We think RFD TV is the most wonderful thing that has happened to farmers, dairymen, poultry farmers!

We have a son that has a great business! He has 4 broiler houses, sells to Amick, Amick needs more business, so our son is in the process of building 4 more broiler houses!

We also have a son who has one of the largest dairy in South Carolina.

His son, our grandson has a large & growing dairy, making the 5th generation dairy farmer.

We, my husband & I are 3rd generation dairy farmers. Many times I got dinner started, then drove a silage truck till 11 AM, then went back to our house & finished lunch. I cooked for everyone that worked for. Then went back to the field after I cleaned up the kitchen. My husband & I were both raised in the country, so was his parents & my parents, too!

Please do whatever you can to keep them on the air! Love in Christ Sarah Riddle
