Re: Engineering and Technology Docket No. 92-9

Dear Donna:

Pursuant to Section 1.1206 of the Commission's Rules, 47 CFR Section 1.1206 (1991), the Commission is notified hereby that on April 10, 1992:

Terry Haines, Chief of Staff;
Cheryl Tritt, Legal Advisor to the Chairman;
Robert Pepper, Chief, Office of Plans and Policy;
Robert Pettit, General Counsel;
Linda Townsend Solheim, Director, Office of Legislative
Affairs; and
Tom Stanley, Chief Engineer;

met with the individuals named on the attached list to discuss issues raised in the above-referenced docket. Diane Cornell of Commissioner Marshall's professional staff and representatives of Senators Danforth, Breaux, and Pressler also attended the meeting.

The discussion hosted by the Commission's staff was the third in a series of meetings with both existing users of the 2 GHz band and other interested parties. The meeting focussed on the Commission's proposals to create a spectrum reserve for emerging technologies in the 2 GHz band, and solicited the views of the invited individuals on ways that the Commission, the incumbent users, and potential new users of the 2 GHz band could work cooperatively to resolve the issues presented by the authorization of new technologies in that band.

The parties responded with a variety of questions about the Commission's proposals and suggestions for ways for the Commission to address the issues presented in this docket.
