

I URGE YOU TO OPPOSE THE DEVELOPMENT OF 5G! IT IS HARMFUL TO HUMANS!

I was appalled to see Tom Wheeler, chair of the FCC, blatantly ignore appropriate questions in an open meeting about 5G and the risks to human health. He literally interrupted the reporter asking him the questions by asking another reporter to ask him a question instead, obviously to get out of having to answer the question about the role of radiofrequency radiation and cancer.

Wheeler said “we do not believe that we should spend the next couple of years studying what 5G should be, how it should operate... the future has a way of inventing itself. Turning innovators loose is far preferable to expecting committees and regulators to define the future. We won’t wait for the standards.” See the short video clip below:

He is clearly saying he doesn’t care about 5G being tested for human safety! How can this be allowed when studies already show a *causal* connection between 4G radiofrequency radiation and cancer:

Description of NTP study: <http://ntp.niehs.nih.gov/results/areas/cellphones/index.html>

Published “Partial Findings” of the NTP study: <http://biorxiv.org/content/early/2016/05/26/055699>

THIS MUST BE STOPPED! 5G must be stopped until it has had extensive safety testing for the human population. Anything else constitutes experimentation on the human population, a violation of the Nuremberg Code. I urge you to stop this dangerous insanity.

Sincerely,

Jennifer Curran
