow when compared with ever second tier nations. It is much slower than any of the nations we are in direct competition with, and the concept of having companies pay for speedier delivery will only compound that problem. I grew up in a rural area, and my family had to string 3 miles of phone lines to even get phone service into the 1960's. When the line was accepted by the phone company we ended up as one of 16 on a party line. As soon as the phone service began to be truly treated as a utility service our service began to improve. Why can't internet services be treated this way?
1171	Doonald	Gurney	22205	VA	The American people want to retain net neutrality. The internet is a public utility. Regulate it as one.
1172	jack k.	ellis	88061	NM	The American people get so little that is neutral. Don't give away the internet to unfettered capitalists.
1173	Mary	Rau	99114	WA	The American people are constantly ripped off by mega corporations seeking to increase profits. It seems that every day there is some new scam to move the money of the 99% to the pockets of the 1%. It all needs to stop and the internet should be affordable and equally accessible to everyone.
1174	Nicholas	Campbell	33434	FL	The airways belong to the people...and corporations ARE NOT people!

1175	tim	grimes	97338	OR	The airwaves were public property. The foundation of the Internet was built and paid for by the taxpayers. Much of the most basic equipment STILL belongs to the taxpayers and they foot the cost to maintain the whole system. The idea that a man can own part of the electromagnetic spectrum and charge others to use it is moronic. If he has content to sell that is one thing, but access is a human right, just like access to oxygen in our air. STOP THIS FARCE NOW.
1176	Roy	Nowak	46303	IN	The airwaves belong to the people,.long may it wave.
1177	Bruce	Olson	25414	WV	The airwaves are public property, entrusted to the FCC to be managed in the public interest. Please remember that you work for *all* of us, not just the communications giants. The internet is not just a new thing in the world, it is a new world. You will decide whether millions of us will be enfranchised or disenfranchised going forward. Please consider *all* of the people you work for...
1178	Deina	Underhill	97007	OR	The airwaves & internet, and all other public communication methods, belong to THE PEOPLE, not to the highest bidder!
1179	Gene	Dwyer	60120	IL	The air ways must be free, open to al all and thereby owned by the public. Screw business. And I do mean screw every cable and internet company!
1180	Sharon	Mohr	53718	WI	The air waves belong to the people. The FCC should do the PEOPLES work not the BIG corp. Stop this NOW
1181	Gail	Lakritz	23188	VA	The actions the FCC would take in this matter would remove 1st Amendment Rights to be heard. Isn't that one of the premises that the Tea Party is attacking Obama on, the removal of 1st Amendment Rights? Looks like they could be right on that one.
1182	Gloria	Chertock	94941	CA	The 99% don't believe that the public airwaves should be for sale.
1183	Mike	Cosner	46219	IN	The 1st amendment isn't for sale. If it ain't broke, don't screw with it.

1184	Victoria	Parshall	34639	FL	The 'Land of the Free' HAS to include Equal access for ALL!
1185	Amber	Del Vitto	87410	NM	That's a totally absurd rationale!!! I'm a disabled retiree, housebound, who uses the internet daily for all sorts of information, intellectual expansion and socialization. Being on a fixed income, I wouldn't be able to afford anything BUT the "cheap lane" if net neutrality were to be killed. Obviously, it all goes back to the greedy communication corporations' self interest, not the collective interest of the public.
1186	Diane	Donlon	14217	NY	That we even have to petition over this is unbelievable. I wonder how you people sleep at night.
1187	Eric	Bjorksted	95519	CA	That this is even being considered is anti-democracy, and flies in the face of every effort to make data and information (especially that used by our Government) available to the public. This is a pure money grab and will damage our Nation in subtle, but very real ways. You should actually be focusing on monopoly breaking in this industry, not tilting the balance towards established, monopolistic enterprises.
1188	Roger	Horn	16214	PA	That FCC vote in favor of the oligarchy was despicable.
1189	eddie	beett	31906	GA	thanks

1194	Charles	Green	85203	AZ	Telephone is a public utility. VoIP is telephone. VoIP runs on the Internet. Therefore the Internet is a public utility
1195	Jason	Urbanczy	04102	ME	Ted Cruz is scum of the planet.
1196	Brent	Holman	53703	WI	Taxpayers paid for the internet, we should have unfettered access to it.
1197	Jayne	Eastman	98023	WA	Talk about not beneficial for the American people. This would be total Cable Company F**ckery, and not good for We the People.

1198	Rhonda	Paul	29414	SC	Talk about Class warfare. The rich get the quickest lane and the rest of of have to hang on the slow lane. That's totally unfair and sickening.
1199	Greg	Tortoreti	92562	CA	Taking more choices from citizens is not the American way.
1200	Gabriel	Funes	20706	MD	Taking away net neutrality would artificially disadvantage smaller businesses and narrow consumer choices, ultimately doing what all monopolization does. It will raise prices while lowering quality. Please don't sell out the internet.
1201	Fred	Cole	48906	MI	Take notice FCC: record breaking traffic and emails means something, it is not to be dismissed. If you serve the will of the people, then listen to what we are saying.

1301	Roy	Armstron	49221	MI	Stop letting money get in the way of innovation and allowing big monopolizing companies to let the money talk for them.
1302	Robert	Heisler	94116	CA	Stop giving public assets to Pig Corporations.

1303	Kathleen	Sigel	93022	CA	Stop giving perks to big business and protect equal access for everyone.
1304	Darla	Truitt	97007	OR	Stop giving gimmes to corporations! Net neutrality for the people!
1305	Ian	McFarlan	94110	CA	Stop giving away the store to your buddies/former/future employers in the private sector and start acting like regulators there to protect the public good.
1306	zaje	Richardsc	19013	PA	Stop fucking with the people that pay you.
1307	Robin	Love	92116	CA	Stop fucking w/ the internet.
1308	Joseph	Cross	13148	NY	Stop fucking the 99%! Does the FCC understand the definition of the word 'equal' - as in: the same for EVERYONE!
1309	W. Michael	Smith	03102	NH	Stop favoring telecoms and cable companies over the public.
1310	Mark	Roth	93940	CA	Stop favoring corporations over breathing humans.
1311	JR	Loughran	94103	CA	Stop F-king with the internet !!!
1312	Susan	Stark	14871	NY	Stop creating further economic disparity in this country!
1313	Heidi	Wood	80631	CO	Stop corrupted companies AT&T, and all the other Sprint you know them they pay you
1314	Mark	Webb	99611	AK	Stop corporate overreach now.
1315	Brian	Grice	85282	AZ	Stop corporate favoritism!!
1316	Paul	Auerbach	11364	NY	Stop Corporate Fascism
1317	Cassandra	Thompso	92374	CA	Stop corporate cronyism! The internet is a public utility!
1318	Sammi	De La Cru	93033	CA	Stop caving into corporations and do what we the people who taxes pay your paycheck want. No two tiered internet plan. It is WRONG and UNFAIR. Business already in business can afford it but new start ups and small business cannot. I would not be in the least surprised that you are taking bribes from the big corporations.
1319	Renee	Burdick	34639	FL	Stop catering to the rich. The internet should be equal access for all.
1320	Kenneth	Johnson	32333	FL	STOP catering to big business at the expense of the citizens who YOU are supposed to serve.....THINK !!!
1321	Andy	Broer	95124	CA	Stop cable company monopolies... Net Neutrality is the only way to insure the American way of life - All ".com"s are created equal!

1322	Tory	Banford	97302	OR	STOP cable company fuckery! Keep the net neutral! And keep former lobbyists from regulatory positions!
1323	Natalie	Bursztyn	84321	UT	STOP CABLE COMPANY FUCKERY! KEEP THE INTERNET A LEVEL PLAYING FIELD!
1324	Joel	Vogt	98404	WA	Stop Cable Company Fuckery!

1326	Marc	Friedman	60561	IL	Stop cable company f__kery.
1327	Marc	Frazer	32622	FL	Stop bowing to the moneyed interests, and start representing the people!
1328	Linda	Singer	90277	CA	Stop bleeding the average citizen to death. We are tired of being F_____ over all the time and from every direction. Leave OUR internet alone.
1329	Charles	Bird	98225	WA	Stop big cable rip off of America
1330	Paxton	Swafford	91316	CA	Stop being tool sheds for Time Warner and do the right thing.
1331	olga	davidson	02114	MA	Stop being such idiots about the internet. It's for communication, like the telephone. The two tiered system is rubbish and you know it.
1332	Debbie	medford	28472	NC	stop being knuckleheads! it was the free internet that helped solve the AIDS epidemic as college kids passed out info and helped process the info. we are more informed globally because we have access to the NET. can the 1% back off and leave us with something which feels like a level playing field!!! I know that kills the powerful but they have all their secret ways to communicate!
1333	rose	hall	85361	AZ	stop backing the corporations, FCC was for the American people not corporations to use as their own personal department
1334	Michela	Worthing	23223	VA	Stop allowing the proverbial Fox (former cable company lobbyist and now FCC Chairman) watch and destroy the henhouse. No fast/slow lanes for the internet. Regulate them like the essential utility that they are. The American public should not be held hostage by big media conglomerates.
1335	Richard	Manchest	32904	FL	Stop aiding the rip off of American citizens. Leave the internet alone.It is not broke and does not require fixing so big companies can feed their greed.
1336	Patricia	Hanaford	48430	MI	Stop acting like the US is an oligarchy.
1337	Lisa	Rook	98557	WA	stop selling our country to the highest bidders.

1338	DONALD	WATSON	21770	MD	Stop letting big corporations step on us!

1342	Mohamed	Jalloh	11221	NY	Stay out of my business
1343	Rachel	Campbell	41017	KY	Start providing the service we already pay for now!
1344	Alex	Meyer	55408	MN	Start looking out for the little guy and let the big rich companies use some of their money to pay a decent wage to the little guy
1345	Jon	McClellan	29044	SC	Stand up to the bribery of the new Robber Barons.
1346	H	Motter	56001	MN	Sorry I'm behind in making a comment which I would make if I were allowed to swear.
1347	Michael	Alexander	02464	MA	someone get after Ed Markey
1348	Michael	Luderitz	08330	NJ	Some countries access the net at speeds exponentially higher than the US, at the same low prices. Yet this country wants to give the go ahead to a multi-tier system permitted to extort more from consumers than is done now. This is shameful governance by the 1%.
1349	Kirk	Taylor	98597	WA	So... When is Jim Crow going to get a seat on the board? HE's the expert on unequality for all, all the time.
1350	Richard	Summers	61604	IL	So tired of paying a FINE for being non-rich!
1351	Michael	Rieck	50310	IA	So right!
1352	Macie	Boughton	95501	CA	So Many Americans are on the Internet every day--quite a few make their living through electronic transactions. It wouldn't be fair to make them pay more when most are scraping by already. The Internet needs to remain free and accessible to Everyone and for the benefit of Everyone not just multi-million dollar corporations!
1353	Mark	Weipert	22180	VA	So just sell the American public down the river. The SEC let the banks roll right over us and the FCC is about to let the overpriced cable companies roll over the American public too.
1354	Patrick and	Berry	87031	NM	So big money has more say in government laws and regulation then. WE THE PEOPLE OF THE UNITED STATES OF AMERICA!

1355	Tom	Sherman	77550	TX	So Big Biz has us addicted to a new(ist) fad, so now they want to put the Big Squeeze on us consumer people. Dang, can it ever stop?
1356	Hector	Vasquez	11218	NY	Slavery is over, please stop trying to reinstate it. The internet is for everyone.
1357	Judy	Czarny	75214	TX	Since the internet is part of our daily lives now, why isn't it designated as public utility? As it stands now, the FCC is actually working with large providers to help line their pockets by opening the door for so-called fast lanes. /why? Who wins here besides the big guys, hmmmm?
1358	Adele E	Zimmerm	87531	NM	Since many journalists (and, increasingly, many newspapers) disseminate information on the internet, doesn't this violate the First Amendment to the Constitution by abridging their rights?
1359	Elizabeth	Rutherfor	93101	CA	Since its inception the internet has been available ot all users on a level playing field, so to speak. It is vital that that equity be maintained. Anything less is unacceptable. - - Thank you.
1360	Robert J.	Roberts	66762	KS	Simple enough.
1361	James	Umbs	18324	PA	signing this per the request of Barbara McKasson
1362	Robert	Cannon	10036	NY	Sick and tired of corrupt corporate controlled government . . . . stealing from people.
1363	Dennis	Dunbar	04462	ME	Should the internet under the FCC's control, really? - - - - I question that they do.
1364	Michael	Perec	49423	MI	Should have been done years ago.
1365	Judith	Sanders	22406	VA	Shopping is a leisure activity. No fast lane is necessary.
1366	L	X	01970	MA	Share and share ALIKE! No elite class of international Internet or Web users!
1367	Lexie	Ross	30083	GA	Shame on you for trying to violate the constitution while hiding in the pockets of the Global Elite!
1368	dr	hegeman	10024	NY	shame on you for considering the fast track for the wealthy payers!

1369	Daniel	Duffy	02122	MA	Shame on the FCC for cheapening the best potential for human communication and information exchange in the modern era. This will only widen the divide between the rich and poor, allow for further dumbing down of American news sources, and polarization of our political process. It is rank testament to the federal government's wholesale prostitution to business interests. We the People, have been stabbed in the back.
1370	Daniel	Duffy	02122	MA	Shame on the FCC for cheapening the best potential for human communication and information exchange in the modern era. It is rank testament to the federal government's wholesale prostitution to business interests. We the People, have been stabbed in the back.
1371	Dan	Pritchett	30152	GA	Setting up two tiers is a bad idea.
1372	Peter	MURPHY	94550	CA	Serve the public interest, not special interests. Even if the special interests sent you to the FCC.
1373	ellen	turner	20852	MD	Seriously?
1374	Don	Nelson	55411	MN	Separating content generation and content delivery is a clear and simple distinction. That prevents a vertical monopoly in the service. - - - - There also need to be concerns about a horizontal monopoly, but those can be addressed separately provided we make the separation.
1375	Greg	Koshak	54947	WI	Send your bribes back assholes and keep net neutrality. You will have to get bribed to betray the public in another way.
1376	Diana	Goluke	03748	NH	seems to be no limit nor end to the greed of corporate America. Who are the takers? Certainly NOT the little man.
1377	Beverly	Bell	10805	NY	See; - - AMAZON versus Hachett to understand why net neutrality is critical to consumers.
1378	Ron	Baker	20009	DC	See John Oliver on HBO re: Net Neutrality. Call it what it is: PREVENTING CABLE COMPANY FUCKERY.

1380	denyse	biagi	85718	AZ	save us!!!

1381	Sandra	Pendell	93442	CA	Save the open internet,. It is a PUBLIC UTILITY that should serve all Americans equally. No special services available only to the wealthy and/or big corporations.
1382	Mark	Paterson	30080	GA	SAVE THE INTERNET.
1383	Ethan	Bruce	70506	LA	Save the internet.
1384	Tom	Prebis	44256	OH	SAVE THE INTERNET!!!!
1385	Conan	Norkus	84060	UT	Save our ability to communicate.
1386	Leona	Merrin	89117	NV	Save Network Neutrality, PLEASE!
1387	William	Talbot	98146	WA	Save net neutrallity
1388	Tom	McGraw	32223	FL	Save Net Neutrality. There should only be one internet lane and everyone has the same one. It is now a public utility.
1389	Brenda	Moen	59937	MT	Save net neutrality. No corporation should have the ability to control internet speeds.
1390	Deborah	Sandy	90272	CA	Save net neutrality. Do not let cable companies control or monopolize the net.
1391	Barbara	Caton	93424	CA	SAVE NET NEUTRALITY.
1392	Judith	Anderson	94903	CA	Save net neutrality! It's the right thing to do.

1398	Ken	Ceizler	91302	CA	Save liberty, free speech, a nation for the people by the people
1399	Molly	Noland	81240	CO	Save America! Make the Internet/Broadband a Public Utility. Now. Please!
1400	Ralph	Finley	95050	CA	Same as the freeway system, we can't let trucking companies have the fast lane and we get dirt sideroads
1401	John	Harper	97520	OR	Sad how the FCC is bought and paid from by the big cable companies.....Grow a pair and do something good for the American People....even if it is just once.
1402	Joyce	Hoffman	10606	NY	right on ditto - - - - it must be a public utility If the cable companies get their way, it is because they are paying big bucks to the Congress. And those voting for them should be voted out of office

1403	Robert	Hetrick	85306	AZ	Right now out Internet is severely inferior to that of other developed countries when it comes to performance and cost. Concentrate on fixing that instead of setting up ways to make it best for the advantaged.
1404	Douglas	Wieboldt	04039	ME	Ridiculousness.
1405	Miguel	De La Cru	33135	FL	Ridiculous that we have to even fight this. It's a sign that our representatives do not have our interests in mind.
1406	Rachel	Herbener	60202	IL	Rich folks already control too much.
1407	Russell	Jordan	22030	VA	REVERSE THE ABILITY OF THE CORPORATE/BANKING/CONGRESSIONAL/REGULATORS CABAL TO CONTINUE TO TRANSFER CONSTITUTIONAL RIGHTS AND PUBLIC PROPERTY TO TO THE GREEDY MEMBERS OF THAT CABAL..
1408	Christena	Lundy	33020	FL	Retired old lady. Can't put up with the f-ery.
1409	Alan	Bartl	95401	CA	Retain Net Neutrality. - - The internet is a public utility
1410	Peter	Bock	20037	DC	Resist greed! Keep the Internet a Public Utility, available to all of us, just like the air that carries our voices from one to another.
1411	Eleanor	Hoolt	44106	OH	Republicans keep saying they aren't scientists so they can't discuss climate change. However, there are actual scientists that can. Listen up. They don't know anything about economics either. But that doesn't stop the blah, blah, blah. signifying nothing. If the Internet were turned off - like the lights things would not go so well.
1412	ryan	duehning	92064	CA	republicans aree evil
1413	Ernie	Aldridge	19149	PA	Republican mantra - Money talks, bull shit walks - to replace e pluribus unium. Do this today. All that will be doing is making it official. 2 class society, brought to us by Koch unlimited-by-anything. History will show the actors in this miserable play in a not favorable way. Act today to save yourselves from the fate of Benedict Arnold.
1414	James	Silvestri	07047	NJ	Removing the internet from the public domain will be a disincentive to economic growth.
1415	John	Green	60073	IL	REMOVE TOM WHEELER FROM THE FCC AND BAN HIM FROM EVER WORKING IN ANY GOVERNMENT AGENCY FOR LIFE !

1416	Eric	Stordahl	49855	MI	Remove the head of the FCC and ban him from working for any internet or media company.
1417	Judith	Routledge	90077	CA	Remember who you represent!
1418	Susan	mcmurray	87507	NM	Remember TV in the 60's & 70's? - - Remember the original use of the internet? - - Free! - - Why is everything for sale?
1419	Dean	Myers	34606	FL	Remember the ATT break up there was a reason for this it is call monopoly
1420	Richard	Elliott	95758	CA	Remember FCC, you work for us and not just those with the biggest wallets.
1421	Sherry	Krider	19075	PA	Reject the two-tiered internet plan.
1422	Bruce	Atkins	13077	NY	Regulators should regulate for the common good, not for the good of corporate greed. Make the internet a public utility so that everyone on it is treated the same.
1423	Ellen	Prokopow	01890	MA	Regulators in government should not be a revolving door with industries they managed. TOO CLOSE!
1424	Daniel	Ford	07748	NJ	Regulation of the internet should be as a public utility.
1425	Lynn	Daniels	99205	WA	Regulating the Internet as a private "service" is a disaster in the making. Big money and corporations (who are NOT people, in spite of SCOTUS' apparent opinion to the contrary) who only have dollar signs in their eyes and profit above all for motives should not be handed the Internet. It belongs to everyone, not just the wealthy and big business. The Internet is for everyone, and that's the way it needs to stay. It was NEVER intended to be a 'for profit' venture for corporate vultures. Designate the Internet as a public utility and keep it for all, not just the privileged few and their corporate bedfellows.
1426	Paul	Meyer	94803	CA	Regulate, and allow public equal footing, for Democracy's sake.
1427	Maryann	Cuddebac	85711	AZ	Regulate this public utility. DUH!!!
1428	George	Mokray	02139	MA	Regulate the Internet, if you absolutely must regulate it, as a common carrier.
1429	R P	Bird	87110	NM	Regulate the internet as a public utility and preserve the engine of innovation that is net neutrality!

1430	Susan	Fox	22101	VA	Regulate the internet as a public utility - thank you! Regulate it like you do phone companies and require warrants for accessing a person's data.
1431	Ed	Misicka	32818	FL	Same rules as are required for phone and US mail.
1432	Nancy	Cadet	11201	NY	Regulate Internet like common carrier .
1433	Edward	Weingold	95060	CA	Regulate for the people not the richest communication corporations.
1434	Stephen	Lewis	95409	CA	Regulate cable companies just like other public utilities.
1435	Sharon	Lux	34946	FL	Regulate as a public utility
1436	April	Foster	02445	MA	Regardless of the slick PR verbiage, the outcome is still the same; a fast track for those who can & will pay more and a slow track for the rest of the peasants. Don't allow big business to tamper with the internet but keep the creativity & flexibility of the current system.
1437	Sam	Andujar	10029	NY	Reclassifying ISPs as common carriers is the only way to stop phone and cable companies from taking control of the Internet away from users.
1438	scott	newell	48105	MI	Reclassify the net as a public information utility now!
1439	Joseph	Spiezio	95422	CA	Reclassify the internet! It's simple and effective! You work for the people, not big corporations, Don't you? If not, you should resign!
1440	tony	meads	60421	IL	Reclassify the internet to Title 2 and insure the free flow of information for everyone.
1441	Patrick	Bosold	52556	IA	Reclassify the broadband companies as telecommunications carriers and put an end to this nonsense. Please.
1442	Cyrus	Mehra	94903	CA	Reclassify broadband services as Title II communications NOW!
1443	Jeffrey	Guidry	78704	TX	Reclassify Broadband Internet as a public utility! Do it NOW!
1444	jim	beene	01469	MA	Recently signed up for Dish, and received internet from Verizon. According to Verizon only 3mb's are available in my area. Dish is offering 4mb's in rural areas.
1445	sharron	St.John	53715	WI	Really? I can barely afford to eat and buy my meds. Now you want to limit my information.
1446	Caroline	Carpenter	07921	NJ	Really? REALLY?? Smells like a federally funded monopoly is brewing. Oh, but isn't that illegal??

1447	Barbara	Fiscarel	11217	NY	Really?
1448	Pen	Williams	91604	CA	Really! At what point do you listen to the PEOPLE of this nation, rather than the corporations who basically OWN you and the country? Wake up!
1449	Leslie	Burdette	25159	WV	Really, not another screw the little people agenda What is wrong with you people
1450	sharon	wright	74074	OK	Really, it should be a no-brainer that the internet is just as much a public utility as electricity or the telephone lines. I cannot understand why you would dispute this as a person who was appointed to regulate in the public interest. I hope you will reconsider the ill-advised two-tier system that has been proposed.
1451	David	Bacon	87501	NM	Reality.
1452	Ms K	Riley	99202	WA	REAL Ne neutrality ! YES !
1453	Dave	Hill	61554	IL	Real democracy is waiting for you to move to a fascist country where you belong.
1454	Bonnie	Halfpenny	97217	OR	Real consumer lawyers, not corporate lobbyists, need to oversee this industry! Please stop handing over more power to the powerful.
1455	Patricia	Mullen	12571	NY	Read the lips of the American people: NO FAST LANES, NO SLOW LANES!! We want the preservation of net neutrality, and we're not buying the doublespeak we've been getting about the proposed new FCC regulations. We want a free internet, and WE MEAN IT!!!!!!
1456	Donna	Kimsey	80033	CO	Quit working for the millionaires and screwing the rest of us.
1457	Jo Ann	Feeler	66783	KS	Quit trying to sell our democracy to the highest bidder. Our own Supreme Court has done enough damage.
1458	Lydia	Gnos	54759	WI	Quit trying to rope in any and everything for profit. Profit for a few that is.
1459	Lee	Sievers	55410	MN	Quit trying to put a smiley face on your intentions, it is nothing more than cable company f**ckery that weakens our country!
1460	Dan	Prater	10003	NY	Quit trying to bury the Constitution and Bill - - Of Rights! It's unpatriotic! - - You do believe in those documents, don't you?
1461	stephen	waite	98208	WA	Quit screwing the public over. The government is there to support the people not kiss corporate asses.

1462	Steven	Olenski	85032	AZ	Quit screwing around. The people have spoken. You work for us. Now just freakin' do what we tell you, not your corporate slave masters!
1463	Lila	Downey	46321	IN	Quit ripping the American people off!!! I'm sick of being the beck and call of cable companies which are already out of hand charging for everything. Congress one whoever (congress is worth shit to the average person) should not let all these mergers loosen up the competition !!!
1464	Thomas	Gordon	87124	NM	Quit messing with the internet that I depend on.
1465	michael	nabozny	80216	CO	Quit making the rich richer and screwing the middle class. You fcrs are all paid off and not doing your job, which is supposed to be protecting the public interest.
1466	Jon	Aleksa	46239	IN	Quit letting them try to rule the world!!
1467	Kimberly	Sims	37409	TN	Quit giving everything to the corporations! It's time to stand up for PEOPLE!!!
1468	Gary	Salem	98382	WA	quit giving complete control to monopoly cable companies
1469	Susan	McGreivy	94070	CA	Quit fu***king with poor people.
1470	mike	bingley	01863	MA	Quit being the best government money can buy and do your job to protect we the people.
1471	Craig	McLemor	33322	FL	quit allowing corporations to ruin everything. the internet is the one "equalizing" force in this increasingly rigged economy.
1472	Bret	Burquest,	28202	NC	Quick and accurate internet availability is very important to me. Even now TWC's service is not as good as cable service in many other countries. Our country is being taken taken over by big money in most areas and we are virtually powerless to retain the democracy were have enjoyed for many years. The partnering of 2 huge cable companies can only speed the destruction of the parts of democracy we still retain.
1473	Therese	Merserea	98198	WA	Quashing net neutrality is akin to hindering free speech and violates the spirit of the First Amendment to the U.S. Constitution. It is high time the internet is regulated as a public utility.

1489	Robert	Spencer	38801	FL	Public utilities should serve the PUBLIC, not give special privileges to aristocratic corporations.
1490	Sandra	Adams	14213	NY	Public utilities have different rates for residential and business customers. But they each get the identical services. Does GM get hotter heat? Does Boeing get brighter light? No such thing. So why should average consumers get second rate internet speed? This is just another ploy for the internet providers to hold hostage the service providers who will have to raise their rates to offset the new cost increases and, it should go without saying, pass those rates back down to individual consumers who are... getting less than optimal internet speeds!

1625	Ella	Kliger	28734	NC	Please resist selling out to the cable companies. These are our Commons. We need to protect this from exploitation rather than set up a system that will surely be abused.
1626	James	Scheideri	13090	NY	Please remove this nutty idea.
1627	Jerry	Iyall	98501	WA	Please remember you represent American voters, more than corporate greed.
1628	Jenny	Chay	53212	WI	Please reconsider.
1629	Alexis	Mirsky	19406	PA	Please reconsider the ramifications of not reversing your stance on net neutrality. Remember the companies trying to buy you are among the most hated for self-centeredness.
1630	Barbara	Taylor	54858	WI	Please recognize that the airwaves belong to "We the People" - and assure us that the internet will be regulated for the People rather than for Comcast and Verizon. Soon they'll completely control our access to information - and there goes huge chunks of our Constitutional Rights. Controlled information is Orwellian. WAKE UP!
1631	Catherine	Hunt	08854	NJ	Please reclassify the internet as a common carrier, a public utility. Do not allow special interests to create a tiered internet with slow and fast lanes.
1632	Linda	Rodrigue	79904	TX	Please reclassify broadband as a utility. The people of the United States need access to unfettered broadband.

1633	Brittany	Kay	91604	CA	Please re-classify internet service providers (ISPs) as common carriers. Net neutrality is vital to innovation and dissent in our society.
1634	RIchard	Fisher	10019	NY	Please quit mischaracterizing the conversation. The public knows what is at stake, true Net Neutrality. We want equal access. NOT profits for the providers, NOT a two tiered system. We want a free, open internet without corporate control
1635	Kevin	Duffy	19143	PA	Please put the public's interests before those of the deep-pocketed lobbyists and the Comcasts of this world. - - - - It's time to restore the people's faith in the integrity of the government to work for the vast majority of the people, instead of just making the fat cats richer. - - - - The internet should be a public utility, please protect and promote an open internet.

1640	Linda	Cowgill	90405	CA	Please protect the public. Keep the net open.
1641	stephen	holypope	48324	MI	Please protect the public instead of selling out to big business and special interests!
1642	Kurt	Konrad	11801	NY	Please protect the people by making the internet a public utility. Stop the large cable companies from attempting to make the internet their domain.
1643	Lesa	Tanner	95444	CA	Please protect the internet from greed. It is a public utility and you need to keep equal access for all.
1644	Janie	Harvey	37923	TN	PLEASE protect the internet and save it for all the people, not corporations.
1645	Patti	Poe	66047	KS	Please protect the Internet - customers at public libraries and schools depend on it. And libraries can barely afford high speed access NOW.

1646	Barabara	Miller	80304	CO	Please protect our internet access from - - the encroaching - enveloping power of - - the big media corporations. - - Can we not protect and maintain a free - - creative and accessible internet, supported by open and affordable broadband service? - - Each individual citizen is becoming a tiny - - David against the looming Goliaths - - (and I acknowledge Eli Noam and the - - NYTimes as the source of this most - - appropriate metaphor) - - Barbara R. MIller - - Bolder,Colorado
1647	Debra	Acosta	91769	CA	Please protect our citizens equality rights in our complicated and often unfair world. The internet is the new library for many. We find jobs, our local and national representatives, Have a voice, opportunities for conversation and discussion of issues important to our democracy. Do not allow those without monies to pay higher fess to be locked out of the discussions and opportunities for education
1648	Regina	Galbick	97203	OR	Please protect net neutrality.
1649	Linda	Mitchell	94901	CA	Please protect my being able to use internet with some speedspeed and confidence that it's not being censored. - - I do not live in a country that blocks certain subjects. - - cable mergers should never have been allowed. Prices are risingrising, need ala carte. - - letting internet be controlled by those who can profit by censoring what the net offers. - - lease keep net neutral. The foxes should not be in charge of the henhouse and should not be able toto charge different prices for same bchicken,

1654	Mavis	Ronayne	10965	NY	Please prevent cable company F Â¥ ckery.

1655	Virginia	Rudloff	55417	MN	Please preserver net neutrality. It should not be controlled by those with the most money. We should all have equal access as we do with other public utilities.
1656	Johnny	Stroud	67226	KS	Please preserve whst our tax dollars built for we, the people.
1657	Lisa	Hecht	90066	CA	Please preserve net neutrality. The internet should be equal, the same experience for all
1658	Priscilla	Patterson	10304	NY	Please preserve net neutrality. It is essential for a strong democracy.
1659	J	Mscichow	97201	OR	Please preserve net neutrality.

1661	Michael	Graves	94062	CA	Please preserve net neutrality.
1662	Paul	Irwin	20817	MD	Please preserve net neutrality; don't cave to the big corporations. Thanks.
1663	Christine	Bergstron	53538	WI	Please preserve internet neutrality. Treat internet services as common carriers rather than information services. A return to treating internet services as telecommunications would properly place these services under Title II of the Communications Act, thus restoring to the FCC the authority to regulate carriers in such areas as consumer protections, privacy guarantees, and public safety.
1664	Russell	Vossler	47250	IN	Please preserve a free and open internet for all, that don't just favor ISP monopolies and their top-paying customers!

1665	Michael S	Millholler	97034	OR	Please preserve "net neutrality" which does not allow cable providers to charge content companies different rates for different transmission speeds. To this point, the net has been a fertile vehicle for content innovation because all content providers are treated similarly with respect to the quality of transmissions to customers. This level playing field also means that customers don't end up paying more for costs charged by cable providers for "fast lane" content. It's bad enough that there is little competition in the cable industry and ridiculous pricing as it is; the death of net neutrality would only drive up costs to consumers and diminish competition among content providers. Please preserve the status quo and please designate the internet as a public utility, rather than an additional revenue opportunity in a minimally-competitive market. - - - - Thank you for this opportunity to comment.
1666	Mimi	Holt	90019	CA	please please safeguard net neutrality. The marketplace is an imperfect regulator, but the FCC is perfectly positioned to keep the internet neutral and easy to use for all participants, large and small. Thank you.
1667	Nathan	Entrekin	94612	CA	Please PLEASE preserve our net neutrality!
1668	Judith	Gage	13460	NY	Please please please reclassify broadband services as Title II communications. To be able to communicate with anyone, anywhere, anytime is beyond joyful! How can something so wonderful be turned into something so evil - the thumb of big business choking off the life line of everyday citizens....please don't let this happen. Please do the right thing....reclassify as Title II. Thanks so much.

1672	Lois	Battersby	03813	NH	Please make it public like the post office and public libraries ...
1673	Frank	Dashkiew	07462	NJ	Please maintian Net Neutrality.

1674	Robert	Little	08003	NJ	Please maintain net neutrality, don't let the cable companies screw us.....
1675	Carol	Parker	97266	OR	Please maintain equal rights for all Americans. Do not allow the corporations and the wealthy to control the internet. It is already difficult to wade through all the advertising to finally locate what you want to find. Thank you.
1676	James	Onofrey	53711	WI	Please listen to the public this time.
1677	William	Zarvis	01201	MA	Please listen to the people! They want you to preserve Net Neutrality!
1678	Joanne	Sutton	44870	OH	Please listen to people, not corporations, for once! Please consider those without the billionsof dollars that they can use to dominate yet another aspect of our lives.
1679	Angela	Hansen	30622	GA	Please let this public utility be a place where all voices can be equal!!
1680	Charla	Ranch	97702	OR	Please let this be the one good thing FOR and BY the people!
1681	John	Redwine	72756	AR	Please leave the internet as is. It is a valuable resource for physicians like me to better care for their patients. This proposal of a two-tiered system will adversely affect me and those whom I serve.
1682	Annette	Whitehea	33436	FL	Please leave the internet alone. Creating multi tiers only benefit big business conglomerates.
1683	Carol	Sheffield	26201	WV	PLEASE leave our free and open Internet as it is!
1684	Scott	Rossi	95008	CA	Please keep the spirit of American business competitive and stop all this nonsense about a two tier Internet. The Internet needs to stay fair and neutral for all.
1685	Jeremy	Joyner	27006	NC	Please Keep the Net neutral.
1686	Aaron	Beasley	77381	TX	Please keep the net "neutral".
1687	Maria	Rodrigue	32801	FL	Please keep the intetnet neutral.
1688	Theresa	Koppang	97214	OR	Please keep the Internet open. Don't let Google, etc... Roll up the playing field behind them now that the infrastructure is solid. Americans deserve better than that. Thank you!
1689	Sheila	Maloney	61884	IL	Please keep the internet open to all entities equally by regulating it as a public utility.
1690	Daniel	Collins	30349	GA	Please keep the internet on a fair playing ground for every American.

1691	Karen	Kline-Mar	67526	KS	Please keep the internet nuetral and a balanced entity.
1692	Patricia	Boyer	97128	OR	PLEASE KEEP THE INTERNET FREE. WE WILL ALL BE SO VERY GRATEFUL. - - THANK YOU SO VERY MUCH.
1693	Joyce	Pike	03835	NH	Please keep the internet free to all. It is important to everyone to be able to have access to the internet when needed.
1694	Madeline	Holland	48198	MI	Please keep the internet free for the American people
1695	Jonathan	Carson	01944	MA	Please keep the internet free and balanced. Don't let the former Lobbist now head of the FCC ruin things from the inside out. We need this level playing field. Do something for the little guy instead of always bending over for industry.
1696	scott	cunningha	64117	MO	please keep the internet free
1697	Mary Ellen	Cammille	80226	CO	Please keep the internet an open field for free-speech. Ending net-nutrality will allow internet companies (and/or the government?) to limit freedom of speech in the digital realm and highlight or limit different agendas that are currently given equal opportunity over the web.
1698	SHERRY	MERRICK	05058	VT	Please keep the internet accessible to all at all speeds.
1699	Stephanie	Stockton	55075	MN	Please keep the internet a public utility. It should not be something controlled by the richest, thus giving them the means to control more of the wealth, content and allowing for no competition. A democracy can only survive with healthy competition and not the continued practice of creating companies that are too big to fail and so rich that they tell our elected officials what to do and when to do it!
1700	Kevin	Turcotte	91207	CA	Please keep the Internet a level playing field - it works now and doesn't need to be "fixed" by those interested in lining their own pockets.
1701	Christopher	Sanders	32534	FL	Please keep the future of the Internet free and neutral from the hands of those who massively outspend and out-lobby the rest of us. Always remember whose interests you serve: the people of this nation and NOT the rich and powerful.

1702	Joon	Bai	01602	MA	Please keep the American entreneurial spirit alive by supporting net neutrality.
1703	Cathy	Felix	07666	NJ	please keep real net netrality
1704	Joe	Calcagno	46544	IN	Please keep our internet public!
1705	William	Sagadraca	32792	FL	Please keep our internet free and neutral.
1706	Salle	McNeil	85710	AZ	Please keep net neutrality. Keep fairness alive in America.
1707	Steven	Dunphy	94903	CA	Please keep net neutrality intact.
1708	Barbara	Brooks	28303	NC	Please keep net neutrality and do not approve the 2 tiered plan.
1709	Sharon	Hudson	28114	NC	Please keep large conglomerate political interests out of our open internet service.
1710	Anne	Powell	05482	VT	Please keep it fair for everyone who wants to use the internet: maintain net neutrality.
1711	Bryan	Lenz	70115	LA	Please keep internet access equal for all.
1712	Gary	Robinson	02126	MA	Please help!
1713	Sarah	Serrano	95123	CA	Please help preserve internet neutrality!
1714	William	Walker	94134	CA	Please help keep internet free of charge..
1715	Tom	Simmons	33025	FL	Please grow a pain and turn down this crazy move by the rich companies.
1716	Ann	D'Antonic	19083	PA	Please FCC, protect us...and the airways as you are commissioned to do! Leave Net neutrality in place. Thank you
1717	Robert	Graham	02176	MA	Please ensure that internet service providers are not permitted to sell higher speed service to an elite few.
1718	Gautam	Bose	28277	NC	Please drop this change in regulations. We DON'T need some folks to have faster internet lanes than others!
1719	Jeffrey	Parsons	04217	ME	Please donor allow a two tiered system.
1720	Patrick	McCormic	23225	VA	Please don't turn over yet another medium that has the power to benefit all to greedy profiteers. Where and when does criminal greed end in our society?
1721	Keri	Levy	94708	CA	Please don't through the Amerocan people under the bus!!
1722	Sue	Hope	97223	OR	Please don't take away one of the only remaining level playing fields.
1723	Pat	Weber	34293	FL	Please don't succumb to the pressure! The American public deserves better.
1724	Timothy	Gerrity	66083	KS	Please don't sell the Internet to the 1%. Thank you.

1725	John	Ross	66043	KS	Please don't sell out to money. Please don't turn the Internet into politics where money controls and makes all the decisions.
1726	Peter	Holmes	55408	MN	Please don't sell out the American people.
1727	Eric	Law	36079	AL	Please don't sell America's Internet - the network we paid to develop and invent - to cable companies!!!
1728	Malinda	Jones	03060	NH	Please don't neuter net neutrallity!
1729	Nancy	Switzer	60478	IL	Please don't make another decision in favor of the 1%. Make the decision in favor of the rest of us.
1730	Debra	Robinson	49068	MI	Please don't let the cable companies take what slow Internet we have. If anything you should be matching the speed with the fastest country.
1731	Leigh	Demrow	53546	WI	Please don't let the cable companies buy a two - tiered internet. Keep the internet a public utility.
1732	Leigh	Brasingto	94602	CA	Please don't go screwing up the internet. Killing the goose that lays golden eggs just does not work. Keep the internet neutral - don't give in to the greedy ISPs. Come on guys - you are there to protect us from this sort of stupidity!
1733	Lori	Dante	96753	HI	please don't give us to corporate giants, you are supposed to protect us from them!
1734	Ira	Horowitz	21044	MD	Please don't give companies a way to limit bandwidth available to ordinary citizen by allowing companies to buy extra capacity.
1735	Luke	Werner	48823	MI	Please don't give cable this ability
1736	Kerren	Dempsey	94070	CA	Please don't fly into the pockets of the cable company. Preserve the spirit of the internet!!!
1737	Carl	Melching	95945	CA	Please don't end net neutrality
1738	Day	Newsome	23084	VA	Please don't do what you are inevitably going to do, you greedy Bastards!
1739	j	Allen	98584	WA	Please don't do it!
1740	Scott	Johns	30066	GA	Please don't destroy the net.
1741	Carol	Cobb	98367	WA	Please don't destroy the internet this way. This is just a way for the cable companies to make large sums of money off the internet when they already make enough. Net Neutrality is good for America, please don't blow it trying to get rich people richer. That is happening enough already. Carol Cobb
1742	Emily	Davis	11211	NY	Please don't destroy net neutrality!

1743	Stephen	Gardner	21211	MD	Please don't create a two tier system. I am, like the majority of the US population, fed up with corrupt lobbying practices and government decisions based on corporate money. Think what is right for all, not just the bank accounts of relatively few shareholders.
1744	Joan	Husmann	52205	IA	Please don't continue to contribute to the class divide in the U.S.
1745	Timothy	Hicks	98122	WA	Please don't cave to industry lobbyists. Preserve a free and open internet for everyone - vote 'no' on a 2-tier internet. Thank you.
1746	ian	hislop	48117	MI	Please don't break what isn't broken.
1747	John	Metcalf	48640	MI	Please don't break the internet.
1748	Lawrence	Larson	97487	OR	Please don't allow wealth to take more control of our ability to communicate with our fellow citizens
1749	Margaret	Meinsche	90232	CA	PLEASE don't allow cable company f**kery! If this happens, clearly Chairman Tom Wheeler is, in fact, the dingo that is babysitting the baby!
1750	Michael	Ivens	23430	VA	Please don't abuse the system by creating monopolies and abusing the American people by injustices.
1751	David	Bolton	92688	CA	Please do your jobs, and protect our open internet. It's really important.
1752	Doug	Georgeso	93314	CA	Please do your job. To me that job and Duty is to protect Individual(s) Freedoms, Not business interests.
1753	Eugene	Phillips	27612	NC	Please do your job and protect the public.
1754	Tamera	Brown	91107	CA	Please do the right thing for consumers!
1755	Michael	Bailey	11565	NY	Please do the right thing for American citizens not for shareholders
1756	Evan	Clark	91360	CA	Please do the right thing FCC.
1757	Maureen	Hunt	55407	MN	Please do right and keep the Internet public and neutral. Do not give rights only to those with money.
1758	Dennis	Verhalen	94903	CA	Please do NOT turn the internet into an oligarchy. Preserve net neutrality!
1759	Yuri	Weydling	70808	LA	Please do not set up a two tier system. This is highly unfair and we the consumers will be paying top dollar for it. There will be NO turning back.
1760	Rick	Monroe	99156	WA	Please do not screw up my internet!
1761	Gwen	McMicha	85351	AZ	Please do not screw the little user by allowing a few to purchase a faster lane. No two-tier!

1762	Blanche	Gray	19131	PA	Please do not privatize the internet where only the rich can play.
1763	Nina	Young	10014	NY	Please do not permit the cable companies to hold us all hostage!
1764	Laura	Campbell	27701	NC	Please do not move forward on the net neutrality legislation.
1765	Carol	Bratt	98052	WA	Please do not make the internet another way that wealthier speakers have the advantage over less wealthy ones
1766	Helen	Thornton	98502	WA	Please do not make the internet a two-tiered system.
1767	Steve	Hoyte	93901	CA	PLEASE do not make it worse by allowing BIG TELECOM to control the net. NO NO NO
1768	Diana	Owens	61367	IL	Please do not let the internet go to tbe highest bidder. Without Net Neutrality that is what will happen. Seperate but equal never works.
1769	Robert	Slonaker	06018	CT	Please do not let the current cable providers continue with this monopolistic domination.
1770	Keith	decator	49332	MI	Please do not let the cable companies do this
1771	Cleo	Zani	02536	MA	Please do NOT give preferential treatment to ANY commercial network providers or consumers.
1772	Sally	Zuniga	90037	CA	Please do not encourage the technology divide in this country by slowing or being the catalyst to higher internet rates. Internet is already very expensive for inner city communities.
1773	Maureen	Sharp	46065	IN	Please do not create two lanes for internet connectivity! The internet is great the way it is now!
1774	Marilyn	Hughes	85387	AZ	Please do not control the internet. It should be public and free for all.
1775	Lisa	Forman	90019	CA	Please do not bow to corporae pressure. The internet is not theirs.
1776	John D	Felix	10128	NY	Please do not bend to the plutocrats that would destroy this country. Keepcthe net neutral.
1777	Betty	Marr	24018	VA	Please do not allow the two-tiered internet plan!
1778	Tom	Dooley	95062	CA	Please do not allow the huge media/cable corporations to get away with this. They already have too much power as it is. It will stifle communication and creativity. Thanks
1779	Valerie	Kime	59711	MT	Please do not allow the greed machine to take away the people's free communication.

1780	Roger	Cain	60201	IL	Please do not allow private for profit corporations to make decisions about free speech.
1781	Nigel	Kinney	55317	MN	Please do not allow a 2-tier internet.
1782	John	Oliveira	19047	PA	Please do NOT adopt a two tier system; it is not the AMERICAN way!
1783	Suzanne	Bremmer	13053	NY	Please declare the internet a public utility. A it is used as a social media, telephone operation and many other uses by th public. It should definitely not be under the control of 2 corporations..
1784	Victoria	Blanas	98374	WA	Please continue to support net neutrality for the common good.
1785	Susan	Bernstein	02453	MA	Please consider the majority of us instead of the super rich. Thank you.
1786	joyce	sechler	93940	CA	Please consider ALL people--not just the rich.
1787	Michael	Manuel	46738	IN	Please change rules so that we can maintain Net neutrality and not allow big business control what and how fast we can use webpage,sites and content. DO NOT allow cable companies to take over our internet and create a two tier system that big money has faster speeds than the rest of us.
1788	BJ	Mitchell	35976	AL	Please allow net neutrality in America. It is the only American way to do it.
1789	T.	Waller	56448	MN	Please act sanely to preserve the internet's present role in American democracy. To do otherwise would be, in my opinion, pre-treasonous.
1790	Frank	Kownacki	43016	OH	Please act for the best interests of the consumers and citizens of this country.
1791	Linda	Puzio	90034	CA	please -- leave it alone -- aren't us 99% already suffering
1792	Pamela	Gallegos	53714	WI	Please - public before power($$$$$$$).
1793	Sharon	Tipton	84104	UT	Please - don't screw over those of us who are not corporations with big money. There is no guarantee of fairness in life, but us regular folk are getting tired. FCC - please protect us from this next kick in the rear from the power corporations.
1794	Nanci	Jewell	20192	VA	Please don't make a two-tiered internet because most of us will be in the bottom tier waiting for our stuff while those who already own more than they need speed by above us.
1795	Ardys	Schimmel	97388	CA	Please

1796	Deborah	HAcker	20905	MD	Playing with definitions and reclassifying the Internet as a utility is wrong! When so much communications goes through the Internet, and how can you doubt that it is a telecommunications service!
1797	Tom	Mcardle	23185	VA	plase keep the internet free and non tierd.
1798	Stephen	Strickler	46032	IN	Phuc off fcc
1799	Marc	Lawrence	60626	IL	with Brian Roberts, Chairman & CEO of Comcast, vividly illustrate why Obama chose Tom Wheeler as the top regulator of the cable & telecom industry that includes Comcast. - - - - Tom Wheeler is a career cable & telecom lobbyist; as FCC Chairman, heâ€™s a proverbial "fox in the hen-house.â€← Obamaâ€™s appointment of him exemplifies regulatory capture at its most obscene. - - - - On cue, Wheeler has proposed "Open Internet" & "Net Neutrality" rules designed to gut rather than protect the "Open Internet" & "Net Neutrality," permitting monopolistic Internet providers such as Comcast and Verizon to create "slow lanes" and premium "fast lanes." - - - - Recent court decisions have made clear that the only way to protect the "Open Internet" & "Net Neutrality" from huge, venal, monopolistic cable & telecom corporations is to reclassify Internet service providers as Common Carriers, or Public Utilities. There's simply no other way to do it that will hold-up in court. - - - - But Tom Wheeler has no intention of preserving the "Open Internet" & "Net Neutrality." Instead, he plans to hand-over the Internet to his buddies in the cable & telecom industry, who have fattened his bank account for decades. - - - - In short -- Wheeler's grandiloquent words about preserving the "Open

ODD PEOPLE ALSO KNOW THAT COMCAST/TIME WARNER SOME HOW HAVE INFLUENCED THE FCC TO LISTEN TO THEM INSTEAD OF THE THOUSANDS OF PROTESTS AGAINST THE MERGER!!! IT IS IN THE INTEREST OF OUR COUNTRY THAT THE FCC KILL THIS MERGER OUT RIGHT!!!
1803	Charlene	Vanacker	48823	MI	People should not be restricted on using the internet.
1804	Anne	Salas	02648	MA	People not corporations make the internet what it is!
1805	victor	hauser	22901	VA	People need communication as much as they need heat, air-conditioning, water, and a choice of providers to choose from
1806	Cheryl	Lawrence	55720	MN	People count too, not just corporations and the rich. The creators of the Internet gave it to all of us to use. Didn't sell it to companies.
1807	Philip	Spadaro	13044	NY	Pay to Play is NOT something a government agency should endorse, promote, enforce, or legislate Please don't destroy a level playing field for Internet users..
1808	Eve	Gordon	98027	WA	Pay to play is NOT net neutrality. It gives the upper hand to those with the $$ and screws the rest of us, small businesses and consumers alike.
1809	Jim	Phillips	93635	CA	Pay to play always leads to total demise of any system, except for the greedy and stupid.
1810	Richard	Dimatteo	92101	CA	Painfully obvious.
1811	Carolyn	Fasel	78751	TX	Outrageous! I received an email from Wheeler saying he supported network neutrality. The decision against the average citizen had already been made hadn't it? - - Shame, shame!
1812	Michele	Moussaou	95127	CA	Outrageous and despicable proposal! Save Net Neutrality!!
1813	Judy	Schultheis	97202	OR	Our taxes paid for the Internet. Why should already obscenely profitable corporations make even more money off it?
1814	scott	smith	70116	LA	our tax dollars invented the internet and we should keep it as free and equeal as possible

1815	Bonnie	Duncan	05661	VT	Our tax dollars helped create the internet and it belongs to us as a public utility.
1816	Cecile	Kuenzli	52240	IA	Our society is I died enough without your adding to it by creating a divided internet service.
1817	Lars	Bourne	95111	CA	Our radio frequencies, supposedly belonging to the public, have been sold to private interests. Does the public not have a right to at least have some public access to information?
1818	Helen	Kenyon	53704	WI	Our public tax dollars paid for its development and the public owns the right to oversee its use. It's time to treat the Internet as what it is -- a public utility.
1819	m c	kubiak	61701	IL	Our internet, not a toy of the monopolies!
1820	Peter	Kahn	01772	MA	Our internet supports our economy like our roads do. Removal of net neutrality creates monopoly shakedown zones strangling innovative fledgling startups. This gift to a few monopolies comes at the expense of economic growth and our global competitiveness. We must protect net neutrality or we all lose (even the monopolies telcos lose).
1821	Sondra	Fabe	33411	FL	Our internet is often too slow but we use it all of the time.Your proposal is a terrible idea because we "small time" users will end up getting less service and the "big time " users will dominate the rest of us.
1822	Jennifer	Donahue	02818	RI	Our government has taken away so much of the "American Dream" to us,the Middle. So much of what is regulated by our government is not to better our quality of life but for those that already have it better than the 99%. There is no doubt in my mind that following through with a two-tiered internet will bring myself along with millions of other Americans only grief. The argument that nothing will change for the public just isn't good enough anymore. We just don't trust you anymore. Those who make the final decisions need to be reminded of their ethic responsibility as PUBLIC servants.
1823	Terri	Raith	75214	TX	Our government has already been bought. Leave the internet free .

1824	june	Carroll	94605	CA	Our freedom of the press would be put further in jeopardy if a two tiered system was put in place. Too few control too much already.
1825	Noel	Marts	30342	GA	Our family already personally is being bullied and economically screwed over by Comcast. PLEASE do not allow this to become worse than it already is by increasing their power. If I could make them disappear today, I would!
1826	Betty	Abrams	07974	NJ	Our country needs to stop going all out for big corporations and people with money. We're supposed to be a society, where we care about the welfare of all our people.
1827	Ray	Andrease	11758	NY	Our country is already behind most of the world in Internet speeds because these telecommunications monopolies have no incentive to invest in developing infrastructure. It's insulting that they would seek to open a "fast lane" for premium customers while they've already failed to provide reliable service for the public. The Internet is a public utility!
1828	Rachel	Schmidt	92647	CA	Our country fights for the freedom of others while allowing corporations to hold its citizens hostage, terrorizing us with threats of rate hikes and internet cuts. For many, the only access to information and education is through the internet, this includes health information and schooling; this access needs to remain free and accessible.
1829	Jeff	Loomis	80439	CO	Our collective ignorance of the damage corporations are wreaking on this country is already destroying this country.. Please do the bidding of the people and "regulate" corporate power to control news and information sources!
1830	Brian	Long	53217	WI	Our best and most creative ideas and services need the opportunity to compete on even footing with our largest firms with the most lobbyists with the deepest pockets. For the sake of our US economy and all our futures..

1839	Frank	Ackermar	94595	CA	Only the Anti-Democracy, Anti-American, corrupt, greedy, lying, corporate shills want to keep the internet from being a public utility.
1840	Vicki	Johnston	80439	CO	Only the "1%" will benefit from two-tiered internet. FCC supposed to represent the people, not the billionaire bullies.
1841	Calvin	Ross	95476	CA	Only one speed for all networks, and that should be faster than it is now, for all parties!
1842	John	Gurvitch	01101	MA	only a bought and paid for corporate thug or a dumb ass wouldn't get this

1844	Edward	Doyle, Jr	92101	WV	one speed for all
1845	Jay	Galbreath	30126	GA	One of the many reasons I care about Internet freedom is because I worked as an Associate at Booz Allen Hamilton, one of the oldest and most prestigious government consulting firms, to support implementation of the Obama administration's Broadband Technology Opportunities Program. The program gave out $9.7 billion in grants to help bridge the technological divide, create jobs, and improve education, health care, and public safety in communities across the country. - - When I heard about the Federal Communications Commission (FCC) proposal to allow the corporations who control the infrastructure of the Internet to create fast and slow lanes for websites based on how much they're able to pay, I couldn't help but feel that the Obama administration was undoing a lot of the important work we did together investing in communities to make sure they got the access to the Internet that they needed.

1846	Winston	Richards	30096	GA	One of the first casualties of the FCC intentions will be POLITICAL DEBATE and participation - - - - sure thing. FCC must retire their intentions.
1847	Janet	Buck	02472	MA	One more in a vast series of attempts to toy with free speech cannot be permitted. The internet must be equally accessed by all, under the same conditions.
1848	Jim	Phillips	92024	CA	One internet freed for all!!!
1849	Debra	Lessard	95305	CA	One for the rich. One for the poor. A new form of segregation. Our country is not a democracy anymore. It is a olligary. Corporations are running America. They are telling everyone else to F off. This turn of events is just one more step for Corporate America. Thanks Supreme Court. For Nothing. You are the worst Supremes I have ever seen. Especially Scalia and Thomas. They are letting their beliefs establish our government. We the people are being left out of all decisions. This is not what America is supposed to be. God help America. But I know he is not coming.
1850	Taylor	Pancoast	14719	NY	Once there is some form of fast track and slow track it will be a short hop skip and a jump to no track essentially. preserve net neutrality as is. Do not adjust it.

1855	Sharon	Ludwig	60033	IL	OK, if it ISN'T a public utility, try conducting your life without it, at home and at work, for just a month. Like going without electricity, isn't it?
1856	Millard	Hall	05843	VT	Oh, come on!
1857	patricia	Clothier	95409	CA	Of course, broadband is a public utility -- any other definition is absurd. Senator Reid, you need to step up to the plate and protect American citizens. That's your job!

1858	Henry	Borden	98501	WA	Of course you are on payola. Why else would anyone make the media related decisions you make.
1859	Todd	Crawford	28445	NC	Of course the Internet needs to be subject to oversight because it is a public utility. It has no competitor and will become the subject of corporate takeover and greed unless the public id protected. It must be kept open and free. Businesses have no right to command any part of the Internet as their own and the FCC must not bend to corporate pressure. Remember that you exist to protect our interest, the public.
1860	Kristina	Honkala	22046	VA	Of course the internet is a public utility! Your job is to protect it from corporations who would sell their own mothers to control it!
1861	Dennis	Kalos	94037	CA	Of course it's a public utility. Net neutrality is our last defense from manipulation of public opinion by propaganda/info control. Are you really for the protection of the common good or NOT?
1862	Mary Ann	Schieferst	46804	IN	Of course it's a public utility! Why wouldn't it be?
1863	Chuck	Pliske	98116	WA	Of course it's a public utility!
1864	Dane	Bowen	28227	NC	Obvious the FCC are working with big Corp. I've known that for many years
1865	Ron	Gasper	60559	IL	Obvious is the fact that the power people are trying to control money, education, and media for the purpose of a hold on power. A dumbing down of the vast American people to their own ideology and purpose. Control of the media sources suppresses contrary opinion since access will be limited by opposing opinion unless money oriented. Freedom to speak is either a right or the access to limit it is a crime. This is how I see net-neutrality.
1866	Victor	Henry	93933	CA	Obiously, Chairman Tom Wheeler, you need a definition of Net Neutrality. It's the Internetâ€™s guiding principle: It preserves our right to communicate freely online. This is the definition of an open Internet.
1867	Robin	Standring	87023	NM	Obama, you suck, you lie, you disappoint. I voted for you twice! You have a mandate and you fuck the very PEOPLE who put you in office.

					Obama and all your pathetic henchman, you suck!
1868	Philip	Kearney	19606	PA	Signed lifelong democrat and voter!
1869	Rose	Jenkins	63130	MO	O say can it be! a utility for me and you and you...
1870	Gerald	Kowalski	15009	PA	Now the 1% want fast internet service to themselves as well? Does their greed know no end?
1871	Joe	McCray	97231	OR	Notwithstanding your professional background, you are sworn - do you understand what that means?-to serve the public, not the industry.
1872	Thomas	Vischi	80503	CO	Note to the FCC: Do not mess with the Internet. Money does not equal freedom of speech. Large and wealthy companies should not be able to dominate the messaging on the Internet. The FCC should do all that it can to ensure that the Internet maintains net neutrality, difficult as that may be to define and to operationalize. The key to a healthy economy and a healthy society is that there be fair and open competition in the buying and selling of goods and services and in the promulgation and receipt of information and messages. Do all that you can to ensure that those kinds of freedoms are protected and are strengthened.
1873	Christopher	Beaumon	91355	CA	Not this time! Save Net Neutrality!
1874	Tim	Isom	94121	CA	Not that you will listen, but this is an obvious truth - certainly if the airwaves belong to the public then so does the internet. If control is passed to verizon and comcast then citizens will have been completely ignored in favor of campaign contributors - 1 dollar 1 vote eh?
1875	David	Waycie	60089	IL	Not only that, but letting media creators and media distributors merge is the most egregious kind of anti-trust failure. Do you work for the people of the country, or for the telecommunications industry? I'm afraid your actions provide the disappointing answer.
1876	Judith	Williams	87505	NM	Not only should internet access be equal for all it should be FREE!!! Do not mess with our internet access.
1877	Dan	Keller	94114	CA	Not just a public utility. It's a common carrier. Regulate it accordingly.
1878	Yvonne	Hardgrav	06511	CT	Not in the best interest of the public.

1879	Cindy	Bennett	53150	WI	Not everything should be for sale!! Keep the internet FREE!!!!
1880	VIJAY	PANCHAL	30024	GA	Not everything is FOR-SALE just because the SCOTUS 'sold' elections. The internet is NOT-FOR-SALE.
1881	pj	mcclosky	55426	MN	not enough oligarchy for you, yet? Really?
1882	kathleen	Byers	49107	MI	Not being able to compete on the global tech stage is just another example of poor outdated thinking that is leeding to America's decline.
1883	Simone	Pisias	95460	CA	Not another monopoly please!
1884	Andrew	Lenz	01054	MA	Not a greed bath!
1885	John C	Armstron	47303	IN	Norfolk&way.
1886	Rob	Haine	12866	NY	Nonsense. The working disabled in this country earn 60% the norm so are you planning on free fast internet for those with disabilities? Don't use the disabled for your greed agenda.
1887	Genevieve	Holloway	93442	CA	No. No. No.
1888	Kathleen	Murphy	85120	AZ	NO!!!!!
1889	Chris & Kris	Olsen	93012	CA	No! No! No! No! Save net neutrality! Stop cable company fuckery!!
1890	Timothy	Scheer	98801	AK	No! No! No! No more laws to set up the successful for more success and make it impossible for the masses to succeed at anything!
1891	Liz	Wally	75214	TX	NO, NO, NO!!!
1892	Scott	Campbell	98178	WA	No, no, and again no on allowing companies to buy the Internet. My God, don't corporations already own enough of our country?
1893	linda	krupp	02144	MA	no way!
1894	Joanne	Ostergaar	85728	AZ	NO TWO-TIERED SYSTEM ! ! !
1895	Rob	Beemer	91423	CA	No two-tiered internet!
1896	Rick	Kephart	61571	IL	No two-tiered internet
1897	Randy	Cookston	95497	CA	No two-tier internet!
1898	Karen	Lindley	21113	MD	No two tiers - preserve net neutrality.
1899	John	Copeland	29205	SC	NO two tiered system. The "internet" is owned by the "public" and not for sale! Get it!
1900	Lisa	Langbein	60544	IL	No two tiered Internet plan.
1901	Marcia	Starnes	55364	MN	No two tiered approach. Access for all at same
1902	Wm & Joan	Kummer	38501	TN	NO TWO TIER Internet!,,, - - "Prevent Cable Company Fuckery" - - Preserve net neutrality!
1903	john	wetherho	10011	NY	No two lane deals for monopoly providers. Equal treatment for all.

1904	andrew	greer	95503	CA	no to two tiers. Enough of monopolies and increased costs to consumers.
1905	Susan	Tilley	97537	OR	NO to tiered Internet plan! It would be a disaster for small businesses like mine.
1906	TJ	Feuerbacl	27606	NC	No to the twc/Comcast merger and yes to true net neutrality
1907	Teri	Price	89431	NV	No to the commercialization of the internet and the high-jacking of communications for corporate profit
1908	Charles	Johnson	77073	TX	No to net neutrality.
1909	Roger	Fowler-Th	97045	OR	No to Net Neutrality and stop the cable company monopolization of our Country.
1910	Marjess	Leighton	07675	NJ	No to leaving oversight to a lobbyist for the companies needing control. No to permitting higher charges for faster service, as we all know who will pay for it.
1911	ron	palma	74137	OK	NO TO CORPORATE CONTROL . . . THOSE PROPOSING THIS ARE THE WHINERS ABOUT GOVERNMENT CONTROL
1912	David	Schultz	80010	CO	No to a two tier plan.
1913	susan	hammond	92374	CA	NO TO 2 SPEEDS OF SERVICE!!!! CABLE COMPANIES CAN'T BE TRUSTED!!!!! EVER!!!!!YES, I AM YELLING THIS!!!!!! NO CABLE COMPANY FUCKERY!
1914	Sylvia	Pollack	98105	WA	No tiered system on the internet - open access for all of us, PLEASE!
1915	Kathy	Berger	94550	CA	NO special ultra-fast lanes for those with money! The internet needs to be fast for ALL or innovation will be stymied!
1916	Jane	Ujhazi	97411	OR	No special treatment because someone has more money!
1917	bernard	johns	19460	PA	No special lanes.
1918	jan	jarvis	98133	WA	no slow lane
1919	William S.	Beisiegel		IL	No second-class citizen's on the internet! Classify the internet providers Public Utilities! Keep the internet Net-Neutrality requirements as they are now! Thank You!
1920	Josh	Storey	97203	OR	No Sale!
1921	Jeffrey	McLellan	90731	CA	No pay to play on the Internet! We don't need more institutions and policies in place that support the inequity in our current society.

1922	Constance	Carlisle	46228	IN	No paid prioritization. Please keep the internet fair for everyone. Net neutrality!
1923	Paloma	St Louis	98208	WA	NO ONE WANTS THIS, NOT EVEN THE DIFFERENTLY ABLED PEOPLE WHO VERIZON CLAIM TO BE 'FIGHTING' FOR ON THEIR BEHALF. - - STOP TRYING TO JUSTIFY THE DESTRUCTION OF A FAIR AND BALANCED INTERNET THROUGH BULLSHIT PATERNALISTIC EXCUSES
1924	Tim	Albright	48661	MI	No one should own the truth.
1925	Greg	Clark	98604	WA	No one owns the internet
1926	Jim	Hammon	48073	MI	No one has the right to claim ownership of the airwaves that permeate an individual's every moment of existence!
1927	Catherine	Barrios	92115	CA	No net neutrality equals no democracy!
1928	bill	murphy	93013	CA	No need for change - - Stop it Don't do it
1929	james	wyatt	63110	AE	no more monoplising overtakes
1930	James	Peloquen	10011	NY	No more corporate revolving door for - - Federal regulators!
1931	Cathy	Grahnert	95826	CA	No more corporate monopolies!
1932	Arnold	Kamis	02421	MA	no more cable company fuckery
1933	CC	Nelson	85718	IN	No more big business nonsense!
1934	Laura	Hill	07716	NJ	No more aiding cable to make monopolies. Leave things the way they are please.
1935	Louis	Thoms	60046	IL	No monopolizing my internet!
1936	Marsha	Riek	98229	WA	No internet provider should be able to charge for faster speed. Comcast should not been able to shake down Netflix for more money. This will be the norm if providers are give this power.
1937	Anthony	Brown	99501	AK	No internet fuckery! There can be no fast lane or slow lane, or giant corporations will have another way of screwing the public. Oh yeah, corporations are not people!
1938	Victoria	Rice	30327	GA	NO INTERNET CONTROLS ON DELIVERY SPEEDS
1939	G L	Dekker	55116	MN	No Internet "fast lanes"! Ensure net neutrality. This is too important to sell to the highest bidder.
1940	Judith	Brinkley	28460	NC	No haves and have nots, please. We live with more than enough of that already!
1941	Brian	Nelson-M	97520	OR	No good reason for something so integral to public communication to be parceled out to large corporations for control and profit.

1942	. Jeanne	Sully	54548	WI	No good can come to the average American from a two tiered system, once again we get screwed. ONCE AGAIN WE HAVE A GOVERNMENT BOUGHT AND PAYED FOR BY CORPORATIONS. Why would they even consider this.
1943	Emily	Lewis	01027	MA	No free internet? No free society. - - Save us or enslave us.
1944	Ted	Hanley	93454	CA	No favored treatment. The higher tier will only be available to a few. The internet is for all.
1945	Wendy	Johnson	70769	LA	No fast lanes! Keep the net neutral!
1946	Shirley	Mohill	28803	NC	No fast lanes !!!
1947	Lori	Singer	95965	CA	No fast lane! No pay-to-play!
1948	Ben	Badger	26505	WV	No Fast Lane!
1949	Robert	Lipton	94801	CA	no fast lane, it will just make the monopoly comcast has even stronger, with even slower internet for most of us and higher cost. We are the laughing stock of the world because of this.
1950	Francis	Kazakwic	85086	AZ	No fast lane internet for corporations. - - CORPORATIONS ARE NOT PEOPLE!
1951	Pat	Thompso	37774	TN	NO FAST LANE FOR FAT CATS!
1952	Patsy	Van Osdo	47403	IN	No dual speeds on the internet. It should be a public utility--all customers pay the same price and get the same service.
1953	Patricia	Baley	89121	NV	No dismantling the democratic and free internet in favor of the fat cats!
1954	Victoria	Dauernhe	89123	NV	NO corporations controlling internet information we receive, nor controlling the speed. For pitys sake!!
1955	robert	dinkle	53572	WI	No corporation should own our internet. Make it free again!
1956	Raymond	Blais	03743	NH	No company should have preferential treatment on the Internet just because they have more money than smaller companies. I urge the F.C.C. to preserve Net Neutrality.
1957	Marianne	Clark	54901	WI	No company should be ALLOWED to pay for better placement on Internet searches, much less able to do it legally. Net neutrality is not just a nicety, it's an absolute must!
1958	Christine	Croysdill	91767	CA	No company should be allowed to force people to pay for access to faster rates. A free internet should be available to everyone, including any and all upgrades in speed of access.

1959	Maggie	Adam	97215	OR	no comment necessary - obvious!
1960	Julie	Gallegos	94131	CA	No cable company ownership of the 'net.
1961	Greg	Berge	21777	MD	No bribe is worth this.
1962	Sashi	Muralidha	90712	CA	No brainer Harry, keep net neutrality!
1963	Dominic	Desnoyee	23451	VA	No additional comments needed for the obvious
1964	Alan	McClendo	63130	MO	No 2 tiered internet!
1965	Steven	Torma	11726	NY	No 2 tier system everybody should be equal and have good service. some people will have great service and the rest of us will be looking at the little wheel go round and round,
1966	Jamie	Hunger	97038	OR	No 2 tier system !!! - - - - Everyone should be treated just the same.
1967	Wendy	Calder	91401	CA	No "2 Tiered" Internet! Do Not Pass Go, Do Not Collect $200 on this Monopoly game!
1968	lynne	standley	48154	MI	No two tiered system.
1969	Phyllis Stei	Nesbitt	95403	CA	NO NO & NO
1970	James	Head	98660	BC	No
1971	James L	Appleton	95246	CA	Next, the FCC might sell the air through which the internet travels.
1972	Sue	Faust	18105	MI	News papers are on line, few to no print copies, mail is via internet, social media is internet, lets not limit communications.
1973	Karen	Collins	10025	NY	New businesses need an open internet and there is no good reason not to consider it a public utility as no one can really live without it now, like electricity.
1974	Art	Kainz	27284	NC	NEUTRALITY!
1975	Virginia	Phillips	15216	PA	Neutral net our only hope to keep vestiges of democracy.
1976	Charles	Fries	95240	CA	Neutral and regulated like a utility is the only option that is fair to all.
1977	Thomas	Ledbetter	14580	NY	Network Neutrality is critical to the continued existence of the Internet as we know it.

1978	Elizabeth	Cerny	60516	IL	Netflix may benefit, SO DOES EVERY SCHOOLCHILD USING THE INTERNET for his homework!!! With the "fast lane" plan, only the ISPs and their rich fast-lane payers benefit, and the VAST MAJORITY OF AMERICANS LOSE!!!! How long before there are a dozen different "speed lanes," each extorting a different level of payola to get your content into that lane? This is NOT about Netflix and I challenge you to repeat that garbage while hooked to a polygraph lie detector!!!
1979	robert	mcclintic	95670	CA	Net nutrality is the only option and we the customers demand it.
1980	Thomas	Greco	85733	AZ	Net neutrality. must be preserved. The internet is a commons and big cable providers should not be allowed to privatize it and create tiered levels of service. These companies will end up hurting themselves if they push forward with their plan. The FCC should be neutral, not a servant of special private interests.
1981	Kelly	Williams	28216	NC	Net Neutrality. It's actually a pretty big issue. The internet is what it is today because start-ups like YouTube and Facebook got noticed, and became big players in the lives of those trying to make a difference. The likelihood of these business start-ups getting noticed would most probably never have occurred if legislation was in place that allowed them to be slowed down or blocked by Comcast or Verizon in favor of bigger companies. In the â€œland of the free, home of the braveâ€← everyone should have access to become a â€˜big playerâ€™.
1982	Brian	Stoltz	70459	LA	Net Neutrality!!!
1983	Rebecca	Presley	27288	NC	Net neutrality! The internet is a public utility and we the people already battle the monopoly created by cable comapnies making it possible for them to over charge us at their whim but this would end the internet. It would shut it down. Even with it engrained in our society as it is we simply would not be able to follow where the internet would be going.
1984	Karen	Kamersch	49504	MI	Net neutrality! Don't sell out to a two-tiered net.

1985	Lauren	Nelson	14519	NY	Net Neutrality! Do your job and serve the public not the cable companies
1986	Rachelle	Ruff	95607	CA	Net Neutrality!
1987	Mark	Herman	95442	CA	Net Neutrality!
1988	Casey	Allen	41073	KY	Net neutrality!
1989	R	Bloom	48624	MI	Net Neutrality,
1990	Linda	Ford	85251	AZ	Net neutrality-not a two-tiered, pay for play Internet. Look even.my android capitalizes Internet.
1991	lisa	knaggs	80212	CO	NET NEUTRALITY- NO PAY FOR PLAY!!! Please keep the internet an available resource for individuals and small businesses, not just large corporations!
1992	Joseph	Reno	33183	FL	NET NEUTRALITY YES! - - CORPORATOCRACY NO!
1993	Brad	Carnes	57105	SD	Net neutrality will kill the Internet for the majority of middle class and poor most importantly students and education
1994	John	Van Der H	60060	IL	Net neutrality today, net neutrality tomorrow, net neutrality forever. Don't screw this up!
1995	George	Welling	20781	MD	Net neutrality should be preserved. Giving more control of the Internet to cable and phone companies will stifle competition, and squelch innovation.
1996	Tina	DeLapp	99516	AK	Net neutrality should be maintained; the rich should not be able to purchase greater - or faster - access to something that is inherently a public utility.
1997	Dorothy	Olson	85718	AZ	Net neutrality should be a public utility regulated with strict congressional oversight
1998	James	Kilgore	02130	MA	Net Neutrality should be a basic democratic principle - not to be violated by the wealthy.
1999	Daniel	Velasco	97520	CA	Net Neutrality shares the core of Democratic principles. Do the right thing.
2000	Suzanne	Fox	94803	CA	Net neutrality please!!!!!
2001	jan	hutchinsc	85281	AZ	Net neutrality please!
2002	Marta	Roth	45701	OH	net neutrality please
2003	Rob	Booksteir	92037	CA	Net neutrality please
2004	Pamela	Harms	22025	VA	Net Neutrality only improves the lives of everyone.
2005	Wendy	Carlisle	72632	AR	Net neutrality now and later. No more monied minorities driving the bus.
2006	Robert and	Janusko	18018	PA	Net Neutrality Now and Forever!

2007	Novia	Sanders	36856	AL	Net neutrality must stay. Information should not be available only for those who can afford it.
2008	Jules	Fishelmar	05401	VT	Net neutrality must be retained. Internet companies must be compelled to treat every packet of data equally.
2009	Leonard	Cruz	28803	NC	Net neutrality must be preserved. Anything short of this is a disregard of a public trust. It is an outrage that there should even be talk of such an abuse of the public trust.
2010	janet	buescher	45246	OH	Net neutrality must be preserved!
2011	danilo	bach	90402	CA	Net neutrality must be maintained if the internet is to service all equally
2012	Margaret	Gallwgos	90403	CA	Net neutrality means money does not rule in at least one place in this country! let it stand!!
2013	Kirsi	Aulin	93110	CA	Net neutrality is vital. Do not give in to the bullying and bribery of the cable companies! We the people need you!
2014	Debra	Longobar	19460	PA	Net neutrality is vital to consumers. Especially those who don't have the millions or billions to lobby our institutions of government!
2015	WANDA	WINKLER	93312	CA	Net neutrality is vital to Communications throughout the world!! Come on Harry!!!!
2016	christopher	murray	44107	OH	net neutrality is vital to a free society.
2017	B.	Hurley	94965	CA	Net neutrality is very important. All data should be treated the same. - - If you change this in America, we will lag behind the rest of the world. We will place ourselves below the world standard and cease to be able to compete on the world platform.
2018	Teresa	Griffin	55417	MN	Net neutrality is unnecessary.
2019	Sheree	Gibson	29676	SC	Net neutrality is the whole point of the internet. If I wanted only the news from the richest 1% or companies who buy time, I can watch Fox News.
2020	Mike	korn	98178	WA	Net neutrality is the same as freedom of the press in the internet age.We don't need internet censorship like Communist China, and that is he implicaion of scrapping Net Neutrality as proposed as offering fast lanes for the highest bidder.
2021	jan	belson	90293	CA	Net Neutrality is the only way to go. You can't sell out to big corporate interests.

2022	John	Schrum	77007	TX	Net neutrality is the only portal available to all with a mass distribution capability. The internet is a conduit of free speech...unlike campaign contributions. The internet is a utility. ISPs are not content creators and should not have the abilities to censor the creative output of others.
2023	Gary	Rowe	21146	MD	NET neutrality is the only democratic thing we have left. How about fast lanes for everyone!!!
2024	Matt	Holker	55337	MN	Net neutrality is the most important protection we have in the information age. It is our last true safeguard against corporate corruption of the internet, and it should be preserved at all costs. To even consider creating a paid "fast lane" is insane, bordering on criminally irresponsible. Do the right thing, and save net neutrality.
2025	leona	mann	18017	PA	Net Neutrality is THE most important issue of our day and must remain without disturbance or control by CORPORATIONS of any kind. No entity should have the ability to control the speed of access or censor internet information which is legal.
2026	Frank	Carlson	63069	MO	Net neutrality is the most important 1st Amendment issue that exists. Quit selling out to corporate interests. Serve the people, not corporations.
2027	Scott	Potter	41643	KY	Net Neutrality is the free speech issue of our age.
2028	William	Lindley	77092	TX	Net Neutrality is the "golden goose" of the Internet for both the economy and free expression. Please don't kill it!
2029	Jennette	Tittelfitz	08816	NJ	Net Neutrality is one of the last places where anyone can become great. If you believe cable companies will not be punitive with their 2 tiered systems, just check out what happened when they started to negotiate with Netflix. Monopolies cannot be trusted. Stand with the people.
2030	Ginny	Tanner	80918	CO	Net neutrality is one of the few things we have left - we the hoi polloi - don't let them them take that too!

2031	Athena	Gliddon	95661	CA	Net Neutrality is one of the biggest and least understood issues of our time. With the internet so interwoven in our daily lives it is set to affect how we live, how we interact and how we use electronic content. Set up rules that treat internet providers like the utilities they are. No fast lanes, no pay to play.
2032	Sharon	Larson	94533	CA	Net neutrality is of the utmost importance. We cannot let the rich take over the internet. Comcast is trying to buy it all up. What happened to our anti-monopoly and anti-trust laws. Or are they without teeth too now!?
2033	Barbara	Hodik	28731	NC	Net Neutrality is not negotiable.
2034	Platon	Rigos	19003	PA	Net neutrality is needed to combat inequality and encourage creativity.
2035	Margaret J	Nelson	60201	IL	Net neutrality is necessary. Democracy requires an informed electorate. With most media in the hands of corporatist nogoodniks, the rest of us need the internet so we can research the records of candidates, and vote for those who aren't trying to trash our country for profit.
2036	Bill	Youngren	97212	OR	Net Neutrality is necessary for a fuctioning democracy do not ruin the net by allowing commercialization and profiteering by large media companies
2037	Aaron	Scott	72701	AR	Net Neutrality is like going to the library. If you have a membership, you can check out ANY book you like. No book or section of the library requires a higher-tiered membership.
2038	Debbie	Hoover	70005	LA	net neutrality is just a grab from the greedy. and a huge loss of freedom
2039	Betty	Clark	52302	IA	Net neutrality is important. This action would be just another form of the 'haves vs havenots!'
2040	Ben	Israel	20912	MD	Net neutrality is important to me so we can keep the internet a democratic public good that promotes commerce, learning, and positive good among all people equally.
2041	Will	Molter	55418	MN	Net neutrality is important to free speech. We mustn't let money further influence speech. Thanks.

2042	RaGena	DeAragor	99203	WA	Net neutrality is fundamental to a democracy and the cable industry should be regulated as public utilities (monopolies).
2043	Stan	Jamrog	01108	MA	Net neutrality IS free speech!
2044	Kerrie	D'Ercole	02043	MA	Net neutrality is extremely important, and will only grow in importance as people continue to grow more dependant on technology. Letting the cable companies decide on who should have which speed of internet and letting them charge whatever they want for it will only insure that those with the least will have even less. Profit is not the be all end of life. Please consider the right thing to do, not the most profitable thing to do.
2045	mark	wilson	87529	NM	net neutrality is essential!
2046	Katharine	Christie	03750	NH	Net neutrality is essential, critical, a MUST!
2047	Paul	Kingery	48025	MI	Net neutrality is essential to the life of the net. Net for profit & private will kill it & these fools clearly know that even as they cash telecom chks at their bank. Sickening.
2048	JoAnne	Pinto	85130	AZ	Net neutrality is essential to our society as we know it. The net has become integral to communication, banking, bill paying, voting...pick any subject and having net neutrality ensures that people know about it. Which is probably one reason why these corporations want to stifle net neutrality: because under their system of fast lanes and slow lanes, the current rush of information will slow considerably and they will be able to get away with much more chicanery when fewer people know what they're up to. Declare the net a public utility and be done with it.
2049	Sally	Morita	97330	OR	Net neutrality is essential to maintaining a well-informed public, something our Founding Fathers deemed vital to the viability of this nation.
2050	John	Stinchcon	46221	IN	Net neutrality is essential to high productivity across the entire economic spectrum. Stop selling us out to the highest bidders.
2051	Julie	Tharp	85284	AZ	Net neutrality is essential to an open, democratic and equal-access society. How will it help the American people to change it now! It won't!
2052	Rebecca	HAYHOW	48073	MI	Net neutrality is essential in efforts to keep America free

2053	Ezra	Bakker	49503	MI	Net neutrality is essential for the free unbiased flow of information and will help ensure that our society progresses as a positive force in this world
2054	Ruth	Gould-Go	90291	CA	Net Neutrality is essential for our democracy. Do not mess with our demoscracy
2055	Lisa	Citak	55129	MN	Net neutrality is essential
2056	j.d.	williams	97211	OR	Net neutrality is democratic, and exceedingly important for entrepreneurship in America. Don't be what everyone rightly thinks you will prove to me, whores for the cable industry feeding their service monopolies and doing it simply to line your own pockets. That's make you no better than a street mugger. Please, do something for America instead of for yourself for once.
2057	Jim	DeVoto	60660	IL	Net neutrality is crucial to an open, democratic society. It should be the law of the land, best regards, Jim DeVoto, Ph.D.
2058	Patty	Cornell	90026	CA	Net neutrality is crucial for small companies, real competition, and for the benefit of the public. NO to the 2 tiered system!
2059	Alan	Edwards	19002	PA	Net neutrality is crucial -- this country doesn't need yet another instance of Big Money commandeering the best service. - - The Internet should be free for all at the same service level and cost!
2060	Rajinder	Singh	55311	MN	Net Neutrality is critical to provide equal access to everyone. Don't deny this right to help a few companies make money.
2061	Michael	PLISKA	57719	VA	Net neutrality is comparable to freedom of the press in a democracy
2062	Rebekah	Reynolds	21117	MD	Net neutrality is common sense... the public demands it!
2063	Larry	OConnor	98225	WA	Net neutrality is at the core of a free enterprise system, profit (to service providers) from restricted access is not. Please keep the net open and neutral.
2064	Gil	Sery	92121	CA	Net Neutrality is as essential to a free market enterprise as a telephone. As such, it should be classified as a utility. Quit screwing over the public in favor of your lobbyist friends! Remember, this IS an election year...
2065	Keith	Earle	12203	NY	Net neutrality is an important issue for me.

2066	Amy	Rayko	15101	PA	Net neutrality is absolutely vital if we are to preserve modern democracy.
2067	Amy	Rayko	15101	PA	Net neutrality is absolutely vital if we are to preserve modern democracy.
2068	Tom	Santee	78245	TX	Net neutrality is about the only thing let where everyone has equal access. When you really look at the issue the cable companies already have faster lines and can access data faster than almost anyone. In this case if you rule in favor of the cable companies, it would put them at a higher priority.
2069	laura	kyropoulc	94530	CA	Net neutrality is a right
2070	Harald	Striepe	95006	CA	Net neutrality is a ridiculous proposition that must not become law. We have to stop handing this country over to companies reducing the US to gain profits via leverage with powerful lobbies.
2071	Roy	Bellante	06410	CT	Net Neutrality is a must. Do not be swayed by the millions that are being thrown at the FCC.
2072	Lewis	Okun	48104	MI	Net neutrality is a great principle and needs to be preserved. There is no way to do so if some content is favored by speedier delivery. Preserve net neutrality.
2073	Vasu	Kilaru	27278	NC	net neutrality is a fundamental right
2074	Charles	Herr	14206	NY	Net neutrality is a first amendment right. To allow anything else would deny the free flow of information and the sharing of new initiatives.
2075	howard	llewellyn	02635	MA	Net neutrality is a concept that should be a solid part of internet use and availability.
2076	Bruce	Coblentz	97330	OR	Net neutrality is a basic right. Don't allow the communication giants to put the squeeze on the internet.
2077	Brenda	Groeper	60707	IL	Net Neutrality is required. It is OURs, the people, It is the level playing field America believes in. DO NOT CREATE TIERS!
2078	Renae	Boyum	92604	CA	Net neutrality has to cpntinue!
2079	r	kinzel	25226	IA	Net neutrality has become an essential component of a functional democracy as opposed to an oligarchy. It touches every aspect of our lives. The results of a two tiered system would be disasterous and the effects would be so complex that it is not possible to calculate them.
2080	Ted	Voth	53714	WI	Net Neutrality foreverâ€¦

2101	Mike	DEPLANC	48328	MI	need to the internet like they have in in Europe higher speeds, lots of competition, same high speed for everyone and cheap rates. There speeds are double the speed we have it's a real shame we are so far behind then other countries
2102	loren	crown	38019	TN	need for internet to be title II communications

2103	Matthew	Goode	02557	MA	National and Municipal governments confiscated analog tv from people and foisted cable on us (at a monthly utility-size cost) and now threaten to destroy Net Neutrality, the one technology that faciltates democracy and most benefits the people.
2104	Maynard	Johnson	45215	OH	My wife operates a very small business that could not afford fees to get into an internet "fast lane". Please preserve net neutrality.
2105	Richard	Stewart	75235	TX	my verizon # is 214-789-1157 im disabled please help/
2106	Tom	Creacy	10014	NY	My taxes paid for early Internet development. It would be a criminal act to steal the Internet from taxpayers and give it to the companies that own the politicians.
2107	Carol	Cooper	70435	LA	My tax money helped pay to develop the internet and I do not want corporations to userp my rights to equal acess.
2108	Desmond	Atkins	11213	NY	My tax dollars helped to fund the original research by DARPA for the internet. Seeing as how communication corporations basically only spend money on lobbying to get legislators to LOWER THEIR TAXES, I don't want to see any legislation or regulations that remove Net Neutrality as the rule in the management of the internet.
2109	Peter	Ramsey	90066	CA	My tax dollars helped create the internet. I don't want it for sale to the highest bidder.
2110	Stephanie	Johnson	81301	CO	My service is already poor, how poor will we make America for profit?
2111	Howard	Pollack	60657	IL	My ISP is bad enough lets not make it worse...
2112	Larry	Seiler	01505	MA	My internet service provider should be treated EXACTLY the same as my phone service provider, who in fact offers phone service over the internet. Let ME keep the right to decide how I want to use it -- don't let big content providers decide that.
2113	John	Hoskinso	90041	CA	My internet is already slower and more expensive than most of the developed world. Please don't give telcos more power to screw me.

2114	Phyllis	Patselas	19027	PA	My husband is semi retired and uses the internet to conduct his part time business. This will absolutely have very ill effects on his means of support. I sincerely hope that the internet remains a PUBLIC utility.
2115	Marie	Rourke	68134	NE	My Dad and his friends are probably rolling in their graves because you are ruining their hard work to make a mass communication network that allows the world to talk amongst it's citizens to communicate so there are no more wars like WWII.
2116	MaryBeth	Baun	77005	TX	My business and my research depend upon continuing net neutrality - this is a freedom of access issue that I expect my government to protect. We cannot rely on big business to do what is right - The self-serving special interests of those who advocate a two-tier system, fast for the intra rich and powerful, slow for most Americans and all small business, curtail the basic freedoms of Americans.
2117	Bryan	T.	60706	IL	Must everything be profitized? The trend lines suggest that in 50 years alone OXYGEN will be profitized. Ugh.
2118	Lindsay	Brice	10065	NY	Must every aspect of life be monetized & controlled to extort the most profit, limit ever freedom?
2119	David	Schneider	95409	CA	Multi-tiered Internet? You must be joking. Paying for using the Internet--above & beyond what we pay now? You must be joking. If only this were not a loke to you -- it isn't to us.
2120	Dorothy	Walton	12401	NY	Mr. Wheeler: Did Pres. Obama really appoint you to work for corporations and screw the people? Perhaps. America is now an oligarchy govt. All for the rich and zero for the rest. Shame

2121	M.	Struble	19146	PA	Mr. Wheeler states â€œWe are dedicated to protecting and preserving an open Internet...â€← This is an empty statement absent the specific words 'net neutrality' and more important, but specific, phrase 'classifying the internet as a title II common carrier (i.e., a public utility)'. Without these very specific qualifiers the statement is hollow, and its logic asymmetric. Internet Service Provider (ISP) companies are claiming that they are not utilities, but rather, "information and entertainment companies", so by that logic, my electric, gas and water providers are really food service companies since they are used to cook food, or perhaps they are really laundry services since they are used to do wash. All an ISP does is provide the *pipeline* that all that information and entertainment comes down. That means they are a utility and as such they should be regulated. Verizon originally initially laid down their lines down as a utility to take advantage of government perks, so their want to reclassify the same lines as something else is pure hypocrisy.
2122	Mike	Walter	92120	CA	Mr. Wheeler is the fox in the henhouse and has probably been promised (nudge, nudge, wink, wink) a fine job with one of the comms sompanies when he's fucked up the Internet for the users, Why the hell did Obama nominate him, a company lobbyist, to head the FCC? Sounds like the fix is in, boys!
2123	James	Harris	32439	FL	Most of the country geographically has only one accessible ISP beyond 1 Kb/sec. If that. Make decent (video download) internet as easy to get as a landline phone.
2124	Amy	Powell	08106	NJ	Most Americans use the internet more than any current utility. We do everything on the internet, it should not be owned for profit. But for benefit for all, such as water and energy.
2125	Ann	Coyne	68505	NE	More than anything else, the internet is a public utility. Keep it as it is.
2126	Kirk	Combe	43023	OH	More greed by corps? Really? REALLY?

2127	judith	conway	80424	CO	More fucking SPIN by the stupid, owned government agencies and the double - - fucking, greedy plutocracy: LET FREEDOM RING!
2128	Melanie	Hamilton	40204	KY	More corporate greed run amok. Keep the internet open to all!!
2129	frederique	Hufenbac	94566	CA	More competition, lower prices, and less control!
2130	Rick	Kiuttu	93063	CA	More $ should never be the determining factor
2131	Elizabeth	Choate	78748	TX	Monopolistic media companies have already purchased enough politicians. Please do not place the American people further under their thumbs by allowing them to control the only remaining free form of communication and expression in this country. Preserve Net Neutrality! Don't cave to corporate pressure.
2132	Martin	Russell	94941	CA	Monopolies are supposed to be illegal. That's why there is Net Neutrality.
2133	Diane	McKinley	98674	WA	Monopolies are destroying Democracy.
2134	Jean	Busboom	68164	NE	Monopolies are dangerous, competition allows for fairness in services and product for all people, not just persons with money. - - No Fuckery please FCC!
2135	james	singleton	77042	TX	monopolies are bad.
2136	Steven	Taylor	92656	CA	Money talks and**** walks. Guess who we are since we don't have the money. This is getting real old.
2137	Caroline	Kurtz	97203	OR	Money must not be allowed to own the world. The internet is for people, not corporations (who are not people!)
2138	Carroll	Rotkel	94901	CA	Money has enough power in this country, don't give it more! Or were you bought off too?
2139	Judy	Corazon	87120	NM	Mind your beeswax, FCC!
2140	David	Nisinson	10024	NY	Michael Powell was always a political hack who is in the pocket of the highest bidder.
2141	Robin	Jones	61415	IL	Messing with the internet will just create more haves and have nots. And we're becoming tires of being the have nots. Most of us already pay for the privilege of using the internet, don't make it even more expensive.
2142	Crecida	Cade	55404	MN	Me Wheeler the U.S. is a democratic/ republic society! To allow this to happen will be totally not American!
2143	AJ	Perling	52101	IA	Maybe this will wake you guys up to that fact?

2144	Lawrence	Mayberry	75161	TX	maybe if the fcc tries another shyster job like this again we can all get together and blow their website out of the country
2145	Edward	Giusto	28715	NC	Maybe I can get a web service on the new Brazil fiber optic intermet.
2146	Barbara	Crowley	02026	MA	Many seniors like myself use the internet to stay connected to their far-flung family and friends and it should remain free, open and equal!lly available to all!
2147	Shirley	Powell	53038	WI	Many people use it on a daily basis. It should be open to everyone on the same basis, no special people.
2148	JoAnn	Hinchliffe	85641	AZ	Many members of Congress already kowtow to the wealthy individuals and corporations for campaign contributions. They enact or ignore legislation based on what their masters want, not what would be best for the majority of Americans. This idea of 2 internets - one for big, rich corporations who can afford to pay more and another for all the rest of us (including small companies that rely heavily on internet traffic) is an extension of that same, terrible idea. The rich are NOT worth more, they do NOT deserve more and the Federal Government should not GIVE them more!
2149	Tim	Mulligan	48348	MI	Making the internet two-tiered is a bad idea. The telephone companies and internet cable providers have already more than enough ways to extract money from their captive customers - please don't give them another one!
2150	John	McGee	54154	WI	Making internet speeds faster, for those who can afford to pay, is downright un-American and downright discriminatory, since it is discriminating against those of us, who would not be able to afford the higher price, for faster speeds.
2151	Alexander	Baggett	76039	TX	Make this a public utility now.
2152	Michael	McCarthy	95076	CA	Make them utilities! Must you really fuck us all the time?

2161	Jacob	Wittlief	55960	MN	Make it a public utility.
2162	lewis	taishoff	10025	NY	Make it a public utility, and stop catering to the billionaire cable companies.
2163	Kevin	Crotts	72118	AR	Make it a public utility and protect Net Neutrality!!!
2164	jasoe	Gallo	11901	NY	Make it 100% illegal for cable companies to lie and misrepresent public opinion and facts.They already command a 97 % marain. Profits normally reserved for illegal drug smugglers. Yet they have the disguising shameful audacity to tell us that they need more money and that they want to split Internet speeds to extort it. Their government approved monopolies already provide us with the slowest and must expensive Internet in the developed world. The answer to this question is easy if you ask another question. Are you an American, or are you a nazi fascist?

2556	DIANE	BEERE	94558	CA	John Oliver stood his ground on the backs of cable companies, and he used their system against themselves, and rightly so, when he delivered his masterful message against cable companies on HBO. I love it.
2557	Tina	Arnold	94618	CA	John Oliver should be running the FCC. He's much smarter than the current members. He's also much more fair. We need to save net neutrality!
2558	Corky	Lewis	64064	MO	John Oliver should be given a medal as a freedom fighter. I agree 100% that the internet should be treated like a utility.
2559	Jason	Thomasoı	34480	FL	John Oliver sent me with this formal message. "Congress never loses its capacity to dissapoint you." Seems you are on the 'right' team, the dicks.
2560	Lisa	Kazmier	08835	NJ	John Oliver rightly called it. The providers make enough money. In fact, they get more for less relative to many other places in this world.
2561	Helen	Babcock	93001	CA	John Oliver nailed it! The internet is a public utility and stop trying to call it private for special corporations and the wealthy at the price of the commons we all share as americans.
2562	Janis	Dolnick	95472	CA	John Oliver more than brilliantly described what I would want to say.
2563	Michael	Daniels	87110	NM	John Oliver is right. We truly have the Catholic priests in charge of the nursery. If he had a shred of decency Tom Wheeler would resign given his obvious conflict of interest. You are the REGULATOR! You are not the fanboy! Keep saying that to yourself and stop this plan from getting enacted!
2564	barbara	hughes	20816	MD	John Oliver is right.
2565	phyllis	muldoon	01060	MA	John Oliver is one of the most sane people I know, and I'm glad that his 13 minutes of outrage has triggered such an overwhelming response to the FCC. Could you see the people's outrage, FCC?? Could you please stop fucking around and keep the internet a public utility with only one tier--the public tier.
2566	Rick	Cartlidge	32206	FL	John Oliver is a preacher.
2567	Daniel	Humphre	45220	OH	John Oliver for Prince! [He is ineligible to be President.}

2568	Trent	Robinson	85029	AZ	John Oliver explained it very well, I couldn't do any better.
2569	Luke	Miller	98801	OR	John Oliver could not have said it better. The thought of Breaking up the Internet is a shame and one of the worst political ideas I've ever seen. The motives of a few companies based on money and greed should never out way the freedoms and rights of the American people!
2570	Babara	Lines	97051	OR	John is right, stop it.
2571	Lindsay	Renz	12306	NY	Its time to stop bowing down to corporate interests. I'm stunned that the FCC is allowing corporations to decide what we can and cannot see at a reasonable speed just so the broadband companies can charge us more. Its bad enough that the FCC won't do its job and break up these monopolies.
2572	JAMES	CROOK	53515	WI	ITS NOT FOR THE RICH OLIGARCHS.!!
2573	Jahala	Chrzan	06107	CT	Its not broke. Don't fix it.
2574	Scott	Mallory	20904	MD	Its just another plank in the bridge toward control over the internet and freedom of information. If we give them an inch eventually they'll take it all. It's bad enough the way it is and this is a move in the wrong direction for the people. And we the people will suffer dearly as a result. Nothing good will result and they know it.
2575	Vickie	Rosenbus	48065	MI	Its a public utility - depended upon by ALL!

2577	James	Voss	53716	WI	It's working, so leave it be.
2578	MacLeod	Snaith	06883	CT	It's working fine as a public utility. Let the greedy bastards figure another way to marginalize and soak us.
2579	Cullen	Graff	77008	TX	It's too expensive and commercial already. Don't make it worse.
2580	Christopher	D'Amico	04412	ME	It's time.
2581	Nick	Loiacano	48722	MI	It's time to stand up America! Let your voices be heard. Equal internet for all.
2582	Brenda	Witt	78130	TX	It's time to serve the people not the corporations. No fast lane!
2583	George	Leddy	91401	CA	It's time to prove the FCC is not an agency captive to the interests it's supposed to regulate.
2584	Carole	Dunn	39564	MS	It's time to end fascism in the US.

2585	Michael	Ivey	37334	TN	It's time for the government to start working for the people again and Net Neutrally is one place you can start. The FCC MUST protect Net Neutrally and not allow the internet to be used by big business to gouge the people for more money. Stop the craziness, protect Net Neutrality
2586	Teresa	Fritschi	14607	NY	It's so disingenuous for Tom Wheeler to even be in the role he is, fox guarding the hen house, he needs to step down as he clearly does not have the interests of the American people and its small businesses at the core of his mandate!
2587	John	Munnelly	11226	NY	It's so and so it is ... A utility not just a play thing for a monopoly
2588	Sumner	Dow	28806	NC	It's ridiculous to even consider allowing these two monopolies to own it. They both already sell different speeds, that are available. Leave it as it has been in the past.
2589	Larry	Wilt	97405	OR	It's pure greed on the part of cable companies. It's NOT FAIR. NO BULLYING!
2590	Janice	Lawrence	98031	WA	It's pretty obvious to anyone who is familiar with an open internet as defined by the FCC and as most people understand it, that going to a tiered system can only benefit the cable companies. It also virtually guarantees huge rate increases while increasing corporate profits for one of our job creators who is slow to not at all, creating jobs. So at this point you at the FCC have to ask yourselves who you are going to protect and serve, masses of individual Americans or corporate America. Since corporations are doing fine, hoarding cash all over the world, you would think this would be a no-brainer. The fact that hearings are being held and public comments accepts is proof that to some, it isnâ€™t.
2591	David	Stever	55104	MN	It's not right to give away out internet to private companies. All businesses need a level playing field
2592	Carlene	Steel	78641	TX	It's not right to do what you are thinking of doing to the net! It is the one place where everyone is equal!
2593	Joanne	Steele	12401	NY	It's not public enough now! Even.

2594	Maggie	Smith	95018	CA	It's not fair and equal treatment, corporate America has no right to monopolize the inernet
2595	Ashley	Carmic	60090	IL	It's not broken, no need to fix it.
2596	Yolanda	Mohr	18018	PA	It's not broken don't fix it! No more money for the big guys no more monopolies
2597	Joyce	Probst	46151	IN	It's not broke' don't break it!
2598	Leonard	Thornton	62629	IL	It's hard to believe that this is even a topic of discussion and saddens me so. Yet here we are again with our own government and big corporations. Joining forces to try and force a big shit burger down our throats. No thanks
2599	Fred	Wright	92377	CA	It's free, leave it alone!
2600	Kathleen	Boyd	96749	HI	It's free now and for ever.
2601	Rebecca	Carr	70001	LA	It's clear that we are further being sold out to Corporate America.
2602	Robert	Reuss	92882	CA	It's both shamefully anti-democratic and unconscionably short-sighted that the FCC is willing to grant a corporate privilege that has the effect disfavoring equal access to what should be the electronic commons---THE INTERNET MUST REMAIN A PUBLIC UTILITY!
2603	armando	saldana	28173	NC	it's bad enough that the American citizens are losing their rights day after day but to mess around with everybody's internet?? you think you will be safe during a civil war?? think again!
2604	Mark	Werner	80003	CO	It's analogous to our public highways, water distribution systems, and radio spectrum.
2605	Greg	Reed	29323	SC	It's also time for the FCC to get the hate-groups and hate-messaging off our public airwaves...like the draft-dodging cowards Rush Dimbulb, Herr Glenn Bekkk and Sean Hannity. Good start there. Stop the hate FCC!
2606	tony	kwong	27513	NC	It's about time the FCC faces reality. The internet is a public utility that all Americans and business depends on, not the cash cow for a few telecom companies.
2607	Dixie	Brooke	01267	MA	It's a utility! Couldn't be more obvious.
2608	Thomas	Gee	92661	CA	It's a utility like the phone company.
2609	Paul	Hutsell	77089	TX	It's a Public Utility!
2610	P J	Evans	91311	CA	It's a public utility, and it needs to be protected from corporations who want to privatize it for their own gain

2611	James	Spencer		FL	It's a dumb pipe that provides the transportation of things that actually do and provide functionality: code/media/etc. It's essentially a water pipe for bits.
2612	Allan	McClung	95120	CA	It's a common carrier and should be regulated as one.
2613	Betty	Eastham	34946	FL	It's "WE THE PEOPLE" not We the Corporate Big Money. Stop giving more and more to them and do your job of protecting the people whose taxes pay your salaries.
2614	Diane	Black	77077	TX	It would certainly be nice if someone would represent the people. Maybe we could try doing that since we live in America!!
2615	David	Harrelson	37033	TN	It would be refreshing if the FCC did anything to protect the public airwaves and transmitter abuses, such as the way volume increases when adds come on. But NO, instead they will attempt to fix a system that isn't broken.
2616	Greg	Grafft	90035	CA	It will be interesting to see which ISP or - - telecommunications company the crypto- - - lobbyist, Wheeler, will be working for in two - - years. I hope they give him a corner office - - in Hell. Talk about a "fox in the hen house!"
2617	Paul	Biler	68123	NE	It was the US Military and publicly-funded universities that created and refined the internet. So it belongs to the public. It should be treated as a public utility and common carrier.
2618	Don	Chasteen	43447	OH	It sure would be nice to wakeup in the - - morning and see that our elected officials did some thing for "We the People" rather than just for the CRIMINAL CORPORATIONS that has bought and paid for our legislators!!
2619	S.	Karim	20135	VA	It started out as a tax payer funded project under dod. It was run as a not for profit organization for 40 yrs. Until it was sold to the highest bidder in the 21st century.
2620	Vernon	Craig	33029	FL	IT SHOULD BE THE WILL OF THE PEOPLE, NOT THE WILL OF THE RICH.
2621	Sarah	Berry	06511	CT	It should be soooo obvious that it is necessary for our society to run smoothly.
2622	Mark	Safron	95437	CA	IT SHOULD BE CONSIDERED A UTILITY.

2623	Mieke	Pagan	95124	CA	It should be classified as a public utility because it is. We rely on it as part of our daily lives
2624	S.	Wallace	18942	PA	It serves as a necessary public utility. And you know it. Regulate it.
2625	Andrew	Wallis	45056	OH	It seems we are so gullible to Big Business....Since money does not effect politics we should not be worried!?!?
2626	Jack	Witt	92325	CA	It seems to me the internet should be regulated as the utility is has become. It is no longer a privilege for the wealthy, it is an important part of daily life, not unlike electricity. It will only grow to play a larger role as everyone gains access. Giving those who can pay more, better access is just simply wrong, once you put it in the framework of being a utility. Think about it.
2627	Grady	Richardsc	77099	TX	It seems incredibly obvious that the Internet should be treated like the telephone system - it is an essential public utility. Considering that it was originally created by the US government, giving to private business and enabling their poor service and gouging of the American people is unconscionable.
2628	Jennifer	Tschida	55118	MN	It must stay neutral.
2629	EDMOND	GAINES	52240	IA	It looks like we, the people, are sick of the FCC rules. They did not follow Thomas Jefferson's ideology: Freedom, Equal and Justice for All.
2630	David	Hellmann	46310	IN	It looks like everything in this government is for sale--a true plutocracy in which only wealth matters and has a voice. Are you really listening or this only a sham?
2631	Dave	Holdridge	16801	PA	It is your job to protect the public from unfair throttling of the internet ...
2632	Linda	Medeiros	95425	CA	It is your duty to protect the public good-do it.
2633	MARGO	Alderson	62226	IL	It is wrong, and against the free speech in the constitution, to eliminate the freedom of the internet as it now stands. To allow big money to determine who gets what based on fees, of any kind, is just another form of denying the freedoms of communication we are guaranteed in this country. Net neutrality MUST be maintained.
2634	Mado	Most	90019	CA	It is vital that the internet remain free and open for all.

2635	lucas	stackhous	47374	IN	It is vital that the FCC reclassify broadband as a title II communications
2636	Franklin	Marshall	60586	IL	It is unconscionable to consider these changes. Tom Wheeler must go.
2637	Karen	Henaghar	91326	CA	It is unbelievable that you would even consider this 2 tiered plan. Are you regulators supposed to protect the peoples interests or are you shills for the companies you regulate.
2638	Nancy	Pivarunas	91942	CA	It is unacceptable and scandalous that Internet communication may be in the pocket of two already unethical if not illegal monopolies. That our government and President Obama is allowing this to happen is disgusting. I hope that if it happens, people stop using the Internet if it means using Comcast or Time Warner or any of their subsidiaries. I will never take a contract with them.
2639	Livier	McGee	92024	CA	It is totally reasonable that the internet must be a public utility. Our country will be the better for it. Freedom to communicate openly without the hand of powerful commercial interests is of the utmost importance!
2640	Ron	Thomas	97215	OR	It is too critical to navigating life in the US to not have full access is a form of discrimination, and a barrier to success.
2641	George	King	98026	WA	It is time to regulate all these issues into a public utility discussion and proceed from their into returning the commons back to the people and their control.
2642	Peter	Carringto	48840	MI	It is time to distinguish your agency from the corruption of the G. W. Bush era. The internet is the public utility that is probably the most important to the public. It is more vital than phone or broadcast TV. ACT RESPONSIBLY!
2643	michael	kuttner	14620	NY	It is time to dismantle the attempts of the highly successful coup the 1% is waging
2644	Joanne	Solov	90049	CA	It is time for the public to be served, not big business. They don't care about the needs of their customers

2645	Robert	Volk	13207	NY	It is time for the FCC to cease being the tool of industry and represent the interests of American citizens - regulate the internet like any other public utility, exactly like the "airwaves", and stop allowing obfuscating special interests to prevent your assuracnce of a free and open internet!
2646	Joy	James	14217	NY	It is time for government agencies to serve the people not corporations. And, NO corporations are not and should not be considered people.
2647	Joseph	Mack	06098	CT	It is the right thing to do!
2648	Charles	Laviolette	49721	MI	it is the new medium for open free speech. we need to protect that right.
2649	Stephanie	Collins	03053	NH	It is the government that made the internet possible. Do not let the greedy cable companies steal this from the American people.
2650	Victoria	Yocum	96778	HI	It is the FCC's sacred trust to protect internet neutrality. Since businesses of all sizes use the internet, to kill neutrality...especially combined with the monster that would result from TWC and Comcast union...add that to the fact that all elections in these United States of America have been purchased by the same few billionaires, this would be the end of our republic, our democracy, and and all hope.
2651	DIane	Evans	95003	CA	IT is the FCC's responsibility to protect the public, not let the big corporations steal-away the country. Stop it NOW!
2652	Greg	McNeal	94606	CA	It is tantamount to the health of our Democracy that the Information Highway be protected from certain corruption by assuring it is a Public Utility.
2653	Elizabeth	Kinney	81101	CO	It is so obvious that the internet is a public utility, only people blinded by greed and kickbacks would argue the point!
2654	Michael	Kramer	48236	MI	It is so obvious only corruption could see it otherwise.

2655	Brian	Temple	04102	ME	It is outrageous that the man currently running the FCC was once a top lobbyist for the Cable industry. Is this really a government the people can trust? Eliminating Net Neutrality is wrong. In the US we currently experience some of the most expensive costs for internet access, but have some of the worst speeds in the world. This effects the economy in a profound way, easily as profound as electricity and the interstate highway. The internet must and will remain neutral, and it is incumbent upon the FCC to begin regulating the internet as a public utility.
2656	Daniel	French	66212	KS	It is not only a public utility, it is a right under the First Amendment due to the changing way our nation expresses itself. The primary way in which public discourse is now carried out is via electronic means. To impede the free flow of voice and expression via this new technology is not only a violation of the Bill of Rights in fact, but in spirit as well.
2657	RICHARD	BOCK	68046	NE	It is necessary in my self-employment. NECESSARY.
2658	Dennis	Hunt	93422	CA	It is more important utility now than either TV or landline phones!
2659	Leif	Knutsen	98368	WA	It is just a short step from "slow" to "no."
2660	Diane	Andronica	02155	MA	It is important to keep a level playing field for smaller companies as well as big corporations. This is what will make our economy grow and get a better deal for all citizens of the United States. Putting more power in the hands of larger corporations just makes it harder for everyone else to succeed. That would be a real mistake for our country. No matter what the internet providers say this is a really bad deal for everyone but them and the corporations who can afford to pay.
2661	Jed	Taylor	45502	Ohic	It is imperative that the Internet remain a level playing field for any and all content. Allowing those who own the pipes to discriminate both for and against the content of those pipes will mark the capture and control of the Information Age as just another servant of insatiable greed.

2662	James	Chandler	44201	OH	it is great to see the Federal Government selling out to Big Corporations and not listening to their individual citizens. First the Supreme Court and now the FCC.
2663	Gale	Scudder	96755	HI	It is for ALL of us!!! Not just for those who can pay the most.
2664	Stephen	Scott	98056	WA	It is every bit as necessary to modern life as electricity or other utilities.
2665	Linda	Row	99352	WA	It is essential to the freedom of our society that the internet remains free!
2666	Karen	Johnson	04074	ME	It is essential to have a free and open internet.
2667	Martha	Murphy	13219	NY	It is essential that the United States retain net neutrality. It would be purely un-American to create a tiered system!!!
2668	Michael	Warner	46082	IN	It is essential that the internet remain open and unencumbered by corporate control!!
2669	Bruce	Chandler	61704	IL	It is critical to free public discourse across all economic strata that the internet remain equally economically accessible by all participants, no matter how wealthy or how poor. It is a 21st century utility requirement.
2670	Rosie	Aguilar-M	93010	CA	It is complete disregard to all those (including myself), to negate our concern over this extremely dangerous position! THE INTERNET IS PUBLIC AND MUST REMAIN AS SUCH!!!
2671	David	Chapek	55125	MN	It is as essential to me as any other utility.
2672	Tim	Patterson	06390	NY	It is an important thing to realize that on an internet that people are sharing and communications are going at least two ways, that giving large companies the right to charge for this two way communication is wrong. It will stop the free flow of information between large and small entities. New neutrality should stay as it is, no control by big business.
2673	Christopher	Correll	80015	CO	It is an essential to modern life, the same as clean water from the tap.

2674	Leonard	Sigal	08502	NJ	It is an abdication of the responsibility of the FCC to accede to pressure from internet providers in furtherance of their own profit. The airwaves are the property of the people and the same should be the case for the near monopoly the federal government has allowed internet providers. Every customer, corporate or person, should be allowed the same speed and bandwidth. Arbitrary stratification now could be just the slippery slope to allow providers not to transmit anything they find offensive or risque...if Hobby Lobby can deny its employees various coverages because of their personal religious beliefs what is to stop the providers from blocking or slowing content. Furthermore, they can strangle any content provider they want- not exactly an even bargaining field when one is negotiating. No, one speed for all prevents potentially dangerous practices and should be "the law of the land"
2675	Walter	Stockheck	08054	NJ	It is abysmal that you have caved to corporate, commercial interests to slow all that is rare and valuable and accelerate all that is cheap and voluminous for that is the effect this will have. You have ensured the complete takeover of the information highway by garbage.
2676	David	Turner	14519	NY	It is a sad day when the rights of corporations to make a profit trumps the public's ability to obtain afordable internet access. JUST JACK UP THE PRICE!!!
2677	Lorene	Stetzler	87105	NM	It IS a public utility.Tired of everything I've paid for being privatized to my detriment
2678	Gary	Thomsen	92661	CA	It is a public utility because we paid for it with our taxes.
2679	Marcia	Hutchinsc	01770	MA	It is a public utility and should be regulated as one. No fast lanes and slow lanes. No more extortion money for the ISP monopolies.
2680	Barbara	Lutz	45069	OH	It is a must that the internet be regulated as a public utility. Americans are getting ripped off.

2681	Brian	Jones	95630	CA	It is a great enough disgrace that the current chair of the FCC is a former cable company executive. - - - - The re should be no "faster data transmission" option whereby service providers charge a premium. This is extortion plain and simple.
2682	John	Clarke	21798	MD	It has been damaged by advertising gone awry. Don't let it get broken by big money.
2683	pam	buzbee	39470	MS	it has already gotten out of control with the charges and usage fees for regular people without large incomes please make them keep neutrality
2684	Douglas	Millar	95677	CA	It has all been said.
2685	Jane	LaRocque		MD	It does not belong to the super-rich--well, it probably does, but it should not. The public owns it. We are not pleased.
2686	Garry M.	Doll	17701	PA	It boggles the mind that you want to REWARD these companies - who give us crappy slow speeds for ridiculously high prices!!!
2687	Donald L.	Anderson	04079	ME	It belongs to US/us. - - It was developed with our tax money. - - It uses our air waves. - - We INSIST on Net Neutrality!
2688	Susan	Martin	85027	AZ	It belongs to us!
2689	Karen	Healey	80615	CO	It ain't broke, don't fix it.
2690	H.G.	Smittenaa	85650	AZ	It ain't broke, don't fix it!
2691	Raphael	Bustin	01730	MA	It ain't broke -- abandoning net neutrality is a BAD idea. The big Internet Service Providers care only about profit. Don't let them cripple the Internet.
2692	Pierre	Wilson	98506	WA	Isn't there a thick layer of hypocrisy when such a use is considered a "public utility" but still viably in danger of being held hostage by a bunch of greedy pigs in a country that's supposed to be made for and of the "land of the free"?!!!!
2693	Ann	Sierra	85705	AZ	Isn't the FCC supposed to protect the US citizen? Why are you (FCC) sucking up to the rip off's? Is your leader someone who was employed by the very business that wants to rip us off????
2694	Styra	Eisinger	08802	NJ	Isn't it obvious that internet is clearly on a par with telephone and electricity service?
2695	Corey	Pratt	16803	PA	Isn't it about time we have a way to speak and live that can't be bought by corporations?
2696	Carolyn	Lewis	10065	NY	Is your mission to work toward the common good -- or just support big business? I think the former -- you seem to think the latter.

2697	t	g	80301	CO	is this some sort of cruel joke. maybe not... but certainly cruel. shame on you!
2698	Roberta	Zabransky	73401	OK	Is there nothing left free?

2700	Leland	Tyler	88012	NM	Is there no end to the corporate greed in this country.
2701	pat	Engebrecl	34210	FL	Is there anything left that money won't buy???
2702	John	Harvey	55416	MN	Is the FCC representing us or are you in the pockets of the big communications companies. Time to decide.
2703	Richard	Pouzar	61036	IL	Is the FCC out of its collective mind to be allowing the cable companies to prioritize the speed of my selected content? Taken to its extreme, this prioritization will end up as censorship. So, are you proposing getting rid of freedom of speech?
2704	Michael	Schenk	21224	MD	Is the FCC following the opinions of the citizens, or the wishes of a former lobbyist?
2705	Dennis	Rogers	01452	MA	Is it time to look very closely at conflict of interest Mr. Wheeler?
2706	William	Whitlock	93036	CA	Is EVERY service "to serve the public" now up for sale to the highest bidder? Just the idea is outrageous!
2707	Anne	Hodgin	98274	WA	Is electricity more important than information to democracy? We must have net neutrality!

2737	Sreeni	Nair	08816	NJ	Internet is definitely a public utility, and not something that the cable companies can control according to their whim.
2738	Lyndsay	Schumacl	54136	WI	Internet is and should always be made public! Stop trying to control and segregate everything! Net Neutrality is the dumbest thing I have ever heard of! Get a life and move onto more important issues! Everyone hates Comcast and Time Warner! You will not be creating any fans doing this instead the opposite. Think for once of us and not yourselves. This is completely unnecessary! Don't do this! We will never support it or you!

2751	Van	Anderson	98361	WA	Internet companies have threatened that they will stop investing in network infrastructure if they are regulated as a utility. As a rural American, I can only believe that this threat is really only a declaration of the neglect they already foist upon the American public. By regulating these companies as the public utility that they truly are, we can actually begin the process of deploying the high speed internet that the rest of the industrialized world enjoys at a fraction of the cost that we pay.
2752	Paul	Ashman	55406	MN	Internet companies gained their current prosperity with a free and open internet. THey will do fine if it stays that way. The public requires this democratic means of publicity and communication to remain as it is.

2764	Christopher	Strong	01821	MA	Information should be FREE!
2765	Yvonne	Sallie	11413	NY	Information good enough for some should be good enough for all' The internet (information highway)
2766	Mark	Cherniack	97040	OR	Inequality in our society does not need more support from the federal government. This is unacceptable in a democracy, assuming we have one.
2767	Elena	Soto	07040	NJ	Inequality in everything. What's next? Is heaven and God for sale as well? Whose buying? Satan?
2768	Patricia	Craychee	15218	PA	Individuals are people, corporations are not. Charging for faster access for some is unfair, usurious and ridiculous - certainly not democratic or American. De-regulation in any industry has not been proven advantageous to anyone but the corporations.
2769	Wesley	Struebing	52001	IA	In this day and age it is as ubiquitous (and necessary) as other public utilities. Please make the internet so, as well.
2770	Gary	Wade	98225	WA	In the power to charge for the speed of the Internet lies the power to control what people can say.

2771	Cynthia	Sulaiman	02703	MA	In the 80s when I got on at our university with other universities it was open and democratic, no tiers. I literary fought for an open internet on usenet and am part of internet history because of it. When AOL users got onto the open internet, old school users were appalled at their lack of netiquette and wanted to block them and restrict them and all other newbies to the internet. Again I argued against it. A tiered internet removes the open playing field, the democracy of the internet. It picks winners and losers simply by those who can pay. This was not the way it was intended, this was not the way it has been for decades before Comcast, et. al. showed up. Leave our internet the way it is and has been.
2772	James & Sh	Parzino	28445	ND	In preserving internet neutrality... it is preserving our DEMOCRACY!
2773	Cynthia	Vyas	94903	CA	In my household we are upset by the concept of a two-tiered internet and want to preserve net neutrality. It would be outrageous to do otherwise
2774	George	Gilman	53211	WI	In many ways the Internet is comparable to public school and library systems. We don't charge fees for those who attend or utilize them (governmental units do). We need to make sure that private interests (cable companies) not gain control as it opens the gate for certain vested interest groups to filter/censor what the rest of us have access to. It is not paranoid to fear that we would be exposed to the threat of a real life version of Orwell's "1984"!
2775	Aaron	Shecora	93422	CA	In many parts of Europe, the internet is actually PROVIDED by the government. FOR FREE as a right. Let's actually take a step in the right direction for once.
2776	Stephen	Lickiss	51005	IA	In addition to the contents of the petition, which I endorse, allowing ISP's to differentiate between large scale providers and others will leave those of us in less populous areas with even fewer choices in providers than we have now, and what options there are will likely be much more expensive.

2777	Trimble	Sheehan	74055	OK	In a time of big business and corporations having more influence in Congress and the lives of average Americans, it is shocking and unbelievable that the FCC, now chaired by a former Internet provider, even considering abandoning the principle of Net Neutrality! The Internet has produced major start-up companies that have flourished and become vital companies providing jobs to many. What will happen to new start-ups forced to compete if slowed down by Comcast or Verizon? Why must the FCC side with corporations over the interests of millions? When is money going to be tamed? Your decision will have an impact felt by every user of the Internet. Good God, speed up the Internet, but speed it up for everyone, not just the elite class.. I oppose your decision to all certain corporations access to faster speeds, regardless of their willingness to pay. For once, err on the side of caution and abandon such a radical and unequal division of the internet.
2778	Becky	Bonnette	78660	TX	In a free democracy, it is imperative that all forms of communications remain open. Net neutrality allows all to view information and respond even those with lesser incomes
2779	Dee	Crescitelli	40906	KY	In 2014, we wouldn't dream of having electricity available for only some people all the time while others only have it for part of the day or in only one room. At this point access to the internet is pretty much to same. Lots of us need that for our livelihoods. - - Treat it like the utility it now is... welcome to the 21st Century!
2780	Arthur	Cain	03862	NH	Impeach Clarence Thomas and contain the plutocrats

2781	Ronald D	Edge	47404	IN	Imagine if telephone companies were able to give preference to commercial calls over private calls? To one category of calls over others? The basic connection to the Internet should clearly be classified as a public utility, and all traffic carried neutrally. The very essence of the design of the Internet is simple. It is a cooperative connected network of independent networks. Inherent in its design is the commitment to carry all traffic without classifying it, other than to prevent malware and criminal action such as spam email. Declare ISPs as common carriers for carrying Internet traffic. If they want to offer other services and sell them, well, fine, let them do so , and compete with the rest of the world.
2782	Martin	Iseri	95628	CA	If your proposed rules were in place, it is very likely you would not be getting the current response.
2783	Patricia	Armstron	63011	MO	If you want to maintain freedom of speech, don't make the net a two-tiered plan.
2784	Michael	Frazier	97365	OR	If you think turning the internet into television will work - you are way wrong. Creating a two tier system disenfranchises 98% of the population. Should the rest of us simply vanish now so you can serve the 2%???
2785	Gary	Jansen	53503	WI	if you side with fascists you are fascist
2786	Yara	Mello	98597	WA	If you screw this one up, it will take years to fix. Aren't you guys in a union? Ronnie Raygunz is the best example of how the GOP feels about your continuing ability to function. Don't do what the Union Busters say. NO Fast Lane!
2787	Gary	Waltrich	19114	PA	If you push this forward, politicians who vow to rip the FCC apart will win elections. Screw with the internet at your own peril.
2788	Francis	Moss	92252	CA	if you get rid of net neutrality, America's greatest strength, its innovators will suffer. And our country will suffer. Don't do it!
2789	Eric	Bromley	10567	NY	If you don't make the web a utility maybe we should start all over as a peer to peer free network and nobody makes profit. - - Do you FCC puppets know how the web started? - - Radio is still free and Serius isn't serious

2790	Steven	Campbell	19056	PA	If you do not make the internet a public utility, a common carrier, you are enabling gross economic discrimination of speech and knowledge.
2791	John	Zwiebel	96741	HI	If you approve "fast lanes" on the internet, you will leave most Americans in the dust as the ISPs withhold service from the "rest-of-us" to concentrate on the 1%. It will be one more nail in the coffin that holds the remains of a once great nation.
2792	Suzanne	Heller	15541	PA	If you allow this net neutrality to take affect, you will be hurting millions of people worldwide.
2793	Patrick	McCormi	02143	MA	If we fail to get this right, and there is no easy or singular, elegant solution, we will regret it for generations to come - looking back it would have been like requiring a bidding war on a finite number of taxi medallions to distribute printing presses only to the most powerful incumbent media organizations 100+ yrs ago.
2794	Marshall	Huberma	90064	CA	If we ended the monopolies service would be fast enough to that providers would not need fast lanes..
2795	Daniel	Brennan	45424	OH	If we allow everybody access to the higher speeds, it can only help improve the education and income level for our future prosperity as a nation
2796	Amanda	Sabino	21132	MD	If this still goes though then it only shows how blatant corruption is in this government
2797	kateri	courtney	89052	NV	If this passes it will truly prove we live in a corrupt country
2798	Frank	Baker	21217	MD	If the problem is that some users use too much internet bandwidth, would it not be better to charge a surcharge above some usage amount and introduce faster transmissions to _all_ users as internet service is upgraded?
2799	Teresa	Black	49093	MI	If the only way to protect our Internet neutrality is to make it a utility then you need to start the ball rolling to make it happen. The longer this drags on the more power the isp providers will gain with congress and that leaves the American people screwed.
2800	Klaus	Kraemer	95370	CA	If the money would pay for additional bandwith I might support the idea. But not if it's used to obtain favored status over the rest of us.

2801	Barbara	Mor	97215	OR	If the Internet was primally developed by & witin the Pentagon research labs, then it was developed by taxpapers' funds. That - - should mean american citizens 'own' it. This country's long ignoble history of developing technology in public universities, with public funding, & then turning the brilliant results over to private corporations as if they 'owned' such properties...really, haven't we seen enough of this? - - a public utility therefore in all senses
2802	Sasha	Kay	30224	TX	If the internet isn't preserved as a public utility, I will cancel my subscription to Comcast. I won't have a home phone or internet or cable with them, or anyone else, anymore.
2803	Victoria	Clarke	75023	TX	If the internet is not kept a level playing field, innovation will be stifled!
2804	Jose Alfonso	Villalobos	60123	IL	If the internet is not declared a public utility then I wasted my time in the military.
2805	Carl	Gipson	27518	NC	If the internet is not a public utility, then the term is absolutely meaningless!!!!
2806	Leigh	Hill	95018	CA	If the Internet is not a public utility, I don't know what is. Just as radio & TV didn't start as mass entertainment, we are now dependent upon the digital world in a lot shorter time than other acknowledged public utilities.
2807	Terry	Posch	55808	MN	If the FCC has the authority already, then get with it, FCC! Declare the internet a public utility like it should be. Live up to your responsibility. It IS NOT a private entity, nor should it become one. What are you waiting for FCC?
2808	Jim	Handrigan	55408	MN	If the corporate bastards owned the air, they'd asphyxiate us. If poop was gold, the poor would have no a_ _h_les
2809	leonard	buckner	97401	OR	If someone wants faster, priority access, let them build their own service.
2810	Judith	Loebel	12865	NY	If Net Neutrality is lost or SOLD there will be grave consequences particularly to NEW technology---small companies that CANNOT afford to be stifled and forced to PAY the Big Companies untold amounts of money will make this impossible. These companies did NOT build the Net and they should not CONTROL it either.

2811	Lorrene	Baum-Da	95667	CA	If it isn't broken don't try to fix it. Don't let the big guys buy the net.
2812	Jansen	Estrup	93255	CA	If it costs money it is not free speech ... the internet IS a public utility! It, like the airways, belongs to the public domain/Commons.
2813	Kevin	Bell	32311	FL	If it aint broke, don't break it.
2814	tracy	Arcure	33936	FL	If it a private utility than it should be FREE, - - so what is it Public, or private?
2815	Valdene	Ortiz	60120	IL	If electricity and wireless communications, I.e., phones, are public utilities, necessary to basic functioning in our society, why, when the internet is becoming even more intrinsic to how society is and will be operating, wouldn't that be a public utility, too?
2816	Alix	Keast	10025	NY	If course the internet should be equally accessible to all.
2817	Terrence	Delgado	44146	OH	If corporations are people too, WHY SHOULD THEY HAVE MORE RIGHTS THAN THE REST OF US?
2818	Stephen	Hall	97448	OR	If Comcast wants a faster Internet let them make a faster Internet for everyone. No two tier or three tier. Everyone gets on the bus.
2819	Adia	Hoag	21230	MD	If Comcast can raise my bill $20 every 3 months for the same exact service, why do we even need an FCC?
2820	Michael	Darnell	28210	NC	If cable TV is a utility then how can cable internet not be?
2821	Chris	Sheesley	94109	CA	If anyone should be making more money on the internet, it should be the content makers - certainly not the damn doorman!
2822	JJudith	Zetting	53223	WI	If a 17 yr old set up can be so easily stymied, THEN CORRECT THE PROBLEM THAT CAUSED THE SHUT DOWN !!! 2. Apparently the FCC does not think it needs to stay current with improvements and serve the public. Wonder how it will be in 2020? 2050? FCC will be forgotten

2824	Richard	Berg	58072	ND	Iâ€™m Richard Berg, the author of â€œThe Greater Universal System.â€← I advocate for working "United States citizens," not judicial, political, pentagon, Washington, Wall Street, media, and corporate criminals!

2825	Kathryn	Burns	78727	TX	I've said this on a number of petitions, but it bears repeating: net neutrality matters. Don't create a so-called "fast lane" for it, because that will force those of us with less money to muddle along in the slow lane.
2826	judith	banki	10003	NY	I've got a great idea! Faster electric service, cleaner water, cleaner air for those who can pay more. What is this country coming to? You are supposed to protect a level playing field for all Americans...
2827	Jennifer	Musser	43542	OH	I've been living abroad for four years. I have fiber optic internet that's consistently fast no matter what site I'm using, and I only pay the equivalent of $40 a month. I'm sure the companies here are making a profit. This is possible in the U.S., too. Don't let the cable companies try to convince everyone it's not.
2828	Eric	Hollands	48059	MI	I've been designing websites and applications for the last 10 years. I know more than enough to realize this is a blatant sell out by our government to the cable companies

2832	Barry	Kain	33772	FL	I'm tired of "Cable-Company-Fuckery."
2833	Michael	Fisher	98632	WA	I'm sick of the cable company monopolies
2834	Diana	McCague	07060	NJ	I'm poor and disabled and American. I deserve the same access as those who can afford to pay more. Keep the "net" neutral.
2835	Lynn	Scott	92130	CA	I'm one of the millions of taxpayers who paid to build the Internet. Regulate it as the public utility that it is. PROTECT AMERICAN TAXPAYERS LIKE ME. PROTECT all of us "little people" who can't possibly compete with corporations making millions and billions of dollars. Do NOT let corporations profit off the Internet at MY EXPENSE!

2836	Donna	Kasmer	93552	CA	I'm not in favor of allowing the Feudal Lords of the ether turning the populace into serfs in service of controlling information. That is what third world dictators do. Keep Net Neu
2837	Doris	Dailey	65355	MO	I'm not getting the high speed internet service I'm paying for. The internet speed Verizon is not the service they told me I would have.
2838	Amanda	Davidson	60302	IL	I'm growing weary of having to pay fees for everything. A fee for parking my car. A fee for the water I drink to sustain my life. A yearly fee for being born in this country. The top 3% keep getting richer and I keep breaking even. Now you want me to pay even more money while you segregate society. We can do better.
2839	David	Katzen	94507	CA	I'm frankly not sure whether I've already endorsed this view to you guys, but I firmly believe that free-flowing, un-skewed, non-extortionate access to the Internet information highway is about as basic and fundamentally necessary in today's world as any other recognized utility--phones, power, water, etc. We cannot have the cable companies or any other monopolistic power rationing data or giving high-roller faster tracks.
2840	James	Rubin	10028	NY	I'm for total net neutrality. Don't let the big corporations rule.
2841	Kyle	Raffel	30306	GA	I'm embarrassed for you, FCC.
2842	M	Gonzales	98105	WA	I'm disabled, a former verizon customer, and they're full of shite.
2843	susan	michetti	53572	WI	I'm disabled and Verizon's plan will not help me in any way. In fact it will harm and hurt me. Verizon--stop making false claims in my name.
2844	Roger	Comes	05748	VT	I'm disabled and have never had any trouble with the internet. So Verizon your argument doesn't hold with me.
2845	Bryna	Goodman	97403	OR	I'm deeply troubled by the increasing privatization and secret-dealing that distorts the open and democratic functions of the internet. For the sake of citizen faith that our government is not just a money-machine for the wealthy 1%, I urge the FCC to demonstrate some moral backbone!
2846	Tom	Wicox	17555	PA	I'm being ripped off by Comcast, I had a hard time capitalizing that.

2847	Robert	Ball	98225	WA	I'm absolutely opposed to the 2-tiered internet plan.
2848	Lloyd	Sargent	78621	TX	I'm a small rancher. We sell hay. The internet is a public utility. I don't see private lanes on the interstate? Why do you want to do that on the internet? - - - - Keep net neutrality.
2849	Josue	Maymi	77035	TX	I'm a small business owner and rely on the internet for much of my marketing. I need Net Neutrality to ensure my business grows and prospers!
2850	Lia	Olson	94702	CA	income. I'm so glad to live in the age of the internet and be able to keep up with new ideas, new creative productions, new ways of communicating as I navigate my senior years--which sometimes include periods of physical debilitation in which my computer is the gateway to a vibrant bigger world. - - - - The issue of Net Neutrality concerns me very much. I don't want a two tiered system in which innovation and creativity might be trumped by big money and relegated to the slow lane. I want to live in an online world in which the New (and initially poorly funded) is always emerging and opening new doors. It keeps me young to live in a world which is always generating and supporting innovation. - - - - When I was young, my father started a new business with a meager first investment of an extra $20 saved from his paycheck. I watched him build a thriving business out ingenuity and hard work. I don't think that would be possible in today's world--except in the tech realm in which new and dynamic sites appear on our computer screens and enlarge our world all the time. - - - - It's really important to me that the FCC doesn't interfere with the bubbling of energy occurring online by favoring well funded companies that can pay a premium for faster speeds. Please don't let the American

2852	Brian	Light	48390	MI	I'd say listen to the millions of people but I think all you can hear is millions of dollars!

2853	carroll	robinson	20832	MD	I wouldn't trust Verizon or Comcast, etc., et al., with a half-dead goldfish, never mind our internet. What is wrong with us in this country that we think big business is "always, always, always" in it for our well-being? They're not.
2854	lynn	manzione	30607	GA	I wouldn't be able to do my job & find out how to create epromos on the web if we didn't have net neutrality--it's a training tool!
2855	Harriet	Thurstlic	19070	PA	I would like to see a resurgence in democracy on the US. Saving net neutrality is a step in the right direction.
2856	Ellen	Rigsby	94702	CA	I would like the internet to stay free and open with no fast lane for hire.
2857	JoMarie	Farrell	97217	OR	I wonder which lobbyists for the internet service corporations are wining and dining the FCC. Net neutrality is of paramount importance for the service of the public--not the corporations!!

2861	Anita	Brandariz	11201	NY	I was taught that airwaves belonged to the people....not Verizon, Comcast or any other private corporations. So...keep that in mind.
2862	Heather	Davis	98116	WA	I was a verizon customer for 14 years. I opted out when I learned about what Verizon is all about. Good riddance!
2863	Joan	Wildfield	98227	WA	I want to Extinctfinity.....I want nothing to do with monster companies who run rampant over consumers....extinction
2864	melinda	ramsey	32344	FL	I want to be able to use the internet freely and easily.

2865	Sigrid	Asmus	98199	WA	I want the FCC to protect my interests, not corporate interests, and to act as a genuinely independent government agency. The FCC must mandate that Net neutrality principles have paramount priority. Specifically I want the FCC to keep the Open Internet, and to use its full authority to regulate the internet as a **telecommunications service** to protect consumers and make Net neutrality a central principle
2866	Constance	Bowes	19382	PA	I want the FCC and Congress to keep the Internet neutral and open and equal for all. I oppose any changes that start making it a commodity that can be bought by a few and change the intention and purpose of the net. Keep the Internet a free open communication vehicle for all.
2867	Anil	Comelo	94563	CA	I want net neutrality!!
2868	James	Watts	22003	VA	I want net neutrality!
2869	Jessie	Norton	97222	OR	I want complete Net Neutrality.
2870	Louise	Gammon:	28105	NC	I want an open internet that isn't exclusively for the benefit of the rich.
2871	Peni	Hall	94705	CA	i want an affordable, accessible, varied and diverse internet
2872	Monica	Goldman	01108	MA	I want a level playing field on the internet. I don't want rich voices to be heard more and louder than other voices.
2873	Susan	Hall	80020	CO	I want a free and just system of government, the citizens must be able to learn about everything and share everything
2874	Rafik	Eid	19808	DE	I vote for Net Neutrality
2875	Suzanne	Plasman	33020	FL	I use the internet mainly for personal communication like email and social networking and communicating with my grandchildren. I do not want my service provider or any corporation to be able to direct my attenti - - networking. I also use it for finding out inf
2876	Sharon	Wood	80631	CO	I use the internet everyday, to connect with friends and family through email and social media, input my time for the work at home timesheet, pay bills, research, shopping, etc.

2877	James	Teeter	97229	OR	I use the Internet everyday just the same as I use water, natural gas, and electricity. It is a utility that fills my basic requirements for information.
2878	William F.	Edwards (	19038	PA	I use the internet every day. I use it at home and at work. I subscribe to Verizon. am I happy with them? No? Do I think the cost is fair? No what could be worse? It would be worse if we have a 2 tier system. - - - - As Americans we pay an enormous amount of money for our military to protect the interests of our corporations. We subsidize our corporations to minimize their risk and we allow them to send jobs overseas and to avoid taxes. We have the one expensive health care systems and one of the least effective systems among the leading nations of the world. Now we are poised to say the vast majority of Americans are second class citizens when it comes to internet access. - - - - We cannot allow this to happen. Americans will not go down as easily as the Chinese or the Arabs because we have memory of freedom.
2879	Rennie	Sawade	98296	WA	I urge you to reconsider keeping net neutrality intact.
2880	Jane	Sarja	06471	CT	I urge you to protect net neutrality by preventing this merger. The American public is sick of being screwed by powerful companies and their cozy corrupt political buddies.
2881	David	Brower	23831	VA	I urge you to maintain net neutrality. Our government has already given too many breaks and "passes" to and lavished too many accommodations on big businesses at the expense of the American citizenry. Get rid of your "potato chip backs" and grow some backbones.
2882	David	Brundage	40206	KY	I urge you all to look at the ramifications of this decision and listen to the people and not your wallet.

2883	Patsy Bell	Hobson	63701	MO	I urge the FCC to reclassify broadband services as Title II communications. The FCC would then have the power to regulate net neutrality. - - I think it is important that everyone has the power to interact, has access to the internet. This is an important tool to safely connect the elderly or disabled to information, safety issues and educational materials. - - We need the FCC to reclassify the internet. Today, information exchange is a health and safety issue for me. It allows me to interact beyond my front door. The internet is a two way street, freely providing the exchange of knowledge, expertise, and entertainment.
2884	Jerry	Tobe	90034	CA	I understand that the Notice of Proposed Rulemaking that the FCC adopted on May 15, 2014, includes consideration of reclassifying broadband service providers as "telecommunications services," which would enable the Commission to impose common carrier requirements on the providers. This means the FCC could be allowed to regulate the providers with more strict and rigorous obligations, like how telephone companies are regulated. - - The fact that the adopt rule isn't exclusively about reclassifying broadband service providers as "telecommunications services" deeply concerns me, because I don't know what else is in the adopted rule. I strongly urge you to reclassify broadband service providers as "telecommunications services" and to NOT allow broadband service providers to charge different rates for any Internet related service.
2885	Rita	F.	81020	CO	I totally agree with Al Franken!
2886	Vaibhav	Sharma	22079	VA	I thought we decided to stop monoplies years ago so why is it cable companies run monopolies? Is it because they buy your dinners?
2887	Ann Marie	Lauzon	02726	MA	I thought these jokers were supposed to protect us from d-bags!

2888	Derek	Gendvil	89117	NV	I think we need to tell the FCC & Congress that we demand that we need our help to save the internet from corporate power who's trying to take it over, & that's not totally not good for us. We need to tell to stop being a private service & that we don't to prohibit service providers that need fast & slow lanes, but instead we need to make the internet more public & that these big companies don't take their power & that they don't win on this.
2889	Laurie	Norton	81301	CO	I think it's a disgrace that the main cable company lobbyist now runs the FCC. Prove to me that he's NOT corrupt!
2890	Chuck	Hurcomb	46628	IN	I think it works just fine the way it is little need to fatcats sticking her nose in our business
2891	Barbara	Puder	03062	NH	I think having this 2-tiered system fails to take into account individuals who utilize the internet for everything from education to online shopping. Slower speeds for individual users will discourage us from online commerce. For people like myself, who can't get out easily, slow internet speed could force us to chose between purchasing and not purchasing items. I'm sure there are many other aspects of life this will effect. I'm sharing an aspect where I know I will be impacted. - - - - Other countries have outrageously fast internet speeds for everyone. Why are we so far behind to begin with?
2892	harvey	burrus	23456	VA	I think big companies should not be allow to muscle out the smaller consumer oriented companies who are helping consumers by holdind costs down that are affordable by most consumers. I'm for net neutrality. Stop big companies from using a plunger on consumer pockets every time we turn around. They are continually rates while our wages are at a stalemate.
2893	Ann	Fenner	72560	AR	I think allowing the two-tier system is very detrimental (economically) to consumers.
2894	Kim	Middleto	48506	MI	I thin....
2895	Burt	Clothier	98466	WA	I support the open, fair use of the Internet. A tier program is unjust and should be rejected.

2896	Paul	Feight	15147	PA	I support net-neutrality.
2897	Sherrill	Steed	34990	FL	I support net neutrally
2898	John	Herbig	91335	CA	I support net neutrality. The internet is a public utility.
2899	Darlene	Mozeko	18103	PA	I support net neutrality. Any member of Congress who cares about their constituents will support this.
2900	Raechel	Barner	78728	TX	I support net neutrality.
2901	J	Pascotto	90265	CA	I support net neutrality without reservation. I do not support allowing cable companies to offer two speeds of service.
2902	James	Carey	14624	NY	I support net neutrality please avoid more control over the internet. Avoid creating a Monoploy via cable/internet/phone services. Todays internet access costs are to high & uncalled for.
2903	John	Gotimer	01905	MA	I support net neutrality but the effort to type this missive is probably wasted on Mr. Wheeler.
2904	Paul	Hoff	01970	MA	I support net neutrality and a level playing field when it comes to use and access.
2905	Eric	Peterson	55313	MN	I support net neutrality
2906	Alex	Nonnema	08361	NJ	I support municipal internet services too
2907	Jan	Morrison	15215	PA	I support efforts to maintain an internet that is regulated as a public utility. Monopoly cable companies must be regulated.
2908	Shawn	Eddy	97448	OR	I strongly support Net Neutrality...prevent cable companies to have a monopoly on us and our internet access
2909	Rick	Jeffries	95662	CA	I strongly support a Constitutional Amendment against Citizen's United. Don't allow our democracy to be sold. - - Dr Jeffries
2910	Patti	Alleger	18360	PA	I strongly oppose a two-tiered internet plan to create a faster lane. Leave the internet as it is.
2911	John Wayne	Jackson	28711	NC	I strongly oppose a two-tier internet structure. The net should be kept available as it is today.
2912	Paul	Tagliamoı	05446	VT	I stand with Sen. LEahy and Rep. Welch
2913	David	Timm	23320	VA	I stand with John Oliver!
2914	gary	stankus	49504	MI	I sick of all this shit for the rich.When will the American People wake up?Never?

2915	Jonathan	Schneider	49453	MI	I SHOULDNT HAVE TO BE SAYING AGAIN FOR THE UMPTEENTH TIME THAT WE SHOULDNT HAVE TO BE SAYING THE FOLLOWING AGAIN AND AGAIN AND AGAIN: THE INTERNET IS OURS, WE THE TAXPAYERS, THE JOB DOERS, THE CANNON FODDER, THE ONE PINK SLIP AWAY FROM POVERTY. LET THE TOP FLOOR/CORNER OFFICE/VILLA ON THE MEDITERRANIAN/ TEN MILLION DOLLARS FOR MY DAUGHTER'S WEDDING/ "NOTIFY TH SENATOR
2916	Kelton	Kinnick	50219	IA	I sent a comment a week or two ago, but it bares repeating. Wealthy individuals and corporations have already eroded much of our democracy. Do NOT let this process continue by letting them pay/buy their way to control of the internet -- paying for performance and service that only they can afford. KEEP INTERNET ACCESS AND PERFORMANCE NEUTRAL FOR US ALL!
2917	Cassandra	Roberge	83703	ID	I really can't believe you might consider doing something like this. We need to keep internet neutrality.
2918	Ronald	Herrmann	60177	IL	I realize that it's not consistent with your past history, but PLEASE: for once - do the right thing for the populace, and not the "right thing" for big business!
2919	Tony	DaSilva	04543	ME	I pray for net neutrality. Our democracy is at stake!
2920	Niall	Sheehan	20723	MD	I pay my ISP for internet access that is worse than the rest of the world. Now they want to be able to choose what I have access to? This is unacceptable - keep the pipeline open, don't let a monopoly control free speech and exchange of ideas.
2921	David	Bern	33324	FL	I pay my carrier which I believe I am limited in my options for internet access. I don't believe I should have to pay vendors who provide service over the internet more money cause you're strong arming them if they want good service. The fact that the head of the FCC was the head of the lobbyist arm for the cable companies is horrendous. Comcast and Verizon should be broken up.

2922	Christy	Sobolews	33917	FL	I pay more for internet and my internet phone than I do for electricity. And my electricity is on more than me internet service. It is time we did the right thing and regulated the ISPs as the utilities that they are.
2923	Jo	Bell	52641	IA	I pay for Internet service...So my choices - - All are the same speed...please
2924	Leon	Robertsoı	85622	AZ	I pay Cox Communications $62/month for Internet speed similar to that in Estonia. The idea that a corporation can pay to get in front of the line is anathema to me and should not be allowed.
2925	Thomas	Sandy	07920	NJ	I pay a fee for internet access and now the company wants me to pay more for the content I receive on the internet access they provide me?
2926	patty	langford	75639	TX	i particularly like their "balls" at total disregard for the monopoly they are/were creating! Are these stark raving mad money laundering FAT CATS running everything?
2927	Timothy	Cunningh	77381	TX	I oppose the attempt to create a "fast lane/slow lane" internet. Maintain true Net Neutrality.
2928	amanda	sebrosky	44140	OH	I oppose giving a fast lane to any one person or any company
2929	Michael	Finnigan	91436	CA	I oppose any plan that does not make the internet a public utility.
2930	Shari	DuShane	30127	GA	I need the Internet for school; school and school loans are already costing too much and if the schools need to pay to be on the faster lane, that cost would be absorbed by students who are already paying too much. Keep the Net Neutral!
2931	Edith	Griffin	01450	MA	I need free-flowing internet information for my small business!
2932	Samuel	Noble	97403	OR	I may have already submitted a comment, but I feel that the Internet should stay equal access to all. Otherwise, we'll vote to kick you off and make it our own way. Or we'll just boycott the big Internet companies. Those small businesses had better be ready for big traffic if the Internet is privatized; they'll make a killing off of not restricting the Internet.
2933	Larry	Jones	70122	LA	I M FOR NET NEUTRALITY. I AM AGAINST A TWO TIER SYSTEM.

2934	Tracy	Neas	72127	AR	I live outside of a city and have to use my phone for my internet connection. I believe that everyone should have access to High Speed Internet... No matter where they live.. Especially in the rural areas.. I believe that the only way that will ever be possible is if the Government steps in to see that it becomes a reality.
2935	Susan	Meador	59047	MT	I live in a rural state. Our internet is already too slow.
2936	Nancy	Sanders	49457	MI	I like it like it is, call it Net Neutrality. Changing it would just be to please the plutocracy, not the people.
2937	Bill	Marcus	93065	CA	I know that hitting a lobbyist from this industry should be illegal. So we know what this result well be. But maybe yOu'll do v the right thing???
2938	Richard	Lethridge	89178	NV	I know that Freedom is not being totally free like I know that everyone is not behind you100%, especially the to 2% of the United STATES population. That group of people that control the most in this country will continue to take and never give. Therefore it is very important for you to make the decition to keep the 'net neutrally' as is.
2939	Allen	Trombino	95404	CA	I know its a waste of time because of your corporate agenda, but I support Net Neutrality and don't want a 2 tiered internet system
2940	Danny	Stobaugh	97477	OR	I know it's a waste of my time but I have to try by whatever pusillanimous means still available to me.
2941	Paul	Wheeler	10009	NY	I joined a one year deal with Time Warner Cable, and within a few months they were raising the rate that they had guaranteed me for a year. I now have no cable because I donâ€™t want to deal with Time Warner, and Iâ€™m fine with that, because I no longer have to deal with Time Warner Cable. Donâ€™t give them any more power. They already have too much.

2942	Daria	Boeninge	02474	MA	I hope that the FCC will do whatever it can to ensure that (1) American communities that want to form their own broadband service can no longer be blocked from doing so by the major ISPs (it is an outrage that 19 states have blocked community-based internet service providers in favor of the giant ISPs), and (2) internet access really will be made as equitable as possible, in order to reduce already existing disparities in educational and employment opportunities in lower-income communities. Thank you for your consideration.
2943	Eve	Seamone	95062	CA	I have signed and will keep signing this and all the other net neutrality petition that comes up. For once lets get the big bullies out of pushing American around!!!!
2944	Joanne	DeSantis	94015	CA	I have sent several comments. . .
2945	Sam	Cox	78723	TX	I have poured my & into my internet company for decades and now to show their appreciation for my loyalty they want to take advantage of a disabled, retired American taxpayer. We are watching the FCC and we will hold hold accountable.
2946	Billy	Linebarge	72058	AR	I have ONE serious question!: When a Person is hired as a Federal Employee: - - Must YOU, as a condition of employment, Agree to a Frontal Lobotomy ?!!!!!!

2947	Michael	Rhubart	03816	NH	I have kept my cable and dish bills over years because of ludacris price hikes. They operate in part, in secret; with arrogance; they refused a concession offered by our town selectmen--and were rude about it, as reported in the NH, Granite State News. They won't allow a la carte programming--even though they send company menus that have all a la carte pricing for services. This is the utter arrogance exhibited by TWC especially. I have been told on the phone by TWC workers that management often leaves them clueless--without info to answer customer questions. Their own employees admit they treated poorly! You need to rein in these companies with strict regulations. If hundreds of thousands of people say the companies are a huge problem, and from many different perspectives, then by default--there is a huge problem with dish and cable companies. Imagine an internet where these companies have no regulation whatsoever. I bet within days the FCC will have exponentially more problems with a tiered internet. Please allow net neutrality to be our firewall against greed and arrogance...thank you.
2948	Patricia	Warden	98056	WA	I have indeed two great measures at heart, without which no republic can maintain itself in strength: 1. That of general education, to enable every man to judge for himself what will secure or endanger his freedom. 2. To divide every county into hundreds, of such size that all the children of each will be within reach of a central school in it. --Thomas Jefferson to John Tyler, 1810. ME 12:393 A free and open internet is vital to the "general education" that Mr. Jefferson talks about. Please keep it free and open.
2949	Joy	Osterberg	55904	MN	I have been using the internet for 25 years now... I do not want this 2-tier system to infringe on my ability and 1st amendment rights to make my content slower because corporation have more $$$ to pay for a faster speed. This is an unjust, unfair and unwise decision to take away net neutrality.

2950	Kimberly	Kelley	97219	OR	I have been software engineer since 1991 and worked telecommunication including billing and network conversions from analog to digital for 14 years. I also know what Tom Wheeler is doing is illegal and unethical. He should be removed from his position immediately because of conflict of interest !
2951	Jeremiah	Kristal	07028	NJ	I have been involved in building out the internet and the underlying fiber & wavelength systems for the past 20 years. I have been peering coordinator for tier-1 ISPs, and have run operations for large ISPs and hosting centers. I currently work for one of the largest telecom/ISPs in North America and I strongly urge you to support net neutrality. The Internet is too important to let large corporations sell it to the highest bidder.
2952	Karin	Bornholtz	94521	CA	I have been disappointed & disgusted for years by FCC rulings that have allowed corporate interests to gain control of radia & TV. I have little doubr that dispite public opinion The FCC will again rule in favor or the big companieds, again decreasing free & varied discussion & choice for the citizenry. This increase will only result in increased profits for all cable companies to the detriment of consumers.
2953	Rhonda	Paulson	98282	WA	I have as much right to quick access to whatever websites I deem valuable as big monied corporations have. Stop allowing the obscenely wealthy to buy out our ability to communicate, to research, to discover, to share!!!
2954	Samantha	Coleman	98406	WA	I hated getting fucked over by comcast, so I finally switched to direct TV. But it sounds like if TWC get their way they'll be able to continue to fuck me in the ass with comcast
2955	brynn	grenier	48329	MI	I hate the fact they are aloud to mtoonopolize the cable service

2956	Jonathan	Trautman	94501	CA	I HATE Cable Company Fuckery. It makes NO SENSE that ESTONIA or some other backwaters country has better internet than the USA!! Furthermore, The Internet is becoming more and more essential to business and commerce. If it weren't for things like Net Neutrality, we wouldn't have services like E-Bay, Hulu, and more!!
2957	Robert B.	Kaplan	98362	WA	I grow weary of adding personal comments that no one reads. Damn it, the internet IS a public utility. ACT ON THAT PREMISE!!!
2958	John	Browne	98070	WA	I get 120 emails a day... and maybe 5 or 6 phone calls. How is THAT Not indicative of a "communications utility"? ^..^
2959	Tamber	Hilton	98059	WA	I fundamentally disagree that internet service providers should be allowed to treat data differently depending on who creates it. It is bad enough that I have next to no choice as to what internet service provider I use where I live. To make it possible for an internet service provider to discriminate between data packets, prioritizing some content or some content providers over others, would change the internet fundamentally for the worse. Even content providers with strong market positions don't want this: they know they will be shaken down and forced to pay higher rates to send their data to consumers at all. - - - - Please reconsider changing the rules that protect a free and open internet for all US citizens and residents.
2960	Xochi	Navarro	95691	CA	I fully support net neutrality and am completely against the proposed "fast lane" change. The internet is a public utility and we need to keep it that way!

2961	Susan	Love	94611	CA	I feel very strongly about the need for the FCC to reclassify broadband services as Title II communications. If not, the big companies with the substantial means to do so, will definitely slow down the the utility for 99% of its users and probably be able to even block their usage completely. Is this still the United states of America? Are massive chunks of our internet, which has become, in so many ways, a lifeline of important services and opportunities being sold off to the wealthy ISPs with FTC approval? Will there be no room in our culture for 99% of our citizens? I'm wondering where I can take my family. - - - - I have felt so able to share my voice with so many people, thanks to the internet. Years ago, I occasionally wrote a letter to the editor of my local newspaper. Once I called into a radio show with my opinion. Now, with the internet, I can learn how people feel al over the US and sign petitions and support candidates I feel represent my values.I am ENGAGED in my government. I support candidates for national , state and local government.t including candidates for Governor and Attorney General. I have NEVER felt so connected as in the last 10 years. I am a citizen of "one nation" for the first time. What a tragic and terriblegift to lose. And to lose to bullies!
2962	Anne	Redman	97035	OR	I feel that net neutrality is vital to the future of our society and economy. Once ISP's get the privilege of favoring some customers over others they will seek to expand that power more and more to gain monopolistic control over the flow of online information and commerce. The internet must be treated as a public utility with equal access for all and be run for the benefit of the public not corporations.
2963	Anthony	Christoph	91011	CA	I feel strongly that the internet needs to be free of any kind of government controls.
2964	Elton L	Homesley	78652	TX	I feel like every other American, that the full capacity of utilities shouldn't be parsed out to companies to control and profit by while limiting the freedom of individual access.

2965	ELISABETH	STENSON	55811	MN	I feel I should have first rate internet like everyone else but I don't have the income to pay high prices for the best. You are right - internet should be a right to ALL - not just the rich. I am retired at 14,000 a year - obviously I will lose what I consider an enailiable right.
2966	Emily	Sandstror	83467	ID	I expect you to fuck us all, but I wish you would not.
2967	Robert	Profitt	97317	OR	I don't want your version of the internet, but an equal use that is not a tier scheme for higher charges. In other words make it a utility like the phone companies.
2968	Florence	Vincent	98576	WA	I don't want to have to pay for everything I do on the internet. Please stop pandering to the corporations who don't give a damn about any of us....you included.
2969	merri	milwe	10013	NY	I don't want to be on the service road on the internet super highway.
2970	Charles	Grotsky	96746	HI	I don't want to be in the slow lane or the fast lane-I just want to have a free of any restrictions internet available to everyone.
2971	Liz	Stroud	28701	NC	I don't want the conglomerates making money at my expense. I don't want their fingers in all of the pies!!!
2972	Jacki	Jean	29650	SC	I don't want my access sold go the highest bidder. Free speech is FREE!
2973	Zenda	Boss-Hall	98004	WA	I don't want access to my daughter's website jeopardized. I agree with John Oliver: Stop the cable companies from Screwing us.
2974	Gary	Gall	93428	CA	I don't want sone fat cat screwing up the internet for his own greed.
2975	Mary A	Leon	78212	TX	I don't need anyone to decide what I can and cannot look at on the Internet and I sure don't want to have rightwing crap thrown at me in lightning speed while Democratic websites take forever to load. No Thanks! Keep the Internet PUBLIC!
2976	Jill	Ballard	93463	CA	I don't like the feeling of your screws in my thumbs.
2977	Sandra	Smith	98335	WA	I don't know what it takes to get people outraged over things that really count.

2978	Donna	Niell	93638	CA	I don't frequent many of the popular, profitable sites. Please don't make them harder to find.
2979	Alba	Endicott	60430	IL	I do not wish to become a second class internet citizen. Net neutrality and equality!
2980	Karen	DiSCala	07079	NJ	I do not want you to change the rules governing net neutrality. I have a voice and I want it heard. It is unnecessary and stifles competition. Stop making rules based on the needs and wants of the 1%.
2981	Ilona	Sego	40214	KY	I do not want rich corporations limiting the speed at which I get information. If corporations are "people," all people should be equal in computer speed!
2982	terrence	wilburn	20003	DC	I do not support net neutrality
2983	Joseph	Touchette	05477	VT	I do not know how anyone serving the American people could possibly support eliminating net neutrality. Someone must owe something to someone!
2984	Charles Pau	Becker	06759	CT	I do my job correctly every day without having to be petitioned to do so. What the hell is wrong with the FCC?
2985	Carol	Gallup	98368	WA	I depend on the internet as a quick-access library for even very arcane material, to advertise my small business, to find hard-to-get equipment for it that is NOT sold by big corporations, to delve into science journals for personal enjoyment and for business purposes, to get quick information and act on my political concerns, to connect with people of my religious faith, to connect with family and friends. There is virtually nothing I want to know about or buy from large corporations, and their input would block or slow down everything I need access to on the internet. Please reclassify the internet as a Title II utility like the telephone under the Telecommunications Act, and preserve net neutrality..
2986	Laura H	Stephens	94521	CA	I demand that you immediately designate the internet to be a public utility.
2987	Kenneth	Hranicky	94561	MD	I cannot believe you are going to destroy net neutrality to make a bunch of people rich. Fucking assholes

2988	mike	wayshak	02127	MA	I cannot believe that you would be so stupid as to trust the cable companies
2989	Mike	Jessett	98607	WA	I cannot afford to pay outrageous fees just to surf the web
2990	Jacques	Maye	89511	NV	I cannot afford to get my information in a two tier system. The net and access must remain free and open to all. Also I have been paying to get service to rural communities for years. Why should I be put in a group that gets slower speeds?
2991	J J	Jaycox	94133	CA	I can't top the comments I've read so far, but I want to say that this is an issue that effects every person in this country, yet the FCC thinks giving the corporations the edge is the right thing to do - Pay-to-Play for the bigwigs and dial-up for the rest of us. Please enact legislation to make the internet a UTILITY, not a two-tiered system where we all lose out except for the 1%. The arrogance of the government right now to its own people is stunning, and the public is going to start fighting back. This is a good place to start.
2992	ross	burnham	04401	ME	I can't state this enough, privatizing "the internet" is a disservice to the rest of the world, and another nail in the coffin of the free. Don't help greedy business men choke the last couple of coins out of the American people by putting thumbscrews on our wallets just to be able to use the internet. Their charges for cell phones are already ridiculous, paying that much for decent internet service is going to put basic communication out of reach for everyone soon.
2993	Mary	Cooper	73072	OK	I can't believe you guys are going to screw this up. Wait a minute, yes I can.
2994	Cheryl	Avery	02421	MA	I can't believe this is even a question. Keep the net public. Thank you.

2995	bill	jamison	77373	TX	I can't believe that an FCC director appointed by a Democrat so easily allows mega mergers and media conglomerates to dominate our society . If businesses , especially tech companies don't keep up they SHOULD LOOSE CUSTOMERS, (cutting the cable due to cable/satellite companies not allowing al la carte pricing). I'm tired of paying for sports religion and politically based channels I will never watch !!!!!!!!!! - - The government shouldn't bail out cable/satellite companies but let nature take its course, like Netflix, Hulu , Amazon etc ... become the next providers if they're willing to do it at a fair price .
2996	Lee	Jenkinson	91351	CA	I can't believe just how messed up our government is to allow the head of the cable lobbying organization to become the head of the FCC. Hopefully, the outrage over this issue will rattle a few cages in the administration and wake them up.
2997	Sheryl	Lee	04101	ME	I can't afford the services I have. I can't imagine some services being even more expensive.
2998	LLOYD	DOERING	42320	KY	I can see the monopoly being ripped to shreds in the future should you push thisI suggest you do what's right, and if you don't already know what that is, you have no business making decisions that affect the public.
2999	Rebecca	Greeley	01720	MA	I believe net neutrality is essential to a free and open world. Regulate the net as a public utility so that we do not have decisions of content made for us by people who have profit interests above freedom to access information. We already see this happening. Somehow my server cant access sites I want to go to. I am already being directed to preferential sites. The preference isn't mine. Voices will be denied under systems whose personal interests and profit are being served. Big companies have a conflict of interest when they have profit riding on where you go. When they provide the pathway and also content, they decide your content. This is wrong. Please, please, please step up
3000	Marybeth	Sanchez	97041	CA	I believe in Freedom!

3001	Scott	Brown	32309	FL	I believe in freedom and the capitalism but not plutocary. Shame on you for supporting corporatism.
3002	Carolyn	Frazier	97213	OR	I am very disappointed in Barack Obama. I thought better of him.
3003	Dietra	Byrd	04043	ME	I am vehemently opposed to 'pay for play' internet structure. I insist that the FCC be stopped from changing the way consumers access data, Deep pocketed telecoms should not be controlling what data I receive and at what speed I receive it. The people of the United States demand that the original design of the internet and equality of service remain the same.
3004	Stuart	GIBSON	06883	CT	I am totally opposed to the proposed two-tier internet plan. Leave the internet as it is - free and unobstructed for all!!
3005	Robert	Starr	95819	CA	I am tired of seeing the "Revolving Door" between Government and Corporations result in citizens getting taken for suckers. - - - - Please realize that the Internet IS a PUBLIC UTILITY and preserve the rights of citizens!!!
3006	Jerrianne	Kuehn	95037	CA	I am tired of large corporations squeezing out small businesses. Keep the internet neutral!
3007	Garfield	Whitman	90035	CA	I am strongly opposed to any plans that would tier internet speeds in a pay to play system.
3008	Stephen	Gavek	02889	RI	I am strongly behind this important issue.
3009	Barbara	Barnett	84121	UT	I am so sick and tired of the "big guys" - - taking over everything. They have enough advantages as it is!!!
3010	Anthony	Loncich	94114	CA	I am sick to death of being fucked by idiot politicians and fucked by greedy corporate filth. If this shit happens, then I say burn the corporations. Burn them to the ground!
3011	Kate	Gallagher	98115	WA	I am sick of us little people getting screwed by big businesses all of the time!
3012	Douglas	Adler	80829	CO	I am self-employed and rely upon the internet and www to both receive work from my clients and to work with their computer systems. Will you guarantee that my access will not be negatively impacted?
3013	Laura	Rathbun	97301	OR	I am saddened by the fact we are even having this argument still.

3014	Roberta	Stuemke	54902	WI	I am retired, and have to watch my budget; the only way I could afford a 'fast lane' offering is if I ditched everything else. It's either than, or I'd be doomed to nothing but the 'slow lane'. I don't think that's fair.
3015	Janet	Phillips	87501	NM	I am required to use the internet for my job as a nurse, as do many people. Why would you make it harder for regular folks to gain access at a time when many corporations are asking people to go online for work, to pay bills, and to be an integral part of their lives. Keep it a utility please for the public.
3016	Katie	Johnsonu	72632	AR	I am over-tired of major corporations running what is purportedly "our democracy." The FCC should serve the citizens of the U.S., and despite the Supremes, I do not thing major corporations are "citizens." Do the will of the people. Pay attention to the will of the people. Otherwise, you are serving mammon, not man.
3017	Lisa	Hanley	33435	FL	I am not quite sure what the cable companies are trying to do with their billions of dollars of influence, but, I do know that the FCC should protect the impartiality of the internet and keep it what it is, a public utility, open to all, at the top speeds available to all.
3018	Jeanne	Speice	19046	PA	I am not happy tha a lobbiest is put in charge of this-- I am a liberal who has supported pres Obama for a long time. This is a major dissopointment. Net neutrality is very important
3019	margaret	Peeples	28209	NC	I am disgusted that the media companies - - like verizon and comcast want to be kings forcing high costs for high speed. Keep net neutrality so we the people keep control of this public utitlity. No to Verizon's greed. No to Comcast's greed. I want to see on the internet what interests - - me not what the 1% pay to force down our - - throats.
3020	Milton	Davis	31329	GA	I am disabled and NOT having any problems with the internet. I don't believe for a second that killing Net Neutrality will benefit me in any way. I do believe that it will be a cash cow for big ISP's.
3021	Karin	Davis	65201	MO	I am disabled and I need/want fast internet service.

3022	Cheryl	Potter	95065	CA	I am deeply concerned about the take-over of the free internet. This is a place of free speech on a scale never before seen. My experiences with Verizon, AT&T, and Comcast have been overwhelmingly negative. They don't care a bit about customer service, because they know we don't have other options. They are virtual monopolies already. Break them up! They're abusing their power, as just about any large organization would! They have unjustly taken money from me for services I did not recieve, and they know there's not a darn thing I can do about it. They are organized crime, in my opinion...
3023	Rosalind	Jorn	64119	MO	I am convinced that net neutrality serves the interest of we, the people. The internet is a public utility.
3024	JULIAN	ARBUS	11713	NY	I am an IT professional and frankly, the internet needs to be protected as a public utility!
3025	Anne	Robbins	02494	MA	I am an educator and I am concerned with the free float of ideas. How can my students become creative and gain information easily if the only way is to pay for it. We need creative people and it starts with a free internet.
3026	Howard	Stein	73127	OK	I am an author and educator who depends every day on the internet. I am concerned for 1st amendment access to information on the internet. I urge FCC neutrality so that there is one speed of service, not two -- one for large corporations with large amounts of money, and the other for ordinary people like me. This is a matter of urgency for the American public.
3027	J.	B.	01247	MA	I am amazed at how the wealthy continue to suppress our voice=vote while their voice=billion votes. The FCC has shamefully ignored the voice of the people and seeks to empower the powerful. Shame on you!!

3028	Nataly	Roberts	98144	WA	I am already paying for the internet...Comcast, Century Link...I already pay a hefty monthly bill for these services- why should they be allowed to ask Netflix, Amazon, or my favorite small time bike blogger, for money on their end. This is just corporate greed, these services are already making money hand over fist and what is worse, the US has middling internet speeds at best. Please protect the open internet.
3029	Kathy	Sullivan	33458	FL	I am against net neutrality.
3030	Patricia	Roiger	13045	NY	I am a strong supporter of a FREE and open internet! I will continue to work to keep the internet open and free.
3031	Claudia	Linton	85257	AZ	I am a senior citizen living on social security! Think about those of us on a limited income!
3032	marjorie	trifon	29206	SC	I am a retired senior who loves the internet. Please don't make me cough up $$ I don't have & ruin this magnificent information superhighway. Fire TOm Wheeler.
3033	Erica	Cook	46804	IN	I am a disabled person and ending net neutrality would make what I need from the internet harder. We need our lives expanded from the internet not contracted.
3034	Bella	Morris	64804	MO	I am a bleeding heart liberal. & proud! BUT enough is enough! STOP f---ing with EVERYTHING!
3035	Linda	Winfield	39183	MS	I am a 68 year old former retiree who has returned to work full time due to financial reasons. I cannot afford to pay higher prices for internet services which I need for daily communication with family, friends, and to conduct personal business. Please consider the masses of older citizens, like me, who have worked tirelessly for years to support you when you were not old enough to support yourselves. Don't 'throw us out with the bath water'. We depend on you now to step up and do the right things for everyone, not just the wealthy! I want you, the FCC, to reclassify broadband services as Title II communications. I appreciate your considerations of my request. I trust that you will do the right thing for all citizens. Thank you, Linda E. Winfield

3036	Merrick	Dean	10025	NY	I am 64 years old, I know, you all know better.. Behave like grown ups , and do something good for teh country for a change !
3037	Kevin J	Gosztony	18015	PA	I am 62 years old and in my lifetime I have seen unelected officials of the FCC do nothing for the large majority of Americans and everything for corporations. Hell, The guy in charge is an industry lobbyist for crying out loud. Cheese and rice, ENOUGH!!!!
3038	elaine	wilkinson	02818	RI	I always told my children that life wasn't fair.l Please don't loet that be true by taking away our chance to look things up on the internet and communicate with others at the same rate we've been doing now. Please don't let the one percent take more away from the rest of us.
3039	Rob	Fisher III	18210	PA	I already pay too much for too little. Lets not give some companies that I will never use a fast lane!
3040	Catherine	Crane	33321	FL	I already pay extra for faster speeds. WTF?
3041	ann	watters	97301	OR	I agree. Support Net Neutrality Now.

					about this classification of Internet is its effect on future businesses, young students, under graduate, graduate, pretty much everyone want to create information and/or participate with business. - - The main concept here is similar to small businesses and large businesses participating in our economy. While it may appear that large business have the big impact on our economy, small businesses have the larger impact. Shutting down net neutrality is like removing small businesses from our economy. HOWEVER, the bigger impact is shutting down the creativity that made us the innovators of the world. Internet neutrality will stunt our business, technology, information, innovation, learning, and growth just to mention a few. Because these are just a few thing that are brought to us by start ups who don't have a large working capital, students who don't have extra money to invest in growth, etc. - - This would be like saying no more small businesses and startups are to open their businesses on major streets in the world. You can't tell small businesses to either open up a 5000 square store or go home. It will destroy our people, students, business, innovation, and much more. - - Please allow everyone to keep the neutrality that brought our great nation to
3042	Sam	aqel	60707	IL	where it is. Please all our children, the same
3043	garold	scantlen	87120	NM	I agree with this petition but, how can we police ISPs ? Is there software that detects when ISPs are discriminately limiting our internet access ?
3044	Bill	Perk	62902	IL	I agree with John Oliver, re "preventing the cable company fuckery"!
3045	Nick	Roberts	40242	KY	I agree the internet was invented and created through public ie:government funding.
3046	Carrie	Wilson	72701	AR	I agree that the internet should be a public utility
3047	Norma	DelGaudi	95060	CA	I agree that the Internet is a PUBLIC utility
3048	Vincent	Alvarez	97222	OR	I agree that the Internet has gone beyond what was conceived and should now be treated as a public utility.

3053	Don	Derby	13037	NY	Howard Stern for FCC chairman !
3054	Soraya	Hope	85249	AZ	How much more can ordinary Americans sustain the constant attacks by big business?
3055	Pat	Lacoste	48197	MI	How much longer before we become Metropolis?
3056	James	Murphy	01020	MA	How much is Verizon giving as kickbacks
3057	Robert	Fish	17602	PA	How much is enough, blood-sucking parasites !!!!!!!
3058	susan	houdek	64113	MO	How much are you guys getting paid to side with corporations.
3059	Jeff	Watson	98027	WA	How much are they paying you?
3060	Diane	Chinn	92020	CA	How low will you stoop for profits. Using the blind, deaf and disabled is digusting!
3061	Celeste	Resh	48848	MI	How embarrassing that the FCC seems to have so little concern with doing what is right for the vast majority of Americans. Money, once again, is apparently the root of all evil.
3062	John	Ventimigl	49464	MI	How dare you try and dive up the Internet amongst big companies. The Internet is used by common people. We should not be shut out because of our income or size. I thought the government was supposed to watch out for everyone. How naive could I be?
3063	Eric	Wiggins	97355	OR	How dare you consider letting the cable companies get control of the internet, talk about the fox guarding the hen house!
3064	jon	anderson		MA	How DARE the FCC steal our internet and hand it to the 1% 'ers!!!!!

3065	Tim	Healy	07450	NJ	How dare the FCC creates a law that that basically gives approval to cable corporations permission to create a tiered structure that will cost other companies and fledgling entrepreneurial companies and consumers even more money money! The wasn't developed by corporations. Why give it to them? The internet has been a huge element to the economic growth we have seen in the last 15 years.I think the FCC chairman should recuse himself from this decision as his background as a lobbyist is untrustworthy. He is the wolf watching the chickens. Let's see how the cable industry rewards him after his tenure is over. Tom Wheeler should be fired over this. Thanks for this time to voice my opinion.
3066	Patricia	Frey	80634	CO	How could the FCC ever possibly believe that abandoning Net Neutrality would be good for anyone but the big cable companies? Where is the concept of healthy competition hiding?
3067	Jonathon	Montag	80304	CO	How can this thuggery,not get accomplished when the President gives this big power to a cable company lobbyist. Tom Wheeler. The President has chronically appointed - - lobbyist wolves to watch the hens. Another case in point is appointing Monsanto criminal cabal lobbyist Michael Taylor to be - - the fake protector of the US food supply. - - - - All this while during campaigns he vowed to surcease this practice. - - I knew something was amiss whenn - - Wall Street gangsters Geithner and Summers were not purged early on. I'll say ! No clean slate to start after taking over for war criminals Bush/Cheney/ Rumsfeld
3068	Zandy	Thompso	06790	CT	How can a truly "free enterprise" system sustain the idea, if access is limited...
3069	Rita	Ingersoll	48043	MI	How can "a 2 tiered" internet access possibly be fair?!

3070	WB (Pete)	Clapham	44062	OH	How anybody can maintain that the internet is anything OTHER than a public utility is beyond me. I have one broadband provider here. Count it, ONE. There is no competition in the industry, and we are way behind other countries in the world of broadband speed. HOW CAN FCC BE SO DENSE AS TO CONSIDER THIS INDUSTRY ANYTHING BUT A PUBLIC UTILITY?
3071	Todd	Weidner	08107	NJ	How and why isnt the internet a Title II communications? How far behind the times are you? How can we have a govt regulate the internet when it seems it doesnt even know what the internet is. Do what is right for a change.
3072	Larry	Trochtenl	63146	MO	How about we the people. Not giving the country to the corporations.
3073	Barry	Zavah	79830	TX	How about throwing a bone to the general public once in a while insread of being a lapdog for you corporate communication industry masters
3074	Mary	Santen	94030	CA	How about the FCC doesn't sell out to the mega cable companies???????
3075	Jesse	Placourak	85282	AZ	How about no FCC....
3076	rod	rushton	83328	ID	Hope this ain't a wast of time, eh.
3077	Gabriela	Aszody	12508	NY	Hope FCC is aware Cable companies are predatory in nature,their packages are hugely overpriced already and customers like myself will not be able to afford access to internet if it will lose its neutrality.
3078	Jaklyn	Hutchins	56085	MN	history will judge you as either an upholder of democracy, or a corporatist who helped bring about the downfall of our democratic system.
3079	Evan	Ross	02494	MA	History has shown us where the 'two tiered' approach leads. Eventually, content providers will be denied access unless they pay tolls and bribes. -- Keep the net open. - - Open and equal access to communication is the lifeblood of democracy.
3080	John	deChader	98110	WA	Hey, guys...the Internet really IS a public utility, not a vacuum line to suck money out of our pockets into the bank accounts of the corporate classes.
3081	LAURA	FREDERIC	60120	IL	hey wheeler, you can't buy everything you jerk! the internet is for everyone, like air! stop trying to steal it from us!

3082	Kevin	Pennick	85254	AZ	Hey Wheeler, I know you're just a lobbyist hack for big biz, but use your melon head for a change
3083	edgar	gehlert	37857	TN	Hey Wheeler we don't even have BROADBAND or good CELL Serive here in N.E.TN. 37857-4193- so why give the monopolies more than they deserve. -- Keep the internet a public utility:
3084	Steven	Rudy	27511	NC	HEY IDIOTS! - - CUT THE CRAP - FIRE WHEELER! SAVE NET NEUTRALITY!
3085	Bruce	Titus	89509	NV	Hey FCC... is everything for sale with you people????!
3086	Kin	Law	11209	NY	Hey FCC! The internet is the last chance for equal access to news, the anchor of democracy. Don't screw it up, or else people tired of our stupid, wasteful, profit-driven oligarchy are going to riot.
3087	Barbara	Kiser	54481	WI	Here's my exclamation point on my previous comments...! "Prevent cable company ****ery!"
3088	Cory	H	93437	CA	Here we go, another tool to be used for asset accumulation. Fuck the people, all that has been gained, and the limitless possibilities that lay ahead..... Let's make money. The thing is, you've probably already mapped this out. Build the giant infrastructure, let them pay for it, when we're finally to large for others to compete, stick em in the ass. I understand sociopaths run my country, but it's still so unfathomable how you could raise your hand and volunteer when someone shakes a stack of money and asks, 'who wants to help limit the possibilities of access to information, corrupt it to the point of nonsense, and make the people pay more?' Fuckin assholes. Deep inside, he'll not even that deep probably, you know this is horrible for the progress of 'net neutrality' yet you will do it.... You are hoping this will add to your already gluttonous stack of annual cash, and you will secure your fictitious legacy with good ol' green backs. Stop fucking with us... Haven't you looked at the American landscape and asked yourself why we are not doing anything from all the bullshit going on. Well you are just an asshole providing the proverbial straw to the camels back. Thanks, douche.

3089	Benjamin	Rupe	50112	IA	Help protect a free society. You cannot have one without a free press. The news media has been completely corrupted and is untrustworthy. We NEED Net neutrality. It's just about all we have left for God's sake.
3090	Jesse	Grow	33440	FL	Help preserve net nuetrality open to all , let keep the Internet free for all w.w.w. users.
3091	Susan	Pugh	21204	MD	Hell no!
3092	Kirk	Leonard	97309	OR	Heartland, ACI, NCTA and Broadband for America do not speak for the people, obviously, though they would pretend that. - - - - The internet and broadband have grown to be the common carrier/public utility they fear but wish to exploit without constraint. - - - - Reclassify internet services as a Title II industry, because it should be. It's grown to be that important, on a daily, life-sustaining basis, for many Americans.
3093	Dyanna	Lawson	76008	TX	Heard about equalityâ€¦it's for real.
3094	Colin	Dill	19127	PA	Having this vital service in the hands of a few near-monopolies without the closer supervision that declaring it a utility would provide is stifling advancement and ballooning prices.
3095	Pete	Vanlaw	91604	CA	Having the head of the FCC a former lobbyist for the cable companies is a joke. Guess who got him the job and is lining his pockets.
3096	Diane	Fails	43420	OH	Having strong, vigorously enforced rules guaranteeing complete and thorough net neutrality is essential to the health of our democracy. I'm tired of having everything I care about sold to the highest bidder. Government has a responsibility to protect its citizens from the rapacity of oligarchs.

3097	Daniel	Starr	60175	IL	Having once been a part of the public-utility/regulated-monopoly Bell System, I can say with confidence that the behavior of the major internet access companies (AT&T, Comcast, etc.) is exactly like that of a public utility... just one that (so far) has avoided regulation. We need either real competition or a recognition that these companies are utilities and should be regulated as such. Given that the former is unlikely to happen in this time of consolidation, we need to officially label internet access compaies as public utilitiies and regulate them appropriately.
3098	Darlene	Boyd	95045	CA	Have wanted the Internet to be a public utility for a long while. Let's do this!!!!
3099	Michael	Sheridan	95816	CA	Has, in fact, "government of the people, by the people, for the people" completely perished from the Earth? The vast majority of people in the United States DO NOT WANT this proposed change to the Internet. Listen to us!
3100	Kathleen	Williams	60477	IL	Has the FCC sold itself to the highest bidders, or does it serve for the greater good of the majority?
3101	David	Grant	78209	TX	Has the FCC chairman ever quit being a lobbyist for the internet service providers? If the FCC represents the PUBLIC INTEREST, it will make internet service providers common carriers.
3102	Carol	Surprenai	02882	RI	Hands off the people's internet,
3103	Gregory	Tutko	34689	FL	Hands off the internet. It belongs to We The People, not the corporations.

3121	Tom	Wood	65202	MO	Great, they found another way to screw the little guy. Please don't allow this.
3122	cyndi	Baumgarc	98168	WA	Govnm't should protect its people, not create rules that help only the giants. Rates are already higher for slower speeds here than are found in other developed economies. America is going backward and you're complicit as well with these considerations.
3123	Howard	Straus	93923	CA	Government trolls have been trying to suppress democracy, ditto corporate greed mongers. This is their big chance. Are we going to accept it? I hope not. The Internet is the most democratic institution we have (forget Congress, the Fascist Supreme Court and the corporate-controlled agencies). I can see why the government would want to stop it; they have in China, Syria, Egypt, North Korea. We're JEALOUS!

3127	Bob	Cavallaro	85306	AZ	Go ahead Verizon..and see just how fast I can switch carriers..
3128	Juliet	Forster	19147	PA	Given what the internet has become, it must be treated like a utility. To give any company this much power over the world's primary means of communication is outrageous.

3129	Darrilynne	Arnelle	21045	MD	Given the increasing reliance of governments upon the internet for many citizen transactions, the necessity of treating the internet as a public utility is obvious.

3154	Lawrence	McFarling	97006	OR	Gee, just how important can this little internet thing be to the citizens of the nation you are supposed to be working for, except you forgot and are working for the corporations now instead of the people. THAT'S NOT YOUR JOB!!!! The corporations are doing just great without any help from the FCC! But the people (aka the citizens who you work for and who are paying you to work for them) are NOT GETTING THEIR DUE RESPECT OR RESULTS! How would you feel about ... say, 300,000 to 20,000,000 people coming after YOU for incompetence and dereliction of duty? Might be worse than a little corporate dissatisfaction for actually doing your job well! Think about it!
3155	Ilene	Marcus	63132	MO	G-d save John Oliver!

3201	Brent	Pittman	46112	IN	Main Street Growth and Opportunity Coalition viewpoint in the Indianapolis Business Journal June 2, 2014 edition on trade and tax reform is insufficient. They should endorse the following strategies. Create good paying American jobs with good benefits for American citizens by repealing all sales/consumption taxes & replace the lost revenue with an import tax/tariff on imported labor (India & the Philippines) & manufactured goods (Mexico & Communist China, North Korea & Vietnam). Burn both the federal & state individual income tax codes & give each income receiving American citizen a $50000 standard deduction while keeping current dependent exemptions. Then tax the next $50000 at 2%, the next $50000 at 4%, the next $50000 at 6%, etc. until the federal & state budgets are balanced. Collect impact fees. NO corporate welfare. NO illegal aliens. Increase the minimum wage. Burn USA business & corporate income tax codes & place a - - "fair tax" (with a standard deduction of $5 Million) on ALL USA business & corporate sales/revenue including foreign after deducting compensation and benefits for American citizens' labor; except for CEO's and their immediate subordinates. All standard deductions & exemptions should be adjusted for inflation. Collect an export tax on natural

3204	Kelly	Bratina	77498	TX	For the love of God and all that is holy do NOT allow this to go through!!

3205	Charles	Helm	60640	IL	For the FCC to call this proposal "Open Internet Proposal" would make George Orwell or the the PR wing of the Bush administration recognize a brother in arms. I don't know for sure what the impact will be for this proposal, but I fear it will seriously damage Net Neutrality. The Internet gets quite a bit right in our crass, baldarized democracy and we shouldn't tamper with the shreds we still have left. It is one of the few institutional structures in our increasingly elite shaped and manipulated society -- and let's ber honest, that really is the truth and not rhetoric. Let's leave this avenue open for the great mass of our society and the world to have their day in the sun. To give large companies such a say in the functioning of the internet will lead us down the rose garden path. Will big tech companies abuse their new power? Does the sun come up in the morning? Does rain feel wet?
3206	Richard	Lauzau	44116	OH	for sure - the internet should be a public utility. all traffic should be treated equally. NO "FAST LANE" extortion just because the Last Mile carriers have an effective monopoly. NET NEUTRALITY should be the law.

The American public paid for the American government to build the internet--it's not something for private industry to screw that same public--as is often the case.
3214	Richard	McCloske	98498	WA	Flood your website! Keep the internet totally free!
3215	Eric	Love	32806	FL	Fix this. A non-neutral internet THREATENS DEMOCRACY.
3216	Randy	Roy	92882	CA	Fire Wheeler!
3217	Atha	Maffei	89701	NV	Fees and now everything else suppression only goes so far.
3218	Trish	Quintenz	62520	IL	Feels like another example of Corporate Takeover of America. I live in a small town in Central Illinois and can't get decent internet or even cell phone access. I literally drive for over 50 miles on a regular basis where I can't place a phone call much less access the internet with my smart phone. Why? Because it's not profitable enough for ANY provider to put up towers in those areas. Maybe these companies can use some of their enormous profits on connectivity for ALL instead of lobbying costs.
3219	SUsan	STone	33328	FL	FEd up with the Cable Cartel. It is a sick monopoly and their business practices and thievery and shady billing practices should not be allowed to continue. Our zip code has no competing cable companies and this is against the constitution.
3220	Roderick	Brown	92116	CA	FED up
3221	Michael	LaBrake	98270	WA	FCC: Please stop playing with the global public rights. Your greed and need for control is destructive to natural human existence. Even if its virtual activity stop your control and greed over the populations.

3222	Lynell	Fox	22193	VA	FCC: I object wholeheartedly to the cable companies trying to hog tie the internet and make it theirs to govern. It is NOT theirs. If you allow this two-tiered internet plan to continue, you take away freedom from average Americans and place it squarely in the hands of big business, which is a very very bad idea. Have you thought long term? I wonder...I really do...I don't think you really have. Do not move forward. I, as an American citizen, say NO!
3223	Melody	Kimbrel	66088	KS	FCC: allowing the cable companies to take over the internet is as undemocratic a move as possible. Don't charge the American people for internet.
3224	Michael	Johnson	91711	CA	FCC, your job is to protect the citizenry of the United States, not the corporations of the United States - get it right!
3225	Heather	Forsythe	14886	NY	FCC, You are public servants. Allowing cable companies the right to extortion will not stand. Citizens don't want this and you work for us. Any other action is malfeasance.
3226	Duane	Pitts	98837	WA	FCC, what are you catering to big business (the 1%) at the expense to the 99%>? Who bought your vote to end net neutrality? - - - - Keep the internet open and free and unencumbered by big business attacks on the free speech of the American people, the 99%, who deserve better from our government, including from the FCC. - - - - It's a shame that government and FCC can't or won't protect the 99%'s rights. That's why the FCC has gotten more than 300,000 comments about its plan to end net neutrality.
3227	Karen	Young	11210	NY	FCC, are you for the Citizens of the US, or are you solely interested in preserving the interests of Big Business? Preserve Net Neutrality.
3228	Tim	Morgan	20854	MD	FCC-leave the internet open to everyone; let users have freedom.
3229	Rusty	Osborne	78733	TX	FCC- you have 30 seconds to power down your disruptors and prepare to be boarded!

3230	David	Watson	98122	WA	FCC- stop screwing up our internet- Tell the ISPs to give all traffic equal access, and stop demanding bribes to give us equal access, and stop picking their customers pockets dry
3231	Jill	Hinckley	78613	TX	FCC- DO YOUR #%*^+ING JOB!
3232	Heinz	Lewis	85745	AZ	FCC start serving the interests of the public instead of possible future employers
3233	robert	glasner	91356	CA	FCC should rule for net neutrality to protect the public's right to a free and open internet. Classify broadband as a public utiltity like it was before. Tom Wheeler, do what is right, not what your former masters direct you to do. We don't need a two-tiered internet like what you proposed. WALK YOUR TALK!
3234	Marcus	Fang	54481	WI	FCC should keep the playing field level and not play up to the groups with big muscles, like the GOP and their SCOTUS.
3235	Peter	Stacy	14468	NY	FCC responsibility is to the people not corporations who are not people,
3236	Laurel	Howard	19001	PA	FCC please don't join the dark side! Protect OUR internet!
3237	Marsha	Sherman	34224	FL	FCC needs to stop taking payoffs from the corporate media and telecommunications monopolies and start working for the people - LIKE IT USED TO!
3238	Gayle	Brooks	30329	GA	FCC keep your hands off the internet
3239	Ken	Grzesiak	54482	WI	FCC is bought and paid for just like the Supreme Court; courtesy of G(gutless)W(wonder) Bush and Dick(the chicken)Cheney!!! Veterans Against Republican Bigotry, Oppression & Voter Suppression!!!!
3240	Ana	Belle	95051	CA	FCC head a POS TOOL & Perez pathetic for hiring industry ass.
3241	Lara	Dale	87048	NM	FCC doesn't speak for me! Restore the net neutrality!!!!!
3242	Darrell	Schmidt	67133	KS	FCC are you listening? The majority of the American citizens do not want a multi-teared internet where the average guy gets screwed once again...and the oligarchs get their own internet that run faster than all the rest. Very serious indication as to where America is headed. Down with the oligarchs.

3243	Ida	Lawrence	30084	GA	FCC - you need to stop the cable companies from this
3244	Sally & Dick	Stapp-Bri	98201	WA	FCC - listen to the people!
3245	Lisa	Harrison	10025	NY	FCC - kill net neutrality and you will regret it.
3246	Patricia	Williams	14580	NY	FCC - it is YOUR JOB to stop this sort of crap, and protect the American people from the monopolization of internet services by massive corporations. And yet it seems like you are on THEIR side - well of course, they're the ones with all the lobbying $$$. Wake up, Folks, and DO YOUR JOB - it's what we the People pay you for!
3247	Yoram	Benhaim	11361	NY	FCC - If you pass this ANTISOCIAL MEASURE - It will come back to haunt you, People have had enough and will react!
3248	Steve	Drucker	61281	IL	FCC - GO DOWN IN HISTORY AS THE HERO WHO SAVED THE INTERNET.
3249	Karen	Long	98103	WA	FCC - don't sell our internet soul to the highest bidder! Net neutrality is the right way to go for the American People...
3250	Linda	Perkins	10030	NY	FCC - don't be stupid. Let the net roam free!
3251	Arnold	Munroe	34761	FL	Fast access for everyone!

3255	Chad	Zal	33704	FL	Fair & affordable access for all!
3256	Joseph	Black	99218	WA	F--k the two-tiered internet. And F--k the corrupt process that led to the appointment of the new FCC Chair, Tom Wheeler!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
3257	Dino	Reed	92647	CA	Excelsior!
3258	Rosemary	Wessel	01026	MA	EVERYTHING should be public utilities, including the internet!

3259	Ruth	Perkins	01970	MA	Everyone's tax dollars helped pay for the invention of the internet...everyone except the rich who get tax breaks or send their jobs overseas or store money in places all around the world. The same ones who don't pay for the support of our troops but they chant it. Now that everyone has been encouraged to go online with their businesses, etc. the corporate control and take over begins once again. It's like a white collar drug pusher. Get everyone dependent on it and then up the anti. - - THE INTERNED IS A PUBLIC UTILITY BOUGHT AND PAID FOR BY THE PEOPLE.
3260	Edwin	McCready	90028	CA	everyone should pay the same LOW LOW PRICE and get the same FAST SUPERFAST CONNECTION AND SERVICE!
3261	Joseph	Bacon	90020	CA	Everyone should have unrestricted access to the Internet!
3262	Tim	Ericksen	51054	IA	Everyone should have the same access.
3263	Marsha	Elsston	22030	VA	Everyone should have the same access to the internet with no favoritism going to big companies. Utilities are equal to all!!
3264	Tracey	Schumach	60640	IL	Everyone should have equal rights and speed on the internet.
3265	Alice	Poinier	98040	WA	Everyone should have equal access to the internet. Preserve net neutrality!!!

3270	Rodney	Meadows	35010	AL	Everyone is entitled the internet
3271	Cheryl	Weiss	38930	MS	Everyone I know is tired of the lousy service provided by the cable companies - especially Comcast. It won't get better with this proposed merger. The internet originally began as a neutral conveyance of information. It should be a utility, not a 2-tiered commodity, with the 1% getting lightning fast connections and the rest of us stuck in 1980s snail speed hell.
3272	Tamie	Leslie	13346	NY	Everyone has the right to access the internet.

3273	Nathan	Wagstaff	48230	MI	Everybody deserves a voice. Please do not allow ISPs to charge more money for a working microphone.
3274	Jim	Walsh	98040	WA	Every one pays the same. No pay more fast lane. At all.
3275	Steve	Mitchell	21043	MD	Every citizen deserves a fast internet, not just big companies with deep pockets.
3276	Robert	Granse	95023	CA	Ever heard of "if it ain't broke, don't fix it"? Well, the internet, regarding equal access, is not broke. Now, if you want to work on better security, go for it!
3277	Carly	Hope	92024	CA	Europe has great inexpensive Internet why are we being cheated so much on everything- health care, medicine cost, and now the Internet. In most cities in Europe there is free wi-fi everywhere. Now you want to cheat what we can view on the net.
3278	Michael	Bennett	60115	IL	Equality of access is a freedom that all citizens should consider as part of the commons, keep the internet neutral.

3293	David	Eschlimar	80906	CO	Equal access for all...like the rest of the world
3294	Jerry	Anderson	87104	NM	Ensure that the internet is treated as a public utility and that individual citizens are not affected by bandwidth throttling by any service vendor.

3295	Tina	McCambr	98102	WA	Ensure equality, maintain and protect net neutrality.
3296	Glenn	Rice	97213	OR	Enough! Defend the commons!
3297	j	neal	94515	CA	ENOUGH!
3298	Marvin	Pate	47403	IN	Enough with the benefits for rich people and companies.
3299	Kristen	Diaz	93063	CA	Enough with plutocrat favoritism. NET NEUTRALITY - the net belongs to THE PEOPLE.
3300	Lorraine	Mleczko	48230	MI	Enough of this Cable Company f***ery! - - No Net Neutrality, not now. not ever!!
3301	Darlene	Schrecker	71901	AR	Enough of the special treatment for the 1%. This is America not Nazi Germany.....
3302	Anthony	Jannetti	10002	NY	Enough of the special interests getting their way. Enough!!!
3303	Richard	Stevens	48108	MI	Enough of the monopoly cable companies choking us and ripping us off! How about us little people? You know, the Citizens of the United States?
3304	Michael	Burrow	70570	LA	Enough of the corporate power grab. Put companies back in their place, designate them as what they are: UTILITIES and then regulate them as such. - - - - NO on open internet proposals and NO to cable company f***ery!!!
3305	richard	mycroft	30078	GA	Enough of stuffing the oligarchy with yet more money. They've done as little as possible to improve the internet and you clowns now want to give them even more power over our wallets.
3306	Rosalind	Pope	21229	MD	Enough of playing politics with what should be free and open. Should be ashamed but you aren't.
3307	Todd	Appel	60640	IL	Enough is enough. I have had the worst service and expensive service from ATT and they lie, waste valuable time...hours and hours...with no resolution. I have no alternative to them in Chicago other than other crappy internet service of which there are only two others..RCN and Comcast...Im sick of the second rate service and providers and being sold to them by our own government! - - - - Stop it and start working for the consumers, not the big companies who treat us like sheep. Im fed up and not going to take it anymore! - - - - thank you - - - - Todd Appel

3310	Elizabeth	Crawford	91436	CA	Enough is enough, is enough!!
3311	Mary	Bell	53711	WI	Enough greed in the corporate world already!!!
3312	allyn	roberts	97212	OR	Enough fuckery and weasel speak. Leave the internet the hell alone. Thank you.
3313	Fred and Rc	Sztukows	34238	FL	ENOUGH CORPORATE GREED ALREADY!!!!!!!!!!!! The internet is a everyday necessity for all of us. LEAVE IT ALONE!!!
3314	Matthew R.	Clark	94018	CA	Enough corporate control of how public property is used! The internet was invented and paid for by taxpayers. Cable Com companies use public rights of way and must get permits to run their cables, just like the phone and other utilities. The internet is nearly ubiquitous now and will ever become more so. It IS a public utility and must be regulated like one--if it is not, what's next? Tiered cell phone speeds?
3315	Jakir	Chowdhu	20120	VA	Enough bullshit!! Leave the Internet alone and you just retire and let American people lead the country.
3316	Heather	Myer	48306	MI	Enough big breaks for those who already have too much wealth. This is simply another money grab scheme. The FCC really needs to be on our side for a change, not Big Telecom!
3317	Steve	Richter	49127	MI	Enough already! Net neutrality is not to be handed over to the mob!
3318	Janet	Mercier	82070	WY	Enough already!
3319	Johnny	Deleon	93065	CA	Enough already, stop the greed of corporate America.
3320	Juli	Walters	94954	CA	Enough already with the rich getting preferential treatment and better and faster computer access then average citizens. We will not stand by as the wealthy try to hijack the internet and neither should you!!!
3321	Devin	Harris	35594	AL	Enhancing access for some while diminishing it for other is a corruption of knowledge that must not be allowed
3322	Eric	Honnen	81503	CO	Ending net neutrality is WRONG!

3324	Deborah	Cranson	02453	MA	Ending net neutrality is another step in forming a country of the rich, by the rich, and for the rich. Please preserve the internet as is so everyone can access it at the same speed.
3325	Jason	Peterson	81063	CO	ending net neutrality is about the worst idea EVER
3326	Don	Goss	24015	VA	Ending net neutrality is a kin to the same type of oppression that we were under when our country began to free ourselves from the rule of the England. It is not good for the internet, it is not good for business, it is not good for innovation, progress and will only serve to make the rich richer and further cripple a struggling working / middle class
3327	Danielle	Schneider	22406	VA	End this attempt to make good internet service the territory of those with big money!
3328	Martin	Stephens	62526	IL	End the monopolies as well!
3329	Bill	Bingham	93003	CA	End genuine net neutrality? Accept the word of Comcast and its ilk to maintain the status quo or even improve upon it? Trust them to of their own volition do right by the American people? As my dad, a decorated WWII vet and all-around great guy, used to say, "Not no, but Hell No!" Don't allow the likes of Comcast to turn the Internet into one more catastrophic example of the haves and the have-nots. The system is nicely functional as it is. Any improvements should be universal and not for the select few. If you truly believe that all Americans should be treated equally, then preserve their equality when it comes to the Internet. Maintain genuine net neutrality. Thank you.
3330	Jeffrey	Ostrum	18901	PA	End cable provider fuckery and accurately classify the internet as a utility.
3331	patte	bird	76017	TX	end cable fuckery....
3332	Tracy	Sear	80113	CO	End cable company monopolies! There is no way this should pass. In fact, investigate these "persons" for price fixing!

3339	Morton	Kraus	83815	ID	Duh!
3340	Michael	Davis	98119	WA	Duh, the internet IS a utility and should be treated as such.
3341	Ryan	Dunn	60622	IL	duh
3342	Dale	Kenel	49504	MI	Due to corporate dominance for their own profit - politically and monetarily - of our public airways, the internet must not also slip into their hands to be used for the same self-serving purposes. We need the variety of editorial and entertainment content which now exists on the internet, and as a nation, we are perilously close to becoming a corporate oligarchy. The demise of net neutrality could very well be the final nail in the coffin of democracy here.
3343	edward	tomchin	86413	AZ	Down with Internet control by telecoms and ISPs.

3348	Janice	Ham	97017	OR	Don't; sell us out! The internet. It is a public utility and shouldn't be owned by the big corporations to the detriment of the average citizen.
3349	Errol	Ishimine	96740	HI	Don't you have enough Verizon? My next carrier will not be you.!

3350	Byron	Lloyd	72336	AR	Don't you guys have any ethics or morals left? Because it's so obvious. Y''all have become tools for the corporate interests. How can you look in the mirror or into the eyes of your children? But redemption is still within your grasps. All you have to do is your job. Which is to represent the people. So for once, can we the people get our interests taken care of...? Because scrapping net neutrality. Would be about as unamerican as you get. This country was built on the idea of a level playing field. So every citizen has a fair shot at the American Dream. So, do your job and do the right thing... The American thing.... So don't be a bunch of knob polishing corporate stooges...
3351	Wendy	Federer	29732	SC	Don't you dare!!!

3472	Genevieve	Geer	19134	PA	Do we really have to give big business a red carpet into every pocket everywhere? - - We watch too much tv, so who really cares on that point, but we are also talking about access to information on the internet. The cable companies are looking for a way to sew up the dollars now that their "bundles" are going the way of the stoneage. I really hope the FCC will side with smaller businesses who can't afford the high speed fees, or .org's that have info that is obscure, or heck, even me with my little webpage. Is anyone ever going to stop siding with the bigwigs? Ma Bell was broken up for a reason.
3473	Susan	Hathaway	90660	CA	Do we have one single government agency left that DOESN'T prioritize corporate profits over people's needs--and rights? If so, it's certainly not the FCC.

3474	Perry	Harris	93292	CA	Do they think their evil, injustice, and corruption can continue forever? Do they really believe their iniquities will go unpunished? To those in power, the rulers over the weak and the poor, the administrators of the law, the corporate and political kings, the wicked men in high places... they are surely headed toward a great and dreadful day.

3531	Richard	George	77024	TX	do not fix something thats not broken. net neutrality will only serve big corporations. do not listen to unscrupulous lobbyists.
3532	John	Simpkins	23417	VA	Do not end one of the only level playing fields left in this country! Keep your hands off Net Neutrality, FCC!
3533	Christopher	Hensel	19123	PA	Do not end net neutrality. The internet is a public utility. the cable companies are too much of a monopoly and need to be reigned in for corrupt practices.
3534	Jason	Parker	55127	MN	Do not end Net Neutrality.
3535	Patricia	Van Sickle	92627	CA	Do not do this. It is wrong. That is all.
3536	Bruce	Allsopp	81301	CO	Do not do this. It is wrong. Keep the net neutral.
3537	Carol	Gilbert-Sa	22902	VA	Do NOT do away with net neutrality. Doing so will deeply discourage economic development in this country for the foreseeable future.
3538	Elizabeth	Mahuron	47327	IN	Do not develop a two tiered system! All should have the same access ability?
3539	Ken	Pitts	63038	MO	Do not destroy net neutrality.
3540	Victoria	Foote	99005	WA	Do not destroy Net Neutrality-this is as important as having a free library!
3541	Sydney Ann	Mason	33572	FL	Do not destroy net neutrality please
3542	Maria-Elena	Chavez	88005	NM	Do not create two tiers of Internet users: the "Haves" and "Have nots:.
3543	Janis	Jaquith	22940	VA	Do not create a "fast lane" for big corporations.
3544	Sally	Champlin	90038	CA	DO NOT CONSTRICT THE INTERNET! We will NOT LIKE IT and you cannot do this to the world! CANNOT. It is a public utility and you are considering allowing yourselves to be publicly bought....PUBLICLY BOUGHT! DO THE OBVIOUS, please?!!

					Do not change the net. FCC plans do not benefit the People, they benefit the few and money changers. Keep the internet fair, equal and open.
3545	Shirley	Fife	89031	NV	Do not give away our freedoms to corp interests !
3546	Kate	Wallace	93101	CA	Do not change our equal access to the Web!!
3547	Crane	Stavig	98026	WA	Do not cave in to corporate interests. Leave the internet alone and work for the people's interests, actual people, not 'corporate person'. Thank you.
3548	mindy	kittay	95482	CA	Do not bow down to the monopolies who already provide terrible service at an absorbent price.
3549	Jeffrey	Allen	64113	MO	Do not be the suckers to fall for the BS of the business and political flacks. You know dam well what will happen if you kill neutrality.
3550	Steve	Rudolph	19115	PA	Do not attempt to fix what is NOT broken
3551	Mike	Testa	27615	NC	Do not approve cable company fuckery!
3552	Kathy	Bowman	24963	WV	Do NOT allow those with money have control of the internet! Keep the internet the way that it is.
3553	Robert	Simon	40342	KY	Do not allow this to go.

3555	Mark	Gillum	30062	GA	Do not allow this monopolistic practice to gain hold.
3556	Kellen	Hinkle	08826	NJ	Do not allow this bs to continue this effects EVERYONE!
3557	Scott	Hed	57103	SD	Do not allow the internet to be tiered for the haves and the have-nots. It's a tremendously democratic medium that keeps a level playing field for all and also fosters innovation.
3558	Pauly	Sayen	55411	MN	Do not allow the internet to be manipulated. It is a public utility like phone service.
3559	SHASTA	WALLACE	95006	CA	Do not allow the cable companies to mess with net neutrality. Do nothing allow large companies to control how quickly the information is served!
3560	Frank	Hanstick	98059	WA	Do not allow the cable companies to commit "cable f***ery"" on the American population.

3561	Nicky	Neau	94550	CA	DO NOT allow private Internet Providers to control the flow of speed and turn that control into a cash bonanza while controlling the flow of information and content. Internet users are already at the mercy of the Internet Providers. The Internet has become a 'utility' in the sense that clients are captive without any alternative to this service. We all know that private industry colludes to make sure profit is the most important product. - - - - PRESERVE INTERNET NEUTRALITY.
3562	Hannah	Crum	90066	CA	Do NOT allow private companies to abuse our right to freely browse and consume anything on the internet - it was designed to liberate information - squeezing down or having to pay only restricts that access. Time to make internet FREE for everyone!
3563	Diaen	King	48849	MI	Do not allow our internet to become monopoly. Keep the internet neutral.
3564	George	Pankewyt	07732	NJ	Do not allow companies like Verizon the ability to destroy net neutrality.
3565	Chris	Leaf	55340	MN	Do not allow Comcast, Verizon, Time Warner, etc. to have a monopoly. Do not allow them to mess up the internet. Keep the internet free. Make the internet a public utility.
3566	Michael	Tolbert	75703	TX	Do not allow cable company fuckery!
3567	Robert	Young	98922	WA	Do not allow cable companies to degrade the internet.
3568	Margaret	Richardsc	55419	MN	Do not allow cable and wireless companies to offer multiple speeds of service. Keep the internet open and available to continue to be the innovation incubator it has been over the last 20 years.
3569	Christine	Glenn	97219	OR	Do not allow a two-tiered system. Instead focus your efforts promoting regulations and competition that will reduce rates and increase speeds for everyone - in other words help us get the service Europeans now enjoy.

3570	John	Scheuerm	20003	MD	Do not allow a two tier internet. Require the telecoms and cable providers to invest in cutting edge technology or face the loss of their licenses. Forbid those who control the pipeline from putting their own (or affiliates) content in the pipeline. Do not allow a 2 tiered internet structure. Rather, please regulate the internet as a public utility.
3571	Bob	Simpson	87059	NM	Thanks, Bob Simpso
3572	Judith	MacPhers	22205	VA	Do not abandon current policy that has worked well for all users. Preserve net neutrality.
3573	Peggy	Niswonge	58261	ND	Do no let the corporations mutilate the internet. It is up to YOU to STAND with the PEOPLE. Do what is best for the citizens not the corporations.
3574	Ralph	Gonzales	25411	WV	Do I need to say more?
3575	louis	franchina	60005	IL	do the world a favor and support net neutrality
3576	Sherwin	Harris	94541	CA	Disgusting that the FCC don't get it. - - NET NEUTRALITY!!!!
3577	Janis	Bennett	11771	NY	Disgraceful!
3578	Nancy	Kaplan	53209	WI	Differential "lanes" mean preferential treatments. That translates to a world in which those who pay (extra) are privileged. It's unacceptable to give preferential treatment to information from those wealthy enough to pay for the privilege and thereby disadvantage those with shallower pockets.
3579	JOSEPH	LEACH	96740	HI	Destruction of internet neutrality is outrageous.
3580	Jaime	Cassidy	11746	NY	Destroying Net Neutrality would cripple the United States' internet infrastructure to the point of relegating the country to third-world status electronically. It would be financial suicide.

3581	Mary Jane	Jacobus	53805	WI	Despite the corruption that pervades our government I still have hope. To a large part due to the ability of each of us to use the internet on equal footing. We live in the strangle hold of monopolies of other utilities. Please keep this one free and open to the public. I fear that loss of this will weaken our nation more and all the money this upcoming change will make for a few will not protect them when the need is the greatest.The people of this nation can not be suppressed no matter how many rules to support the oligarchy are made.
3582	Steve	Kreuzburg	47250	IN	designate the internet to be "a public utility"
3583	James	Herod	48081	MI	Designate the internet a public utility. Make the ISP's pay taxes and licensing fees for their access to the WWW. Maybe make them pay for high speed usage - clogging up the band width.
3584	Robert	Halloran	32216	FL	Designate broadband as a communication service and regulate it accordingly
3585	Steve	Treegoob	97209	OR	Denial of equal opportunity sound unconstitutional.
3586	Edwina	Echevarri	80537	CO	Democrats finally get a majority on the FCC, and what does Pres. Obama do, but appoint a cable-industry advocate Tom Wheeler as Chairman. Shame on Obama. Wheeler - do something for we Internet users & the Amer. people instead of big business - make the Internet a utility to endure net neutrality!!!!!
3587	Viv	Ramos	10075	NY	Democracy thrives when many voices can be equally heard. Net neutrality so all citizens can have equal access regardless of their ability to pay for a 'superhighway.'

3598	Shellee	Davis	94931	CA	Dear Mr. Wheeler, If you truly respect and support net neutrality, please stop trying to make two tiers of service according to how much people pay for it. Everyone should have equal access to the Internet.
3599	Rebecca	Blackwell	87044	NM	Dear Mr. Wheeler and/or FCC representative, - - - - You have the chance to prove that not every government agency is in the pockets of the Big Telecoms, et. al. - - - - The People are speaking: listen. - - Preserve Net Neutrality. The Internet is the Commons. Our tax dollars paid for it. And We, the People, demand protections of our First Amendment Rights. - - - - Turning the Internet into a Tiered system is a violation of the First Amendment; everyone needs to have equal access to this Public Commons, regardless of the fact that the deep-pocketed Corporations want to squeeze every last penny from the pockets of decent, hard working Americans. Protect us from Them. Please. You're our only hope. - - - - What kind of man are you? Your decision will tell us...a Man of the People, or a Slave to the Rich. We look forward to finding out.

3600	Glenn	Bowen	88011	NM	Dear FCC: leave the internet alone!I know this is "contra" to your embedded republican ideals of "someone's gotta make money off of this",but FOR ONCE,try putting the American People ahead of your pure profit motivations.LEAVE THE INTERNET ALONE!!!
3601	Ian	Carruther	94112	CA	Dear FCC: - - - - Do you want to kill small businesses even deader than they already are? Do you want to be directly complicit in widening the already HUGE income gap in our country? - - - - If so - let this 2-tiered internet plan go through. If NOT - DON'T LET IT HAPPEN. - - - - In equal access to information and the internet, - - - - Me
3602	Elaine	Mcginnis	20706	MD	Dear FCC: We're watching you in the 21st Century, so behave! No more sneaking in the rules your own biases and "Public be Damned" attitude.
3603	bob	Soper	97211	OR	Dear FCC: - - Stop working for the cable monopolies. Protect us from them!
3604	James	Walker	77009	TX	Dear FCC, why oh why are you always bending over backwards to serve the interests of these ISP's just so they can, thus far, deliver the highest cost and lowest performance internet service in the industrialized world. Classify the internet as a utility and then let a thousand ISP's bloom just as it did in the era of dialup, back when there actually was competition on price, service, and performance such as we NEVER see these days.
3605	Rosemary	Blancharc	87104	NM	DEAR FCC, I AM NOT NORMALLY AN INTERNET TROLL, BUT THIS IS A SPECIAL OCCASION!! DONT MESS WITH NET NEUTRALITY! (I make a lousy internet troll. Can't even manage to put a "F##K" in the main message. This isn't how I usually communicate. But your plans for an internet "fast lane" is grossly antidemocratic. AND, I watched John Oliver and was inspired. Sorry. But you've really got to drop this very bad idea.)
3606	Lynne	Jones	94611	CA	Dear FCC, - - You regulate for all Americans. KEEP NET NEUTRALITY. Don't succumb to corporate greed, power, aggression.

3607	Steve	Newman	91501	CA	Dear FCC, - - It should be obvious by now that we the people want a free and open internet. Take out your corporate earplugs and do the right thing!
3608	Keith	Frey	68124	NE	Dear FCC, - - I urge you to reclassify the internet as a Title II communication service, instead of a Title I. The internet is not something that is just broadcasted to you, like television. Rather, it is like a telephone service where users contribute equally both ways. Without users to share information, there is no internet. Classifying the internet as a Title II communication service would allow the FCC to regulate Net Neutrality. Without Net Neutrality, internet startups like Facebook, Twitter, YouTube, and Netflix may never have emerged. Net Neutrality is essential and it must be preserved. Thank you for your time. - - Sincerely, - - Keith Frey
3609	Marilyn	Young	80401	CO	Dear FCC - do the right thing, please. And that is - LEAVE THE INTERNET AS IS!!
3610	Joan	Lagasi	33441	FL	Dear FCC - - - - Please protect our rights, The internet is - - a public utility. Do not allow it to be - - monopolized. - - - - In Europe it costs $l0 a month.....
3611	Brian	Haberly	95054	CA	Dear Commissioners -- The Internet is TOO important to leave it up to Comcast and Time Warner to decide who should get the fastest download speeds. - - - - I STRONGLY URGE you to support Net Neutrality. We need MORE competition in the highspeed broadband space, not carve outs for Comcast and Time Warner to pick winners and losers. - - - - Be on the Right Side of History. Pick Net Neutrality, not Winners and Losers! - - - - Thank you.

3612	CJ	Stumpf	05041	VT	obviously Title II - that's why people selling internet advertise download AND upload speed committments! Furthermore, most people who are lucky enough to get any kind of broadband here in Vermont have a combined VOIP / Broadband package - their telephone service is part of our internet service. Cell service is so poor and erratic here that I keep getting calls from strange places and it's my friends calling over Skype - e.g. making telephone calls over their broadband connections. - - However that's for my friends lucky enough to even have broadband of some sort. I now live in a part of Vermont with poor-to-no internet access. When I can get it, it's metered and expensive. When I hit a site that loads slowly, I kill it and click elsewhere. It's obvious what is going to happen when you create fast lanes and slow lanes - those of us accessing internet over slow connections or cellular connections (more and more of us) will tend to restrict our surfing to fast sites. That creates unfair competition and hurts businesses and news organizations that can't afford to pay. That hurts free speech. It also hurts our local economy which has lots of small businesses which are struggling to even get websites let alone fast-loading websites. If you create fast lanes and slow lane, you will be hurting
3613	Susan	Parr	28804	NC	Dear Chairman Wheeler, - - I don't consider myself a great intellect and most of my career I have, as I suspect most others are, just too busy to stay on top of these type issues. If it weren't for dailykos et.al, this issue which is the same song different day (for all intents and purpose) I constantly fail to understand how or why big business continues to make decisions for "U.S". Let us not forget history. When the people get tired of being dictated to (the differences between the haves and the have nots get too great), kingdoms topple. Imagine if calls to your grandmother had dropped every third packet while calls from telemarketers were always crystal clear, and you had no influence over which it would be for which person you wanted to call.
3731	Judy	Sameh	99362	WA	Before we, as common people, lose all hope that government only functions for the wealthy who can buy power and influence, I hope you will keep the internet equally available to every person, regardless of their ability to pay.
3732	Robert S	Moore	60640	IL	Before he was elected for his first term, Barrack Obama declared he would "take a back seat to no one when it comes to protecting a free and open Internet" and his appointee, Tom Wheeler, should be doing all he can to help the President keep his word to the American people.
3733	Joe	Cromptor	98682	WA	Because it's time for the FCC to do what's best for the people, not the telecommunications cartel
3734	Andrew	Nicholas	14526	NY	Because Freedom!
3735	Jon	STOA	94107	CA	Be nice.
3736	Beth	Kozan	85028	AZ	Be like the rest of the world and let us have the internet in a reasonable way!
3737	Sandra	GARCIA	93101	CA	Be just
3738	Denny	McPhee	96816	HI	Be an adult and do your job properly.

3739	Thomas	Folkers	85622	AZ	Bandwidth should be regulated as a telecommunications service. Until its status can be changes protect internet users from the crippling tolls the cable and telecommunication giants would impose. - - - - Chairman Wheeler assures us that the FCC will control against abuses of bandwidth control. This, however, is a proposal to add a new tier of regulation. If net neutrality is maintained there is no need to have one more regulatory body to police the day to day activities of our country. - - - - Protect freedom of thought and expression and a vibrant and innovative economy by protecting net neutrality.
3740	Patricia	Abbott	33411	FL	Bad excuse.
3741	Karen	Llera	33324	FL	Bad enough you screwed up telecommunications and news companies - where is our Freedom of the Press? Take away net neutrality and we lose even more of that.
3742	tony	reis	87501	NM	Bad bad bad decision

3745	James	Rupp	93309	CA	ATT already controls too much. Time to stop them. Wasn't this the same company that was told to break up it's monopoly in the 80's?
3746	Eugene	Shanor	04268	ME	At least tell us what the price is, so next time we can all bid.
3747	Kristine	Thurston	01776	MA	As the parent of a proud son who is blind, I am appalled at Verizon's exploitative tactics here. Net neutrality benefits everyone.

3748	Bob	Terrell	40701	KY	As the old saying goes, "Perception is Reality." - - - - The perception following the FCC these days is that you are just another branch of Government that follows the trail of lobbiest money. Media ownership in a single market - out the door. Wireless company mergers and a competitive market place - out the door. the list goes on and on. - - - - I expect the FCC to take the route of highest bidder regarding internet neutrality. I hope I'm wrong, but Perception is Reality.
3749	Richard	Rodriguez	54901	WI	As Speaker of the House, please demonstrate your leadership in support of keeping Internet neutrality, reclassify broadband as an utility so that the FCC can do its job, and not allow monopolistic entities to rule our airwaves.
3750	darlene	basch	90212	CA	As soon as there is a two tiered system, then it becomes all about the money. Cable Companies will have too much power, which they already do since they are almost monopolies. Net neutraility with equal access must be maintained. A FREE and OPEN Internet is ESSENTIAL to our free and open society.
3751	Brian	Meek	54615	WI	As so many in our country aspire to be like China, eliminating net neutrality is a form of censorship

3752	Brent	Boardmai	71201	LA	As people have to pay more for the extra things in life such as; internet, cable, wireless phone services etc., people will begin to choose what to keep spending money on as their budgets are crunched. I personally will be cancelling my cable for other reasons - one being the high cost for the few channels I actually watch and less and less time spent watching them. But as others are forced to choose if the internet costs begin rising to access desired sites and information, they will surely begin to make the choice to cancel internet or cable with the internet most likely trumping cable due to its importance for communication, information, and business application as most people conduct business, whether personal or employment related, out of their home. This, I feel, will have a negative impact on providers because people will have to choose between retaining services they like and have become accustomed to as necessities. But as a purely political consideration, it is most definitely the First Amendment issue of our time and sadly, one that the general public will likely be unaware of until it impacts them negatively if this continues to move in the direction it is being railroaded in.
3753	Eric	Wickstror	19130	PA	as necessary as air and water
3754	Lucille	Hunsinge	44060	OH	As my internet carrier (Yahoo) functions now, when I enter a search for a specific web site, I frequently have to scroll through several pages to get to the one I requested. This is even though I have entered the exact web name and spelling. I can only guess that if FCC proceeds to allow this two-tiered system there will not longer be a reason to use the internet at all.
3755	Jean	Hricik	13801	NY	As my ignored FCC communications over the last 6 months would inform the FCC, we need a free and neutral internet for news (freedom of speech & press) since our mainstream media is in the hip pocket of US oligarchs.
3756	Duane	Hanstein	80222	CO	As John Oliver's said in his epic 13 minutes on "preventing cable company fuckery" I also agree with John Oliver.

3757	Stephen	Tucker	98208	WA	As I have already submitted, the Internet is a Public Utility and should be treated as such.
3758	Joseph	Dunphy	07013	NJ	As holder of Amateur Extra class licence K9MBA, I use the internet in emergency communications, such as Red Cross relief efforts to flooding in and around the Passaic River, and emergencies like Hurricane Sandy. The internet is a public resource, and available speed is a key option for notifications in a high message volume environment.
3759	Dawn	Krop	32605	FL	As evidenced around the world, the FREE exchange of information is vital to democracy. A tiered system is one more effort to have two classes of Americans - those who can buy access and the poor schlubs who can't buy fairness. Save democracy - ONE Internet FOR ALL!!!
3760	Neil	Silvermar	02155	MA	As an IT professional who has built an 18-year career in internet startup companies, I can say unequivocally that a free and open internet is VITAL to the information economy. Fased with a non-neutral internet, in which some companies can (and therefore must) pay for preferential treatment, economic and technological innovation will be absolutely stifled, and small businesses with good ideas will be driven out of the market before they can even enter it. The only reasonable way to ensure true net neutrality, and a permanently free and open internet, is for the FCC to immediately reclassify Internet Service Providers (ISPs) as Class II common carriers, just like other telephone utilities. Such a reclassification would guarantee that ISPs would be required to treat all traffic on their network equally, while allowing them to be regulated as required.
3761	Paul	Lynam	94519	CA	As an employee of a cloud-based company, I can assure you that the loss of net neutrality will undermine our growth, as well as the growth of our competitors

3762	Denise	Connell	97123	OR	As an educator and someone who volunteers with non-profits, I know that net neutrality is essential to the evolution of education on the internet, and it is key to the work which grass work organizers and small non-profit groups do in their communities. Kill it, and you kill immense potential for progress in the next 20 -40 years.
3763	Jim	Jaccobs	87801	NM	As a wise man said it's all about "preventing cable company fuckery" which ought to be the FCC's job: get on the stick you clowns!
3764	Jeremy	Bryant-Be	97404	OR	As a web developer this proposal is the worst idea in the history of the entire internet.
3765	laurie	owen	89436	NV	as a telecom worker who has 40 years in I remember when we could count on the fcc. go back to your roots of protecting the public airwaves and not selling out to the highest bidder, but that might be hard for an ex lobbyist.
3766	Kelly	Fortune	49085	MI	As a teacher, working to educate the future of the U.S., I need the internet to help me find resources that can help me better serve my students. The U.S. has changed, more and more people are getting their information from the Internet every day. Information is knowledge, knowledge is power. Destroying that neutrality is just another slap in the face for the middle class and another win for corporate greed.
3767	Marylin	Kraker	49412	MI	As a small nonprofit, we pay a LOT to upload information for free to our users, who are paying a lot for their access to the internet. Enough is enough!
3768	Linda & Ste	Dorage	30030	GA	As a small business owner, teacher and health care advocate, we utilize the internet for numerous transactions. Net neutrality is mandatory. All data is created equal and allowing cable and telecom companies to control internet speeds will lead to monopolies and poor customer service just like in the phone industry. The internet is too important to be misused this way. We must maintain net neutrality!

3769	JC	Honeycut	27944	NC	As a senior, retired on a small fixed income and living in a very small town, I depend on the internet to stay informed. Having access to a wide variety of information is particularly important to me, because I don't have TV, just radio and internet. I listen to NPR, but it's pretty much one-way: if I want to let them know how I feel, I have to use my limited phone minutes. But the internet keeps me in touch with family, friends, and people I've never met but who provide me with a wide variety of information and viewpoints. As I'm sure you know, newspapers are declining: so I get most of my news from NPR and the internet. It makes a big difference in my ability to keep in touch with what's happening and to link up with like-minded people or those who make have special knowledge on a topic that interests me.
3770	D	Bell	99037	WA	As a senior on a fixed income, I cannot afford increased rates due to your proposal. Please drop it.
3771	Michelle	Flynn	98506	WA	As a senior citizen with family all over the country and the world I worry that our private conversations on the net will be available to persons within the government. We would be afraid to discuss intimate and very private subjects!
3772	C.J.	Barbre	93265	CA	As a retired senior living in a deeply rural area I depend on the internet for my very existence. Beyond buying basics online, I also take free classes from top tier institutions such as Harvard where I just completed a class attended by more than 20,000 students world-wide, This is the ultimate Title 2 system. Please don't mess with it to benefit conglomerates.
3773	Jeanne	Hoover-K	87557	NM	As a resident of one of the poorest states in the nation, the internet is the backbone of our communications with the world at large. It would disproportionately damage the citizens of New Mexico to be deprived of an open and free internet.

3774	David	Schmidt	54880	WI	As a public utility (it's public because people are truly dependent upon it for critical everyday applications and sources of knowledge and information) I am a shareholder in the INternet and being a part owner of the Internet I refuse to letrich/powerful Internet companies tell me how the Internet will be used. They have no right and neither does the Congress of the united States have a legal right to reduce my access to the Internet. Making something 'the law' does not make it right and I'm really tired of the congress who work for me continuing 'giving' more and more power to the powerful of this nation. The Internet represents access to knowledge and no one has the right to deprive me or others to equal access to that knowledge.
3775	dana	wylder	83847	ID	As a person with a visual disability I think that the internet should be regulated as a utility, and net neutrality should be preserved. Also, we need to be concerned with the lack of broadband services in rural areas.
3776	Christine	Edison	60137	IL	As a librarian, net neutrality is a concern for me, my library and the library's patrons.
3777	Carlisle	Kelson	33811	FL	As a former Telecom employee I can only say this will lead to increased costs, reduced options, and eventually monopolies. Make the Internet into a Public Resource, make it into a National Resource, make it into something for everyone instead of just for profit.
3778	April	Montgom	30318	GA	As a disabled person, I find this fallacious logic insulting and demeaning!
3779	Lara	Schuchat	98125	WA	As a disabled person who is also Hard of Hearing, I find that trying to kill net neutrality (and excusing it by saying it will help people like me) to be the biggest bunch of crap I've ever heard with or without my hearing aids! That is completely offensive and inappropriate! Leave the 'net alone!

3780	Arline	Lawrie	06105	CT	As a disabled person I have never been so disgusted. I find it absolutely sickening that these companies are using my illness/disability as a means to keeping their profits as high as they possibly can. Please do NOT believe the propaganda these companies are trying to feed you and SAVE Net neutrality.
3781	Leslie	Cozad	94931	CA	As a business woman, wife & mother, I believe that the internet is a public utility and should be kept as it has been, for the best of all citizens. Not for the benefit of those who can pay the most. Keep this public utility public and affordable.
3782	Kenneth	Olson	97218	OR	As a business owner, I know the value of an open, un-tiered internet. Let's keep what works, and keep the cable companies out of regulating our public space.
3783	Scott	Strand	94563	CA	Are you really going to let big corporations win yet again. You don't represent people, you only represent greed.
3784	James	Saxon	90292	CA	Are you part of the American public or are you just another special interest corrupting our government?
3785	Joanne	Willis	76244	TX	Are you out of your mind? Don't let these companies do this to the public.
3786	Mike	Bradley	94602	CA	Are you kidding? The Internet hasn't become a utility? Give me a break!
3787	Iris	Silver	97402	OR	Are you kidding me? Do not get rid of net neutrality. As a matter of fact, bring back cable regulation. Comcast has got to go. Like now.. And, Mr. President, it would be so refreshing if you could replace the head of the FCC with someone who is not a corporate lobbyist. Thanks, Iris Silver
3788	Maureen	Sugden	04941	ME	Are you going to give away absolutely everything we have to the mega-rich? Can we please keep this?
3789	Shaun	Lenahan	08316	NJ	are you crazy

3790	Ellen	Gendron	01020	MA	Are we trying to officially become a third world country? Is our government now a banana republic? Wake up and declare the Internet as a public utility. It is something that is needed in this day and age and we should be improving rather than taring it down.
3791	Rita	Ihly	98225	WA	Are we going to "China-tize" our internet? Only if net neutrality remains neutral will information flow freely. We need to balance disfunctional media by sharing with intelligent sources of information. Do NOT abolish net neutrality. No NOT even negotiate. It is non-negotiable!!!!!

Have you asked yourselves that? Don't sugarcoat it in your heads. There is no good that can come of this.
3797	Philip	van Lidth	27603	NC	Any two-tiered system for the internet would deny equal treatment under the law to the consumer as mandated under the Fourteenth Amendment because certain companies would be advantaged thanks to deeper pockets. This should not be allowed for what should be considered a public utility to be operated in the public interest.
3798	Eugene	Viens	77009	TX	Any regulator who has convinced himself that what is most profitable for corporations is best for us citizens is a self absorbed idiot.

3799	Jerry	Roahrig	40504	KY	Any move to change the current standards providing equal and open access to all internet users will, no doubt, accentuate the digital divide already existing between the "haves" and the "have-nots," while pushing more and moreÂ Â middle class internet users into the latter category. The internet, having been established and substantially funded by the federal government, should be regulated as a public utility, and not be subject unbridled capitalism and "free market" profiteering.â€←

3807	Helena	Jensen	01830	MA	And we the public want our utilities back from the private corporations. Charge them for stealing what is rightly all of ours. 100% on all profits is appropriate.

3808	Dave	Kob	17603	PA	And the winner is... Comcast/Time Warner.. surprise, surprise! The loser... we the consumer (as usual). Already reaping the benefits of an all-but unchallenged monopoly and charging superior rates for inferior service, the proposed "2-lane highway" (parking & passing i assume) can only result in promoting further abuses by the cable empire. Of course, any increase in cost to various streaming services such as Netflix or Hulu will just be passed on to the consumer. - - And, talk about the fox in charge of the henhouse... howzabout Tom Keller ex K- Street hatchet man for the cable industry now in charge of FCC regulation... nice, real nice! How stupid do you people think we are.. an insul really. - - Let's keep the interment in the public domain & instead maybe propose legislation that would force cable companies to at least bring their service cost-to-quality ratio up to par with the most of the rest of the world.
3809	Eleanor	Rosen	30075	GA	and the government should initiate a public works project to get the internet to all communities in the US at the fastest speeds available.

					free, open Internet. The companies that provide broadband connections to U.S. consumers must not be permitted to discriminate when it comes to what data or services their customers have access to. - - - - First, our Constitutionally-guaranteed right to free speech would be seriously infringed upon were the FCC to allow the destruction of Net Neutrality. Net Neutrality is THE free speech issue of this moment in U.S. history. The Internet is the public forum of our times, and should be treated exactly the same way the airwaves were treated when radio and television were first invented: as a public utility. Companies wishing to do business by providing Internet services should be licensed to operate specifically "in the public interest". If they fail to do so, their licenses should be pulled and transferred to companies who will do so. - - - - Next, the modern, competitive economy, as it currently exists, would be strangled by the loss of Net Neutrality. The proposed rule change would undoubtedly result in higher consumer costs and decreased private sector innovation. - - - - Net Neutrality is what stops powerful Internet service providers like Comcast and Verizon from single-handedly killing off websites by making them impossibly slow to load and access. It prohibits
3827	Ben	Mullen	27713	NC	Internet service providers from creating Internet American democracy is at stake here. WE THE PEOPLE demand that the internet be provided freely and equally throughout America and NOT restricted in any way, to anyone. 3842	Angela	Mogin	94402	CA	Allowing internet access based on ability to pay for high end usages would be roughly the same as restricting phones to those people who are willing to pay for long distance service whether or not they use it.l
3843	Robin	Remde	98367	WA	Allowing cable companies to create a "fast lane" is like allowing electric companies to charge appliance manufacturers to supply full voltage to their equipment in consumers' homes. 3844	Jeff	Nelson	97267	OR	Allowing anything other than equal access to the internet will promote monopolistic practices, which we have already experienced from our cable provider. - - - - I oppose tiered access plans for the internet and urge the FCC to support Net Neutrality.

3851	Sharon	Lane-Geta	55057	MN	All streamers and surfers should get equal access to internet speeds.
3852	Ed	Schumacl	98664	WA	All of those who are into the pockets of big business should be removed from office.
3853	Jenny	Eish	44406	OH	all men are created equal Let us keep our equal service on the internet!
3854	Lauren	Stewart	94610	CA	All information should be equally available. Internet providers should not be giving preferential treatment and speeds to the sites and causes which are willing to pay them more, just look at the speed tampering Netflix encountered during negotiations with Comcast

3855	martha	SIMMONS	45213	OH	All entities wanting to post information on the Internet should have the same access!
3856	Harold	Lunde	07945	NJ	All bytes are equal!
3857	Barbara	Remund	80602	CO	ALL Americans deserve the same quality, speed, and costs in their communication tools or we will fall farther and farther behind the rest of the world and become less able to compete.
3858	Judith	Tiedemar	86440	AZ	Alex Jones talked about this over two years ago, so many of us saw it coming. The outrage we all feel at the mere idea that the FCC would entertain this is unacceptable. The Internet has and always should be free and accessible to ALL.
3859	dianne	smith	55113	MN	Al Franken seems to be the only one speaking up for the smaller folks. Appreciate him
3860	Ann	Holtzclaw	31405	GA	Airwaves are owned by the public. Period....We re already paying through the nose for internet service thanks to the monopolies you've allowed.
3861	Denise	Beckman	75234	TX	AGREED, STOP THE CABLE FUCKERY! ANYTIME A TEA BAGGER LIKE CRUZ WHO PROFESSED STICK TO THE CONSTITUTION? AND HE IS FOR CABLE COMPANIES? TUP AMERICA, WE WILL GET THE FUCKERY WITHOUT VASOLINE!
3862	Valerie	Sesia	81650	CO	Agree with John Oliver on providers' monopoly tactics. I support net neutrality and preventing cable company f***kery.
3863	Mary	Brady	52001	IA	Again, the rich 2% are grabbers, selfish and hateful people. They can never get enough and now they want the internet for their very own little toy. It's not their fault that they are hated so much, rather it's the fault of the folks they buy for Congress. The American Middle Class is angry, if the conversations I hear in lines at the bank and other places are any indication. They know they have been shafted, once again by "the greedy little rich folks." the 2%.
3864	Nancy	Hines	01746	MA	Again, I am in favor of net neutrality, and have had enough of the triumph of greed in the USA.

3865	Randall	Yrjanson	55724	MN	After the recent abuses that caused the greatest financial crisis since the Great Depression one would think that allowing any company to become "too big to fail" should be avoided. The largest companies are being allowed by oversight and reglatory entities to become even larger on the backs of the middle class once again.
3866	John	Schermer	94597	CA	Add the sun to that list of "public utilities"
3867	Robert	Eidson	77379	TX	Act like true Americans not today's Americans.
3868	Yvonne	Pritchard	33510	FL	Access to the internet shouldn't be political or for just the wealthy.
3869	Andrew	Martin	02459	MA	Access to the internet should be the same for all providers and users. The new technology of the internet must be considered a public utility as important as the airwaves of old-fashioned broadcast technology.
3870	Nadine	Van Dyk	33409	FL	Access to the Internet needs to remain fair, open and balanced.
3871	andrew	peters	98110	WA	Access to the internet is access to democracy. No fast lanes, no slow lanes.
3872	Lorraine	Robinson	30110	GA	Access to the internet is a paid service, not a free one. Even "free" WiFi is paid for by the company providing it. Why should consumers have to pay TWICE for it -- once to get access, then again to protect their speed? Don't let the cable companies throttle the speed on individual consumers while giving corporations free rein. Protect net neutrality.
3873	Megan	Smith	29407	SC	Access to information whether dispersing or collecting needs to be unencumbered by the pursuit of profits in a democracy. Please keep the internet free.
3874	Amy	Fogerson	90012	CA	Access to information should not be sold to the highest bidder!!!
3875	andrea	ashbaugh	92117	CA	Access should not be bought.

3884	Sarah	Lynn	27516	NC	Abolishing net neutrality is not in the public's best interests!
3885	Thomas	Wilson	32086	FL	A very important issue!
3886	Kathrine	Moen	98199	WA	A utility public Can include values other than Greed adn efficiency that are the only operative functions of the invisible hand of the "free" market system that simply involve the oligopolies regulating themselves for their owner's enrichment and control. Public interest---not relevant.
3887	Shaun	Harris	97062	OR	A US citizen currently living overseas. Love to see the US as an example of how things should be. Disappointed to see net neutrality fade away.
3888	Rendon	Holloway	95136	CA	A two-tiered system is NOT net neutrality!
3889	Michael	Lindell	98125	WA	A two-tiered system is an outrageous capitulation to ISP greed. You need to preserve net neutrality.
3890	Joel	Applegate	84660	UT	A two-tiered Internet will automatically favor the already wealthy and powerful.
3891	James	Duran	95632	CA	A two-tiered internet system is like when toll-roads were created. It sounded like a good idea at the time. .
3892	Cathy	Bledsoe	97225	OR	A two-tiered internet leads to a two-tiered society, the haves and the have-nots. That is not democracy. That is not the American way.
3893	Gwen	Guglielmi	08540	NJ	A two tiered system is a bad idea.
3894	Dixie	Edwards	98632	WA	A two tiered internet plan only means that the average person would have to pay more for the service we already have. There is no benefit for the average citizen. The on one that would gain from this is a corporation. A corporation is only interested in more money for the company. This would hurt small business people and not help to create jobs. The job of the FCC is to protect the public from special interest profiting form or somehow benefiting a public communication system.
3895	Lee	Adams	78737	TX	A two tier system sucks. Another example of the rich getting privilege.

3896	Alex	Steimer	91776	CA	A question for Mr. Wheeler: which telecom company will you end up running once you dismantle net neutrality and resign from the FCC?

3899	Shirley	Polishook	12477	NY	A neutral internet promotes DEMOCRACY. Please don't allow the corporations to effectively CENSOR our content.
3900	Alfred	Neil	92234	CA	A majority of Americans do not want you to tamper with Net Neutrality of the Internet as it exists. It would be an insult to US citizens for a Washington bureaucracy to ignore the wills of the citizens of this fine country for the will of a bureaucratic director. In that instance, the courts should stay the directive of the agency and the President needs to fire the director.
3901	Jeffrey	Pozin	97230	OR	A level playing field is the only thing that will ensure a fair, balanced, and dynamic internet marketplace, that would allow small companies and new ideas to compete.

3908	kevin	mills	90038	CA	A free and open internet is vitally important to the average citizen of the US.

3909	Brenda	Sageng	64836	MO	A FREE and open internet is the only way to maintain public access to general information, commerce, government and unrestricted news. To even consider privileging one entity over another for monetary gain is antithetical to a free and open society in our age. Access to this modern public utility is as necessary to our societal advancement as access to electricity was in the last century. 3922	John	Jonik	19125	PA	A 2-tiered plan would negatively affect those working on-line in many areas...taxes, utility bills, shopping and marketing, traffic directions and advisories, news publishing and gathering, health care research, political advocacy, auto and other product recalls, weather, and so on. - - In other words, a 2-tiered system would not justnegatively affect individuals but businesses and government and medical entities.
