Re: CC Docket No. 96-45/WC Docket No. 14-58, Annual State Certification of Support for Eligible Telecommunications Carriers Pursuant to 47 Code of Federal Regulations ("C.F.R.") Section 54.314

Dear Ms. Dortch and USAC's Vice President of the High Cost Division:

Pursuant to the requirements of 47 C.F.R. § 54.314, the Public Utilities Commission of the State of Hawaii hereby certifies to the Federal Communications Commission and the Universal Service Administrative Company that Hawaiian Telcom, Inc. ("HTI") is eligible to receive federal high-cost support for the program years cited.

The Public Utilities Commission of the State of Hawaii certifies for HTI that all federal high-cost support provided to HTI within Hawaii was used in the preceding calendar year (2016) and will be used in the coming calendar year (2018) only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.¹ See the enclosed D&O No. 34841.

Pursuant to the requirements of 47 C.F.R. § 54.314, the Public Utilities Commission of the State of Hawaii also hereby certifies to the Federal Communications Commission and the Universal Service Administrative Company for Coral Wireless, LLC ("Coral") that all federal high-cost support provided to Coral within Hawaii was used in the preceding calendar year (2016)

¹47 C.F.R. § 54.314(a) ("Certification. States that desire eligible telecommunications carriers to receive support pursuant to the high-cost program must file an annual certification with the Administrator and the Commission stating that all federal high-cost support provided to such carriers within that State was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended. High-cost support shall only be provided to the extent that the State has filed the requisite certification pursuant to this section").

DECISION AND ORDER

The objective of this docket is for the commission to:

(1) determine whether the eligible telecommunications carrier ("ETC") Parties¹ have each sufficiently complied with the annual ETC certification requirements pertaining to the provision of certain reports established by the commission in Decision and Order No. 30932, filed on December 28, 2012,

¹The "ETC Parties" to this proceeding are HAWAIIAN TELCOM, INC. ("HTI") and CORAL WIRELESS, LLC ("Coral"). The "Parties" to this proceeding are the ETC Parties and the DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS, DIVISION OF CONSUMER ADVOCACY ("Consumer Advocate"), an ex officio party, pursuant to Hawaii Revised Statutes § 269-51 and Hawaii Administrative Rules § 6-61-62(a). See Order No. 34568 Initiating Investigation, filed in this docket on May 24, 2017 ("Order No. 34568") at 7.

in Docket No. 2011-0052 ("Order No. 30932");² and (2) determine whether to certify to the Federal Communications Commission ("FCC") and the Universal Service Administrative Company ("USAC") that all federal high-cost support provided to the ETCs in the State of Hawaii ("State") participating in the federal high-cost support program of the universal service fund ("USF") was used in the preceding calendar year, and will be used in the coming calendar year, only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with Title 47 of the Code of Federal Regulations ("C.F.R.") § 54.314(a) ("§ 54.314(a) certification").³

²The annual ETC certification requirements are codified at 47 C.F.R. § 54.313, "Annual reporting requirements for high-cost recipients," and are hereafter referred to in this Order as the "Annual Reporting Requirements."

³Pursuant to 47 C.F.R. § 54.314(a), "States that desire eligible telecommunications carriers to receive support pursuant to the high-cost program must file an annual certification with the Administrator and the Commission stating that all federal high-cost support provided to such carriers within that State was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended."

In determining whether to provide § 54.314(a) certification to the FCC and the USAC, the commission, based on the record, must be satisfied that there is no uncertainty as to whether all federal high-cost support provided to the ETC party was used and will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, pursuant to 47 C.F.R. § 54.314(a). This finding is critical to a commission determination that an ETC designation "is in the public interest." Order No. 30932 at 29.

As discussed below, in this Decision and Order ("Order"), the commission determines that: (1) HTI and Coral have sufficiently complied with the Annual Reporting Requirements; (2) based on the record, the commission is satisfied that there is no uncertainty as to whether all federal high-cost support provided to HTI was used and will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, pursuant to 47 C.F.R. § 54.314(a), and as such, HTI should be certified by the commission as a USF high-cost ETC in 2017; and (3) there is no uncertainty that all federal high-cost support provided to Coral was used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, pursuant to 47 C.F.R. § 54.314(a).

By Order No. 34568, the commission noted that Coral filed a letter request in Docket No. 2016-0417 to surrender its amended Certificate of Registration to provide telecommunications services in the State. In that request, Coral emphasized that it had ceased operations in the State and had no plans to re-enter the State's telecommunications market. Thus, Coral is not seeking USF high-cost ETC certification in 2017. However, because Coral received high-cost support in the past, Coral's participation in the instant docket is limited to providing an accounting for the high-cost support received for 2016.

deadline for state certification of USF high-cost support program recipients.⁷

The Consumer Advocate timely filed its Statement of Position ("SOP") on August 4, 2017. Neither HTI nor Coral timely filed SOPs.

In its SOP, the Consumer Advocate concluded that HTI has provided sufficient information to justify its certification as a state-designated ETC participating in the high-cost support program of the Federal USF for 2018, pursuant to 47 C.F.R. § 54.314(a).⁸ The Consumer Advocate also concluded that Coral has provided the requisite information to demonstrate that the USF high-cost support it received in 2016 was used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, pursuant to 47 C.F.R. § 54.314(a).⁹

For the reasons which follow, the commission, by this Order, determines that HTI and Coral have sufficiently complied

⁷On June 1, 2017, Coral filed a letter with the commission requesting a protective order. On June 16, 2017, the commission issued Protective Order No. 34625, to govern the classification, acquisition, and use of trade secrets and other confidential information produced in this docket.

⁸Consumer Advocate SOP at 1-2.

⁹Consumer Advocate SOP at 2. On August 10, 2017, HTI filed a letter wherein it informed the commission that it would not be submitting a Reply SOP to the Consumer Advocate's SOP. Similarly, Coral did not submit a Reply SOP to the Consumer Advocate's SOP.

with the Annual Reporting Requirements. Based on the record, the commission is satisfied that: there is no uncertainty as to whether all federal high-cost support provided to HTI was used and will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, pursuant to 47 C.F.R. § 54.314(a); and there is no uncertainty that all federal high-cost support provided to Coral was used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, pursuant to 47 C.F.R. § 54.314(a).

Accordingly, the commission certifies to the FCC and the USAC that HTI has used and will use the USF high-cost support for the purposes for which the support is intended, consistent with 47 C.F.R. § 54.314(a); and that Coral used the USF high-cost support it received in 2016, only for its intended purposes, consistent with 47 C.F.R. § 54.314(a).

II.

Discussion

In Order No. 30932, the commission adopted the Annual Reporting Requirements for State-designated ETCs participating in the USF's high-cost program.¹⁰ These requirements

¹⁰These requirements do not apply to ETCs designated by the commission for the limited and sole purpose of participating

superseded the annual ETC certification requirements previously adopted by the commission on an interim basis in Order No. 30230, filed on February 27, 2012, in Docket No. 2011-0052, which amended the commission's formerly-adopted ETC certification requirements in "Decision and Order No. 22228," filed on January 17, 2006, in Docket No. 05-0243.

The Annual Reporting Requirements (individually, "Reporting Requirement") adopted by the commission in Order No. 30932 are as follows:

A. Federal Reporting Requirements Applicable to All ETCs Other Than Lifeline-Only ETCs

The following federal reporting requirements shall apply to all ETCs in Hawaii other than Lifeline-only ETCs:

1. Provide a copy of all of the ETC's current year filings to the FCC required by 47 C.F.R. Sections 54.313 (annual reporting requirements for high-cost recipients) and 54.1009 (annual reports).
2. Any carrier affected by the cap shall provide a discussion on whether the carrier has sought or plans to seek a waiver from the \$250/line/month cap on universal service support as specified in 47 C.F.R. § 54.302. If a waiver has been requested, provide the status of the waiver.

B. Additional Hawaii Reporting Requirements Applicable to All ETCs Other Than Lifeline-Only ETCs

in the USF Lifeline program, known as Lifeline-only ETCs. See Decision and Order No. 30932 at 9-13 and 32.

The following additional reporting requirements shall apply to all ETCs in Hawaii other than Lifeline-only ETCs:

1. Provide the percentage of all out-of-state troubles cleared within twenty-four hours of the time such troubles are reported. The standard for this is a minimum of ninety-five percent cleared within twenty-four hours.
2. Provide the number of customer trouble reports per one hundred lines per month. The standard for this is no more than six customer trouble reports per one hundred lines per month.
3. Provide a certification that the carrier will promptly notify its customers, and as appropriate, law enforcement and fire agencies that will be affected when its service will be interrupted for scheduled repairs or maintenance, or if the occurrence of an interruption in service is otherwise known to the carrier.
4. Any ETC that is already filing with the commission the information detailed in Paragraph Nos. 1 to 3, above, on an annual or more frequent basis, is not required to resubmit that information.

Pursuant to 47 C.F.R. § 54.314(a), "States that desire eligible telecommunications carriers to receive support pursuant to the high-cost program must file an annual certification with the Universal Service Administrator and the FCC stating that all federal high-cost support provided to such carriers within that State was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended."

To assist with the identification of the benefactors of federal high-cost support, excluding frozen Interstate Access Support ("IAS") that is not required to be used for deploying

broadband services, ETCs shall provide the following information:

1. The number of locations or customers in each wire center or census block within its ETC service area for the previous calendar year and the anticipated number of locations or customers in each wire center or census block for the coming calendar year;
2. The services available to locations or customers in each wire center or census block within its ETC service area for the previous calendar year and the anticipated services available to locations or customers in each wire center or census block for the coming calendar year; and
3. In addition to the information provided on its progress report pursuant to 47 C.F.R. § 54.313(a) (1):
 - a. Identify all capital, operating and maintenance expenditures for which the carrier has received universal high-cost support for the previous calendar year, broken down to the wire centers or census blocks, as appropriate.
 - b. An update on the status of projects that were planned for the previous calendar year. For each project, provide: the amount of universal high-cost support utilized; a discussion of whether competitive bidding was utilized; a discussion of whether any project related contracts were awarded to entities affiliated to the carrier or in which an officer of the entity is related to an officer of the carrier; a discussion of whether the project plans were changed, and if so, the reasons why; maps detailing the location of the project as well as the wire centers or census blocks of the affected customers; an explanation of the project and how it was used to improve

service quality, coverage, or capacity for the intended benefactors; data supporting improvements in service quality, coverage, or capacity. Beginning July 1, 2013, separate progress reports shall be provided for voice and broadband service, to the extent required by federal law.

- c. For the coming calendar year, identify all anticipated capital, operating, and maintenance expenditures on projects that the carrier plans to seek federal high-cost support for, broken down to the wire center level or census block, as appropriate;
 - d. For the coming calendar year, maps detailing the location of the project and the wire center or census block of the affected locations or customers, an explanation of the project and how it will be used to improve service quality, coverage, or capacity for the intended benefactors, and the data supporting the quantification of the benefactors. Beginning June 1, 2013, separate progress reports shall be provided for voice and broadband service to the extent required by federal law; and
 - e. If in the final year of high-cost support, plans for the following (i.e., future) calendar years are not required.
4. Pursuant to 47 C.F.R. § 54.320, provide a certification that the carrier will retain, for at least ten years, all records required to demonstrate to auditors that the support received was consistent with the universal service high-cost program rules and that these documents will be available upon request to the FCC and any of its bureaus or offices, Universal Service Administrative Company, and their respective auditors.

C. Requirements for an Incumbent Local Exchange Carrier or a Rural Local Exchange Carrier

To confirm whether the carrier is or will charge a limited monthly access recovery charge on its wireline service, carriers are to provide a list of the monthly access recovery charge for each of the carrier's class of service.

Order No. 30932 at 9-13 (citation omitted).

In addition, the commission required that ETCs providing service on Hawaiian Home Lands provide redacted, non-confidential copies of their annual ETC certification reports to the Department of Hawaiian Home Lands ("DHHL") and the Office of Hawaiian Affairs ("OHA").¹¹ The commission's review of each of the ETC Parties' filings submitted for certification to receive USF high-cost support is discussed in the sections below.

A.

HTI

HTI is the State's incumbent local exchange carrier, providing a "comprehensive slate" of local and "intraLATA" telecommunication services, statewide.¹² In 1997, the commission

¹¹See Order No. 30932 at 32.

¹²Pursuant to Newton's Telecom Dictionary (30th ed. 2016), intraLATA refers to telecommunications services that originate and terminate in the same Local Access and Transport Area.

approved HTI's application for designation as an ETC to receive federal USF support, effective January 1, 1998.¹³

HTI filed its ACR report with the commission on June 5, 2017,¹⁴ requesting that the commission certify to the FCC and USAC that it is eligible to receive USF support in accordance with the FCC's rules.

With regard to the applicable certification requirements set forth in Order No. 30932, HTI provided the necessary information, or indicated how the requirements are currently inapplicable. For instance, HTI filed a complete copy of its Annual Report for High-Cost Recipients with the commission on June 27, 2017, in accordance with the Regulatory Schedule in Order No. 34568.¹⁵ HTI further states that it "is not affected"

¹³See In re GTE Hawaiian Telephone Company, Incorporated, Docket No. 97-0363, Decision and Order No. 16111, filed on December 4, 1997. HTI was formerly known as GTE Hawaiian Telephone Company, Incorporated.

¹⁴See Hawaiian Telcom, Inc.'s Annual Certification Requirements Report for the Year Ending December 31, 2016; Confidential Attachments A-E; Certification of Steven P. Golden; Verification; and Certificate of Service, filed on June 5, 2017 (collectively, "HTI Report"). Consistent with the commission's requirement, a copy of HTI's Report was served on DHHL and OHA. See HTI Report, Certificate of Service.

¹⁵As it relates to its obligations under Reporting Requirement A(1) regarding the reporting required by 47 C.F.R. § 54.313, HTI filed copies of its FCC Form 481, and its Rate Floor Data Collection Form and certification relating to voice services with the commission on June 27, 2017. The forms were submitted by HTI to USAC and the FCC on June 26, 2017.

by the \$250/line/month cap on USF support as specified in 47 C.F.R. § 54.302, and therefore, the reporting requirement is not applicable to it.¹⁶

HTI provides additional information regarding: (1) the number of its locations or customers in each wire center within its service area; (2) the services available to locations or customers in each wire center or census block within its service area; (3) all capital, operating, and maintenance expenditures for which high-cost support was received, by wire center or census block; and (4) updates on the status of projects planned for the previous calendar year.¹⁷

Included among other things in HTI's Report is the Certification of its Vice President, External Affairs, Steven P. Golden, who provides the necessary certifications regarding notification of planned service interruptions and retention of records in response to Reporting Requirements B(3) and B(4)(4).¹⁸ As it relates to Reporting Requirement C (applicable to the incumbent LEC or a rural LEC), HTI states that

¹⁶See HTI Report at 5, which relates to Reporting Requirement A(2).

¹⁷The above-referenced information, which relates to Reporting Requirements B(4)(1) through B(4)(3), was filed by HTI on June 5, 2017, as confidential attachments A-E, and thus, shall not be further described herein.

¹⁸See HTI Report, Certification of Steven P. Golden at 1-2.

it initiated an access recovery charge ("ARC") on its wireline services, effective July 3, 2012, and provides its current ARC rates.¹⁹

In its SOP, the Consumer Advocate recommended that HTI should be certified as a State designated ETC participating in the high-cost support program of the Federal USF for 2018, pursuant to 47 CFR § 54.314(a).²⁰

Based on the foregoing, the commission concludes that HTI has sufficiently complied with the Annual Reporting Requirements adopted in Order No. 30932. As noted by the Consumer Advocate, HTI has provided the requisite information and certifications mandated by the commission, as applicable.

HTI has complied with the Annual Reporting Requirements, and based on the record, the commission is satisfied that there is no uncertainty as to whether all federal high-cost support provided was used and will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, and, thus, certification is in the public interest. Therefore, pursuant to 47 C.F.R. § 54.314(a), the commission certifies HTI as a high-cost ETC in 2017.

¹⁹See HTI Report at 9-10.

²⁰See Consumer Advocate SOP at 4. HTI did not submit a Reply SOP to the Consumer Advocate's SOP.

B.

Coral

Coral is authorized by the FCC and the commission to provide commercial mobile radio service, or wireless telecommunications service, throughout the State.²¹ In 2007, the commission designated Coral as an ETC for the service areas of HTI and Sandwich Isles Communications, Inc.²²

Coral filed its ACR report with the commission on June 26, 2017,²³ requesting that the commission find that Coral "employed all universal service support only for the provision, maintenance and upgrading of facilities and services for which the support was intended."²⁴

With regard to the applicable certification requirements set forth in Order No. 30932, Coral provided the necessary information, or indicated how the requirements are currently

²¹See In re Coral Wireless, LLC dba Mobi PCS, Decision and Order Nos. 21744 and 23234, filed on April 14, 2005, and January 31, 2007, in Docket Nos. 05-0018 and 2006-0457, respectively.

²²See In re Coral Wireless, LLC dba Mobi PCS, Decision and Order No. 23275, filed on February 23, 2007, in Docket No. 05-0300.

²³See 2017 Annual Certification Report of Coral Wireless, LLC Duly Designated as an Eligible Telecommunications Carrier, filed on June 26, 2017 ("Coral Report"). Consistent with the commission's requirement, a copy of the Coral Report was served on DHHL and OHA. See Coral Report, Certificate of Service.

²⁴Coral Report at 4.

inapplicable. In response to Reporting Requirements B(1) and B(2), Coral provided information regarding: (1) the percentage of all out-of-service troubles cleared within 24 hours; and (2) the number of customer trouble reports per 100 lines per month as confidential information.²⁵ Coral also submitted information regarding (1) the number of customers and the services it provides in each wire center or census block; (2) information regarding its capital, operating, and maintenance expenditures; and (3) an update of its projects planned for the previous calendar year for which it received USF high-cost support, in response to Reporting Requirements B(4)(1) through B(4)(3).²⁶

Finally, Coral included as part of its report the Certification of its Chief Executive Officer, William Jarvis, who certifies, among other things, the following:

All federal universal service support funds received by Coral wireless during the previous calendar year were used in a manner consistent with Section 254(e); that is, for the provision, maintenance, and upgrading of facilities and services for which the support is intended. As of October 2016, Coral Wireless no longer operated as

²⁵The information is included in Coral's confidential Attachment filed on June 26, 2017, and as such, shall not be further identified herein.

²⁶The information is included in Coral's confidential Attachment filed on June 26, 2017, and as such, shall not be further identified herein. Coral did not provide any information relating to the coming calendar year (2018). As Coral will not be seeking funding for the coming calendar year, it is not required to provide information related thereto.

a CMRS carrier in the State of Hawaii and no longer participated in federal high cost programs.

Coral Report, Certification Statement Pursuant to FCC Order No. 01-0157, at 2.

In its SOP, the Consumer Advocate found that Coral provided "sufficient information regarding how it spent USF high-cost support in 2016."²⁷

Based on the foregoing, the commission concludes that Coral has sufficiently complied with the Annual Certification Requirements adopted in Order No. 30932. As noted by the Consumer Advocate, Coral has provided the requisite information and certifications mandated by the commission, as applicable. The commission concludes that there is no uncertainty as to whether all federal high-cost support provided to Coral in 2016, was used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, pursuant to 47 C.F.R. § 54.314(a).

C.

Summary of Findings and Conclusions

Based on its review of the entire record, the commission finds that (1) HTI has sufficiently complied with the

²⁷Consumer Advocate SOP at 4. Coral did not submit a Reply SOP to the Consumer Advocate's SOP.

Annual Reporting Requirements adopted by the commission in Decision and Order No. 30932; and (2) there is no uncertainty as to whether all federal high-cost support provided to HTI was used and will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, pursuant to 47 C.F.R. § 54.314(a). As such, the commission concludes that HTI should be certified by the commission as a USF high-cost ETC.

The commission also finds and concludes that (1) Coral has sufficiently complied with the Annual Reporting Requirements adopted by the commission in Decision and Order No. 30932; and (2) there is no uncertainty as to whether all federal high-cost support provided to Coral in 2016, was used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, pursuant to 47 C.F.R. § 54.314(a).

III.

Orders

THE COMMISSION ORDERS:

1. Certification pursuant to 47 C.F.R. § 54.314(a), that all federal high-cost USF support provided to HTI was used in the preceding calendar year and will be used in the coming calendar year, only for the provision, maintenance, and upgrading of

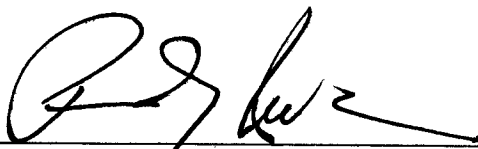

facilities and services for which the support is intended, is hereby provided to the FCC and the USAC.

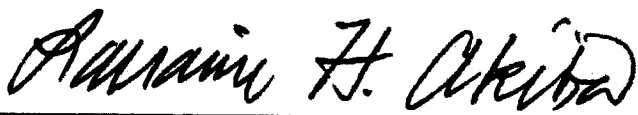

2. Certification pursuant to 47 C.F.R. § 54.314(a), that all federal high-cost USF support provided to Coral was used in the preceding calendar year, only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, is hereby provided to the FCC and the USAC.

3. This docket is closed unless ordered otherwise by the commission.
