EPIC CPNI Order Actions

- **Carrier Authentication Requirements.** We prohibit carriers from releasing call detail information to customers during customer-initiated telephone contact except when the customer provides a password. If a customer does not provide a password, we prohibit the release of call detail information except by sending it to an address of record or by the carrier calling the customer at the telephone of record. We also require carriers to provide mandatory password protection for online account access. However, we permit carriers to provide CPNI to customers based on in-store contact with a valid photo ID.
- **Notice to Customer of Account Changes.** We require carriers to notify the customer immediately when a password, customer response to a back-up means of authentication for lost or forgotten passwords, online account, or address of record is created or changed.
- **Notice of Unauthorized Disclosure of CPNI.** We establish a notification process for both law enforcement and customers in the event of a CPNI breach.
- **Joint Venture and Independent Contractor Use of CPNI.** We modify our rules to require carriers to obtain opt-in consent from a customer before disclosing a customer's CPNI to a carrier's joint venture partners or independent contractors for the purposes of marketing communications-related services to that customer.
- **Annual CPNI Certification.** We amend the Commission's rules and require carriers to file with the Commission an annual certification, including an explanation of any actions taken against data brokers and a summary of all consumer complaints received in the previous year regarding the unauthorized release of CPNI.
- **CPNI Regulations Applicable to Providers of Interconnected VoIP Service.** We extend the application of the CPNI rules to providers of interconnected VoIP service.
- **Enforcement Proceedings.** We require carriers to take reasonable measures to discover and protect against pretexting, and, in enforcement proceedings, will infer from evidence of unauthorized disclosures of CPNI that reasonable precautions were not taken.
- **Business Customers.** In limited circumstances, we permit carriers to bind themselves contractually to authentication regimes other than those adopted in this Order for services they provide to their business customers that have a dedicated account representative and contracts that specifically address the carrier's protection of CPNI.
