**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need competition in broadband services. Where I live prices from the two large providers are high for network speeds that are low compared to what's available in other areas. I want competition in broadband to prevent price hikes, and improve service. I need broadband to be able to do my work from home, take advantage of streaming services, and to backup my business and personal data.

Also, I am using a landline through a local provider. I want the copper infrastructure to be maintained.
