Ms. Tracy Szerszen  
President/Operations Manager  
Perry Johnson Laboratory Accreditation, Inc.  
755 West Big Beaver Road  
Suite 1325  
Troy, MI 48084

Dear Ms. Szerszen:

The Office of Engineering and Technology (OET) is pleased to inform you that Perry Johnson Laboratory Accreditation, Inc. (PJLA) has been added to the list of laboratory accreditation bodies that are acceptable for use by testing laboratories, located in the United States, seeking recognition by the Commission to perform testing of telecommunication equipment subject to the Commission's rules.

In the Public Notice issued November 29, 2017 the Commission invited comments regarding PJLA's request, filed July 3, 2016, to be recognized by the Commission as an accreditation body that performs accreditation of testing laboratories under the Commission's rules. The Commission's rules delegate authority to the Chief, OET, to make determinations regarding the acceptability of individual accrediting organizations to enter into agreements with them to perform accreditation of testing laboratories under the rules (47 C.F.R. § 0.241(f)). Based on our review of the information submitted by PJLA and the comments received, OET has determined that PJLA has demonstrated that it possesses appropriate credentials and expertise to perform accreditation of testing laboratories that test equipment to the Commission's requirements. Therefore, OET will accept the accreditation of testing laboratories to ISO/IEC 17025 performed by PJLA as required by 47 C.F.R. § 2.948(d).

Thank you for your cooperation during this evaluation process. For more information or questions please contact George Tannahill at (301) 362-3026, [george.tannahill@fcc.gov](mailto:george.tannahill@fcc.gov).

Sincerely,

A handwritten signature in blue ink that reads "Julius P. Knapp". The signature is stylized with a large, flowing initial "J".

Julius P. Knapp  
Chief,
