1. The E-Rate's investment in Category 2 Wi-Fi and internal connections funding is extremely valuable and could not be replaced by school, district or state funds.
2. The over 200 schools and libraries that our consulting company supports has used a good portion of its E-Rate Category 2 allotment for wireless connectivity, network switches, firewalls, UPSs, cabling, and some caching servers. The connectivity provided by these Category 2 items has improved our library, school or district's educational experiences by making 1 to 1 possible and upgrading outdated infrastructures.
