6. Circumstances of Discontinuance.

Windstream provides the Affected Services throughout the Detroit metropolitan area. The Affected Services are provided on an end-of-life platform that is scheduled to be decommissioned on or about November 30, 2017. The discontinuance of the Affected Services will affect 396 small business customers and 68 enterprise business customers in Detroit, Michigan. Windstream will assist affected customers in migrating their services to Windstream's supported platform or upgrade to one of our more robust unified communications products.

These customers will not be unduly harmed because they are being provided ample notice of the discontinuance and are being offered alternative services to the ones being discontinued. Furthermore, customers have comparable options at comparable rates from other providers serving Detroit, including but not limited to AT&T, Spectrum and Michigan Access.

7. Conclusion

Windstream believes that the proposed discontinuance is reasonable and necessary. As outlined herein, Windstream will take reasonable steps, to the extent that is able, to assure that the discontinuance of this service is not unduly disruptive to the present or future public convenience and necessity. Accordingly, Windstream respectfully requests that the Commission permit it to discontinue the provision of the Affected Services to customers in Detroit, Michigan pursuant to Section 63.71.

IMPORTANT: Your Services for Account # Ending in «BENT_CAMS_ID» Will Be Impacted Unless Action is Taken Immediately

Dear «Customer_Name»,

Because your business matters to Windstream, we wanted to provide advance notification of some changes we are making to the location from which your current DS0/POTS services, DS0/DSL services and/or DS1/1.5Mb T-1 Voice, Data and Integrated services are provisioned.

The platform that currently supports these DS0/POTS services, DS0/DSL services and DS1/1.5Mb T-1 Voice, Data and Integrated services has reached the end of its useful life and will soon be decommissioned. As a result, Windstream customers in the Detroit, Michigan area will have these services retired on or about November 30, 2017.

This change will require action on your part in order to avoid service interruption. We apologize for any inconvenience, but would like the opportunity to discuss service options and timing with you to ensure a smooth and seamless transition.

To prevent a permanent service disruption, please contact Windstream as soon as possible to review available options. Failure to do so may result in permanent service termination or insufficient time to transition to a replacement service, with no immediate restoral options.

Windstream offers several next-generation business voice solutions to replace your current service. If you have not already spoken to a Windstream representative and do not have a transition plan in place, we encourage you to take action as soon as possible, but no later than October 31, 2017. If you would like to speak with us immediately, please call 800.347.1991.

The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the § 63.71 Application of Windstream Services, LLC. Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.

Again, we apologize for any inconvenience, and look forward to working with you on a solution that will meet your business needs today and into the future. Please visit windstream.com for additional information regarding all of our offerings.

Thank you for your prompt attention to this important matter.

Sincerely,
The Windstream Team
