**Re: Verizon Public Notice of Network Change(s), 47 C.F.R. §§51.325–51.335**  
**Copper Retirement ID No. 2018-04-A-VA**

Dear Ms. Dortch:

Pursuant to Sections 51.325 – 51.335 of the Commission’s rules, Verizon hereby submits the attached: Certification of Public Notice of Network Change under rule 51.329(a); Public Notice of Copper Retirement under rule 51.333; and Certification of Public Notice of Copper Retirement under rule 51.333. This filing is required in order to comply with an instruction from the Department of Engineering for the City of Newport News, VA (“City”) that Verizon re-locate all of its facilities that may be in conflict with planned municipal modifications in the area of Campbell Road. Verizon is hereby providing notification of the replacement of copper distribution and loop facilities with fiber-to-the-premises facilities at specified locations served from the Jefferson Road, VA wire center affected by the City’s Campbell Road project. Verizon must retire the copper facilities to approximately 155 addresses in the Jefferson Road, VA wire center before the City’s March 2019 construction start date. Upon completion, Verizon will provide services available over its fiber optic network.

Approximately nine customers with 13 circuits will be impacted by this copper retirement. The majority of customers are served by copper at these locations purchase “plain old telephone service.” Following the transition to fiber, Verizon will continue to offer these customers the same POTS over fiber at the same price as they received on copper facilities, with no change in the underlying features and functionalities in their service.

There may be one or more obsolete, narrowband services (such as certain DS0 level services) that are incompatible with or unavailable over fiber. If so, we will work closely with those customers to address their particular needs.

Please contact me should you need any further information.

Sincerely,

**CERTIFICATION OF PUBLIC NOTICE OF NETWORK  
CHANGE UNDER RULE 51.329(a)**

On October 9, 2018 (5 business days prior to FCC filing), the following Public Notice of Network Change has been made by Verizon pursuant to 47 C.F.R. §§ 51.325 – 51.335.

The Public Notice(s) may also be viewed on Verizon's website at:

**Description of the planned network change(s):**

Because of an instruction from the Department of Engineering for the City of Newport News, VA ("City") that Verizon re-locate all of its facilities that may be in conflict with planned municipal modifications in the area of Campbell Road, Verizon must retire the copper facilities to approximately 155 addresses in the Jefferson Road, VA wire center area. Verizon has deployed or plans to deploy its fiber-to-the-premises network in these areas and intends to provide services over a fiber network infrastructure. Updating our network from copper to fiber benefits our customers because of fiber's resiliency and reliability, especially in inclement weather. Fiber also provides our customers with expanded capabilities to grow with current bandwidth demands for their home or business.

**Description of reasonably foreseeable impact(s) of the planned change(s):**

After the retirement of the copper facilities, Verizon will: (1) no longer offer services over copper facilities; and (2) cease maintaining the copper facilities. To help ensure an orderly transition, Verizon may require customers and interconnecting entities to migrate services off of copper facilities well before the copper retirement implementation date.
