REPORT OF THE CTIA SPECTRUM CLEARINGHOUSE, LLC

The CTIA Spectrum Clearinghouse, LLC hereby submits its semi-annual report for the period covering July 1, 2017 through December 31, 2017, pursuant to the ordering clauses of the Federal Communications Commission's ("FCC" or "Commission") *Clearinghouse Selection Order*.¹ Under paragraph 28 of the *Clearinghouse Selection Order*, "reports must include an update on the number of links relocated, the amounts paid to relocate these links, updated cost and revenue projections, and any adjustments to existing fee structures."² The CTIA Spectrum Clearinghouse, LLC provides this requested information below, as well as a brief discussion of the status of its operations.

¹ Amendment of Part 2 of the Commission's Rules to Allocate Spectrum Below 3 GHz for Mobile and Fixed Services to Support the Introduction of New Advanced Wireless Services, including Third Generation Wireless Systems and Service Rules for Advanced Wireless Services In the 1.7 GHz and 2.1 GHz Bands, 22 FCC Rcd 4680 (2007) ("*Clearinghouse Selection Order*").

² *Id.* at ¶ 28.

During the first six months of 2017, the CTIA Spectrum Clearinghouse, LLC received no new relocation notifications for cost-sharing. Thus, the aggregated total registrations for the CTIA Spectrum Clearinghouse, LLC during this period are as follows:

CTIA SPECTRUM CLEARINGHOUSE, LLC DATA As of December 31, 2017		
Category	Totals 7/1/17 – 12/31/17	Lifetime Totals*
Links Relocated	0	1754
Aggregate Amount Paid	\$0	\$324,474,720
Average \$/Link	\$0	\$184,991

* A number of relocation registrations filed prior to the current period have been modified and the lifetime totals reflect all changes.

During this period, the CTIA Spectrum Clearinghouse, LLC identified several new cost-sharing instances totaling over \$11.8 million dollars of reimbursement opportunities and notified the affected licensees accordingly. The CTIA Spectrum Clearinghouse, LLC has not made any adjustments to its fees for services during this period and continues to refine its budget and projections for operations.

As the Commission is aware, the requirement that AWS-1 licensees participate in cost-sharing for incumbent relocations in the 1.7 GHz and 2.1 GHz band terminated on November 29, 2016, more than one year ago.³ It has therefore been over one year since the last Prior Coordination Notice (“PCN”) could have triggered a cost-sharing obligation for an AWS-1 licensee, and similarly over a year since the deadline for submitting Fixed Microwave Service (“FMS”) relocations to the clearinghouse to qualify for cost-sharing. Accordingly, CTIA notified its users at the end of December, 2017, that it would cease support for cost-sharing benefits related to AWS-1 FMS relocations on January 31, 2017. Users were advised to download any remaining records they needed from the CTIA Spectrum Clearinghouse website

³ 47 C.F.R. 27.1174; *Amendment of Part 2 of the Commission’s Rules to Allocate Spectrum Below 3 GHz for Mobile and Fixed Services to Support the Introduction of New Advanced Wireless Services, including Third Generation Wireless Systems*; Ninth Report and Order and Order, 21 FCC Rcd 4473, 4506 ¶ 60 (2006).

and that the interfaces for filing PCNs and FMS relocations would no longer be available after that date. CTIA will archive its records related to AWS-1 cost sharing, but the records will no longer be available on demand. CTIA notes that there are currently no active disputes or other matters that would be affected by the cessation of AWS-1 cost-sharing activities and it received no objections to its proposed timeline for ceasing AWS-1 cost-sharing support.

The CTIA Spectrum Clearinghouse, LLC believes that its products and services have provided AWS licensees, incumbents, and other interested parties an efficient, cost-effective benefit for administering AWS cost-sharing.

Respectfully submitted,
