**Re: WP Docket No. 15-32
Ex Parte Presentation**

Dear Ms. Dortch:

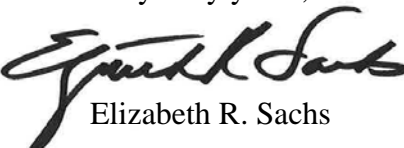

On February 8, 2018, Mark E. Crosby, President and CEO, and Robin Cohen, Vice President, Regulatory Affairs and Spectrum Strategies, both of the Enterprise Wireless Alliance (“EWA”) and undersigned counsel for EWA, met with Zenji Nakazawa, advisor to Chairman Pai, and Kristen Harris, intern in the office of Chairman Pai, to discuss the above-identified proceeding. EWA urged the Commission to adopt rules in this proceeding as promptly as possible.

EWA explained that it had filed a Petition for Rulemaking in 2009 proposing rule changes to maximize use of the Part 90 800 MHz spectrum between 809-817/854-862 MHz (“800 MHz Mid-Band”) by assigning full-power, interstitial 12.5 kHz channels. It noted that the proposal subsequently was endorsed by virtually the entire Private Land Mobile Radio (“PLMR”) user community and that the Land Mobile Communications Council (“LMCC”), whose members represent PLMR users, had agreed on criteria governing the assignment of these channels to protect adjacent 25 kHz bandwidth systems from interference.

This letter is being filed electronically, in accordance with Section 1.1206(b) of the Commission’s Rules, 47 C.F.R. § 1.1206(b), for inclusion in the record in this proceeding.

Kindly refer any questions or correspondence regarding this matter to the undersigned.

Very truly yours,

Elizabeth R. Sachs
