

In the Matter of:

Wireline Competition Bureau Seeking Comments on E-rate Category Two) WC Docket No. 13-184

I work in the Computer Department of the Rogers Memorial Library in Southampton, NY, and I can say with certainty that providing WiFi at the library is vital for numerous reasons.

Many patrons prefer to use their own devices to study for classes or prepare for work, and this would be impossible without a reasonable internet connection. Wireless printing is also available to patrons, which obviously requires WiFi. We also teach classes on how to use smartphones, tablets, and various software, for all of which wireless internet is a necessity.

Please maintain secure funding through the full five year budget period as adopted during the 2014 Modernization. Our communities depend on that funding.

Thank you for your time.
