Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20510

***Re: Notice of Ex Parte Communication, ET Docket No. 18-21, RM-11795***

Dear Ms. Dortch:

Attached, please find comments submitted by the mmWave Coalition to the National Telecommunications and Information Administration (“NTIA”) on January 22, 2019 in response to NTIA’s Request for Comments on development of a sustainable spectrum strategy (Docket No: 181130999-8999-01).

The attached comments describe policy recommendations that would facilitate technology development and services in spectrum bands 95 GHz and above, and thus are directly relevant to issues the Commission is considering in the above-captioned proceedings. The mmWave Coalition respectfully requests that the Commission consider the attached comments in its deliberations on policies that will unlock the promise of this important spectrum range.

Please contact the undersigned if you have any questions regarding this submission.

Respectfully submitted,

**mmWAVE COALITION**
