

PEOPLES RURAL TELEPHONE COOPERATIVE CORPORATION, INC.
P.O. Box 159 McKee, KY 40447 606-287-7101

ANNUAL 47 C.F.R § 64.2009(e) CPNI CERTIFICATION

Calendar Year 2018

EB Docket No. 06-36

Date signed: January 22, 2019

Companies covered by this certification: 499 Filer ID

Peoples Rural Tel. Coop. Corp. **801810**

Peoples Telecom, LLC **831464**

Name of signatory: **Keith Gabbard, CEO / General Manager**

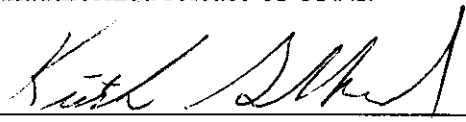

I, Keith Gabbard, CEO / General Manager, certify that I am an officer of the affiliated companies named above (collectively and individually "Company"), and acting as an agent of the company, that I have personal knowledge that the company has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules. *See 47 C.F.R. § 64.2001 et seq.*

Accompanying this certification is a statement explaining how the company's procedures ensure that the company is in compliance with the requirements set forth in section 64.2001 *et seq.* of the Commission's rules.

The company has not taken any actions (proceedings instituted or petitions filed by a company at either state commissions, the court system or at the Commission) against data brokers in the past year. Companies must report on any information that they have with respect to the processes pretexters are using to attempt to access CPNI, and what steps companies are taking to protect CPNI.

The company has not received any customer complaints in the past year concerning the unauthorized release of CPNI.

Signed

Keith Gabbard, CEO / General Manager

STATEMENT OF FCC CPNI RULE COMPLIANCE

This statement serves to explain how Peoples Rural Tel. Coop. Corp., Inc. and its affiliated company listed above (collectively and individually "Company"), is complying with Federal Communications Commission ("FCC") rules related to the privacy of customer information. The type of information for which customer privacy is protected by the FCC's rules is called "customer proprietary network information" ("CPNI"). The FCC's rules restricting telecommunications company use of CPNI are contained at Part 64, Subpart U of the FCC's rules (47 C.F.R. § 64.2000-2011).

1. Duty to Protect CPNI

We recognize our duty to protect customer CPNI. We may not disclose CPNI to unauthorized persons, nor may we use CPNI in certain ways without consent from our customers. Before we can provide customers with their own CPNI, we must authenticate the customer.

We recognize that there are a few cases in which we can disclose CPNI without first obtaining customer approval:

- i. Administrative use: We may use CPNI to initiate, render, bill and collect for communications services.
- ii. Protection of carrier and third parties: We may use CPNI to protect the interests of our company, such as to prevent fraud or illegal use of our systems and network. Employees are notified of the steps to take, if any, in these sorts of situations.
- iii. As required by law: We may disclose CPNI if we are required to by law, such as through legal process (subpoenas) or in response to requests by law enforcement. Employees are notified of any steps they must take in these situations.

2. Our Use of CPNI in Marketing

The Company does not use CPNI for marketing purposes except in the following circumstances:

- i. to market services to our existing customers within the categories of service to which the customer already subscribes.
- ii. to market "adjunct-to-basic" services; and
- iii. to provide CPE and call answering, voice mail or messaging, voice storage and retrieval services, fax store and forward, and protocol conversion.

For marketing purposes for which use of CPNI would otherwise require permission from the Customers, the Company uses only Customer billing name and address and/or telephone number without any segregation or refinement based on CPNI. On inbound and administrative calls, however, the Company may utilize CPNI in its sales and marketing efforts by first requesting permission to do so pursuant to §64.2008(f). In

those cases, the Company recognizes that permission to use CPNI ends when the call terminates and the Customer is fully informed that he may refuse the permission.

We regularly review our marketing practices to determine when, how and if CPNI is used within the Company to insure that we remain in compliance with the FCC's CPNI regulations and with our policy as described here in. In the unlikely event that the Company decides to modify its policies for use of CPNI, it will insure that its new policy fully complies with FCC CPNI rules including, but not limited to, tracking and Customer notice provisions contained in §64.2008-2009.

3. Authentication Prior to Disclosure of CPNI

We understand that we are required to determine that any request for CPNI will not be released without authenticating the authority of the requestor to receive such information.

We understand that when a customer calls, we may not release CPNI until we have authenticated the release of the information to the requestor in one of the following ways:

- i. By calling the customer back at the telephone number associated with the communications service;
- ii. By mailing the information to the address of record;
- iii. By releasing it in person following authentication via a valid government-issued photo identification at our office;
- iv. For those customers who have chosen to do so, over the phone following the disclosure of a password.

4. Employee Issues

All of our employees were trained regarding the company's CPNI policies prior to the effective date of the most recent CPNI regulations, December 8, 2007. To maintain compliance with FCC rules after December 8, 2007, the Company developed a manual and identified a compliance officer to address any CPNI-related issues that may arise. The Company has established procedures and trained employees having access to, or occasion to use customer data, to identify what customer information is CPNI consistent with the definition of CPNI under the FCC's revised CPNI rules.

The Company has implemented a training procedure for all new hires and contractors regarding the Company's practices regarding CPNI.

In addition, the Company has in place an express disciplinary process to address any unauthorized use of CPNI where the circumstances indicate authorization is required under the FCC's CPNI rules.

5. Notifications to Customers

We provide a CPNI privacy policy to all customers annually. This policy includes our duty to protect their CPNI and a statement that we do not disclose CPNI to any third parties or use CPNI without their express permission to do so. We also inform them of our requirements for authenticating them prior to disclosing CPNI to them in any way.

We notify customers when changes have been made to passwords, customer responses to back-up means of authentication (if implemented), addresses of record and

authorized users by mailing a notification to the account address of record. The notice does not contain information regarding the changes.

6. Record-Keeping

We maintain the following records in our files for at least two years:

- i. Records relating to the annual mailing of the customer CPNI privacy policy;
- ii. Employee disciplinary records, if applicable; and
- iii. If applicable: 1) records of discovered CPNI breaches 2) notifications to law enforcement regarding breaches, and 3) any responses from law enforcement regarding those breaches.

7. Unauthorized Disclosure Of CPNI

We understand that we must report CPNI breaches to law enforcement no later than seven (7) business days after determining the breach has occurred, by sending electronic notification through the link at <http://www.fcc.gov/eb/CPNI/> to the central reporting facility, which will then notify the United States Secret Service (USSS) and the Federal Bureau of Investigation (FBI).

We understand that we may not notify customers or the public of the breach earlier than seven (7) days after we have notified law enforcement through the central reporting facility. If we wish to notify customers or the public immediately, where we feel that there is "an extraordinarily urgent need to notify" to avoid "immediate and irreparable harm," we inform law enforcement of our desire to notify and comply with law enforcement's directions.

During the course of the year, we compile information regarding pretexter attempts to gain improper access to CPNI, including any breaches or attempted breaches. We include this information in our annual CPNI compliance certification filed with the FCC.

Signed:

Keith Gabbard, CEO / General Manager
