In the Matter of:

Wireline Competition Bureau Seeking Comments on E-rate Category Two) WC Docket No. 13-184

We are pleased to be able to provide input on the impact of having access to secure and sufficient funding for our library WiFi and internal connections. Before the E-rate Modernization in 2014, virtually no libraries received funds for then, Priority 2 services. Unless we were at a 90% discount rate, we could assume there would be no funding left after all requests for internet access were funded. USAC data shows that most libraries are eligible for a 70% discount or less and according to the American Library Association, many libraries stopped bothering to apply for WiFi funding. Some states have reported that none of their libraries have received WiFi funds since the beginning of the E-rate program.

In communities across the country, people turn to the library to use our WiFi on their tablets, laptops, and other devices. Library users are downloading job applications, applying for financial aid, seeking health information, and communicating with family - all dependent on a strong WiFi signal. Increasingly, libraries also provide services that depend on WiFi, like coding clubs for K12 youth. Libraries everywhere know WiFi throughout the library is not a "nice to have" - it's a core community service.

The Pendleton County Public Library is no exception to this. Our community is a highly rural one, and there are many areas within the county where resident do not have access to high-speed Internet. For example, we have a couple who visit the library everyday with their laptops to work remotely; they come to our library because they do not have access to Internet at home. We have so many patrons who also use our WiFi to complete online courses, communicate with long distance relatives, and more. Our WiFi statistics continue to increase every year as more and more people utilize the service.

With the commitment of the FCC to ensure a library budget of \$2.30 (\$5.00 for a selected category of larger urban and suburban libraries) per square foot, libraries can finally upgrade outdated equipment or plan for new construction. They have confidence that desperately needed support will be there.

Please maintain secure funding through the full five year budget period as adopted during the 2014 Modernization. Our communities depend on that funding.

Sincerely,

Melissa Byrd
Director
