PETITION FOR SPECIAL RELIEF

Robert J. Folliard, III
Assistant Secretary
GRAY TELEVISION LICENSEE, LLC

January 9, 2018

SUMMARY

This petition seeks modification of the local market for DBS carriage of WYMT-TV, Hazard, Kentucky (Facility Identification Number 24915) to properly reflect the actual local service area of the station to ensure that satellite viewers served by WYMT-TV receive in-state local programming as mandated by Congress. Gray requests that the Commission modify WYMT-TV's satellite carriage market by removing 23 counties in the station's DMA that are better served by WYMT-TV's sister station WKYT-TV and adding 8 Kentucky counties that currently are assigned to out-of-state DMAs. The resulting market, which has been recognized by Nielsen as WYMT's actual market, will better reflect the service WYMT-TV provides today and ensure that Kentucky television viewers in these areas have appropriate access to Kentucky-produced local news and information programming.

WYMT-TV has served the Orphan Counties for decades, is the leading local broadcast station serving the Orphan Counties, and generally is the only station licensed to Kentucky that focuses its programming on the issues that are most important to Orphan County residents. Subscribers of DISH and DIRECTV in the Orphan Counties, however, do not receive the Station because the satellite carriers only retransmit the programming of WKYT-TV (in the Lexington DMA), WOWK-TV (in the Charleston-Huntington, WV DMA), WVLT-TV (in the Knoxville, TN DMA), or WJHL-TV (in the Tri-Cities, VA-TN DMA). Unless the FCC adopts the market modification requested herein, DBS subscribers in the Orphan Counties will continue to be deprived of access to the in-state local programming most of interest and most valuable to them.

A few years ago, Congress wisely determined that satellite viewers need access to adequate amounts of local news, sports, weather, and other informational programming produced by in-state television stations. The Orphan Counties are prototypical examples of the problem

Congress authorized the FCC to remedy. With just a few exceptions, the eight Orphan Counties are served by local broadcast stations that are licensed to communities in neighboring states and primarily serve the interests of those communities. Satellite viewers in the Orphan Counties, therefore, receive only local programming focused on the needs of Tennesseans, West Virginians, or Virginians. Unsurprisingly, residents in the Orphan Counties are frustrated by the lack of programming that is focused on their small, mostly rural communities as demonstrated in the many testimonials from community and business leaders in the Orphan Counties that are attached to this petition.

Viewers in the Orphan Counties strongly desire WYMT-TV's programming. The proof of that desire is the strong viewership reflected in WYMT-TV's outstanding ratings in the Orphan Counties, as well as the support it receives from community and business leaders throughout the Orphan Counties. Unfortunately, while cable viewers are able to access WYMT-TV's locally produced programming, their neighbors that subscribe to DISH or DIRECTV are not able to watch WYMT-TV's top-rated local programming. Grant of the Petition will help provide those DBS subscribers with WYMT-TV's 29 weekly hours of locally produced programming that focuses on the needs and interests of the viewers in eastern Kentucky. Gray stands ready and able to remedy that problem and asks the FCC to grant the instant Petition, which will permit Gray to enter into discussions with DISH and DIRECTV for the carriage of WYMT-TV in the Orphan Counties.

PETITION FOR SPECIAL RELIEF

Gray Television Licensee, LLC (“Gray”), licensee of WYMT-TV, Hazard, Kentucky (the “Station”) hereby files this Petition for Special Relief , requesting modification of WYMT-TV’s local market for satellite carriage to include eight “orphan counties”¹ in Kentucky (collectively, the “Orphan Counties”).² Gray also proposes that the Commission delete twenty-three counties

¹ See 47 U.S.C. § 534(h); 47 C.F.R. §§ 76.7, 76.59. An “orphan county” is a county that is assigned by Nielsen to a local designated market area (“DMA”) that predominantly consists of counties in another state. The result is that viewers in an orphan county are deprived of access to local programming produced by stations that are located in the same state as orphan county viewers. These viewers lack access to sufficient local programming produced in their home state. Amendment to the Commission’s Rules Concerning Market Modification, *Report and Order*, 30 FCC Rcd 10406, 10408 n. 5 (2015) (“*STELAR Order*”).

² Gray requests that it market be modified to include the following Kentucky counties: Bell, Floyd, Harlan, Johnson, Leslie, Letcher, Martin, and Pike. Nielsen currently assigns Bell and Harlan Counties to the Knoxville, TN DMA; Floyd, Johnson, Martin, and Pike Counties to the Charleston-Huntington, WV DMA; and Leslie and Letcher Counties to the Tri-Cities, TN-VA DMA.

located in the Lexington DMA from WYMT-TV's local satellite carriage market.³ For the reasons set forth below, Gray urges the FCC to grant this Petition.

I. SUMMARY AND INTRODUCTION

WYMT-TV is the sister station of WKYT-TV, Lexington, Kentucky. The two stations share the same CBS network programming, but each station provides different syndicated programming and hyper-localized local news programming. Whereas WKYT-TV focuses on serving the core urbanized area of the Lexington DMA, WYMT-TV produces local news, sports, public affairs, and commercial programming directed at serving the special needs and interests of the otherwise underserved viewers in rural eastern Kentucky. This extensive Kentucky-focused local programming airs exclusively on WYMT-TV. As a result, WYMT-TV is the leading local broadcast station serving the Orphan Counties and practically the only station licensed to Kentucky that provides these communities with local news and other programming. Subscribers of DISH and DIRECTV in the Orphan Counties, however, do not receive the Station because the satellite carriers retransmit only the programming of WKYT-TV (in the Lexington DMA), WOWK-TV (in the Charleston-Huntington, WV DMA), WVLT-TV (in the Knoxville, TN DMA), or WJHL-TV (in the Tri-Cities, VA-TN DMA). Absent the FCC taking action, DBS subscribers in the Orphan Counties will continue to be deprived of access to the local programming most of interest and most valuable to them.

The Orphan Counties are archetypal models of the problem Congress was trying to solve when it authorized the FCC to modify local direct broadcast satellite ("DBS") carriage markets

³ The twenty-three Lexington, Kentucky DMA counties that Gray proposes to delete from WYMT-TV's local satellite carriage market are: Russell, Casey, Lincoln, Boyle, Garrard, Mercer, Jessamine, Madison, Estill, Anderson, Woodford, Fayette, Clark, Montgomery, Menifee, Franklin, Scott, Bourbon, Bath, Rowan, Harrison, Nicholas, and Fleming (collectively, the "Modification Counties").

to ensure that viewers have access to adequate amounts of local news, sports, weather, and other informational programming produced by in-state television stations.⁴ With just a few exceptions, the eight Orphan Counties are served by local broadcast stations that are licensed to communities in neighboring states. Satellite viewers in the Orphan Counties, therefore, receive only local programming focused on the needs of Tennesseans, West Virginians, or Virginians. Unsurprisingly, residents in the Orphan Counties are frustrated by the lack of programming covering their small, mostly rural communities.

Nielsen has long recognized the unique viewing patterns of eastern Kentucky and the market WYMT-TV serves. Decades ago, Nielsen acknowledged WYMT-TV's distinctive service to eastern Kentucky by creating a special trading area for the Station, which includes all eight Orphan Counties.⁵ This special trading area was created by Nielsen for WYMT-TV because the station serves a unique geographic area. The FCC also previously acknowledged WYMT-TV's service to Pike, Bell, and Floyd Counties when it modified the WYMT-TV cable market to include those three counties.⁶ The support WYMT-TV has in the community also is manifest in its outstanding ratings in the Orphan Counties, as well as the support it receives from community and business leaders throughout the Orphan Counties.⁷

Viewers in the Orphan Counties covet WYMT-TV's programming. Unfortunately, while cable viewers are able to access the programming, their neighbors that choose to subscribe to DISH or DIRECTV are not able to watch WYMT-TV's top-rated local programming. Gray is

⁴ See The STELA Reauthorization Act of 2014, § 102, Pub. L. No. 113-200, 128 Stat. 2059, 2060-62 (2014) (codified at 47 U.S.C. § 338(l)) ("STELAR").

⁵ See Exhibit A.

⁶ Kentucky Central Television, Inc. Hazard, Kentucky for Modification of Station WYMT-TV's ADI, *Memorandum Opinion and Order*, 10 FCC Rcd 3401 (1995).

⁷ See Exhibits B1-B8, I, K, O, Q, S, U, X, and AA.

ready and able to remedy that problem and asks the FCC to grant the instant Petition, which will permit Gray to enter into discussions with DISH and DIRECTV for the carriage of WYMT-TV in the Orphan Counties. Grant of the Petition will help provide those DBS subscribers with WYMT-TV's 29 weekly hours of locally produced programming that focuses on the needs and interests of the viewers in eastern Kentucky.⁸ Former Kentucky Governor and U.S. Senator Wendell Ford summarized it best when he said, "WYMT-TV is the best thing to happen to eastern Kentucky since roads."⁹

As demonstrated below, Gray's proposal solves the orphan county problem and satisfies the other statutory factors Congress requires the FCC to evaluate in market modification proceedings. Gray therefore requests that the FCC modify WYMT-TV's satellite carriage market to include the Orphan Counties and exclude the Modification Counties.

II. BACKGROUND

A. Satellite Market Modifications Under STELAR.

Section 338 of the Communications Act permits a satellite carrier to retransmit the signals of local broadcast television stations into the DMA to which those stations are assigned under certain specific circumstances.¹⁰ Generally speaking, the Nielsen Company ("Nielsen") defines these DMAs (which are comprised of groups of counties based on Nielsen's measured

⁸ Gray also operates a Washington, DC news bureau that provides an important outlet for Kentucky's lawmakers in Washington to reach their constituents back home. Gray's seasoned reporters in the Washington news bureau complement the local reporting from WYMT-TV personnel by bringing a Washington perspective to stories of local importance.

⁹ Gray Communications Systems, Inc. 1999 Annual Report at 6, http://media.corporate-ir.net/media_files/NYS/GTN/reports/ar99.pdf.

¹⁰ 47 U.S.C. § 338(a)(1).

viewing patterns) and assigns stations to them.¹¹ DMAs do not follow state boundaries, and a number of DMAs include counties located in two or more states.

Congress has long recognized that Nielsen is not infallible and that, in some instances, adjustments to Nielsen's determinations of a station's local market are necessary to ensure that market assignments properly reflect the wants and needs of local television viewers. In the 1992 Cable Act, Congress designed and authorized procedures for stations and cable operators to seek modifications to Nielsen's market determinations.¹² In STELAR, Congress expanded the FCC's market modification authority to include the power to modify local markets for satellite carriage by adding counties to or subtracting counties from Nielsen's defined markets.¹³ Congress also expanded the market modification test to provide the FCC with the necessary authority to modify both cable and satellite markets to remedy "orphan county" situations.¹⁴ In 2015, the FCC adopted rules implementing these STELAR requirements.¹⁵

Under STELAR and the FCC's implementing rules, in response to a request for modification of a local market for satellite carriage, the FCC must evaluate the following factors:

- i. whether the station, or other stations located in the same area – (a) have been historically carried on the cable system or systems within such community; and (b) have been historically carried on the satellite carrier or carriers serving such community;
- ii. whether the television station provides coverage or other local service to such community;
- iii. whether modifying the local market of the television station would

¹² *See* Cable Television Consumer Protection and Competition Act of 1992, Pub. L. No. 102-385, 106 Stat. 1460 (1992); Must Carry and Retransmission Consent Requirements, *Report and Order*, 8 FCC Rcd 2965 (1993).

¹³ *See* STELAR at § 102.

¹⁴ *See id.*

¹⁵ *See STELAR Order*, 30 FCC Rcd at 10406.

- promote consumers' access to television broadcast station signals that originate in their State of residence;
- iv. whether any other television station that is eligible to be carried by a satellite carrier in such community in fulfillment of the requirements of this section provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community; and
 - v. evidence of viewing patterns in households that subscribe and do not subscribe to the services offered by MVPDs within the areas served by such MVPDs in such community.¹⁶

The first, second, fourth, and fifth factors of this test are familiar tests applied numerous times in the cable market modification context.¹⁷ STELAR, however, added a new third factor – “promoting consumers’ access to television broadcast station signals that originate in their State of Residence.”¹⁸

In giving the FCC authority to address the orphan county problem, Congress expressed concern that “many consumers, particularly those who reside in DMAs that cross State lines” may “lack access to local television programming that is relevant to their everyday lives.”¹⁹ Congress instructed the Commission to “consider the plight of these consumers when judging the merits of a [market modification] petition.”²⁰ To satisfy this criterion, a petitioner need only

²⁰ *Id.* at 11.

demonstrate that the local television station is “licensed to a community within the same state as the new community.”²¹ Additional showings may be made to increase the weight the Commission gives to this factor.²² The Commission has applied this new test twice since the enactment of STELAR to ensure local service to “orphan” communities.²³

As both Congress and the FCC have long maintained, a market modification petitioner need not satisfy all of the listed factors; indeed, Congress did not intend for these factors to be exclusive, and the Commission may consider other facts relevant to whether a community is part of a station’s natural local market.²⁴ In the cable context, the FCC routinely has given weight to other factors demonstrating a market nexus between the station and the cable communities at issue.²⁵ The same considerations should apply in satellite market modifications as well.

In its recent decision to modify the local satellite television markets of four Denver, Colorado television stations, the Media Bureau found that “tests based on geographic proximity . . . are of significantly reduced relevance in the orphan county context.”²⁶ That decision also states that historic carriage and viewer ratings would be lower in the orphan county context than in prior market modification proceedings. Therefore, the Commission will give

“substantial weight” to proposals that would bring in-state/local programming to orphan counties and will consider the other factors as enhancements to a petitioner’s case.²⁷ Gray’s instant proposal must be granted regardless of the standard employed by the Commission. As demonstrated herein, WYMT-TV not only will solve the Orphan County problem for many Kentucky satellite television viewers it also provides over-the-air service to the Orphan Counties, produces substantial amounts of local news concerning the Orphan Counties, has long been carried by cable systems in the Orphan Counties and already is heavily watched by Orphan County viewers, both over the air and through local cable operators.

B. The Orphan Counties.

The Orphan Counties are located in eastern Kentucky and parts of the Orphan Counties border West Virginia to the northwest, Virginia to the south and east, and Tennessee also to the south.²⁸ The Orphan Counties all are part of Kentucky’s fifth congressional district. Residents of the Orphan Counties and people from far beyond the borders of the Orphan Counties often travel to eastern Kentucky to visit the beautiful land formations in Breaks Interstate Park and Daniel Boone National Forest. Eastern Kentucky also is famous for being the home of Kentucky’s Country Music Highway, which recognizes the famous country music stars that hail from the area. The 144 mile stretch of highway connects the northern and southern portions of eastern Kentucky through seven counties, including four of the Orphan Counties. The highway starts in Greenup County in the north and on the southern end, the highway traverses Johnson, Floyd, Pike, and Letcher Counties and features the stories of such country music stars as Billy Ray Cyrus, the Judds, Patty Loveless, and two time Grammy Award winner Chris Stapleton.

²⁷ See *La Plata County*, 32 FCC Rcd 1474, 1484-85 ¶ 22 (2017).

²⁸ Gray believes that Dish and DIRECTV have receive sites in each of the Orphan Counties.

Residents of the Orphan Counties are uniquely in need of in-state local news due to the economic challenges that face the region. The Orphan Counties include eight of the thirty Kentucky counties that form part of the Eastern Kentucky Coalfield. The region's economy revolves around the vast supply of natural resources available locally, including coal, timber, natural gas, and oil. Unfortunately reliance on the region's natural resources has not fostered growth in the local economy. Each of the eight Orphan Counties is classified as a "persistent poverty count[y]" and/or as a "persistent child poverty county."²⁹ Moreover, the Appalachian Regional Commission has designated each of the Orphan Counties as economically distressed or at-risk. This is because the three-year average unemployment rate (for 2012-2014) in the Orphan Counties was approximately 71% higher than the U.S. average.³⁰ The rate of poverty in the Orphan Counties for 2010-2014 was greater than 28%, which was more than 12% greater than the U.S. average.³¹ And the U.S. Census Bureau estimates that the population of the Orphan Counties has dropped approximately six percent since 2010.³² These economic challenges make access to reliable, in-state news a practical necessity for residents of the Orphan Counties, but access to that programming has been unfortunately lacking for satellite television customers there.

In Section III below, Gray provides additional information highlighting the unique characteristics of each Orphan County.

C. WYMT-TV

Gray's station WYMT-TV, which is an acronym for "We're Your Mountain Television" has served the distinct eastern Kentucky television market, including the Orphan Counties, for 45 years. When WYMT-TV launched, it provided the Eastern Mountain Coal Field with the first over-the-air service from a commercial broadcast television station. Today, WYMT-TV is by far the highest rated broadcast television station in the Orphan Counties. This comes as no surprise as WYMT-TV is dedicated to providing all of its viewers with the highest quality of local news, traffic, weather, sports, and entertainment programming, as well as CBS-affiliated national news, sports, and entertainment fare. In addition to providing local service to the Orphan Counties, WYMT-TV provides an online stream of its local news that viewers can watch when they travel beyond the reach of WYMT-TV's broadcast signal.

WYMT-TV is the sister station and serves as a semi-satellite station of Gray's WKYT-TV, Lexington, Kentucky. Like WYMT-TV, WKYT-TV is a commercial broadcast television station affiliated with CBS and licensed to the Lexington DMA. WYMT-TV's laser-like focus on the Eastern Kentucky Coalfield frees WKYT-TV to concentrate on the needs and interests of viewers closer to Lexington. Indeed, Nielsen recognized WYMT-TV's unique level of service to eastern Kentucky when it took the unusual step of created a special trading area for measurement of WYMT-TV's ratings.

Given the community of interest among the Orphan Counties and WYMT-TV's demonstrated service to those Counties, a more substantial nexus exists between WYMT-TV and the Orphan Counties than exists between viewers in the Orphan Counties and any station in those

Counties' currently assigned DMAs. Under these circumstances, the requested market modification would serve the public interest.

Should the FCC grant the instant Petition, satellite viewers in the Lexington DMA would receive the local programming that is most important to them. Satellite subscribers in the western portion of the Lexington DMA would continue to receive WKYT-TV, and satellite viewers in the eastern portion of the Lexington DMA and in the Orphan Counties would receive their DMA's primary CBS affiliate and WYMT-TV's programming, which specifically focuses on their needs and interests. This result will be a win-win for viewers across eastern Kentucky, and particularly those satellite subscribers in the Orphan Counties.

III. WYMT-TV SATISFIES THE MARKET MODIFICATION CRITERIA ESTABLISHED BY CONGRESS IN EACH OF THE ORPHAN COUNTIES.

As demonstrated below, the instant Petition satisfies each of the criteria for modification of WYMT-TV's local market for satellite carriage. Each of the Orphan Counties is decisively part of the geographic and economic market served by WYMT-TV

A. Leslie County

Leslie County is a sparsely populated county near the southeast border of Kentucky. Leslie County is not geographically contiguous with any other county assigned to the Tri-Cities DMA and is one of only two Kentucky counties assigned to that DMA. Given its geographical isolation, Leslie County viewers unsurprisingly have little economic or social interaction with other counties in the Tri-Cities DMA. For example, according to U.S. Census Bureau statistics, only 1% of commuters from Leslie County work in a county assigned to the Tri-Cities DMA, no one that resides in the Tri-Cities DMA commutes to Leslie County for work.³³ In other words,

³³ U.S. Census Bureau, 2009-2013 5-Year American Community Survey Commuting Flows, County to County Commuting Flows for the United States and Puerto Rico (May 10, 2017), <https://www.census.gov/data/tables/time-series/demo/commuting/commuting-flows.html>.

the people who live and work in Leslie County are predominantly from Kentucky and likely care most about the matters that impact Kentuckians.

1. WYMT-TV Historically Has Been Carried in Leslie County.

In assessing market modification requests, the Commission first considers whether the station has been carried on cable systems or by satellite carriers serving the county at issue.³⁴ That factor is satisfied here because WYMT-TV long has been carried on cable systems serving portions of Leslie County.³⁵ The attached Exhibit C shows that a cable system serving the Hyden, Kentucky area has consistently chosen to carry WYMT-TV since at least 1982.³⁶

2. WYMT-TV Provides Significant Local Programming Covering Leslie County.

The second statutory factor requires the FCC to determine whether a station requesting a market modification provides local service to the communities at issue.³⁷ Gray easily meets this test. Leslie County is assigned to the Tri-Cities, TN-VA DMA, but of the stations assigned to that DMA, only WSBN-TV, a public broadcast station, has a contour that covers the entirety of Leslie County.³⁸ On the other hand, Leslie County lies wholly within the contour of WYMT-TV.³⁹ Moreover, Leslie County is part of the special trading area that Nielsen created for WYMT-TV. In past cases, the FCC has recognized that signal coverage of a given community

³⁴ 47 U.S.C. § 338(l)(2)(B)(i).

³⁵ Gray is unaware of any prior satellite carriage of WYMT-TV in Leslie County. This is unsurprising because the station is not located in the same DMA as Leslie County, nor is it listed on the FCC's Significantly Viewed List for Leslie County.

³⁶ See Exhibit C.

³⁷ See 47 U.S.C. § 338(l)(2)(B)(ii).

³⁸ WJHL-TV, Johnson City, TN, the CBS affiliate for the Tri-Cities, TN-VA, has a contour that covers just half of Leslie County. See Exhibit D.

³⁹ See Exhibit E.

weighs heavily in favor of a determination that a station provides local service to that area under the market modification test.⁴⁰ WYMT-TV satisfies that test here.

Second, WYMT-TV provides local programming content that covers events and issues of concern to viewers in Leslie County. WYMT-TV is the only broadcast television station focused on eastern Kentucky, providing local newscasts Monday through Friday from 5-7:00 AM, 12-12:30 PM, 4-4:30 PM, 5-6:30 PM and 11-11:30 PM; Saturdays from 7-8 AM, 6-6:30 PM and 11-11:30 PM; and Sundays from 8-9:00 AM, 6-6:30 PM and 10-10:30 PM. This means in an average week, WYMT-TV produces 29 hours of local news that frequently includes stories originating in Leslie County. Indeed, since the beginning of 2016, WYMT-TV has included more than 350 stories on-air concerning breaking news, local sports, economic matters, and political issues in Leslie County.⁴¹ For example, WYMT-TV provided extensive coverage of severe storms and flooding that caused an estimated \$300,000 of damage in Leslie County in June and July 2016.⁴²

In addition to its news stories covering Leslie County, WYMT-TV routinely airs local weather forecasts, alerts, and warnings concerning Leslie County.⁴³ Leslie County is included

⁴⁰ See, e.g., Tennessee Broadcasting Partners, *Order on Reconsideration*, 25 FCC Rcd 4857, 4859 ¶ 6 (Med. Bur. 2010).

⁴¹ See Exhibit F. Gray has attached a listing of fifty recent WYMT-TV stories covering the county. A full list of stories is too unwieldy to attach to the instant Petition, but Gray will provide the complete list upon request.

⁴² See, e.g., WYMT-TV, *Flooding Causes Damage to Homes, Roads in Leslie County* (June 22, 2016, 11:49 PM), <http://www.wymt.com/content/news/Flooding-causes-damage-to-homes-roads-in-Leslie-County-384060691.html>; WYMT-TV, *Effects of Flooding, Storms Linger in Leslie County Two Weeks Later* (July 6, 2016, 12:28 AM), www.wymt.com/content/news/Effects-of-flooding-storms-linger-in-Leslie-County-two-weeks-later-385645771.html; WYMT-TV, *Congregation Grateful to Worship After Storm Damage* (July 10, 2016, 6:59 PM), <http://www.wymt.com/content/news/Congregation-grateful-to-worship-after-storm-damage--386211291.html>.

⁴³ See Exhibit G.

on local and regional weather maps used in daily weather reports during the station's newscasts. WYMT-TV has aired alerts for severe weather events impacting Leslie County, including severe thunderstorm, flood, and winter storm warnings, and many more for lesser weather events like red flag warnings and frost advisories.⁴⁴

WYMT-TV's coverage of news, weather, and sports in Leslie County – despite the fact that it currently is outside the station's DMA – demonstrates WYMT-TV's commitment to providing consistently strong local service to Leslie County. This commitment entirely satisfies the local service prong of the Commission's market modification test.⁴⁵

3. The Requested Market Modification Will Promote Access to In-State Local Programming for Leslie County.

The third statutory factor that the FCC considers was introduced by STELAR and considers whether grant of the requested market modification will enhance viewers' access to in-state local programming.⁴⁶ Leslie County is a prime example of an orphan county, lacking access to any local television programming produced by television stations licensed to Kentucky communities. Not a single station in the Tri-Cities DMA is licensed to a community in Kentucky. Instead, the stations assigned to the Tri-Cities DMA are licensed to communities in

⁴⁴ *See id.*

⁴⁵ As part of the second statutory market modification factor, the FCC typically examines the distance between the station and the relevant communities compared to other stations in those communities DMA. *See, e.g.,* Time Warner Entertainment-Advance/Newhouse Partnership, *Memorandum Opinion and Order*, 22 FCC Rcd 13642 (Med. Bur. 2007) (denying market modification petition to exclude communities between 93 and 106 miles away from station transmitter). In this case, that metric for measuring local service adds to Gray's argument. *See* Exhibit H. WYMT-TV's transmitter site is located approximately 14 miles from the center of Leslie County. The Tri-Cities stations, on the other hand, are located as far away as 103 miles from the center of Leslie County and an average of 79.6 miles distant from that location. In this case, WYMT-TV is far closer to the center of Leslie County than the Tri-Cities DMA stations, indicating that the FCC should add this analysis to its consideration of WYMT-TV's service to Leslie County.

⁴⁶ *See* 47 U.S.C. § 338(l)(2)(B)(iii).

northeast Tennessee and southwest Virginia. As such, those stations focus on the programming that is most interesting and most relevant to those areas. Adding Leslie County to WYMT-TV's market will dramatically increase the amount of Kentucky-based programming made available to citizens of the Leslie County and further this important policy that Congress codified in STELAR.

4. Leslie County Receives Little Local Programming from Stations Other Than WYMT-TV.

The fourth statutory market modification factor asks whether other television stations also provide local service to the cable communities at issue.⁴⁷ In this case, viewers in Leslie County have the unfortunate experience of being located outside the geographic core of the Tri-Cities, TN-VA DMA. As noted above, WYMT-TV produced hundreds of stories covering Leslie County since the beginning of 2016. Those locally produced stories cover Leslie County politics, sports, economy, and weather. No such blanket coverage is provided by stations from the Tri-Cities DMA.

Indeed, Carol Joseph, mayor of Hyden, Kentucky (the county seat of Leslie County) and Leslie County Judge Jimmy Sizemore both strongly support adding Leslie County to WYMT-TV's local satellite market.⁴⁸ As Ms. Joseph stated in her letter of support included in Exhibit B-1, "WYMT is the only station with reporters on the ground covering the news, weather, and sports that are important to us in Leslie County and surrounding Counties."⁴⁹ Judge Sizemore added his support by saying, "[a]t this time our local news is coming from Johnson City, TN,

⁴⁷ See 47 U.S.C. § 338(l)(2)(B)(iv).

⁴⁸ See Exhibit B-1.

⁴⁹ See *id.*

which is irrelevant to our area and doesn't provide the news and weather information we need.”⁵⁰

In other words, WYMT-TV provides Leslie County viewers with consistent coverage of the issues of local importance, while its competitors focus on the needs and interests of Tennesseans and Virginians.

5. WYMT-TV's Ratings in Leslie County Demonstrate Significant Viewership.

The fifth statutory factor concerns evidence of viewing patterns in households that subscribe to multichannel video services and those that do not.⁵¹ This factor requires non-specialty stations like WYMT-TV to demonstrate that they achieve at least “moderate” viewership in the subject cable communities,⁵² which the Commission has generally found to be satisfied by stations demonstrating a measurable viewing audience.⁵³

WYMT-TV achieves more than sufficient viewership in Leslie County to satisfy the FCC's ratings criteria. WYMT-TV purchased from Nielsen a report illustrating the station's ratings in Leslie County for the period beginning with the February 2016 sweeps period and ending with the recent February 2017 sweeps period.⁵⁴ Over the entire period, for Leslie County

⁵⁰ *See id.*

⁵¹ *See* 47 U.S.C. § 338(l)(2)(B)(iv).

⁵² *See* Ackerley Media Group, *Memorandum Opinion and Order*, 18 FCC Rcd 16199, 16204 ¶ 10 (Med. Bur. 2003) (citing KSBW License, Inc., *Memorandum Opinion and Order*, 11 FCC Rcd 2368, 2371 (Cab. Serv. Bur. 1996)).

⁵³ *See, e.g.,* Commonwealth Broadcasting Group, Inc., *Memorandum Opinion and Order*, 25 FCC Rcd 213 n.103 (Med. Bur. 2010) (finding sufficient viewership where station demonstrated ratings shares and weekly cumulative ratings of 0/7, 1/34 and 1/25 in the relevant counties); Ackerley, *Memorandum Opinion and Order*, 18 FCC Rcd 16199, 16202, 204-205 ¶¶ 6, 11 (finding moderate viewership based on a showing of ratings share between two and three).

⁵⁴ *See* Exhibit I. Nielsen's ratings were compiled for the 7 AM – 1 AM daypart, Monday-Sunday, as well as specific dayparts during which WYMT-TV regularly airs locally produced news programming.

WYMT-TV has averaged a 15 share in TV households and 5.0 rating.⁵⁵ During the period, WYMT-TV's ratings and share percentage were even higher during certain locally produced news programs. For example, during WYMT-TV's 6 p.m. newscast, the station averaged a 45 share and a 20.6 rating.⁵⁶ And during the May 2017, Nielsen estimates that WYMT-TV received a 65 share and a 28.4 rating for that same newscast.⁵⁷

The ratings WYMT-TV achieves are remarkable because today the station is unavailable from either DirecTV or DISH, which collectively serve more than 45 percent of the TV households in the Lexington DMA⁵⁸ and approximately 30 percent of the households in the Tri-Cities DMA to which Leslie County is assigned.⁵⁹ Moreover, because WJHL-TV is the CBS affiliate for the Tri-Cities DMA, some Leslie County cable viewers lack access to WYMT-TV and others have access to two options for CBS programming. Given its high ratings in the face of these hurdles, clearly, viewers in Leslie County are watching WYMT-TV where and when they can receive it. As with Gray's showing with respect to the other statutory factors, WYMT-TV's demonstrated viewership in Leslie County illustrates why the FCC should assign Leslie County to the local satellite carriage market for WYMT-TV.

B. Letcher County

Letcher County is located along the southeast border of Kentucky and currently is assigned to the Tri-Cities DMA. Like Leslie County, Letcher County is pure Kentucky with

⁵⁵ *See id.*

⁵⁶ *See id.*

⁵⁷ *See id.*

⁵⁸ *See* SNL, Lexington, KY (Current DMA Rank: 63) Video Subscribers, <https://www.snل.com/web/client?auth=inherit#tvMarket/VideoSubscribers?ID=63>.

⁵⁹ *See* SNL, Tri-Cities, TN-VA (Current DMA Rank: 98) Video Subscribers, <https://www.snل.com/web/client?auth=inherit#tvMarket/VideoSubscribers?ID=92>.

little relationship to the predominantly Virginia and Tennessee-based Tri-Cities DMA. Letcher County promotes Kentucky's tourism industry to highlight the natural beauty of the county, including hiking along the Pine Mountain Trail State Park or riding all-terrain vehicles along on the Roger Breeding Memorial ATV Trail. The lack of any substantial connection between Letcher County and the Tri-Cities DMA is demonstrated by the fact that the U.S. Census Bureau reports less than 1% of commuters to Letcher County live in a county assigned to the Tri-Cities DMA and less than 1% of commuters from Letcher County work in another county assigned to the Tri-Cities DMA.⁶⁰ The clear economic and social ties between Letcher County and WYMT-TV justify assigning the County to WYMT's market.

1. WYMT-TV Historically Has Been Carried in Letcher County.

As discussed above, the Commission must first consider whether WYMT-TV has historically been carried on cable systems or by satellite carriers serving the communities at issue. That factor is satisfied here because WYMT-TV long has been carried on cable systems serving portions of Letcher County.⁶¹ The attached Exhibit C shows that cable systems serving the communities of Jeremiah and Jenkins, Kentucky have consistently chosen to carry WYMT-TV since at least 1982.⁶²

⁶⁰ U.S. Census Bureau, 2009-2013 5-Year American Community Survey Commuting Flows, County to County Commuting Flows for the United States and Puerto Rico (May 10, 2017), <https://www.census.gov/data/tables/time-series/demo/commuting/commuting-flows.html>.

⁶¹ Gray is unaware of any prior satellite carriage of WYMT-TV in Letcher County. This is unsurprising because the station is not located in the same DMA as Letcher County, nor is it listed on the FCC's Significantly Viewed List for Letcher County.

⁶² See Exhibit C.

2. WYMT-TV Provides Significant Local Programming for Letcher County.

Like Leslie County, Letcher County is assigned to the Tri-Cities, TN-VA DMA. Letcher County lies wholly within the WYMT-TV service contour⁶³ and also is part of the special trading area that Nielsen created for WYMT-TV. In past cases, the FCC has recognized that signal coverage of a given community weighs in favor of a determination that a station provides local service to that area under the market modification test.⁶⁴ WYMT-TV satisfies that test here.

Moreover, WYMT-TV is the only broadcast television station that focuses on the needs and interests of Letcher County. As discussed in Section III.A.2 above, WYMT-TV regularly produces and airs 29 hours of local news a week. Those local newscasts repeatedly include stories originating in Letcher County. Indeed, since the beginning of 2016, WYMT-TV has included more than 500 stories on-air concerning breaking news, local sports, economic matters, and political issues in Letcher County.⁶⁵ For example, WYMT-TV covered the appointment of the Honorable James Wiley Craft II to the Letcher County Circuit Court⁶⁶ and the opening of space in a Letcher County Recreation Center that is dedicated to seniors.⁶⁷ Additionally, on

⁶³ See Exhibit E

⁶⁴ See, e.g., Tennessee Broadcasting Partners, *Order on Reconsideration*, 25 FCC Rcd 4857, 4859 ¶ 6 (Med. Bur. 2010).

⁶⁵ See Exhibit J. Gray has attached a listing of fifty recent WYMT-TV stories covering the county. A full list of stories is too unwieldy to attach to the instant Petition, but Gray will provide the complete list upon request.

⁶⁶ See WYMT-TV, Governor Bevin appoints new Letcher County Circuit Judge (July 5, 2016 7:59 PM), <http://www.wymt.com/content/news/Governor-Bevin-appoints-new-Letcher-County-Circuit-Court-Judge-385620181.html>; WYMT-TV, James Wiley Craft II Sworn In as Letcher County Circuit Court Judge (July 11, 2016, 5:12 PM), <http://www.wymt.com/content/news/James-Wiley-Craft-II-sworn-in-as-Letcher-County-Circuit-Court-Judge-386350491.html>.

⁶⁷ WYMT-TV, *Seniors Have New Home At Letcher County Recreation Center* (Jan. 4, 2016, 11:18 PM), <http://www.wymt.com/content/news/Seniors-have-new-home-at-Letcher-County-Recreation-Center-364158821.html>.

April 26, 2017, WYMT-TV covered the story of a five-year old that escaped from an over-turned car to call for help for his father who was unable to exit the car.⁶⁸

WYMT-TV supplements its local news coverage of Letcher County with regular local weather forecasts, alerts, and warnings.⁶⁹ Letcher County is included on local and regional weather maps used in daily weather reports during the station's newscasts. WYMT-TV has aired alerts for severe weather events impacting Letcher County, including severe thunderstorm, flood, and winter storm warnings and less severe weather events.

WYMT-TV's coverage of Letcher County news, weather, and sports exceeds the coverage of any other local television station. WYMT-TV's significant coverage of Letcher County makes clear that it satisfies the local service prong of the Commission's market modification test.⁷⁰

3. The Requested Market Modification Will Promote Access to In-State Local Programming.

Letcher County also serves as an example of an orphan county that does not have access to any locally produced programming produced by broadcast television stations licensed to a community in Kentucky. All of the stations in the Tri-Cities DMA are licensed to communities outside Kentucky. These stations are licensed to communities in northeast Tennessee and southwest Virginia and provide locally produced programming that is focused on the information

⁶⁸ WYMT-TV, *Unlikely Hero Helps Save Father's Life* (Apr. 26, 2017, 6:58 PM), <http://www.wymt.com/content/news/Unlikely-hero-helps-save-fathers-life-420536264.html>.

⁶⁹ See, e.g., Exhibit G.

⁷⁰ See *supra* note 45. In the case of Letcher County, the metric for measuring local service supports Gray's argument. See Exhibit H. WYMT-TV's transmitter site is located approximately 20 miles from the center of Letcher County. On the other hand, the Tri-Cities stations are located as many as 73 miles from the center of Letcher County and an average of 54.6 miles from that location. In this case, WYMT-TV is generally closer to the center of Letcher County than the Tri-Cities DMA stations, which supports Gray's contention that Letcher County should be added to the local satellite market of WYMT-TV.

and needs of those areas. Adding Letcher County to WYMT-TV's market will increase the amount of Kentucky-produced programming available to citizens of Letcher County and further this important policy that Congress codified in STELAR.

4. Letcher County Receives Limited Local Programming from Stations Other Than WYMT-TV.

Today, viewers in Letcher County also are faced with limited coverage of the stories that are most important to them. In the last year, however, WYMT-TV has produced hundreds of stories that have covered the local news, sports, and weather that are of most interest to viewers in Letcher County. Moreover, WYMT-TV's coverage of local issues has earned it the support of State Senator Johnny Ray Turner, who wrote "WYMT news reporting is an essential asset to our community" and "I cannot emphasize strongly enough that we need WYMT-TV on satellite TV."⁷¹ WYMT-TV's coverage makes clear that WYMT-TV outshines the competition in covering the local needs and interests of Letcher County viewers.

5. WYMT-TV's Ratings in Letcher County Demonstrate Significant Viewership.

The fifth statutory factor concerns evidence of viewing patterns in households that subscribe to multichannel video services and those that do not.⁷² As in Leslie County, WYMT-TV achieves more than sufficient viewership in Letcher County to satisfy the FCC's ratings criteria. WYMT-TV's Nielsen report makes clear that the station's ratings in Letcher County for

⁷¹ See Exhibit B-2. Gray includes in the attached letters of support from the Chief of Police and Alcoholic Beverage Administrator of Whitesburg, Kentucky; the Sheriff of Letcher County; and a Letcher County Judge.

⁷² See 47 U.S.C. § 338(l)(2)(B)(iv).

the period beginning with the February 2016 sweeps period and ending with the recent February 2017 sweeps period far exceed the minimum requirements set forth by the FCC.⁷³

Between the February 2016 and February 2017 sweeps periods, WYMT-TV averaged a 16 share in TV households and 5.9 rating in Letcher County.⁷⁴ During the period, WYMT-TV's ratings and share percentage were even higher during certain locally produced news programs. For example, WYMT-TV's 6 p.m. newscast averaged a 50 share and a 27.3 rating and the 4 p.m. and 11 p.m. newscasts had just slightly lower shares and ratings.⁷⁵ The May 2017 ratings information that Nielsen provided demonstrates that WYMT-TV's popularity continued during the May sweeps period.⁷⁶ Again, WYMT-TV has achieved these ratings despite the facts that the station is unavailable to satellite viewers and that many viewers also have the choice of WJHL-TV, a local CBS affiliate in the Tri-Cities DMA. Under these circumstances, viewers in Letcher County have made clear that WYMT-TV is the preferred source of programming; thus, the FCC should order that Letcher County be assigned to WYMT-TV's local satellite market.

C. Johnson County

Johnson County, Kentucky is located just sixty miles northeast of WYMT-TV's home base in Hazard, Kentucky, and is more than thirty miles from the West Virginia border. Despite its Kentucky location, Nielsen assigns Johnson County to the Charleston-Huntington, West Virginia DMA. Given Johnson County's isolation from the core cities of the Charleston-Huntington DMA, the lack of local service from stations licensed to that DMA is to be expected.

⁷³ See Exhibit K. Nielsen's ratings were compiled for the 7 AM – 1 AM daypart, Monday-Sunday, as well as specific dayparts during which WYMT-TV regularly airs locally produced news programming.

⁷⁴ See *id.*

⁷⁵ See *id.*

⁷⁶ See *id.*

WYMT-TV has stepped into this void to provide substantial local service to Johnson County communities, as discussed below.

1. WYMT-TV Historically Has Been Carried in Johnson County.

The Commission can readily conclude that WYMT-TV has satisfied the first prong of its analysis because the station has historically been carried on cable systems in Johnson County.⁷⁷ The attached Exhibit C demonstrates WYMT-TV has been carried on the Big Sandy cable system serving Van Lear, Kentucky since 1982.⁷⁸ Gray is unaware of any prior satellite carriage of WYMT-TV in Johnson County. This is unsurprising because the station is not located in the same DMA as Johnson County, nor is it listed on the FCC's Significantly Viewed List for Johnson County.

2. WYMT-TV Provides Significant Local Programming for Johnson County.

Johnson County is assigned to the Charleston-Huntington, West Virginia DMA, but none of the local television stations assigned to the Charleston-Huntington DMA have a protected signal contour that covers Johnson County.⁷⁹ The protected signal contour of WYMT-TV, on the other hand, entirely encompasses Johnson County.⁸⁰ Moreover, Johnson County is part of the special trading area that Nielsen created for WYMT-TV. In past cases, the FCC has recognized that signal coverage of a given community weighs in favor of a determination that a

⁷⁷ 47 U.S.C. § 338(l)(2)(B)(i).

⁷⁸ See Exhibit C.

⁷⁹ See Exhibit L.

⁸⁰ See Exhibit E.

station provides local service to that area under the market modification test.⁸¹ WYMT-TV clearly satisfies that test here.

WYMT-TV's coverage of news, weather, and sports easily satisfies the obligation to demonstrate significant local programming for Johnson County. WYMT-TV's 29 weekly hours of locally produced news, weather, and sports often feature stories from Johnson County. Since the beginning of 2016, WYMT-TV has included more than 400 stories on-air concerning issues and information of great interest to Johnson County viewers.⁸² For example, WYMT-TV aired 23 stories from and about Johnson County in April of 2017 alone. These included a story featuring students from a local high school who raised fish for six months before releasing the fish into Little Paint Creek in Paintsville, Kentucky.⁸³ Another story described an elementary school project in which students raised money to buy solar panels for an orphanage in Kenya.⁸⁴ A third segment highlighted a program between the Johnson County Sheriff's Office and a local church to distribute Easter outfits to needy children.⁸⁵ And another covered a new program from the Johnson County School District that is providing daily lunches through the summer to needy

⁸¹ See, e.g., Tennessee Broadcasting Partners, *Order on Reconsideration*, 25 FCC Rcd 4857, 4859 ¶ 6 (Med. Bur. 2010).

⁸² See Exhibit M. Gray has attached a listing of fifty recent WYMT-TV stories covering the county. A full list of stories is too unwieldy to attach to the instant Petition, but Gray will provide the complete list upon request.

⁸³ WYMT-TV, *Students Raise Fish and Release Them Into Creek* (Apr. 5, 2017, 6:45 PM), <http://www.wymt.com/content/news/Students-raise-fish-and-release-them-into-creek--418437673.html>.

⁸⁴ WYMT-TV, *Students Raise Money to Buy Solar Panels for Orphanage in Kenya* (Apr. 10, 2017, 6:45 PM), <http://www.wymt.com/content/news/Students-raise-money-to-buy-solar-panels-for-orphanage-in-Kenya-419088594.html>.

⁸⁵ WYMT-TV, *Community Helps Dress Children For Easter* (Apr. 14, 2017, 6:46 PM), <http://www.wymt.com/content/news/Community-helps-dress-children-for-Easter-419503053.html>.

children across the county.⁸⁶ This is just a small sample of the full local news coverage that WYMT-TV offers to viewers in Johnson County.

In addition to the hundreds of news stories WYMT-TV produces covering Johnson County, WYMT-TV airs local weather forecasts, alerts, and warnings concerning Johnson County.⁸⁷ Johnson County is included on local and regional weather maps used in daily weather reports during the station's newscasts, and WYMT-TV airs alerts for severe weather events impacting viewers in Johnson County.⁸⁸

WYMT-TV's coverage of news, weather, and sports in Johnson County makes clear Gray's commitment to serving Johnson County. This commitment undoubtedly satisfies the local service prong of the Commission's market modification test.⁸⁹

3. The Requested Market Modification Will Promote Access to In-State Local Programming.

Johnson County is an orphan county, lacking access to almost all of the local television programming produced by television stations licensed to Kentucky communities. The only Kentucky stations assigned to the Charleston-Huntington DMA are WTSF(TV), Ashland, Kentucky; WKPI-TV, Pikeville, KY; and WKAS(TV), Ashland, KY. WTSF(TV) is an affiliate of the Daystar, a Christian-based religious broadcast network. WKPI-TV and WKAS(TV) are non-commercial stations that are part of the Kentucky state network of PBS stations. None of

⁸⁶ WYMT-TV, *School District Launches Summer Lunch Program* (Apr. 30, 2017, 11:51 PM), www.wymt.com/content/news/School-district-launches-summer-lunch-program-420853493.html.

⁸⁷ *See, e.g.*, Exhibit G.

⁸⁸ *See id.*

⁸⁹ *See supra* note 45. WYMT-TV also is, on average, closer to the center of Johnson County than the Charleston-Huntington DMA stations. *See* Exhibit N. The center of Johnson County is located approximately 48 miles from the WYMT-TV transmitter site. On the other hand, the Charleston-Huntington stations are located as many as 72 miles from the center of Johnson County and are located an average of 57.4 miles from that location.

the stations produce local news or public affairs programming that is focused entirely on the information and needs of eastern Kentucky. Adding Johnson County to WYMT-TV's market will dramatically increase the amount of locally-produced programming available to viewers in Johnson County.

Every viewer should receive local news from television stations that are truly local, and the requested market modification would give viewers their first access to an in-state television station that focuses on Kentucky local news and public affairs, and is particularly dedicated to serving the needs of eastern Kentucky. Adding WYMT-TV to the Johnson County local market will further this important policy that Congress codified in STELAR.

4. Viewers in Johnson County Receive Limited, If Any, Local Programming from Stations Other Than WYMT-TV.

In the last year, WYMT-TV has covered scores of stories concerning Johnson County news, weather, and information. WYMT-TV also covered local sports and community events from Johnson County. WYMT-TV's coverage of and service to Johnson County has not gone unnoticed. Five community leaders within Johnson County provided letters supporting WYMT-TV's instant request.⁹⁰ Those letters make clear that WYMT-TV is the only reliable and consistent television station that covers the local news and weather that viewers in Johnson County want and need. This support is not surprising since WYMT-TV's competitors in the Charleston-Huntington DMA, which includes WYMT-TV's sister station WSAZ-TV, Huntington, WV, focus more heavily on the population centers in the Charleston-Huntington DMA and provide little coverage of the news from Johnson County. Filling the void left by its competitors, WYMT-TV has given Johnson County viewers exactly what they need, coverage of the important local news, sports, and weather that is focused on and comes from Johnson County.

⁹⁰ See Exhibit B-3.

5. WYMT-TV's Ratings in Johnson County Demonstrate Significant Viewership.

WYMT-TV's ratings and audience share make clear that the station is viewed in a substantial number of Johnson County households. This is particularly true for the station's newscasts. Between the February 2016 and February 2017 sweeps periods, averaged an 11 share in TV households and 4.8 rating in Johnson County.⁹¹ During the period, WYMT-TV's ratings and share percentage reached a peak during the six p.m. newscast, which averaged a 40 share and 25.1 rating.⁹² Similarly, during the May 2017 sweeps period, WYMT-TV earned more than a 20 share in six separate newscasts.⁹³ These are by far the most watched local newscasts in Johnson County. These ratings are more than sufficient to establish WYMT-TV widespread viewership in Johnson County for market modification purposes.

WYMT-TV's shares and ratings are particularly significant because WYMT-TV achieves these ratings despite being unavailable to the approximately 29 percent of households in the Charleston-Huntington DMA that are subscribers of DirecTV or DISH.⁹⁴ The ratings also are impressive in view of the fact that most cable viewers have another alternative for CBS network programming, the in-market WOWK-TV. Viewers in Johnson County who can watch WYMT-TV have demonstrated that WYMT-TV is their favored source of local programming. The FCC should assign Johnson County to WYMT-TV's local satellite market to make sure that choice is available to all Johnson County viewers.

⁹¹ See Exhibit O.

⁹² See *id.*

⁹³ See *id.*

⁹⁴ See SNL, Charleston-Huntington, WV (Current DMA Rank: 70) Video Subscribers, <https://www.snl.com/web/client?auth=inherit#tvMarket/VideoSubscribers?ID=65>.

D. Martin County

Martin County is one of the least populated and most self-contained of the Orphan Counties. While Martin County lies on the Kentucky-West Virginia border, nearly all of its residents work in Kentucky and nearly all of the county's workers reside in the state. In other words, the people who live and work in Martin County are predominantly from Kentucky and care most about matters affecting eastern Kentucky. These viewers deserve access to the local service that WYMT-TV already is providing.

1. WYMT-TV Historically Has Been Carried in Martin County.

The Commission must determine that WYMT-TV has satisfied the first prong of its analysis because the station historically has been carried on cable systems in Martin County.⁹⁵ The attached Exhibit C demonstrates WYMT-TV has been carried on the Cable Systems USA and Suddenlink cable systems serving Inez, Kentucky.⁹⁶ Gray is unaware of any prior satellite carriage of WYMT-TV in Martin County. This is unsurprising because the station is not located in the same DMA as Martin County, nor is it listed on the FCC's Significantly Viewed List for Martin County.

2. WYMT-TV Provides Significant Local Programming for Martin County.

Even though Martin County is assigned to the Charleston-Huntington DMA, WYMT-TV provides Martin County with more local programming than any other broadcast television station, including those licensed to communities in the Charleston-Huntington DMA. This is due in part to the fact that, unlike the stations assigned to the Charleston-Huntington DMA,⁹⁷ WYMT-TV's

⁹⁵ 47 U.S.C. § 338(l)(2)(B)(i).

⁹⁶ See Exhibit C.

⁹⁷ See Exhibit L.

protected service contour covers the entirety of Martin County.⁹⁸ In addition to the over-the-air coverage, many viewers in Martin County are able to receive WYMT-TV through a cable subscription. In past cases, the FCC has recognized that signal coverage of a given community weighs in favor of a determination that a station provides local service to that area under the market modification test.⁹⁹ WYMT-TV satisfies that test here.

Since the beginning of 2016, WYMT-TV has included at least 225 stories on-air concerning breaking news, local sports, economic matters, and political issues in Martin County.¹⁰⁰ Gray is able to produce such a high volume of locally responsive programming because it provides 29 hours of local news each week. While WYMT-TV covers a wide range of topics affecting Martin County, examples of the segments featuring issues impacting Martin County businesses include: (1) Logan Corporation's move of its headquarters from Martin County to Magoffin County, Kentucky,¹⁰¹ (2) efforts of local businesses to prevent copper thefts,¹⁰² and (3) a local vote to determine whether a small Martin County town should allow alcohol sales.¹⁰³

⁹⁸ See Exhibit E.

⁹⁹ See, e.g., Tennessee Broadcasting Partners, *Order on Reconsideration*, 25 FCC Rcd 4857, 4859 ¶ 6 (Med. Bur. 2010).

¹⁰⁰ See Exhibit P. Gray has attached a listing of fifty recent WYMT-TV stories covering the county. A full list of stories is too unwieldy to attach to the instant Petition, but Gray will provide the complete list upon request.

¹⁰¹ WYMT-TV, *Governor Bevin Cuts Ribbon to New Manufacturing Plant in Salyersville* (Nov. 4, 2016, 5:55 PM), <http://www.wymt.com/content/news/Governor-Bevin-cuts-ribbon-to-new-manufacturing-plant-in-Salyersville--400043631.html>.

¹⁰² WYMT-TV, *Local Business Aims to Prevent Receiving Stolen Copper* (Oct. 14, 2016, 6:45 PM), www.wymt.com/content/news/Local-business-aims-to-prevent-receiving-stolen-copper-397146101.html.

¹⁰³ WYMT-TV, *Warfield to Vote on Alcohol Sales Later This Year* (July 20, 2016, 7:46 PM), <http://www.wymt.com/content/news/Warfield-to-vote-on-alcohol-sales-later-this-year-387707042.html>.

WYMT-TV also airs daily weather forecasts and notifies Martin County viewers of local weather alerts and warnings impacting their area.¹⁰⁴ WYMT-TV's coverage of important local issues and information proves WYMT-TV's satisfies the local service prong of the Commission's market modification test.¹⁰⁵

3. The Requested Market Modification Will Promote Access In-State Local Programming.

Martin County, like Johnson County, lacks access to almost all of the local television programming produced by television stations licensed to Kentucky communities. As discussed above, the only Kentucky stations assigned to the Charleston-Huntington DMA are WTSF(TV), Ashland, Kentucky; WKPI-TV, Pikeville, KY; and WKAS(TV), Ashland, KY. Those stations do not match the depth and breadth of locally produced programming offered by WYMT-TV that is focused entirely on the information needs of eastern Kentucky. Thus, adding Martin County to WYMT-TV's local satellite market will increase the amount of locally-produced programming that is focused on Martin County that is available to viewers in Martin County. Moreover, adding WYMT-TV to Martin County's local market will further Congress' STELAR policy objective to increase access to in-state local programming.

¹⁰⁴ See Exhibit G.

¹⁰⁵ See *supra* note 45. In this case, the metric for measuring local service is of limited utility because WYMT-TV and the Charleston-Huntington DMA stations are relatively close in distance from the center of Martin County. See Exhibit N. WYMT-TV's transmitter site is located approximately 59 miles from the center of Martin County. Charleston-Huntington stations, on the other hand, are located as far away as 68 miles from the center of Martin County and an average of 49 miles from that location. In this case, WYMT-TV and the stations in the Charleston-Huntington DMA are located approximately the same distance from the center of Martin County, indicating that the FCC should rely on the other factors in Congress's test, each of which decisively supports Gray's request in this case.

4. Martin County Viewers Receive Limited Local Programming from Stations Other Than WYMT-TV.

Like Johnson County, Martin County is assigned to the Charleston-Huntington, WV DMA, yet viewers prefer WYMT-TV's local Kentucky-based programming. The preference of Martin County viewers for WYMT-TV's local programming is amply demonstrated by the letters of support WYMT-TV received from Martin County community leaders.¹⁰⁶ These community leaders ardently support Gray's request to modify the WYMT-TV local satellite market to include Martin County. For example, Ray S. Jones, II, the Minority Floor Leader for the Kentucky State Senate stated "it is WYMT-TV that provides the local news that is so important to our citizens."¹⁰⁷ In addition, Larry James, Superintendent of the Martin County School District wrote, "WYMT is the news lifeline for our area."¹⁰⁸

5. WYMT-TV's Ratings in Martin County Demonstrate Significant Viewership.

WYMT-TV's ratings demonstrate that Martin County residents consistently turn to WYMT-TV for locally-produced in-state programming. WYMT-TV purchased from Nielsen a report illustrating the station's ratings in Martin County beginning with the February 2016 sweeps period and ending with the recent February 2017 sweeps period.¹⁰⁹ Nielsen's data demonstrates that WYMT-TV has a substantial audience in Martin County.

WYMT-TV ratings and share percentage make clear that viewers in Martin County watch WYMT-TV. Averaged over all sweeps periods since the beginning of 2016, WYMT-TV has

¹⁰⁶ See Exhibit B-4.

¹⁰⁷ See *id.*

¹⁰⁸ See *id.*

¹⁰⁹ See Exhibit Q. Nielsen's ratings were compiled for the 7 AM – 1 AM daypart, Monday-Sunday, as well as during the times when WYMT-TV airs regularly scheduled locally produced newscasts.

achieved a 3 share in all households with an average rating of 1.0, and WYMT-TV's local news is particularly popular. The 6 p.m. weekday and 11 p.m. daily newscasts all receive an average rating above 5.¹¹⁰ The ratings WYMT-TV achieves are particularly significant because today the station is unavailable from either DirecTV or DISH, which collectively serve approximately 30 percent of the households in the Charleston-Huntington DMA, where viewers also have access to the CBS and locally produced programming on WOWK-TV.¹¹¹ Clearly, viewers in Martin County are watching WYMT-TV where and when they can receive it. As with Gray's showing with respect to the other statutory factors, WYMT-TV viewership in Martin County illustrates why the FCC should assign it to the local satellite carriage market for WYMT-TV.

E. Floyd County

Floyd County has a long history steeped in the natural beauty of east Kentucky and has little in common with the far-away cities of Charleston and Huntington, West Virginia that form the core of the Charleston-Huntington DMA. While coal was a significant resource for the early residents of Floyd County, the local economy in Floyd County has diversified its economic base to rely more heavily on Kentucky-based tourism and less on resource extraction. The area's tourist attractions revolve around the Jenny Wiley State Resort Park, the East Kentucky Science Center & Planetarium, and the Middle Creek National Battlefield. Located just 48 miles up Kentucky Highway 80 from Hazard, Kentucky, Floyd County is in the heartland of the area that WYMT-TV has been built to serve.

¹¹⁰ See *id.* Gray includes May 2017 sweeps data. Due to the limited number of survey's received from Martin County, WYMT-TV's ratings do not accurately reflect WYMT-TV's popularity in Martin County.

¹¹¹ See SNL, Charleston-Huntington, WV (Current DMA Rank: 70) Video Subscribers, <https://www.snl.com/web/client?auth=inherit#tvMarket/VideoSubscribers?ID=65>.

1. WYMT-TV Historically Has Been Carried in Floyd County.

WYMT-TV satisfies the first prong of the Commission's analysis because the station historically has been carried on cable systems in Floyd County.¹¹² The attached Exhibit C demonstrates WYMT-TV has been carried in Floyd County since at least 1982.¹¹³ Gray is unaware of any prior satellite carriage of WYMT-TV in Floyd County. This is unsurprising because the station is not located in the same DMA as Floyd County, nor is it listed on the FCC's Significantly Viewed List for Floyd County.

2. WYMT-TV Provides Significant Local Programming for Floyd County.

Floyd County is assigned to the Charleston-Huntington DMA. Floyd County lies wholly within the contour of WYMT-TV.¹¹⁴ Only two of the stations licensed to the Charleston-Huntington DMA can make that claim.¹¹⁵ Moreover, Floyd County is part of the special trading area that Nielsen created for WYMT-TV. In past cases, the FCC has recognized that signal coverage of a given community weighs in favor of a determination that a station provides local service to that area under the market modification test.¹¹⁶ WYMT-TV satisfies that test here.

Second, WYMT-TV provides considerable local programming content that covers events and issues of concern to viewers in Floyd County. Since the beginning of 2016, WYMT-TV has delivered more than 700 stories on-air concerning breaking news, local sports, economic matters,

¹¹² 47 U.S.C. § 338(l)(2)(B)(i).

¹¹³ See Exhibit C.

¹¹⁴ See Exhibit E.

¹¹⁵ See Exhibit L. The remaining stations in the Charleston-Huntington, WV DMA have contours that minimally or fail to cover Floyd County.

¹¹⁶ See, e.g., *Tennessee Broadcasting Partners, Order on Reconsideration*, 25 FCC Rcd 4857, 4859 ¶ 6 (Med. Bur. 2010).

and political issues in Floyd County.¹¹⁷ For example, WYMT-TV has offered viewers extensive coverage of drug issues that residents of Floyd County have faced and attempted to curb.¹¹⁸

In addition to its news stories covering Floyd County, WYMT-TV routinely airs local weather forecasts, alerts, and warnings concerning Floyd County.¹¹⁹ Floyd County is included on local and regional weather maps used in daily weather reports during the station's newscasts. WYMT-TV has aired alerts for severe weather events impacting Floyd County, including severe thunderstorm, flood, and winter storm warnings, and many more for lesser weather events like red flag warnings and frost advisories.¹²⁰

WYMT-TV's coverage of news, weather, and sports in Floyd County – despite the fact that it currently is outside the station's DMA – demonstrates WYMT-TV's commitment to providing strong and consistent local service to Floyd County. This commitment entirely satisfies the local service prong of the Commission's market modification test.¹²¹

¹¹⁷ See Exhibit R. Gray has attached a listing of fifty recent WYMT-TV stories covering the county. A full list of stories is too unwieldy to attach to the instant Petition, but Gray will provide the complete list upon request.

¹¹⁸ See, e.g., WYMT-TV, *2-Month Investigation Leads to Drug Arrests in Floyd County* (May 17, 2017, 10:51 AM), <http://www.wymt.com/content/news/Months-long-422775864.html>; WYMT-TV, *Attorney General Andy Beshear Discusses Ways to End Drug Abuse* (Mar. 17, 2017, 12:52 AM), <http://www.wymt.com/content/news/Months-long-422775864.html>; WYMT-TV, *Police: "Large-Scale Drug Dealer" and Fugitive Arrested in Floyd County* (Mar. 7, 2017, 8:09 AM), <http://www.wymt.com/content/news/Police-Large-scale-drug-dealer-arrested-in-Floyd-County-415488393.html>; WYMT-TV, *Deputies: Man Found with Over 2,000 Pills, Weapons* (Jul. 22, 2016, 12:20 AM), <http://www.wymt.com/content/news/Deputies-Man-found-with-over-2000-pills-weapons-387883892.html>.

¹¹⁹ See Exhibit G.

¹²⁰ See *id.*

¹²¹ See *supra* note 45. In the case of Floyd County, the metric for measuring local service also supports Gray's argument. See Exhibit N. WYMT-TV's transmitter site is located approximately 34 miles from the center of Floyd County. On the other hand, almost all of the Charleston-Huntington DMA stations are located much further from Floyd County. Indeed, WPBO(TV), Portsmouth, Ohio is located 85 miles from the center of Floyd County and the remaining stations in the Charleston-Huntington DMA are located an average of 68.6 miles from

3. The Requested Market Modification Will Promote Access to In-State Local Programming.

Like its sister counties Johnson and Martin, Floyd County has access to only three Kentucky-based television stations: WTSF(TV), Ashland, Kentucky; WKPI-TV, Pikeville, KY; and WKAS(TV), Ashland, KY. Because those three stations do not provide locally produced programming that is focused on eastern Kentucky, adding Floyd County to WYMT-TV's local satellite market will increase the availability of locally-produced, Floyd County-focused programming for viewers in Floyd County. Moreover, adding WYMT-TV to Floyd County's local satellite market will meet Congress' desire to promote access to in-state local programming.

4. Viewers in Floyd County Receive Little Local Programming from Stations Other Than WYMT-TV.

In this case, viewers in Floyd County have the unfortunate experience of being located in Kentucky while being assigned to Charleston-Huntington, WV DMA. As noted above, WYMT-TV provides significant local service to Floyd County. In just the last year, WYMT-TV has produced hundreds of stories covering Floyd County politics, sports, economy, and weather. Indeed, WYMT-TV's support in the area is demonstrated by the four letters from community leaders and members in Floyd County supporting the instant request.¹²² Those letters and the depth of WYMT-TV's coverage of Floyd County news and information make clear that WYMT-TV's local satellite market should include Floyd County.

that location. In this case, WYMT-TV is far closer to the center of Floyd County than almost all the other Charleston-Huntington DMA stations, which supports Gray's contention that Floyd County should be added to the local satellite market of WYMT-TV.

¹²² See Exhibit B-5.

5. WYMT-TV's Ratings in Floyd County Demonstrate Significant Viewership.

WYMT-TV achieves more than sufficient viewership in Floyd County to satisfy the FCC's ratings criteria for market modification petitions. WYMT-TV purchased from Nielsen a report illustrating the station's ratings in Floyd County for the period beginning with the February 2016 sweeps period and ending with the recent February 2017 sweeps period.¹²³ The data Nielsen compiled shows that WYMT-TV has a significant audience in Floyd County.

Over the entire period, for Floyd County WYMT-TV has averaged a 12 share in TV households and 5.0 rating.¹²⁴ During the period, WYMT-TV's ratings and share percentage were even higher during certain locally produced news programs. For example, during the period WYMT-TV's 6 p.m. newscast averaged a 40 share and a 24.6 rating.¹²⁵ Unsurprisingly, almost all of WYMT-TV's locally produced newscasts earned double digit shares during the May 2017 sweeps, including the 6 p.m. newscast that earned a 49 share and 28.9 rating.¹²⁶

The ratings WYMT-TV achieves are particularly significant because today the station is unavailable from either DIRECTV or DISH, which collectively control approximately 30 percent of the households in the Charleston-Huntington DMA to which Floyd County is assigned.¹²⁷ Moreover, viewers in the area generally also have access to Charleston-Huntington DMA CBS affiliate. It is remarkable that WYMT-TV has achieved such high ratings despite the fact that

¹²³ See Exhibit S. Nielsen's ratings were compiled for the 7 AM – 1 AM daypart, Monday-Sunday, as well as specific dayparts during which WYMT-TV regularly airs locally produced news programming.

¹²⁴ See *id.*

¹²⁵ See *id.*

¹²⁶ See *id.*

¹²⁷ See SNL, Charleston-Huntington, WV (Current DMA Rank: 70) Video Subscribers, <https://www.snl.com/web/client?auth=inherit#tvMarket/VideoSubscribers?ID=65>.

almost 30 percent of the market cannot receive the station's signal from their preferred video provider and those that can receive WYMT-TV have at least two options for CBS affiliated programming. Clearly, viewers in Floyd County are watching WYMT-TV where and when they can receive it. WYMT-TV's demonstrated viewership in Floyd County illustrates why the FCC should assign Floyd County to the local satellite carriage market for WYMT-TV.

F. Pike County

Pike County is the eastern most county in Kentucky and the most populous of the Orphan Counties. It is the southernmost county in the Charleston-Huntington DMA and the farthest removed from the core cities in that market. Like the other Orphan Counties, Pike County grew on the vast fossil fuel reserves in the county but has retooled its economy to emphasize Kentucky-based tourism. The area is well known for the notable Hatfield-McCoy Feud. That once contentious relationship has become a partnership that supports the Hatfield-McCoy Reunion on the second weekend of June in Pike County. Pike County has worked to promote its tourism industry to take advantage of the parks and water formations of the county, including Breaks Interstate Park, Russell Fork White Water, and Fishtrap Lake. Pike County also features the Big Sandy Heritage Museum, the Veteran's Wall of Honor and Heritage Hall, and the Stone Heritage Museum. Isolated as they are from the stations in their own market, Pike County viewers that can receive WYMT-TV's signal understandably turn to WYMT-TV for local Kentucky television service in significant numbers, and WYMT-TV gratefully serves those viewers.

1. WYMT-TV Historically Has Been Carried in Pike County.

WYMT-TV satisfies the first prong of the Commission's analysis because the station has historically been carried on cable systems serving Pike County.¹²⁸ The attached Exhibit C demonstrates WYMT-TV has been carried in Pike County since at least 1982.¹²⁹ Gray is unaware of any prior satellite carriage of WYMT-TV in Pike County. This is unsurprising because the station is not located in the same DMA as Pike County, nor is it listed on the FCC's Significantly Viewed List for Pike County.

2. WYMT-TV Provides Significant Local Programming for Pike County.

Like Floyd County, Pike County is assigned to the Charleston-Huntington DMA. An overwhelming percentage of Pike County lies wholly within the contour of WYMT-TV¹³⁰ and Pike County also is part of the special trading area that Nielsen created for WYMT-TV. Of the stations assigned to the Charleston-Huntington DMA, only WKPI-TV has a contour that encompasses Pike County.¹³¹ In past cases, the FCC has recognized that signal coverage of a given community weighs in favor of a determination that a station provides local service to that area under the market modification test.¹³² WYMT-TV satisfies that test here.

In addition, WYMT-TV is the only broadcast television station that focuses on the needs and interests of viewers in Pike County. WYMT-TV's local newscasts repeatedly include stories originating in Pike County. Indeed, since the beginning of 2016, WYMT-TV has included

¹²⁸ 47 U.S.C. § 338(l)(2)(B)(i).

¹²⁹ See Exhibit C.

¹³⁰ See Exhibit E.

¹³¹ See Exhibit L. The contours for the remaining Charleston-Huntington DMA stations fail to encompass Pike County.

¹³² See, e.g., *Tennessee Broadcasting Partners, Order on Reconsideration*, 25 FCC Rcd 4857, 4859 ¶ 6 (Med. Bur. 2010).

approximately 1,000 stories on-air concerning breaking news, local sports, economic matters, and political issues in Pike County.¹³³ For example, WYMT-TV regularly covers matters of political importance to Pike County residents, including a change in Pike County's form of government from a magistrate form of government to one led by a group of Commissioners.¹³⁴

WYMT-TV supplements its local news coverage of Pike County with regular local weather forecasts, alerts, and warnings.¹³⁵ Pike County is included on local and regional weather maps used in daily weather reports during the station's newscasts. WYMT-TV has aired alerts for severe weather events impacting Pike County, including severe thunderstorm, flood, and winter storm warnings and less severe weather events.¹³⁶

¹³³ See Exhibit T. Gray has attached a listing of fifty recent WYMT-TV stories covering the county. A full list of stories is too unwieldy to attach to the instant Petition, but Gray will provide the complete list upon request.

¹³⁴ See, e.g., WYMT-TV, *Lawsuit Threatens an Approved Ballot Measure* (Apr. 6, 2017, 11:49 PM), <http://www.wymt.com/content/news/Lawsuit-threatens-an-approved-ballot-measure-418586003.html>; WYMT-TV, *Pike County Voters Choose New Form of Government* (Nov. 9, 2016, 7:13 PM), <http://www.wymt.com/content/news/Pike-County-voters-choose-new-form-of-government-400601431.html>; WYMT-TV, *John Short Knocked Out of 92nd State Representative Seat* (Nov. 9, 2016, 12:16 AM), <http://www.wymt.com/content/news/John-Short-knocked-out-of-92nd-State-Representative-seat--400490211.html>; WYMT-TV, *Democratic House Speaker Greg Stumbo Upset by Larry Brown* (Nov. 8, 2016, 11:52 PM), <http://www.wymt.com/content/news/Democratic-House-Speaker-Greg-Stumbo-upset-by-Larry-Brown-400472391.html>.

¹³⁵ See Exhibit G.

¹³⁶ See *supra* note 45. WYMT-TV also is located significantly closer to Pike County than the stations licensed to the Charleston-Huntington DMA. See Exhibit N. WYMT-TV's transmitter site is located approximately 50 miles from the center of Pike County. On the other hand, almost all of the Charleston-Huntington DMA stations are located further from the center of Pike County. Indeed, WPBO(TV), Portsmouth, Ohio is located 96 miles from the center of Pike County and the remaining stations in the Charleston-Huntington DMA are located an average of 66.7 miles from that location. In this case, WYMT-TV is closer to the center of Pike County than almost all the other Charleston-Huntington DMA stations, which supports Gray's contention that Pike County should be added to the local satellite market of WYMT-TV.

3. The Requested Market Modification Will Promote Access to In-State Local Programming.

Viewers in Pike County face the same problems as viewers in the other Orphan Counties. Because they live in an orphan county, they do not receive locally produced programming that focuses on the needs and interests of Kentuckians generally or Pike County residents specifically. Instead, the Charleston-Huntington DMA stations that air the most “local” news focus on the needs and interests of West Virginians. Adding Pike County to the WYMT-TV local satellite market will immediately increase the amount of locally-produced programming available to citizens of the Pike County and further this important policy that Congress codified in STELAR.

4. Viewers in Pike County Receive Limited Local Programming from Stations Other Than WYMT-TV.

Viewers in Pike County also are faced with limited coverage of the stories that are most important to them. Like their counterparts in the other Orphan Counties, viewers in Pike County are not provided with significant coverage of locally produced stories covering the issues most important to them. In the last year, WYMT-TV, on the other hand, has produced hundreds of stories that have covered the local news, sports, and weather that is of most interest to viewers in Pike County. For example, on May 3, 2017, WYMT-TV covered the city of Pikeville Job Fair, which featured open positions from across the city.¹³⁷ Additionally, WYMT-TV’s coverage has earned this petition the support of sixteen Pike County community leaders.¹³⁸ WYMT-TV’s coverage of news from Pike County makes clear that WYMT-TV outperforms the competition in covering the local needs and interests of Pike County viewers.

¹³⁷ WYMT-TV, *Pikeville E-911 Center, Expo Center Hosting Job Fair* (May 3, 2017, 6:46 PM), <http://www.wymt.com/content/news/Pikeville-E-911-Center-Expo-Center-hosting-job-fair-421220383.html>.

¹³⁸ See Exhibit B-6.

5. WYMT-TV's Ratings in Pike County Demonstrate Significant Viewership.

The fifth statutory factor concerns evidence of viewing patterns in households that subscribe to multichannel video services and those that do not.¹³⁹ WYMT-TV achieves more than sufficient viewership in Pike County to satisfy the FCC's ratings criteria.¹⁴⁰ Between the February 2016 and February 2017 sweeps periods, WYMT-TV averaged an 8 share in TV households and 2.8 rating in Pike County.¹⁴¹ During the period, WYMT-TV's ratings and share percentage were even higher during certain locally produced news programs. For example, WYMT-TV's 6 p.m. newscast averaged a 24 share and an 11.6 rating and several of its other newscasts also have strong shares and ratings.¹⁴² That trend continued in May 2017 when four of its locally produced newscasts earned more than a 20 share.¹⁴³

As with the other Orphan Counties, WYMT-TV has achieved these ratings despite the fact that almost 30 percent of the market households subscribe to DISH or DIRECTV, and Pike County viewers also have the choice of watching the in-market, but out-of-state, CBS affiliate, WOWK-TV. Viewers in Pike County have made clear that WYMT-TV is their preferred source of local programming; thus, the FCC should order that Pike County be assigned to WYMT-TV's local satellite market.

¹³⁹ See 47 U.S.C. § 338(l)(2)(B)(iv).

¹⁴⁰ See Exhibit U. Nielsen's ratings were compiled for the 7 AM – 1 AM daypart, Monday-Sunday, as well as specific dayparts during which WYMT-TV regularly airs locally produced news programming.

¹⁴¹ See *id.*

¹⁴² See *id.*

¹⁴³ See *id.*

G. Bell County

Bell County is located along the southern border of Kentucky but currently is assigned to the Knoxville, Tennessee DMA. Bell County is best known for the Cumberland Gap and the historic Wilderness Road that brought in settlers from the east and directed them northwest towards Lexington and points west. Like the rest of the region, Kentucky-based tourism is an increasingly important part of the Bell County economy, with attractions like the Cumberland Gap National Park, Pine Mountain State Resort Park, and the Kentucky Mountain Laurel Festival in Pineville, KY. There is little that links Bell County to Tennessee or Knoxville, and as the, information below demonstrates, Bell County viewers already turn to WYMT-TV when they can for locally-focused programming.

1. WYMT-TV Historically Has Been Carried in Bell County.

WYMT-TV satisfies the first prong of the Commission's analysis because the station has historically been carried on cable systems in Bell County.¹⁴⁴ The attached Exhibit C demonstrates WYMT-TV has been carried in Middlesboro, Kentucky, which is located in Bell County, since 1990 and in certain years before then.¹⁴⁵ Gray is unaware of any prior satellite carriage of WYMT-TV in Bell County. This is unsurprising because the station is not located in the same DMA as Bell County, nor is it listed on the FCC's Significantly Viewed List for Bell County.

2. WYMT-TV Provides Significant Local Programming for Bell County.

WYMT-TV's coverage of Bell County news, weather, and sports outstrips that of any station in the county's DMA. Bell County is assigned to the Knoxville, TN DMA. The

¹⁴⁴ 47 U.S.C. § 338(l)(2)(B)(i).

¹⁴⁵ See Exhibit C.

protected signal contour of WYMT-TV encompasses Bell County entirely.¹⁴⁶ In past cases, the FCC has recognized that signal coverage of a given community weighs in favor of a determination that a station provides local service to that area under the market modification test.¹⁴⁷ WYMT-TV clearly satisfies that test here. Moreover, Bell County is part of the special trading area that Nielsen created for WYMT-TV.

WYMT-TV's 29 weekly hours of locally produced news, weather, and sports often feature stories from Bell County. Since the beginning of 2016, WYMT-TV has included more than 450 stories on-air concerning issues and information of great interest to Bell County viewers.¹⁴⁸ For example, the station frequently covers stories of local children in the community including coverage of local high school basketball, football, and track and field.¹⁴⁹ WYMT-TV

also produced a story about a local teen who appeared as a contestant on the popular television show “Who Wants to be a Millionaire.”¹⁵⁰

In addition to the hundreds of news stories WYMT-TV produced covering Bell County, WYMT-TV airs local weather forecasts, alerts, and warnings concerning Bell County.¹⁵¹ Bell County is included on local and regional weather maps used in daily weather reports during the station’s newscasts, and WYMT-TV airs alerts for severe weather events impacting viewers in Bell County.¹⁵² WYMT-TV’s coverage of news, weather, and sports in Bell County makes clear Gray’s commitment to serving Bell County. This commitment undoubtedly satisfies the local service prong of the Commission’s market modification test.¹⁵³

3. The Requested Market Modification Will Promote Access to In-State Local Programming.

Bell County is a prime example of an orphan county, lacking access to almost all of the local television programming produced by television stations licensed to Kentucky communities. The only Kentucky station in the Knoxville DMA, WAGV(TV), is licensed to a small Kentucky city, but the station’s main studio is located more than one hundred miles away from Bell County in Abingdon, Virginia. WAGV(TV) does not appear to air locally produced news, weather, or sports programming of any kind, let alone programming focused on the needs of viewers in Bell

Championship (Jan. 10, 2016, 3:26 AM), <http://www.wymt.com/content/sports/Knott-Central-girls-win-first-ever-Mountain-Classic-championship-364763141.html>.

¹⁵⁰ WYMT-TV, *Bell County teen appears on “Who Wants to be a Millionaire”* (Oct. 2, 2017, 11:49 PM), <http://www.wymt.com/search?searchKeywords=%22bell+county%22>.

¹⁵¹ See Exhibit G.

¹⁵² See *id.*

¹⁵³ See *supra* note 45. WYMT-TV also is geographically closer to Bell County than the average Knoxville television station. See Exhibit W. WYMT-TV’s transmitter site is located approximately 42 miles from the center of Bell County. Knoxville stations, on the other hand, are located as far away as 57 miles from the center of Bell County and an average of 46.7 miles from that location.

County. Adding Bell County to WYMT-TV's local satellite market will substantially increase the amount of locally-produced, Kentucky-focused programming available to viewers in Bell County and will further this important policy that Congress codified in STELAR.

4. Bell County Viewers Receive Limited Local Programming from Stations Other Than WYMT-TV.

In the last year, WYMT-TV has covered more than two hundred stories concerning Bell County news, weather, and information. WYMT-TV also covered local sports and community events from Bell County. WYMT-TV's coverage of and service to Bell County has not gone unnoticed. Nine community leaders within Bell County provided letters supporting WYMT-TV's market modification request.¹⁵⁴ Candice Barnett, Executive Director of the Bell County Chamber of Commerce, for example stated "We consider WYMT our local station and strongly believe it is imperative that their services are available to every to everyone in this area."¹⁵⁵ Those letters make clear that WYMT-TV is the only television station that reliably and consistently covers the local news and weather that viewers in Bell County need and want. This support is not surprising since Gray's co-owned WVLT-TV, the local CBS affiliate serving the Knoxville, TN DMA, does not provide the same level of Kentucky-oriented local service to Bell County. Viewers in Bell County, including many of the community leaders, want greater access to WYMT-TV because the station has given viewers exactly what they need, coverage of the important local news, sports, and weather that is focused on and comes from Bell County.

5. WYMT-TV's Ratings in Bell County Demonstrate Significant Viewership.

WYMT-TV's ratings and audience share make clear that the station has a substantial viewership in households in Bell County. Between the February 2016 and February 2017

¹⁵⁴ See Exhibit B-7.

¹⁵⁵ See *id.*

sweeps periods, WYMT-TV averaged a 7 share in and 4.4 rating in Bell County TV households.¹⁵⁶ During the period, WYMT-TV's ratings and share percentage reached a peak during the 6 p.m. newscast, averaging a 28 share and 20.3 rating.¹⁵⁷ WYMT-TV achieved similar ratings during the May 2017 sweeps.¹⁵⁸

WYMT-TV's shares and ratings are particularly relevant because the station is unavailable to the approximately 30 percent of households in the Knoxville DMA that subscribe to DirecTV or DISH.¹⁵⁹ Moreover, Bell County viewers have multiple options for viewing CBS programming due to WVLT-TV's presence in the Knoxville market. The ratings achieved by WYMT-TV despite these handicaps shows that viewers in Bell County have made WYMT-TV the favored choice for local programming in Bell County.

H. Harlan County

Harlan County is located along the southeast boarder of Kentucky and currently is assigned to the Knoxville DMA. Harlan County is home to the Kentucky Coal Mining Museum, which describes the origins and history of one of the largest economic influences for southeast Kentucky, and also is the setting for the popular television show "Justified." Like the other Orphan Counties, Harlan County is Kentucky through and through and has few or no ties to the Knoxville DMA. Indeed, Harlan County is located much closer to WYMT-TV's Hazard, Kentucky base than it is to Knoxville. Very few people traveled from outside of Kentucky to work in Harlan County. The U.S. Census Bureau reports that 3% of people who commute to Harlan County come from counties assigned to the Knoxville DMA and only 3% of Harlan

¹⁵⁶ See Exhibit X.

¹⁵⁷ See *id.*

¹⁵⁸ See *id.*

¹⁵⁹ See SNL Knoxville, TN (Current DMA Rank: 62) Video Subscribers, <https://www.snl.com/web/client?auth=inherit#tvMarket/VideoSubscribers?ID=60>.

County employees travel to areas in the Knoxville DMA for work.¹⁶⁰ Moreover, the information below shows that Harlan County residents turn to WYMT-TV for local programming they can't get from Knoxville DMA stations.

1. WYMT-TV Historically Has Been Carried in Harlan County.

WYMT-TV satisfies the first prong of the Commission's analysis because the station has historically been carried on cable systems serving Harlan County.¹⁶¹ The attached Exhibit C demonstrates WYMT-TV has been carried in Harlan County since at least 1982.¹⁶² As with the other Orphan Counties, Gray is unaware of any prior satellite carriage of WYMT-TV in Harlan County. This is unsurprising because the station is not located in the same DMA as Harlan County, nor is it listed on the FCC's Significantly Viewed List for Harlan County.

2. WYMT-TV Provides Significant Local Programming for Harlan County.

Even though Harlan County is assigned to the Knoxville DMA, WYMT-TV provides Harlan County with more local service than any other broadcast television station, including those licensed to communities in the Knoxville DMA. This is due in part to the fact that WYMT-TV's protected service contour covers the entirety of Harlan County, unlike Gray's co-owned WVLT-TV, the market's CBS affiliate.¹⁶³ In addition to the over-the-air coverage, viewers in Harlan County are able to receive WYMT-TV through a cable subscription package.

¹⁶⁰ U.S. Census Bureau, 2009-2013 5-Year American Community Survey Commuting Flows, County to County Commuting Flows for the United States and Puerto Rico (May 10, 2017), <https://www.census.gov/data/tables/time-series/demo/commuting/commuting-flows.html>.

¹⁶¹ 47 U.S.C. § 338(l)(2)(B)(i).

¹⁶² See Exhibit C.

¹⁶³ See Exhibit E. Indeed, most of the stations in the Knoxville DMA have do not have contours that encompass Harlan County. WVLR(TV), WAGV(TV), and WETP-TV are the only stations assigned to the Knoxville DMA that have contours that also include Harlan County in its entirety. See Exhibit Y.

In past cases, the FCC has recognized that signal coverage of a given community weighs in favor of a determination that a station provides local service to that area under the market modification test.¹⁶⁴ WYMT-TV satisfies that test here.

Since the beginning of 2016, WYMT-TV has included almost 695 stories on-air concerning breaking news, local sports, economic matters, and political issues in Harlan County.¹⁶⁵ WYMT-TV is able to provide such a high volume of locally responsive programming because it produces 29 hours of local news each week. While WYMT-TV covers a wide range of topics affecting Harlan County, examples of the segments featuring community events in Harlan County: (1) the sixth annual Passing for a Purpose camp to raise money for a local charity,¹⁶⁶ (2) mock disaster training for nursing students,¹⁶⁷ (3) a Boys and Girls Club of Kentucky banquet,¹⁶⁸ and (4) a local concert that collected blankets for local community members in need.¹⁶⁹

¹⁶⁴ See, e.g., Tennessee Broadcasting Partners, *Order on Reconsideration*, 25 FCC Rcd 4857, 4859 ¶ 6 (Med. Bur. 2010).

¹⁶⁵ See Exhibit Z. Gray has attached a listing of fifty recent WYMT-TV stories covering the county. A full list of stories is too unwieldy to attach to the instant Petition, but Gray will provide the complete list upon request.

¹⁶⁶ WYMT-TV, *Harlan County Hosts Sixth Annual Passing for a Purpose Camp* (May 13, 2017, 10:03 PM), <http://www.wymt.com/content/sports/Harlan-County-hosts-sixth-annual-Passing-for-a-Purpose-camp-422181593.html>.

¹⁶⁷ WYMT-TV, *Annual Mock Disaster Training Helps Prepare Nursing Students* (Apr. 20, 2017 7:06 PM), <http://www.wymt.com/content/news/Annual-mock-disaster-training-helps-prepare-nursing-students--420023034.html>.

¹⁶⁸ WYMT-TV, *Eastern Kentucky Teen Recognized at Boys and Girls Club Banquet* (Mar. 9, 2017, 1:18 AM), <http://www.wymt.com/content/news/Eastern-Kentucky-teen-recognized-at-Boys-and-Girls-Club-banquet-415747253.html>.

¹⁶⁹ WYMT-TV, *At Annual Concert, Harlan County Singer Collects Blankets for Charity* (Dec. 17, 2016, 12:48 AM), <http://www.wymt.com/content/news/At-annual-concert-Harlan-County-singer-collects-blankets-for-charity-407174635.html>.

WYMT-TV's service to Harlan County is not limited to local news. WYMT-TV also airs daily weather forecasts and notifies Harlan County viewers of local weather alerts and warnings impacting their area.¹⁷⁰ WYMT-TV's coverage of important local issues and information proves WYMT-TV's satisfies the local service prong of the Commission's market modification test.¹⁷¹

3. The Requested Market Modification Will Promote Access to In-State Local Programming.

The Knoxville DMA has only one station licensed to a Kentucky community, WAGV(TV), Harlan, Kentucky. And while WAGV(TV) is licensed to a community in Harlan County, Kentucky, it does not appear that the station produces locally any programming that is focused on the needs and interests of the residents of Harlan County. As discussed above, this may be because the WAGV(TV) acts as a satellite of WLFG-TV, Grundy, Virginia. Its main studio is located in Virginia and the programming on WAGV(TV) originates from a network based out of Virginia. Harlan County, therefore, is a quintessential example of an orphan county. WYMT-TV is licensed to a community in Perry County, Kentucky, which is adjacent to Harlan County. This proximity allows WYMT-TV to cover the local news, weather, and sports from Harlan County with tremendous depth and detail. Accordingly, adding Harlan County to

¹⁷⁰ See Exhibit G.

¹⁷¹ See *supra* note 45. WYMT-TV also is geographically closer to Harlan County than the stations serving the Knoxville DMA. See Exhibit W. WYMT-TV's transmitter site is located approximately 23 miles from the center of Harlan County. On the other hand, almost all of the Knoxville DMA stations are located much further from the center of Harlan County. Indeed, WBXX-TV, Crossville, Tennessee is located 83 miles from the center of Harlan County and the remaining stations in the Knoxville DMA are located an average of 61.8 miles from that location. In this case, WYMT-TV is closer to the center of Harlan County than almost all the other Knoxville DMA stations, which supports Gray's contention that Harlan County should be added to the local satellite market of WYMT-TV.

WYMT-TV's local satellite market will provide viewers in Harlan County with greater access to programming produced in and focused on eastern Kentucky generally, and Harlan County specifically.

4. Viewers in Harlan County Receive Limited Local Programming from Stations Other Than WYMT-TV.

Like Bell County, Harlan County is assigned to the Knoxville, TN DMA, which has WVLT-TV as its local CBS affiliate. Gray is the licensee of WVLT-TV; thus, it can confidently say that WVLT-TV does not serve Harlan County with the same level of locally produced programming as WYMT-TV. Twenty-two community and business leaders and residents of Harlan County submitted letters supporting WYMT-TV's instant request.¹⁷² This includes a state Senator and the state representative for Harlan County. The letters of support from Harlan County make clear that, as a result of WYMT-TV's service to Harlan County, the viewers and leaders of the County support WYMT-TV's request to modify its local satellite market to include Harlan County.

5. WYMT-TV's Ratings in Harlan County Demonstrate Significant Viewership.

Nielsen ratings demonstrate WYMT-TV's significant viewership in Harlan County. WYMT-TV purchased from Nielsen a report illustrating the station's ratings in Harlan County beginning with the February 2016 sweeps period and ending with the recent February 2017 sweeps period.¹⁷³ WYMT-TV ratings and share percentage make clear that viewers in Harlan County watch WYMT-TV. Averaged over all sweeps periods since the beginning of 2016,

¹⁷² Exhibit B-8.

¹⁷³ See Exhibit AA. Nielsen's ratings were compiled for the 7 AM – 1 AM daypart, Monday-Sunday, as well as during the times when WYMT-TV airs regularly scheduled locally produced newscasts.

WYMT-TV has achieved a 6 share in all households with an average rating of 3.2.¹⁷⁴ WYMT-TV's ratings during the May 2017 sweeps were similar.

WYMT-TV's Harlan County ratings are particularly significant because today the station is unavailable from either DirecTV or DISH, which collectively serve approximately 30 percent of the households in the Knoxville DMA.¹⁷⁵ Harlan County viewers also have access to the local CBS affiliate WVLT-TV. That means WYMT-TV's ratings have been achieved despite the lack of satellite carriage and the availability of other alternatives for network and syndicated programming. Clearly, viewers in the Harlan County are watching WYMT-TV where and when they can. As Gray's showing with respect to the other statutory factors, WYMT-TV's demonstrated viewership in Harlan County illustrates why the FCC should reassign it to the local satellite carriage market for WYMT-TV.

IV. REMOVAL OF WYMT-TV FROM THE LOCAL SATELLITE MARKET OF THE 23 MODIFICATION COUNTIES BEST SERVES THE PUBLIC INTEREST.

Gray's proposal to modify the local satellite market for WYMT-TV also includes a request to delete twenty-three counties from the station's current market.¹⁷⁶ Each of the counties is more strongly connected to the Lexington area and are thoroughly served by WKYT-TV, Gray's CBS-affiliated station serving the Lexington area. Moreover, because DIRECTV and DISH currently carry WKYT-TV and not WYMT-TV, grant of Gray's request to remove the Modification Counties from the WYMT-TV satellite market will not cause any satellite viewers to lose access to WYMT-TV. As described below, Gray's request to remove the Modification Counties from WYMT-TV's local satellite market satisfies each of the market modification

¹⁷⁴ See *id.*

¹⁷⁵ See SNL Knoxville, TN (Current DMA Rank: 62) Video Subscribers, <https://www.snl.com/web/client?auth=inherit#tvMarket/VideoSubscribers?ID=60>.

¹⁷⁶ See Exhibit E.

criteria. Moreover, the fact that Gray, as licensee of WYMT-TV, is requesting voluntarily that the Commission delete the Modification Counties from WYMT-TV's market should be seen as strong evidence that WYMT-TV does not serve these communities.¹⁷⁷

A. WYMT-TV Has Seldom Been Carried in Any of the Modification Counties.

Gray satisfies the first prong of the Commission's analysis because the station generally is not carried on cable systems throughout the Modification Counties.¹⁷⁸ The attached Exhibit BB demonstrates that WYMT-TV has not been carried in 19 of the 23 Modification Counties since 1982-1983. In the other four counties,¹⁷⁹ WYMT-TV has had minimal and sporadic carriage on a few small cable systems.¹⁸⁰ Gray is unaware of any prior satellite carriage of WYMT-TV in the Modification Counties. This is unsurprising because the satellite carriers have chosen to carry WKYT-TV in lieu of WYMT-TV in the Modification Counties.

B. WYMT-TV Does Not Provide Service to the Modification Counties.

WYMT-TV's service contour lacks significant coverage of the Modification Counties. Indeed, WYMT-TV's service contour does not even reach 14 of the Modification Counties, covers only a portion of seven additional Modification Counties, and encompasses just two of the Modification Counties.¹⁸¹ The lack of signal coverage over the vast majority of the

¹⁷⁷ Gray is unaware of any similar instance in which a licensee filed a market modification petition to remove communities from its market. The fact that such a petition is so rare and that Gray would readily admit that WYMT-TV does not serve the Modification Counties should be viewed as strong evidence in favor of deleting them from WYMT-TV's market as requested herein.

¹⁷⁸ 47 U.S.C. § 338(l)(2)(B)(i).

¹⁷⁹ Gray's review of carriage in certain years indicates that WYMT-TV was carried in certain years in Casey, Estill, Lincoln, and Rowan Counties.

¹⁸⁰ See Exhibit BB.

¹⁸¹ The only two counties that are fully encompassed by the WYMT-TV contour are Estill and Menifee.

Modification Counties makes clear that the FCC should remove the counties from the WYMT-TV local satellite market.

Additionally, WYMT-TV does not focus on the interests or needs of viewers in the Modification Counties. As discussed in in Section 3, Gray focuses WYMT-TV's programming on the needs and interests of the Orphan Counties and other counties located in eastern Kentucky. WYMT-TV does not seek to provide in-depth, focused coverage of the Modification Counties. WYMT-TV's lack of significant coverage of the Modification Counties makes clear that removing the counties from WYMT-TV's local satellite market will meet the local service prong of the Commission's market modification test.

C. Modifying the local market of WYMT-TV Would Not Detract from Consumers' Access to In-State Programming.

Removing the Modification Counties from the WYMT-TV satellite market will have no impact on consumers' ability to view in-state programming. Currently, each of the Modification Counties is well served by a number of Kentucky-based broadcast television stations, including Gray's CBS affiliated station WKYT-TV. At the same time, WYMT-TV does not serve nor does it cover extensively the Modification Counties. Therefore, removing WYMT-TV from the local satellite market will not detract from consumers' access to programming from Kentucky-based programming.

D. WKYT-TV and Other Stations Assigned to the Lexington DMA Provide Local News Coverage of the Modification Counties.

The Modification Counties are served by a number of full-power television stations serving the Lexington DMA, including WYMT's sister station, WKYT-TV. Indeed, since the beginning of 2016, WKYT-TV alone has aired hundreds, if not thousands, of locally produced

stories covering the Modification Counties.¹⁸² This comes as little surprise since WKYT-TV is based in Lexington and competes against other Lexington-based stations, all of which focus their locally produced programming on the needs and interests of the Lexington DMA. On the other hand, WYMT-TV is licensed to Hazard, Kentucky and serves the areas in the vicinity of Hazard – which is far removed from the Modification Counties. Thus, because WKYT-TV and other Lexington DMA stations serve the Modification Counties, removing the Modification Counties from the WYMT-TV will not reduce the amount of local programming available to viewers in the Modification Counties.

E. Nielsen Ratings Demonstrate That the Station Is Barely Viewed in the Modification Counties.

WYMT-TV does not achieve any measurable all-day ratings in 21 of the 23 Modification Counties.¹⁸³ In the other two counties, WYMT-TV receives only minimal ratings. In Estill County, WYMT-TV received an all-day rating of 0.1% and a 0.7% for its 6 a.m. newscast.¹⁸⁴ In Menifee County, WYMT-TV only had ratings for its Saturday morning newscast.¹⁸⁵ The Nielsen ratings make clear that WYMT-TV generally is not viewed in the Modification Counties.

V. THE RESPONSES FROM DIRECTV AND DISH DO NOT FORECLOSE CARRIAGE OF WYMT-TV IN THE MODIFICATION COUNTIES.

Gray provided DISH and DIRECTV, in accordance with the FCC's rules, notice of Gray's intention to seek the instant market modification and a request that each of the providers

¹⁸² The other major network affiliates in the Lexington DMA (WDKY-TV, WLEX-TV, and WTVQ-DT) are based in Lexington and extensively serve the Modification Counties.

¹⁸³ See Exhibit CC.

¹⁸⁴ *Id.*

¹⁸⁵ *Id.*

respond with an initial feasibility determination.¹⁸⁶ DIRECTV and DISH provided brief responses claiming either technical infeasibility or an inability to determine whether carriage of WYMT-TV could occur in markets outside of the Lexington DMA. While the FCC permitted satellite providers to assert technical or economic infeasibility, it also required that DBS carriers “explain in detail the basis for such infeasibility.”¹⁸⁷ For the reasons stated below, the arguments raised by DIRECTV and DISH fall short of the Commission’s requirements and the FCC should reject them.

A. DIRECTV

In its response, DIRECTV acknowledges that its spot beam covers every zip code in the Orphan Counties.¹⁸⁸ DIRECTV claims, however, that it lacks sufficient spot beam capacity to carry both WYMT-TV and WKYT-TV in the Lexington DMA.¹⁸⁹ On its face, DIRECTV’s response appears to be an attempt to avoid carrying two CBS affiliates in the Lexington DMA. Specifically, DIRECTV states that due to its spot beam capacity, it cannot carry WYMT-TV without dropping Gray’s WKYT-TV. DIRECTV’s response is a non-sequitur to WYMT-TV’s request because WYMT-TV is not seeking carriage throughout the Lexington DMA. Instead, Gray seeks to obtain carriage rights for the Orphan Counties, which are outside the Lexington DMA. Moreover, deleting WYMT-TV from the Modification Counties certainly is technically feasible. Finally, DIRECTV fails to consider technical solutions to remedy its spot beam capacity problem, nor does it acknowledge the possibility that spot beam capacity could become available at a future date. For example, five full power television stations in the Charleston-

¹⁸⁶ See *STELAR Order*, 30 FCC Rcd. at 10440 ¶ 47. See also Exhibit DD and Exhibit EE.

¹⁸⁷ *Id.*

¹⁸⁸ See Exhibit FF.

¹⁸⁹ See *id.*

Huntington, Knoxville, and Tri-Cities DMA sold their spectrum in the FCC’s incentive auction, and many other stations in other nearby DMAs also sold spectrum.¹⁹⁰ Thus, the FCC should not give any weight to DIRECTV’s insufficient response and should deny DIRECTV’s claim of technical infeasibility.

B. DISH

DISH’s response to Gray’s pre-filing coordination letter states that “DISH is not in a position to evaluate the technical or economic feasibility of carrying WYMT-TV” because “DISH does not carry WYMT-TV today.”¹⁹¹ DISH’s unsubstantiated claim does not rise to a level sufficient to deprive viewers in the Orphan Counties of local programming, and accepting DISH’s argument would be inconsistent with FCC precedent. The FCC always has set a very high bar for showings of the infeasibility of complying with the agency’s rules.¹⁹² This is because large companies like DISH should not be permitted to stand in the way of improved service to everyday Americans merely because the change will create a short-run expense.¹⁹³

¹⁹⁰ In the Charleston-Huntington DMA WPBO(TV) and WTSF(TV) sold their spectrum. In the Knoxville DMA, WAGV sold its spectrum, and in the Tri-Cities DMA WMSY(TV) and WSBN(TV) sold spectrum. This does not include stations that sold spectrum in other nearby DMAs that may be part of the same spot beam.

¹⁹¹ See Exhibit GG.

¹⁹² See, e.g., Gray Television Licensee, LLC for Modification of the Satellite Television Market for WSAW-TV, Wausau, Wisconsin, *Memorandum Opinion and Order*, 32 FCC Rcd 668 (2017) (rejecting satellite technical infeasibility claim based on increased costs for DISH network to provide certain customers with new equipment); Victory Television Network, Inc. for Modification of the Satellite Television market for KVTJ-DT, Jonesboro, Arkansas, *Memorandum Opinion and Order*, DA 17-968 (rel. Oct. 4, 2017) (stating “[t]he Commission allows satellite carriers to demonstrate spot beam coverage infeasibility by providing a detailed and specialized certification....”); WUPW broadcasting, LLC, *Memorandum Opinion and Order*, 25 FCC Rcd 2678, 2690-91 (2010) (rejecting technical infeasibility claim based on unsubstantiated “laundry list of costs” absent specific evidence for such costs).

¹⁹³ See, e.g., Chicago Newsweb Corporation/WNDZ, Inc., *Letter*, 24 FCC Rcd 10852 (2009) (showing that will not enhance the public interest but is intended to principally benefit an FCC licensee financially does not amount to technical infeasibility); Radio Redentor, Inc., *Letter*, 14

DISH stated only that it was not in a position to make the required determination. DISH's inability or, even worse, refusal to engage in the FCC's process is no excuse for failing to expand the Orphan County viewers' access to Kentucky-based and eastern Kentucky-centric programming as Congress intended. DISH's showing simply fails to demonstrate technical or economic infeasibility and should be rejected.

VI. CONCLUSION

Gray respectfully requests that the FCC modify WYMT-TV's television market for satellite carriage by DIRECTV and DISH as described in the foregoing.

Respectfully submitted,

GRAY TELEVISION LICENSEE, LLC

Robert J. Folliard, III

To Whom It May Concern:

The purpose of this letter is to request our local station, WYMT-TV, Hazard, KY, be added as a local-into-local satellite service to serve Leslie County. It is necessary for the well-being of the community to be able to view local news and weather. Our residents need to be updated at all times of current weather alerts, school closings, dangerous road conditions, etc. At this time our local news is coming from Johnson City, TN, which is irrelevant to our area and doesn't provide the news and weather information we need. By adding WYMT-TV as a local satellite station for Leslie County you will impact the safety of this area.

If additional information is needed please do not hesitate to contact me. Thanks for you cooperation in this matter.

Sincerely,

Jimmy Sizemore
Leslie County Judge/Executive

To Whom It May Concern:

As Mayor of the City of Hyden, Ky, I cannot begin to tell you how excited I am about the possibility of WYMT finally being on satellite TV. WYMT is the news lifeline for our area. While other Knoxville and Lexington stations bleed over into the area, WYMT is the only station with reporters on the ground covering the news, weather, and sports that are important to us in Leslie County and surrounding Counties. In fact, when we are going to have WYMT on Dish and Direct TV is a concern that I am constantly being questioned about. I cannot emphasize strongly enough that we need WYMT on satellite TV, and I will be happy to assist this endeavor in any way I possibly can.

Sincerely,

Carol Joseph, Mayor

**BRANDON SMITH
STATE SENATOR**

March 3, 2017

To Whom It May Concern:

I recently received word about the possibility of WYMT being included on satellite TV. This is fantastic news for the district that I represent which includes: Bell, Breathitt, Johnson, Leslie, Magoffin and Perry counties. Citizens of this district will benefit greatly by having a station that is so dedicated to Eastern Kentucky more readily available to them. WYMT is the only station that covers the news, sports, and weather that is important to this area. Constituents frequently ask me if WYMT will ever be on Dish and Direct TV, so this is definitely wanted and needed in my district. I wholeheartedly support this effort and will be happy to help in any way possible. Thanks for your time and consideration.

Warm Regards,

A handwritten signature in cursive script, reading "Brandon D. Smith". The signature is fluid and elegant, with the first letters of the first and last names being capitalized and prominent.

March 8, 2017

To Whom It May Concern:

Being the Chief of Police and Alcoholic Beverage Administrator of Whitesburg, Kentucky, I can whole heartedly say that I am very eager for the possibility of WYMT being available on satellite TV. As a member of Law Enforcement, I can assure you that WYMT is a very hands on station in our area, always having reporters on the scene to give viewers as much information as possible. WYMT is a very important station to us here in the mountains. In my opinion, having WYMT available on satellite would be very beneficial to all parties, bringing more viewers and encouraging more people to switch to satellite.

If I can assist in any way, feel free to contact me.

Danny R. Webb
SHERIFF OF LETCHER COUNTY

Phone 606-633-2293
Fax 606-633-8780

To Whom It May Concern:

I am the elected Sheriff of Letcher County Kentucky, Letcher County being one of the counties that WYMT of Hazard covers in News, Weather and Sports.

Satellite providers in this area such as Dish and Direct T.V. both provide local stations to Letcher County but from Bristol Tennessee and the Kingsport Tennessee area. As a result of this, Letcher County is not covered with daily news, Weather and Sports relating to this area.

WYMT reporters are in our area daily and cover important matters that concern our citizens here in Letcher County. I cannot emphasize enough the importance of the service WYMT provides to our community.

There are many homes with satellite television that do not have the option of cable because of the large rural area.

I offer my complete and total support that I may give that will allow WYMT on satellite television.

Sheriff Danny Webb

To Whom It May Concern:

I am writing in support of the possibility of satellite television for our local station WYMT. This station covers vital news for Johnson County and all Eastern KY. I am in full support of this happening if possible.

Many citizens of Johnson County presently use satellite systems in their homes and businesses and cannot get WYMT for local news, sports and weather. In recent years Johnson County has experienced very severe weather and WYMT is the news source that reports the most accurate weather for our area.

I feel this is much needed for the people of Johnson County and all the viewing area of Eastern KY that use satellite cable TV.

In closing I would like to express my full support.

Sincerely,

EXHIBIT B4

Letters of Support from Community Leaders in Martin County

March 13, 2017

To whom it may concern:

It is a pleasure to write this letter on behalf of WYMT-TV in its petition to the Federal Communications Commission for inclusion on satellite TV networks. As a local resident in the region and as an avid viewer and contributor of WYMT-TV, I have been an advocate of this position for several years because I know how integral the station is to our region of eastern Kentucky.

For the past forty years, I have been a community bank executive in eastern Kentucky. During this time, I have served the region in many capacities. I have served as chairman of the Center for Rural Development and I am currently chairman of Alice Lloyd College and a member of the advisory committee of the Institute for Rural Journalism. Nationally, I have been fortunate to of served as chairman of the Tennessee Valley Authority, chairman of the Republican National Committee, and most recently as President and CEO of the American Coalition for Clean Coal Electricity.

Personally, I have been involved with WYMT-TV for almost two decades. Since 1999, I have been a regular contributor to the weekly *Point-Counter-Point* segments, which was the precursor to today's *Issues & Answers: The Mountain Edition*, and as a political commentator providing local, state, and national election analysis. I know the importance and impact regional news outlets provide in bringing a region together; no station does this better than WYMT-TV.

WYMT-TV's coverage area extends deep into Appalachia's poorest and most rural counties. It is the sole news outlet with the ability, and with a proven track record, to bring a region together and provide community cohesiveness. This regional cohesiveness is evidenced in their award winning local newscasts and their locally produced programing, which provides timely and dedicated coverage of news and events that are shaping the dialogue across eastern Kentucky. Additionally, as you are aware, towns across eastern Kentucky have been devastated with mining and manufacturing job losses. This is a turning-point moment. I firmly believe that WYMT-TV can play a major role in our region's economic revival.

Unfortunately, cable television is not always an option in our communities. It is essential that WYMT-TV be available to satellite viewership as well. Therefore, I boldly ask for your assistance in this petition.

Thank you for your consideration. If I may provide any further insight into the profound regional need for WYMT-TV on satellite TV networks, please do not hesitate to let me know.

Sincerely,

In Re: WYMT

TO WHOM IT MAY CONCERN:

I have had the opportunity over a number of years to advertise on WYMT which is our local T.V. station. Everywhere I go throughout eastern Kentucky I have people comment that they first became aware of the nature of our practice in part because of our continued efforts to promote our services with WYMT. In eastern Kentucky WYMT is a respected institution and is watched daily by everyone who has access to that channel.

With the rise of satellite T.V., such as Dish Network and Direct T.V., more and more of our local citizens do not have the benefit of viewing our local T.V. station. Eastern Kentuckians have never considered the Lexington or Knoxville or Huntington T.V. Stations as their local stations for news, weather or local sports. I encourage the leaders of the WYMT to take whatever steps are necessary to insure that WYMT is included in both the Dish Network and Direct T.V. packages.

I strongly support WYMT's efforts to expand its coverage including coverage through Dish Network and Direct T.V. packages.

Sincerely,

Thomas W. Moak

TWM/mch

From: Ashley Litteral [<mailto:alitteral@ekn.com>] @Sent: Tuesday, November 29, 2016 3:43 PM@To: Brenda Davenport@Subject: WYMT on Satellite

To whom it may concern,

My name is Ashley Litteral. I am the Marketing Manager of Appalachian Wireless and have been for the last 3 years. I am also a DISH Network satellite subscriber so this issue hits close to home for me both as a marketer and a consumer. Bringing WYMT to satellite would be great for me as both a customer and advertiser. WYMT is based in Eastern KY. This is where I have grown up and lived all my life. I care about this region and WYMT does as well. This is the area that their employees call home as well. The same can be said about Appalachian Wireless. As a customer, local news and sports are what I would prefer to watch on my "local channels" and I think most people would agree. My current offerings for satellite are very limited for local channels, and I feel most people in Eastern KY feel this way as well. I am originally from West Liberty located in Morgan County. I now live in Paintsville which is in Johnson County. People from West Liberty get Lexington locals on satellite. People from Paintsville get Huntington/Charleston locals, which is even worse. I literally do not care about anything going on in West Virginia. But, due to the rules in place now, I have no choice as a consumer. This is baffling to me... On Saturday, I don't get to watch the Kentucky basketball and football games, I get to watch West Virginia. I'll never forget wanting to watch two top 5 teams play in the "Red River Shootout" many years ago. I turned on what I thought was the game at noon, and I got to watch West Virginia play Rutgers instead. If I were a West Virginia fan, I would have been thrilled. I was not... The same can be said for news. Instead of seeing a leading news story at 6pm from Eastern KY, I get news from Huntington/Charleston.

The other side to this is how it plays into Appalachian Wireless' marketing plans and budget. Obviously, Charleston/Huntington is a much larger market than almost all of Eastern KY. So in order to advertise with a large portion of our counties that might have satellite, we have to pay a premium price for the "fringe" areas of these stations that are the satellite carriers here. The same can be said for the Lexington markets as well. If you want to advertise on satellite in Lee County (one of the smallest counties in KY), you pay the Lexington price. If I want to advertise in Johnson County, I pay the Charleston price. That just doesn't make a whole lot of sense for people who are stuck in the middle... If I could sell to people in Charleston or Huntington, it wouldn't be an issue, but we can't. WYMT services the entire region in question. As an advertiser, I would instantly save money with this simple change because my existing advertising would already be covered with WYMT packages I have running. This would then allow me to reinvest the dollars saved for this premium price to other advertising companies in Eastern KY which are really struggling due to the job loss in the region over the last few years. I am sure many other advertisers in Eastern KY would feel exactly the same way. From my perspective, I can't think of any reason this wouldn't be a good thing for the vast majority of people in Eastern KY.

Thank you for your time. Please call me any time if you would like me to elaborate further.

--

March 03, 2017

To whom it may concern:

As a business leader in the Hazard & Pikeville area, I have a concern that my advertising dollars are missing a lot of local residents who use satellite TV. Satellite TV is becoming increasingly popular and residents now have a choice when acquiring their TV service. Without the public getting WYMT on satellite we are missing a lot of advertising opportunities. Please consider allowing the best station in the state to become available on both Dish Network and Direct TV. Let's together reach out to a broader audience.

The local residents using satellite are also missing out on local news and weather alerts. With the storms of the last few days satellite users had no choice but to get their alerts from a Lexington or an out of state station. I truly believe you would gain viewers to your station with addition to satellite TV.

Thanks for your consideration,

**Johnson Law Firm
229 Main Street
Pikeville, KY 41501**

March 12, 2017

To Whom It May Concern:

I strongly support WYMT being on satellite. As an advertiser in the area I am excited at the possibility of reaching more potential clients. I handle all our advertising at the firm and it is a struggle to reach the thousands in the WYMT viewing area that have satellite rather than cable. Television advertising is still the most effective way to reach potential clients and without WYMT on satellite we are missing a great deal of people.

As a satellite subscriber, I am excited about the possibility of finally being able to have local and KY news and weather available. Currently in my viewing area we only receive WVA news and weather on satellite. When we are having bad weather or an important local event is happening, we have no coverage of what is going on in the area. Having WYMT will provide us with much needed local information in the case of emergencies.

This area needs WYMT on satellite not just for advertising needs, but as a public service to KY residents who, for far too long, have gone without local news and weather. I cannot express to you what having WYMT on satellite will mean to the local people and the businesses alike.

Sincerely,

Cody Johnson

Shaping Our Appalachian Region, Inc (SOAR)
137 Main Street Suite 300 Pikeville, KY 41501
Tel (606) 766-1160

MARCH 13TH, 2017

To whom it may concern:

It is with great enthusiasm that I offer the following letter of support for adding WYMT to Dish Network and Direct TV. WYMT is a vital part of our rural communities, providing important local updates to many residents in areas not served by other technologies. We believe that allowing more citizens to access relevant local news as opposed to relying on major news markets in other states will help them become informed and engaged in the SOAR effort.

While SOAR has an ambitious and broad regional strategy with many different elements, above all else we want to progress. Thus, as with any initiative, we must start our marathon with a step, and we view this as one of those steps. These efforts allowing for increased communication with our region will enable us to advance work relating to our 2017 program of work:

- Be the champion of Appalachia Kentucky

This will enable us to share the positive work we are doing with more people throughout our region and let them know about important opportunities available to them as a result of our work. The strong potential for regional impact makes SOAR a natural champion and proud supporter of this effort. If you have any questions or need any additional information, please contact me at jared@soar-ky.org.

Sincerely,

Jared Arnett

EXECUTIVE DIRECTOR

The Golf Academy, Inc.
121 Justice Way, Unit 125
Pikeville, KY 41501

To whom it may concern;

Eastern Kentucky is heavily dependent on WYMT for local TV news and weather as well as informative local programming and advertisement. WYMT has made itself an essential part of people's lives in our area. Considering the rise of internet as a source of news for our area, the WYMT news-team has earned the respect and trust of news consumers over the course of time.

WYMT has been the absolute best investment for my advertising dollars for two decades. The ROI on WYMT out produced both radio and print dollar for dollar. I have owned multiple businesses in Eastern Kentucky for thirty years and it has been my experience that WYMT is a friend to small business and a critical partner in economic growth for our region.

With the rise of satellite TV, such as Dish Network and Direct TV, more and more of our local citizens do not have the benefit of viewing our local TV station. My wife refuses to terminate our cable service and switch to satellite specifically because she will not be able to watch WYMT News. I join my voice with many others to encourage WYMT and other decision makers to take all means necessary to insure that WYMT TV is included in both the satellite TV packages.

Office: (606)218-1198

To whom it may concern,

I remember the day WYMT TV signed on in Eastern Kentucky. For the first time, we had a voice in in WYMT that could bring us all together. The lack of roads, the geographic hardship, territorial boundaries and what sometimes felt like a forgotten region could be seen and heard!

Most of all, we could be empowered to dream and improve our lives. Should there be a chance for WYMT to broadcast via satellite, all the things I have just mentioned will and can be enhanced.

My name is Keith Casebolt, I own a marketing agency and this service would greatly help my customers, but most of all, I am a viewer, a lifelong native of Eastern Kentucky. I know the importance of WYMT to the future of our region.

I strongly urge all consideration for WYMT to be able to continue their 30 plus years of progress for Eastern Kentucky through Satellite Broadcast. I am just one of the many who are proud to be a part of the mountain family of WYMT.

Sincerely,

Keith Casebolt

To Whom It May Concern:

We wish to take this opportunity to express our views about the possibility of television station WYMT becoming available on satellite television stations such as Dish Network and DirecTV. For our area, WYMT is the gold standard for news and information impacting the many communities covered by its broadcasts.

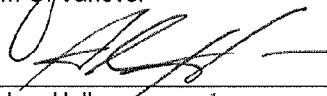

Its coverage is crucial to the everyday lives of the citizens it covers. Our firm has been providing services to this region for over twenty-five (25) years, and I can say without reservation, that permitting WYMT to be carried on the satellite stations would represent a tremendous service to the citizens of our region.

Thank you very much for your consideration of this endorsement.

Sincerely,

Jim G. Vanover

To Whom It May Concern:

I am a life long resident of Eastern Kentucky. My law practice has spanned over forty years. Until WYMT came to Eastern Kentucky, we were devoid of any real television coverage for this area. WYMT has been instrumental in helping me and many other lawyers inform the public about our law practices.

Satellite in homes has replaced cable in many areas of Eastern Kentucky. It would be extremely beneficial to businesses in the Eastern Kentucky area if WYMT was on satellite.

I personally am requesting that you allow WYMT to be on satellite TV in our area.

Sincerely,

Gary C. Johnson

City of Coal Run Village

Andrew H. Scott, Mayor

March 7, 2017

To Whom It May Concern:

As the mayor of Coal Run and life-long resident of eastern Kentucky, I am writing to express my desire that WYMT, our local news channel, be placed on satellite television. Due to the geographical limitations of our region, thousands of Pike Countians have long used satellites to receive television transmissions, and I, personally, have been a satellite television customer since the early 1990's. Unfortunately, to date, none of us has been afforded the opportunity to have true local news dedicated to eastern Kentucky on any major satellite television provider. In fact, the closest station I'm aware of that is provided in a standard satellite television package is not only hours away, but also in another state! Additionally, these out-of-state television news stations consistently fail to cover events important to our county and region.

At present, the only way for our residents to get a local news channel (if they are even serviced by cable) is to pay for both cable AND satellite which is a hardship on our families because, as you may be aware, our region has been devastated by a staggering loss of over 7,000 jobs in the past eight years.

Eastern Kentuckians do not wish to continue to be overlooked, and we deserve the opportunity to watch local news that affects our cities, not cities in another state or another region. Anything less, frankly, is unacceptable.

Having the ability to access local news on satellite television would not only be a great service to Coal Run, but also to eastern Kentucky and central Appalachia.

If I can be assistance in any way, please let me know.

Sincerely,

Andrew H. Scott, Mayor

To Whom in May Concern,

As a school principal and a DirecTV subscriber in the WYMT viewing area I am elated at the possibility of local programming being added to satellite television. At present our "local" channels broadcast from Charleston, West Virginia and offer very little in the way of relevant news, weather, and sports. The addition of WYMT would allow viewers in this region to receive timely weather updates that could potentially save lives, to see news stories about the community they live in, and in my case and many others, see the success stories of our students and athletes. The addition of WYMT would also have a tremendous impact on the number of subscribers to satellite TV, as many have cable because that is the only way to see WYMT. Thank you for taking time to read this and if you have questions or I can be of any assistance do not hesitate to contact me.

Sincerely,

To Whom It May Concern:

As the state senator for Pike County as well as four other counties in Eastern Kentucky, and a small business owner in this area, I am pleased to discover the possibility of WYMT finally being offered on satellite television. In our region we have stations from Lexington and Knoxville that bleed over, but it is WYMT that provides the local news that is so important to our citizens.

In addition, as a small business owner, I look forward to the opportunity to be able to advertise on our local channel. It is important to me on many levels that I can take advantage of supporting another local business by advertising locally.

Having talked to many of my constituents, I am aware that numerous local folks are definitely interested in having WYMT available on both Dish and Direct TV to give them access to local information.

Again, I fully support WYMT being given the opportunity to be on satellite television. Please feel free to contact me if you have any questions.

Sincerely,

To whom it may concern,

As a Bell County business owner, I can affirm that WYMT needs to be on satellite. I have been looking forward to this for several years. I cannot currently pick up WYMT at my home because cable is not offered there and I have to use Direct TV.

In this county, we depend on WYMT for our local news, sports and especially weather. I am glad they partner with our local radio station so I can at least get my weather information that way.

However, for many residents like myself, there is a void in the availability of timely coverage because we are forced to seek our news through other means like on-line or the Knoxville stations.

I strongly support WYMT being added to Satellite.

Scott Madon, Mayor
Callie Melton, Clerk/Treasurer

January 9, 2017

To Whom It May Concern,

I am writing in regards to the possibility of DIRECTV carrying WYMT-TV, a CBS affiliate in Eastern Kentucky. As Mayor of the City of Pineville—a mountain town in the center of the WYMT coverage area—my staff and I field inquiries from DIRECTV subscribers who ask why they do not receive the WYMT network as one of the local stations in their package. I have never been able to answer this question.

Our residents are currently only able to receive network affiliates out of Knoxville, TN that offer very little coverage of major news events of interest to DIRECTV subscribers in our region. WYMT-TV provides people of the Eastern Kentucky region with vital news and weather information that affiliates in Lexington and Knoxville do not cover. Thus, many in this region choose to subscribe to Time-Warner/Spectrum Cable options instead of DIRECTV.

Should you decide to offer WYMT-TV as part of the DIRECTV package, your subscribers would increase and current subscribers would gain a station that provides vital news coverage for their region. Should you have any questions, feel free to contact me at City Hall (606) 337-2958.

Sincerely,

Scott Madon

Fax (606) 337-9807

February 16, 2017

To whom it may concern,

I would like to strongly lend my support to WYMT being added to Dish Network and Direct TV. Many of our county residents live in rural areas where cable providers do not reach and they must depend on satellite offered TV networks from Knoxville or Lexington to get their news or weather. Unfortunately, this information rarely has a local flavor or is of much value to the people of Bell County because of our distant geographical location.

WYMT is practically in our back yard and I see reporters around town on a daily basis. However, as the delivery is currently structured, I would guess that nearly half of our residents are unable to see a local report on stories that affect their lives on a daily basis simply because WYMT is not a satellite option. In my opinion, this is something that needs to be corrected as soon as possible.

I am available to answer any other questions you might have.

Sincerely,

Albey Brock

March 13, 2017

To Whom It May Concern:

As a former state representative from Harlan County and a current business owner, I am excited to learn the possibility of WYMT finally being offered on satellite television. WYMT is the only television station that covers the news in its entirety for the people of Eastern Kentucky. Offering satellite viewers the opportunity to have WYMT as their CBS affiliate would be correcting an issue adversely affecting our region for years.

WYMT offers the businesses in our region a resource to market our business to the residents of Eastern Kentucky, which is crucial to our successes. Adding WYMT as the CBS affiliate offered to the residents of Eastern Kentucky would only enhance the satellite experience. This would give the residents a choice between satellite and their local community television service.

I fully support WYMT being given the opportunity to offer service through satellite television. Please, feel free to contact me if you have any questions.

Sincerely,

Rick Fox, Vice President
Alexander Investment Services

March 24, 2017

To Whom It May Concern:

As the largest employer throughout Southeast Kentucky, I am concerned that my advertising dollars are missing a lot of local residents who use satellite TV. Satellite TV is becoming increasingly popular and residents now have a choice when acquiring their TV service. Without the public getting WYMT on satellite we are missing a lot of advertising opportunities as well as the public missing local news and announcements. I strongly support WYMT becoming available on both Dish Network and Direct TV.

Thank you for your consideration,

Joseph L. Grossman

March 8, 2017

To Whom It May Concern:

This letter is being provided in support of WYMT's application for satellite television.

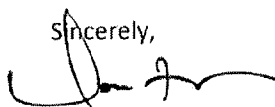

As a resident of Harlan County, and holding the position of Community CEO for Harlan Appalachian Regional Hospital, WYMT is the television station that everyone looks toward for their news, weather and information. WYMT plays a critical role in communicating all pertinent information to the citizens of our community.

Yes, there are other stations that occasionally provide information; however, WYMT is the television station that everyone looks toward. WYMT is the only station that has television reports for our area covering the news, weather and sports.

As I make hospital rounds each day, patients ask me about various healthcare programs which our organization does advertise at times on WYMT. Some of the patients are unable to access these because they have satellite services.

In closing, I wholeheartedly support WYMT having the ability to be on satellite television. If I can be of assistance in making this possible, please do not hesitate to contact this office.

Thank you!!

Sincerely,

Donnie Fields

To: Luke Minor
Subject: WYMT on satellite

To Whom it May Concern,

I understand that there is a possibility that WYMT could be available on satellite. I think this would be great for Southeastern Kentucky. Thanks to our beautiful environment, we have always been somewhat isolated from communication. I can remember as a child in the 60's having only 2 channels on tv; one from Virginia and one from Tennessee. Thanks to technology, we gradually had more and more news from outside, but still none from our area. Then WYMT came to be and it seemed like the station's number one mission was to serve our area with all kinds of news including weather that specifically helped us to know what was going on here. They have done a wonderful job, and I really can't imagine not having them to rely on for all kinds of critical knowledge about our changing local world. More and more folks are relying on satellite subscriptions for their tv feed, and unfortunately they lose WYMT coverage. Loss of any knowledge about our area is bad, and some missed coverage can even be deadly in times of dangerous weather and other disasters. WYMT supplies local news about politics, sports, school closings, consumer protection, health issues and many more items that help create and improve the culture of our area. It also allows business owners to advertise. Having access to all this information truly enriches the lives of those living in Southeastern Kentucky. I have been a small business owner for 41 years and have been very active in many efforts to improve the quality of life here in this special place. I feel that the role that WYMT has had in the past and will have in our future is crucial. Please help WYMT continue to do the great work that they do in keeping us all informed about our home. Please enable them to be available on satellite. Thanks, Mike Allison

To Whom It May Concern,

WYMT has been considered the local, mountain TV station for Eastern Kentucky for as long as I can remember. WYMT is a trusted source of local news, weather, and sports. However, with the rise of satellite TV many citizens, including myself, no longer have access to this trusted, local station. I personally know how frustrating it can be to only have access to stations based out of Knoxville, Tennessee, when you live in southeastern Kentucky. It is important for the citizens of eastern Kentucky to have access to our own trusted, local station, while still taking advantage of the benefits of satellite TV. I strongly encourage the leaders of the WYMT organization to take all means necessary to allow WYMT TV to be included in both Dish and DIRECTV packages. Sincerely,

ctourism@windstream.net

February 14, 2017

To Whom It May Concern;

It has been brought to our attention that WYMT has a possible opportunity of being added to satellite. This opportunity would be a great asset to our Harlan County location as well as South Eastern KY. Many of our local citizens have satellite such as Dish and Direct TV, even though they are marketed as you will receive your local news channels, they do not. The local news channel provided by Direct and Dish are Tennessee channels, which provides a dis-service to their customers. Events, breaking news, and weather alerts that take place on WYMT are unavailable to the community that does not have cable. This would also allow WYMT to have a larger marketing area and would provide their advertising customers a larger marketing range.

From a tourism perspective, we get many visitors to the area that bring their RV's and travel satellite dishes with them. This would allow the visitor to see announcements and news that would pertain to the location that they are visiting instead of news and weather taking place in another state. Our Tourist Commission is in support of WYMT being added to satellite and we feel that it will be an economic asset to South Eastern KY.

Thank You,

Tracy Bailey – Executive Director

To Whom It May Concern:

As the agency manager of Kentucky Farm Bureau in Harlan, Kentucky. I am pleased to discover the possibility of WYMT being offered on satellite television. This has the potential to have an immense effect on the viewers in our community. Presently, our satellite viewers are only offered a CBS station which is located in Knoxville, TN. Our viewers from our community as well as the region of eastern Kentucky would be much better served by WYMT which is located geographically in the middle of our region and is the only television station that gives coverage to eastern Kentucky.

In addition, as a manager of a business which operates in every county in the state of Kentucky. It is imperative that we have the ability to advertise and market our products with a television station that is covering a similar area.

I hope you accept my letter as a reference showing support for WYMT to be the CBS station which is offered to the viewers of eastern Kentucky by satellite television.

Sincerely,

A handwritten signature in dark ink, appearing to read "R. Fannin", with a long horizontal flourish extending to the right.

Roger Fannin, agency manager
Kentucky Farm Bureau
Harlan, KY

CITY OF HARLAN

March 7, 2017

To Whom It May Concern:

As Mayor of the City of Harlan, I cannot begin to tell you how excited I am about the possibility of WYMT finally being on satellite TV. WYMT is the news lifeline for our area. While other Knoxville and Lexington stations bleed over into the area, WYMT is the only station with reporters on the ground covering the news, weather and sports that are important to us in the City of Harlan and Harlan County. The other stations from Knoxville and Lexington carry very little news, weather and sports from our area, so this would be a great benefit to our citizens. I cannot emphasize strongly enough that we need WYMT on satellite TV, and I will be happy to assist this endeavor in any way I possibly can.

Sincerely,

Daniel E. Howard, Mayor
City of Harlan

LESLIE E. SMITH
SHERIFF

To Whom It May Concern:

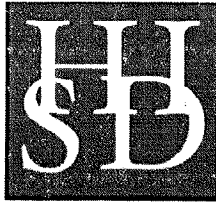

My name is Leslie Smith and I am presently serving as the Harlan County Sheriff. Prior to being elected sheriff I had the opportunity to serve 27 years with the Kentucky State Police, having spent the majority of that time serving in Harlan, Bell and Knox Counties. Over these past several years I have worked closely with the staff at WYMT in an effort to keep our citizens informed about numerous issues. I recently learned that WYMT is seeking to be viewed on satellite television. Speaking from a police officer's perspective, I would certainly like to see this come to fruition. WYMT has always been very active in reporting on stories that concern the safety of the citizens in the areas it covers. They have always been supportive of police agencies in their efforts to inform our citizens about issues such as wanted persons, escapees, etc. In fact, other than a very limited amount of coverage from neighboring stations, WYMT is the only televised news station providing coverage in our region. Over the past several years many of the citizens in this region have switched over to satellite service for many different reasons. From a public safety perspective it is obviously advantageous to reach as many people in a given geographical area as possible. I feel that it would be a great service to the citizens in Harlan and surrounding counties if they were able to view WYMT from a satellite provider.

Sincerely,

A handwritten signature in cursive script, appearing to read "Leslie E. Smith".

Leslie E. Smith

HARLAN, KY 40831

Friday, March 10, 2017

To Whom It May Concern:

As the Superintendent of the Harlan Independent School District, I would like to express my desire to see WYMT programming made available to satellite companies. WYMT is the primary news source for our region and has served our community at the highest level. Our school community has grown accustomed to relying on WYMT for programming and is the first line of communication for all things related to school announcements.

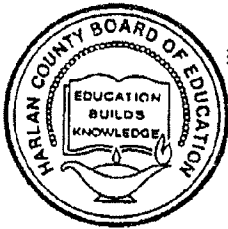

As many struggling families search for more affordable cable television options the eventually turn to providers like Dish Network or Direct TV. In doing so, they must sacrifice the programming such as WYMT. I would like encourage those involved to strongly consider the addition of WYMT to the programming options for satellite television as it has a direct impact on the school community.

Sincerely,

Charles D. Morton

Fax (606) 573-5767

March 9, 2017

Dear Sir/Madam:

On behalf of the Harlan County Board of Education, I wish to encourage your support for making it possible for our residents to benefit from the WYMT broadcasts on satellite TV.

This is a service tremendously needed in our rural community. By doing so, it will make it possible for WYMT to be available to our students, parents and the entire community. Currently, the viewership is limited depending on the community in which you live and whether or not you are serviced by cable.

In rural Harlan County, many areas lack adequate cable services. WYMT is considered our local station that our community turns to in times of severe weather and other urgent news situations. One immediate benefit to all our students and families would be access to school closing announcements that occur due to storms or other adverse weather conditions.

Our county is located in the station's Cumberland Valley bureau which provides a heavy news presence for our people who have access to cable. Emergency information in times of disaster is needed quickly. WYMT provides an excellent resource for this. Sadly, many in our county simply do not have access to local media outlets, leaving them vulnerable by being uninformed on urgent situations.

Please feel free to contact me if I can offer you additional comment to support the effort. WYMT is a vital link for the people in the Eastern Kentucky coalfields.

Thank you

T. Michael Howard
Superintendent

HARLAN DISTRICT COURT

March 13, 2017

To Whom It May Concern:

I have recently been informed of the possibility that WYMT may be played on satellite television. This is very exciting news for our community and I, personally, hope that this possibility becomes a reality. WYMT covers various news stories here in our county by reporters who travel here for a firsthand account of those news and sports stories. Other stations in Lexington and Knoxville may cover some of those stories but not with the content and information that is provided by WYMT. I myself have DISH satellite and they do not offer WYMT TV and I feel "left out of the loop" on local news and sports as do others in our county who have satellite television. There is a need for WYMT to be on satellite TV here in Harlan County and there is an audience awaiting such to happen. If I may assist you in any way, please feel free to contact me.

Sincerely,

Wendy Flanary

Harlan Circuit Court Clerk

THE GLOBAL MISSION OF THE CABLE CENTER HAS SPECIAL MEANING FOR ME.

I have been working with the National Cable Television Center and Museum for more than a decade. From my perspective, it is now poised and positioned to realize its potential to provide service to the cable and telecommunications industries. As the center prepares to break ground for its exciting relocation to Denver, CO, it will provide a showcase for the industry's past, and a forum for the future. Please join me and Communications Equity Associates in supporting the Center and our industry.

*J. Patrick Michaels
President, CEO
Communications Equity Associates*

For information on the center or the capital campaign please contact Beverly O'Brien @ 303.871.4885

2200 South Josephine Street Denver, CO 80208 telephone 303.871.4885 fax 303.871.4514
