Ms. Marlene H. Dortch  
Secretary  
Federal Communications Commission  
445 12<sup>th</sup> Street, SW  
Washington, DC 20554

**Re: Public Notice of Network Change(s), 47 C.F.R. §§51.325 – 51.335**  
**Copper Retirement Under Rule 51.333 (ATT20181224C.1)**

Dear Ms. Dortch:

Pursuant to the requirements of the standing Force Majeure Waiver,<sup>1</sup> Pacific Bell Telephone Company d/b/a AT&T California (AT&T) hereby submits this Public Notices of Copper Retirement Under Rule 51.333 (**ATT20181224C.1**). AT&T declared a Force Majeure in the state of California because of the multiple wildfires that erupted in the fourth quarter of 2018.

The wildfires negatively impacted AT&T's ability to perform at normal response intervals, delayed installation, and repair functions, and as a result standard due dates may not be applicable during the Force Majeure period. However, consistent with normal business practices and to the extent possible given the conditions, AT&T California will conduct operations during this Force Majeure event in a nondiscriminatory manner, including performing all restoration and repair activities.

A description of the network change is attached and is also available online.

---

<sup>1</sup> In the event of disasters that prompt the triggering of a disaster recovery plan, the Commission granted AT&T a limited waiver (of up to 180 days) of the advanced notification and waiting period requirements contained in its network disclosure rules (47 C.F.R. § 51.325-335), permitting affected carriers to concentrate on restoration efforts and execution of disaster recovery plans. See Petition of BellSouth Corporation for Special Temporary Authority and Waiver to Support Disaster Planning and Response, Order 21 FCC Rcd 6518 (2006) ("Force Majeure Waiver"). This waiver became operative when AT&T invoked its Disaster Relief Plan on November 8, 2018.

<u>NUMBER</u>	<u>TYPE OF CHANGES PLANNED</u>	<u>LOCATION OF CHANGE</u>
<b>ATT20181224C.1</b>	<b>Pacific Bell Telephone Company d/b/a/ AT&amp;T California</b> is providing notice that it is retiring metallic copper feeder facilities to specific distribution areas due the Camp Wild Fire that destroyed telephone facilities in a portion of the Chico Main Wire Center, CHICCA01, 518 West 4th Street. New technology is to be provisioned due to excessive damage. Copper cables will be removed and replaced with fiber-based pair gain infrastructure. Planned changes include transferring all copper loop services in CHICLCA01, DA's 214350, and 219050 to fiber-fed pair gain systems.	<b>Chico, CA</b>

This copper retirement notice is also available at: <https://ebiznet.att.com/networkreg/>

Should you have any questions, please do not hesitate to contact me at (202) 457-2164.

Sincerely,

Victoria Carter-Hall

## **CERTIFICATION OF PUBLIC NOTICE OF COPPER RETIREMENT UNDER RULE 51.333**

I, Richard R. Hatch, do hereby certify that on **January 9, 2019** (a minimum of five business days prior to this filing), I caused the **Pacific Bell Telephone Company d/b/a/ AT&T California** listed on the attached Copper Retirement Public Notice of Network Change to be served via U.S. Mail or e-mail at the other service provider's preference, upon each known provider of telephone exchange service that interconnects directly with **Pacific Bell Telephone Company d/b/a/ AT&T California** in the applicable area(s). Attached are the names and addresses of Interconnectors who were served.

Richard R. Hatch  
Area Manager - Network Regulatory  
Telephone: (479) 253-7675      Date: 1/17/19

The Public Notice(s) can also be obtained on the Internet at:

Public Notice Available on the internet at: <https://ebiznet.att.com/networkreg/>

Implementation Date: On or after December 31, 2018

### Description of Planned Network Changes:

**Pacific Bell Telephone Company d/b/a/ AT&T California** is providing notice that it is retiring metallic copper feeder facilities to specific distribution areas due the Camp Wild Fire that destroyed telephone facilities in a portion of the Chico Main Wire Center, CHICCA01, 518 West 4th Street. New technology is to be provisioned due to excessive damage. Copper cables will be removed and replaced with fiber-based pair gain infrastructure. Planned changes include transferring all copper loop services in CHICLCA01, DA's 214350, and 219050 to fiber-fed pair gain systems.

### Description of Reasonably Foreseeable Impact of the Planned Changes:

After this Plan is implemented and work is completed, metallic feeder facilities from the Central Office to the affected area will no longer be available. Unbundled loops that are defined as compatible with Digital Loop Carrier (DLC), e.g., those defined to transport POTS-grade service, will be transferred without consequence. There are presently 76 impacted addresses in these two DA's, and the 32 working services at these addresses are being migrated to fiber-fed DLC so none will be impaired. The 76 impacted addresses are in the attached document. **There are no known CLEC circuits impacted by this project.**

It should be noted that if a competitive carrier obtains an unbundled loop that has been defined to transport POTS-grade service, but then utilizes this loop to provide DSL service, AT&T will have no knowledge of the presence of DSL. In such a case, AT&T has no basis to notify the carrier and the ability of the competitive carrier to provide DSL service may be affected.
