RE: WC Docket No. 10-90

Dear Ms. Dortch:

Reference is made to the Federal Communications Commission's ("FCC") Public Notice dated September 23, 2016, DA 16-1072 (the "Public Notice"), which states in part that "On September 13, 2016, CenturyLink notified the Commission that it intends to modify its Connect America Phase I Round 2 (Phase I) incremental broadband deployment plans. CenturyLink submitted a list of 9,703 census blocks that it had not previously identified with its initial election where it now intends to serve locations using Phase I incremental support. Under the requirements for Phase I incremental support, other providers now have 45 days to indicate that they already serve the identified blocks, and CenturyLink must certify that to the best of its knowledge the locations it plans to serve are in fact unserved before it may commence construction."

Vyve Broadband A, LLC (FRN 0022346357) and Vyve Broadband J, LLC (FRN 0022600332) are unsubsidized providers that currently "offer [broadband] Internet service at speeds of 3 Mbps downstream and 768 kbps upstream or higher" in the census blocks listed in the attached spreadsheet. These census blocks are listed in CenturyLink's list of 9,703 census blocks, but are in fact currently served by Vyve Broadband, so should not be considered "unserved."

I am writing on behalf of Vyve Broadband A, LLC and Vyve Broadband J, LLC to respectfully notify the FCC and CenturyLink that the census blocks set forth in the attached spreadsheet should be removed from CenturyLink's "list of 9,703 census blocks that it had not previously identified with its initial election where it now intends to serve locations using Phase I incremental support," and should not be considered eligible for the Connect America Phase I incremental support.

Please contact me at 914-234-8313 or email at Marie.Censoplano@Vyvebb.com with any questions.

Respectfully submitted,
