RE: Alaska Certification of Support for High Cost Eligible Telecommunications Carriers Pursuant to 47 C.F.R. § 54.314, WC Docket No. 10-90.

To the Filing Representatives:

The Regulatory Commission of Alaska (RCA) hereby certifies, based on self-certifying affidavits filed with it by the Eligible Telecommunications Carriers (ETCs) it has designated, that all federal high cost support provided to ETCs in Alaska during 2016, and that will be provided during 2018, either has been or will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with 47 U.S.C. § 254(e). Accompanying this certification is Attachment A, a list of carriers currently designated as ETCs by the RCA pursuant to its authority under 47 U.S.C. § 214(e)(2), along with each carrier's assigned study area code, if known.

This certification pertains to all RCA-designated ETCs, but in no way precludes the RCA from reviewing in further detail how any carrier has deployed its federal universal service support, nor from ordering the support be used in conformance with RCA directives or policies. This certification similarly does not bind the RCA in any future or pending matters before it involving any carrier to which this certification applies.

Sincerely,

REGULATORY COMMISSION OF ALASKA

Stephen McAlpine  
Chairman
