RE: CC Docket No. 96-45/WC Docket No. 14-58, Annual State Certification of Support for Eligible Telecommunications Carriers Pursuant to 47 C.F.R. § 54.314

Dear Ms. Dortch:

Pursuant to the requirements of 47 C.F.R. § 54.314, the Indiana Utility Regulatory Commission (IURC) hereby certifies to the Federal Communications Commission and the Universal Service Administrative Company that the telecommunications carriers included in the attachment to this letter (Attachment A) are eligible to receive federal high-cost support for the program years cited.

The IURC certifies for the carriers listed that all federal high-cost support provided to such carriers within Indiana was used in the preceding calendar year (2016) and will be used in the coming calendar year (2018) only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.<sup>1</sup>

ORDER OF THE COMMISSION

**Presiding Officers:**

**David E. Ziegner, Commissioner**

**David E. Veleta, Senior Administrative Law Judge**

On May 23, 2001, the Federal Communications Commission ("FCC") issued an Order ("the FCC's RTF Order")<sup>1</sup> assigning state commissions the responsibility of certifying that rural carriers or competitive eligible telecommunications carriers ("ETCs") designated to receive high cost support in the service areas of rural carriers are using federal high-cost support in a manner consistent with the requirements of Section 254(e) of the Telecommunications Act of 1996. Pursuant to Section 254(e), carriers must use universal service support "only for the provision, maintenance, and upgrading of facilities and services for which the support is intended." The FCC's RTF Order provided that state certifications should be submitted by October 1 each year for payments to be made during the following calendar year. These requirements were modified on November 18, 2011, in the FCC's comprehensive order reforming the federal universal service fund and intercarrier compensation system, the USF-ICC transformation order ("USF/ICC Order").<sup>2</sup> The FCC updated and extended the federal annual reporting requirements to all ETCs. Furthermore, the USF/ICC Order continues to require states to certify all state designated ETCs are eligible to receive federal high-cost support for the upcoming year and specified these requirements in its regulations in 47 C.F.R. §§ 54.313 and 54.314. If a carrier is not certified by its state commission, it will not receive federal high-cost support. Thus, we opened this proceeding for the purpose of completing the 2017 FCC ETC recertification process.

Upon reviewing the completed applications, the Commission now finds that the applications that have been submitted by the applicants listed in Attachment A demonstrate the requisite compliance with the requirements of Section 254(e) of the Telecommunications Act of 1996, as interpreted by the FCC's RTF Order, USF-ICC Order, related FCC Orders and regulations, and this Commission's August 22, 2001 Order. More specifically, based on the
