*Re: Request for Extension of Special Temporary Authority to Deliver
Programs to Foreign Broadcast Station XEWW-AM, Rosarito, Baja
California Norte, Mexico*

Dear Ms. Dortch:

On July 24, 2018, the Commission granted GLR Southern California, LLC (“Authorization Holder”) Special Temporary Authority (“Current STA”) in FCC File No. 325-STA-20180710-00002 to deliver cross-border transmissions of broadcast programs to AM station XEWW in Rosarito, Baja California Norte, Mexico (the “Station”) pursuant to Section 325(c) of the Communications Act of 1934, as amended, and Section 25.120 of the Commission's rules. The Current STA became effective July 25, 2018 and will continue during the period which the Commission is processing Authorization Holder's application for regular authority (“Underlying Application”)¹ or 180 days, whichever comes first. The Underlying Application was filed on June 14, 2018 and remains pending as of the date of this filing. This request for extension is submitted in the event that the underlying Application is not granted within the 180 day period (as may be extended by the FCC policies that apply to authorizations expiring during the partial government shutdown. *See*, Public Notice, Impact of Potential Lapse in Funding of Commission Operations, DA 19-10 (released January 2, 2019) (where, at Page 4, the Commission stated “Any STA expiring during the suspension of regular operations are extended to the day after regular Commission operations resume.”) To ensure the continued ability of the Station to continue broadcast programming to listeners in the Los Angeles area during the period in which the Commission considers the Underlying Application, Authorization Holder hereby requests that the Commission extend the Current STA for so long as the Underlying Application remains pending. Extension of the Current STA will preserve the status quo and allow Authorization Holder to continue to deliver programming to the Station while the Commission considers the Underlying Application.

Extending the Current STA serves the public interest by enabling the Authorization Holder to continue to deliver Mandarin language programming to the Station, whose signals are consistently received in southern California. This, in turn, enables will allow more than 100,000 Mandarin-speaking potential listeners in the Los Angeles metro listening area to continue to hear

¹ *See*, FCC File No. 325-NEW-20180614-00001 (filed June 14, 2018).

Ms. Marlene Dortch, Secretary

Mandarin language programming at no cost. The extension of the STA preserves the current service received by these listeners while the Underlying Application is being processed.

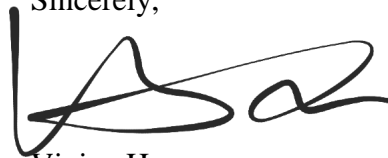

The Commission has previously determined that the Station is eligible to receive programming from U.S. entities and has concluded that the Station is operating within its operating parameters and does not cause unlawful interference.²

As noted in the Underlying Application, the Station is currently licensed to W3 Comm Concesionaria, S.A. de C.V. ("W3 Comm Concesionaria"). Authorization Holder currently owns 49.00% of the issued and outstanding shares in W3 Comm Concesionaria and 99% of the equity of W3 Comm Inmobiliaria, S.A. de C.V. ("W3 Comm Inmobiliaria") which holds the operating assets of the Station in Mexico. Authorization Holder provides programming to the Station pursuant to a Station Programming and Sales Agreement dated January 25, 2006 ("Programming Agreement"), a copy of which is currently on file with the Commission.

There have been no changes in the technical operating parameters of the Station into the United States since 2007 when the Original Permit was granted (which includes the period since the Current STA has been in effect). W3 Comm Concesionaria remains the Authorization Holder of the Station and W3 Comm Inmobiliaria continues to own the Mexican operating assets.

Should you have any questions regarding this matter, please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read 'V. Huo', with a stylized flourish at the end.

Vivian Huo
President
