Re: NOTICE OF EX PARTE

WT Docket No. 17-79: *Accelerating Wireless Broadband Deployment by Removing Barriers to Infrastructure Investment;*

WT Docket No. 15-180: *Revising the Historic Preservation Review Process for Wireless Facility Deployment;*

WC Docket No. 17-84: *Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment*

Dear Ms. Dortch:

On January 26, 2018, Rebecca Murphy Thompson and I of Competitive Carriers Association (“CCA”)¹ met with representatives of the Federal Communications Commission’s (“FCC” or “Commission”) Wireless Telecommunications Bureau and Wireline Competition Bureau (collectively, “the Bureaus”) to discuss the above-referenced proceedings. A full list of meeting participants is below. CCA appreciates the opportunity to substantively address barriers to advanced broadband services deployment, and applauds the Bureaus’ work thus far to advance this mutual goal. CCA encourages the Bureaus to heed its recommendations on ways to streamline broadband deployment, particularly through ongoing coordination with Tribal Nations and state and local governments. In particular, CCA’s presentation was consistent with its comments filed in this proceeding.

¹ CCA is the nation’s leading association for competitive wireless providers and stakeholders across the United States. CCA’s membership includes nearly 100 competitive wireless providers ranging from small, rural carriers serving fewer than 5,000 customers to regional and national providers serving millions of customers. CCA also represents associate members including vendors and suppliers that provide products and services throughout the mobile communications supply chain.

This *ex parte* notification is being filed electronically with your office pursuant to Section 1.1206 of the Commission's rules. Please do not hesitate to contact me with any questions or concerns.

Respectfully submitted,

/s/ Courtney Neville
