RE: *Written Ex Parte, MVDDS Use of the 12.2-12.7 GHz Band for Two-Way Mobile Broadband Service, RM-11768*

Dear Ms. Dortch:

On January 6, 2021, Jennifer M. McCarthy, Vice President of Legal Advocacy for Federated Wireless, Inc. (“Federated Wireless”), spoke via telephone with William Davenport, Chief of Staff and Senior Legal Advisor for Commissioner Geoffrey Starks, regarding the above-captioned proceeding. Federated Wireless reiterated its support for the Federal Communications Commission (the “Commission”) to move forward with a Notice of Proposed Rulemaking (“NPRM”) to consider how to implement flexible use of the 12.2-12.7 GHz band (the “12 GHz Band”), including fixed and mobile 5G wireless broadband services, while protecting incumbent services.

Federated Wireless looks forward to lending our experience in implementing shared spectrum solutions in other bands to the challenges of the 12 GHz Band. We encourage the FCC to move forward with an NPRM to seek comment on ways in which new terrestrial broadband services can be introduced while also allowing existing services to continue to operate and evolve unimpeded.

Respectfully submitted,

/s/ Jennifer M. McCarthy
