Petition of Resource Training & Solutions for Waiver of FCC Form 471 Deadlines

I am hereby petitioning to have the FCC waive the deadline for filing the FCC Forms 471 #161062100 and #161062060. These forms were filed and certified 11/17/2016 and I received the message from the USAC that the funding for these would be prioritized after all timely submitted applications. I tried to follow up several times with no success until I received the USAC response on 1/11/2018 saying that I needed to receive an approved FCC waiver of the form 471 deadline for them to continue to process my applications.

We are a small organization and all of us here wear many hats. Responsibility for filing for e-rate funding fell to me but I only have time to focus on the process a few times each year. I had a great deal of confusion with the transition from the USAC old reporting system to their new system which resulted in my filings being certified outside the filing window. Receiving the funding through the Schools and Libraries Program means a great deal to our organization.

Please forgive my errors and ignorance and approve a waiver of the filing deadline for my Forms 471 # 160062100 and 471 # 161062060.

Respectfully submitted,

Resource Training & Solutions
