To whom it may concern:

Chickasaw Telecom is submitting a petition for reconsideration.

We as the service provider submitted all of our invoices within the invoicing deadline (Aug 2016). We received the funds from USAC on October 2016. However, the services (Cisco Base SW) on FRN 2881878 were inadvertently invoiced to FRN 2784348.

To be in compliance, we returned the funds back to USAC to correct the mistake. However, the last date to invoice for FRN 2881878 was 2/27/17- Because we did not know of this mistake until 8/25/2017- we were not able to resubmit our invoice to the correct FRN within time.

Please reconsider the decision. We have done all the necessary steps to be in compliance and cannot re-invoice to the correct FRN unless the last day to invoice is updated. We will be out \$14,545.44 for services, which will be a big hit to our company.

For any questions or concerns, please contact me at (405) 945-9546.

Thank you,
