Federal Communications Commission
Office of the Secretary

RE: *Connect America Fund*, WC Docket No. 10-90

DOCKET FILE COPY ORIGINAL

Dear Chairman Pai,

Please find enclosed a letter from thirty-seven rural Iowa telecommunications companies requesting an increase in funding for the participants of the Alternative Connect America Model (A-CAM). This requested funding for the A-CAM plan will allow for a dramatic increase in broadband connectivity for the rural Iowan consumers who need it most.

I respectfully ask that you consider their concerns and take action before the end of the year to fund the A-CAM plan accordingly so that the opportunities and benefits that stem from broadband access can be enjoyed by more people who live in rural Iowa. I would also ask that you evaluate providing additional support for other universal service mechanisms to help better connect the people of Iowa.

Thank you for your time and attention to this crucial matter. If you or your staff have any questions, please contact Scott Stockwell from Representative Loeb'sack's staff at (202)-225-6576 or scott.stockwell@mail.house.gov.

Sincerely,

Dave Loeb'sack
Member of Congress

Re: Ex Parte Communication, *Connect America Fund*, WC Docket No. 10-90

Dear Ms. Dortch:

The 37 undersigned Iowa rural telecommunications companies¹ ("Iowa A-CAM Companies") representing 45 study areas respectfully request the Federal Communications Commission ("Commission") to allocate additional funding up to \$200/month per eligible customer location for all companies nationwide that voluntarily elected universal service funding under the Alternative Connect America Fund ("A-CAM") model. In fact, Iowa is the state with the largest number of A-CAM-electing companies in the country, and the Iowa A-CAM Companies are already well under way with their deployment plans to meet the obligations laid out by the Commission.

Allocation of funding up to \$200/month per eligible location will reduce the locations designated "reasonable request" by 3,578 locations to only 2,632 locations. Furthermore, because of this funding, 2,615 additional locations in the state will receive service at 25/3 Mbps, while 2,453 additional locations will have increased service of at least 10/1 Mbps.

The Iowa A-CAM Companies point out that the Commission has already supported as Commission public policy A-CAM funding at \$200/month per location in the original rate-of-return carriers' reform order.² Such an increase in funding will require no additional policy determinations by the Commission. Moreover, A-CAM Companies will be required to accept the additional buildout obligations under the conditions of the Order and Further Rulemaking issued in December 2016 should the Commission act by the end of 2017.³

¹ The Iowa A-CAM Companies are listed in Attachment A.

² *Connect America Fund; ETC Annual Reports and Certifications; Developing a Unified Intercarrier Compensation Regime*, WC Docket Nos. 10-90 *et. Al.*, Report and order and Order on Reconsideration and Further Notice of Proposed Rulemaking, FCC 16-33 (rel. March 30, 2016).

³ *Connect America Fund*, WC Docket No. 10-90, Report and Order and Further Notice of Proposed Rulemaking, FCC 16-178 (rel. Dec. 20, 2016).

Ms. Marlene Dortch

Granting of A-CAM funding at \$200/month per location will also result in a prudent use of the Commission's budget by enabling companies to design their networks in a more efficient manner at the outset without costly redesign. In addition, the costs of deploying broadband technology initially are less than the costs of installing interim solutions that will need to be replaced later.

On behalf of the thousands of customers they serve, the Iowa A-CAM Companies urge the Commission to act expeditiously and fund the A-CAM model at \$200/month per eligible location by December 31, 2017.

Sincerely,

The Iowa A-CAM Companies

Cc: Chairman Ajit Pai
Commissioner Mignon Clyburn
Commissioner Michael O'Rielly
Commissioner Jessica Rosenworcel
Commissioner Brendan Carr
