I am contacting you on concerning your plans to cut RFDTV. I watch this channel along with 40 million others. Most cable is NOT family orientated. This channel is! It's US.
When I was 18, I was in the Army and stationed at Walter Reed Army Medical Center in Washington, D.C. Since then I used the GI Bill and got a degree in Business Administration and Marketing. I spent 35 years as a RURAL Librarian. A stroke ended that.
Our RURAL areas feed & dress us - NOT NAFTA & GATT! The USA is worth protecting. My pledge was for life. Veteran's care! Please beware, we COUNT!

Support our right to own CABLE. Most of our citizens ARE RURAL. We have RIGHTS too. 14-57 must be supported. God bless the USA, AGAIN!

Tunnel vision is dangerous. These are good citizens from sea to shining sea, YET. Most of us are NOT "drug using, useless parasites" God put us here to do a job. Maybe being hale, alert and hearty is that job.

Keeping honest structured lives must count. Fighting total urbanization is visionary, too. You are here to represent us NOT repress us.

The Constitution is the law of our land. Protect it. The last few years have seen it challenged. Politically correct is NOT flawless. Your oath is on it. We are watching!

Being a Wuss is NOT an option. Our heroes are still heroes! Not cowboys.

Sincerely in honor,

Lynn Rhodes
