To Whom It May Concern:

Community Consolidated School District 64 (also known as Park Ridge-Niles School District 64) has used a majority of its E-Rate Category 2 allotment for the following items: wireless infrastructure upgrade in all 8 school buildings and administrative center; build out of a second Internet service to expand capacity; and improving the backup power supply in its MDFs and IDF's for critical services such as Voice over IP and network operations. The connectivity provided by these Category 2 items has improved the district's educational experience in implementing its 1:1 device initiative and in its overall operations of the district. The District plans to use the remaining funds to continue to make improvements to the network infrastructure, disaster recovery systems, and other network services.

Sincerely,

Mary Jane Warden

Director of Innovation and Instructional Technology
