FCC Form 470 Does not Support the Request

## Issue

USAC's Program Integrity Assurance (PIA) team is currently reviewing your FCC Form 471 application, and we have identified an issue that we need you to help us resolve.

## What is the issue?

On your form, FRN 1899029763 cites FCC Form 470 180011508 that established the bidding for these services. This FRN is a request for purchased equipment but the referenced FCC Form 470 did not post for Internal Connections. This is an issue because you are required to competitively bid all services on which you are seeking E-rate discounts. (For reference, please read USAC's information on the competitive bidding process.)

Please read all of the questions, descriptions, and requests below. Please give enough detail, insight, and clarity to help the reviewers fully understand your specific situation.

Check the boxes for statements that apply, and where applicable, type the information requested into the text boxes. If your information is too detailed for the text box, or if you need to provide additional documentation, click "Browse" to upload relevant files or documentation.

## Question(s)

This page will timeout after an extended period of inactivity. Please periodically save your work using the 'Save & Close' button below. You may then use your browser's 'Back' button to return to your work.

## Your response to PIA's questions:

#	Question	Response
1	Is the FCC Form 470 mentioned above the correct FCC Form 470 for all the products and services requested in the FRN mentioned above?	No
a	If Yes, the charges associated with products not posted on your FCC Form 470 must be removed from the above-referenced FRN. On this FRN, \$36,021.00 is associated with the products not posted on your FCC Form 470. Would you like to remove these charges from the above-referenced FRN?	No
	If No, please provide the correct FCC Form 470 Number that was posted for the requested products and services.	180011508
2	If you would like to provide any additional information about these issues that have not been addressed above:	corrected narrative should be: "Internal connections consisting of switches, antennas, connectors and related components"
	Use the text box to type information, or upload additional documentation using the "Browse" button.

If you have any questions as you work through your responses to the review inquiries, please feel free to contact me via the phone number or e-mail address provided below. Please do not use e-mail to submit your responses to the review inquiries. USAC will not review responses sent to the reviewer's email address. All responses must be submitted in EPC. Again, please be sure to provide complete responses to all of the questions. If you need additional time to prepare your response, you may request an extension. Click the "Request Extension" button, located at the top of the "Review Inquiries" page in EPC. Your first extension request will be automatically granted, and you will receive an additional seven days to respond. Be sure to meet the response due date and provide all of the information requested, otherwise your funding may be reduced or denied.
