**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

It was a really great situation to be able to switch providers from the mega giant with poor customer service, policies, and performance over to the smaller local provider that gave us excellent customer service, great performance, and the best most-flexible rates.

I would hate to see this prime example of choice and competition in the marketplace constrained by forces outside of the normal consumer relationship with these companies. I believe it's the FCC's responsibility to ensure that an open market is able to thrive where people have the freedom to choose and the providers work hard to win their business in the appropriate ways, not winning the contracts based on restricted access.

Thank you for your consideration.
