MM Docket No. 92-4

In the Matter of

Amendment of Section 73.202(b), RM-7880
Table of Allotments,
FM Broadcast Stations.
(Greenacres, California)

NOTICE OF PROPOSED RULE MAKING

Adopted: January 8, 1992; Released: January 21, 1992

Comment Date: March 9, 1992
Reply Comment Date: March 24, 1992

By the Assistant Chief, Allocations Branch:

1. Before the Commission for consideration is the petition for rule making filed on behalf of Double D Broadcasting Company ("petitioner"), licensee of Station KRAB(FM), Channel 292A, Greenacres, California, seeking the substitution of Channel 291B1 for Channel 292A and modification of its license to specify operation on the higher class channel. Petitioner stated its intention to apply for Channel 291B1 if allotted to Greenacres.

2. A staff engineering analysis reveals that the site specified by petitioner would place the transmitter for Channel 291B1 a distance of 35.6 kilometers (22.1 miles) east of the community.¹

3. We believe the public interest would be served by proposing the substitution of Channel 291B1 for Channel 292A at Greenacres, California, since it could provide the community with an expanded coverage area FM service. As requested, we shall also propose to modify the petitioner's license for Station KRAB(FM) to specify operation on Channel 291B1 in lieu of Channel 292A. Pursuant to the provisions of Section 1.420(g) of the Commission's Rules, we will not accept other expressions of interest in the use of Channel 291B1 at Greenacres, or require the petitioner to demonstrate the availability of an additional equivalent class channel for use by such parties.

4. Accordingly, we seek comments on the proposed amendment of the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, with respect to the community listed below, as follows:

City	Present	Channel No.	Proposed
Greenacres, California	292A		291B1

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. In particular, we note that a showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

6. Interested parties may file comments on or before March 9, 1992, and reply comments on or before March 24, 1992, and are advised to read the Appendix for the proper procedures. Comments should be filed with the Secretary, Federal Communications Commission, Washington, D.C. 20554. Additionally, a copy of such comments should be served on the petitioner's counsel, as follows:

Howard M. Liberman, Esq.
Peter H. Doyle, Esq.

1801 K Street, N.W.
Suite 400K
Washington, D.C. 20006

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Allotments, Section 73.202(b) of the Commission's Rules. See *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend Sections 73.202(b), and 73.606(b) of the Commission's Rules*, 46 FR 11549, February 9, 1981.

8. For further information concerning this proceeding, contact Nancy Joyner, Mass Media Bureau, (202) 634-6530. For purposes of this restricted notice and comment rule making proceeding, members of the public are advised that no *ex parte* presentations are permitted from the time the Commission adopts a Notice of Proposed Rule Making until the proceeding has been decided and such decision is no longer subject to reconsideration by the Commission or review by any court. An *ex parte* presentation is not prohibited if specifically requested by the Commission or staff for the clarification or adduction of evidence or resolution of issues in the proceeding. However, any new written information elicited from such

¹ Coordinates at the petitioner's specified site for Channel 291B1 are 35-29-02 and 118-44-12. Although the petitioner's designated site is located farther from Greenacres than the maximum distance (23.2 kilometers (14.3 miles)) the Commission normally assumes for the provision of city-grade coverage (3.16 mV/m), petitioner's engineering data demonstrates, and our engineering analysis confirms, that its proposal could comply with §73.315 of the Commission's Rules. In this regard, peti-

tioner has shown that from its designated site, using maximum Class B1 facilities (*i.e.*, 25 kW at 100 meters HAAT), an unobstructed 70 dBu signal, computed in accordance with the Commission's standard prediction methods (§73.313(d)(1)-(3)) would extend 48.8 kilometers (30.2 miles) on a bearing of 251.8°. Thus, the 3.16 mV/m contour should encompass the entire community. See *Woodstock and Broadway, VA*, 3 FCC Rcd 6398 (1988).

a request or a summary of any new oral information shall be served by the person making the presentation upon the other parties to the proceeding unless the Commission specifically waives this service requirement. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.
