AERONAUTICAL STUDY
No: 90-ASO-2487-OE

Type Structure: ANTENNA TOWER 95.7MHZ/6KW

The Federal Aviation Administration hereby acknowledges receipt of notice dated 12/18/90 concerning the proposed construction or alteration contained herein.

A study has been conducted under the provisions of Part 77 of the Federal Aviation Regulations to determine whether the proposed construction would be an obstruction to air navigation, whether it should be marked and lighted to enhance safety in air navigation, and whether supplemental notice of start and completion of construction is required to permit timely charting and notification to airmen. The findings of that study are as follows:

The proposed construction would not exceed FAA obstruction standards and would not be a hazard to air navigation. However, the following applies to the construction proposed:

The structure should be obstruction marked and lighted per FAA Advisory Circular AC 70/7460-1, 'Obstruction Marking and Lighting'. CHAPTERS: -3 -4 -5 -6 -7 -8 -9.

Supplemental notice is required at least 10 days before the start of construction and within five days after construction reaches its greatest height (use the enclosed FAA form).

This determination expires on 07/30/91 unless application is made, (if subject to the licensing authority of the Federal Communications Commission), to the FCC before that date, or it is otherwise extended, revised or terminated.

If the structure is subject to the licensing authority of the FCC, a copy of this acknowledgement will be sent to that Agency.

NOTICE IS REQUIRED ANYTIME THE PROJECT IS ABANDONED OR THE PROPOSAL IS MODIFIED
