PETITION FOR RULEMAKING

Xana HD Solutions, LLC (Xana), pursuant to Section 1.401 of the Commission's Rules, hereby respectfully requests that Section 73.202 of the Commission's Rules (the FM Table of Allotments) be amended to add Channel 283A for use at Kahlotus, Washington.

Submitted herewith is an Engineering Statement of Hatfield & Dawson that demonstrates that Channel 283A can be allotted for use at Kahlotus with a site restriction west of the community at coordinates 46-38-00 N, 118-38-10 W that will provide city-grade service to the entire community. The Engineering Statement further notes that Kahlotus is an incorporated city in Franklin County, is listed in the 2010 Census, and that this allotment will provide the community with its first local radio service. To ensure activation of the new channel, concurrent with the filing of this petition Jacky is filing a construction permit application on Form 301, together with the requisite filing fee. Xana certifies in that application, and herein, that if the FM channel allotment requested is allotted, it will apply to participate in the auction for the new channel.
