Explanation of actions taken against data brokers (not applicable, see Statement)
Summary of customer complaints (not applicable, See Statement)

STATEMENT OF CPNI PROCEDURES AND COMPLIANCE DETEL WIRELESS, LLC

USE OF CPNI

Detel Wireless, LLC ("Detel") does not use or permit access to CPNI to market any telecommunications or non-telecommunications services. Detel has trained its personnel not to use CPNI for marketing purposes. Should Detel elect to use CPNI in future marketing efforts, it will follow the applicable rules set forth in 47 CFR Subpart U, including, if necessary, the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

Detel does have CPNI, including quantity, technical configuration, type, location and use of telecommunications services provided by the Company. However, this information is only made available to customers in person pursuant to procedures described below.

PROTECTION OF CPNI

As set forth below, Detel has put into place processes to safeguard its customers' CPNI from improper use or disclosure by employees; and to discover and protect against attempts by third parties to gain unauthorized access to customer CPNI. Requests for information must be sent in writing by the authorized party of record for the customer. Detel responds back in writing, to the authorized customer representative at the primary address of record. The company trains its employees regarding its procedures for protecting CPNI on an ongoing basis and monitors the interactions of its employees with customers to insure that procedures are being followed.

DISCLOSURE OF CALL DETAIL OVER PHONE

Detel has instituted authentication procedures to safeguard the disclosure of call detail over the telephone. Detel's authentication procedures do not require the use of readily available biographical information or account information as defined by the FCC. The company authenticates customers by requiring the customer to establish a password for this purpose. Customers are required to establish a password without the use of readily available biographical information or account information if they want to receive call detail over the telephone. If the appropriate password is not provided, Detel does not disclose call detail over the telephone. Detel does not offer a back-up authentication method, but does allow a customer to reset a lost password. Instructions for resetting the password are provided via mail or email to the address established by the customer of record.

In some instances involving a business customer with a dedicated account representative, the Company has agreements that address authentication procedures for disclosing CPNI that may differ from those described above.

The Company has put into place procedures to notify customers whenever a password, customer response to a back-up means of authentication for lost or forgotten passwords, online account, or address of record is created or changed without revealing the changed information or sending the notification to the new account information. The Customer of Record is notified by email that the account information has been updated or changed and is given instructions to notify the company's customer service number if the customer believes the account may have been updated or changed in error.

DISCLOSURE OF CPNI ONLINE

Detel does not disclose CPNI online at this time. Should it choose to do so in the future, it will institute authentication procedures to safeguard the disclosure of CPNI online.

DISCLOSURE OF CPNI AT RETAIL LOCATIONS

Detel does not have any retail locations and therefore does not disclose CPNI in-store.

NOTIFICATION TO LAW ENFORCEMENT

Detel has in place procedures to notify law enforcement in the event of a breach of customers' CPNI and to ensure that customers are not notified of the breach before the time period set forth in the FCC's rules, or, if applicable, when so authorized by law enforcement.

Detel maintains written records of all breaches discovered and notifications made to the USSS and the FBI, and to customers.

ACTIONS AGAINST DATA BROKERS

Detel has not taken any actions against data brokers in the last year.

CUSTOMER COMPLAINTS ABOUT CPNI BREACHES

Detel did not receive any customer complaints about the unauthorized release of CPNI or the unauthorized disclosure of CPNI in calendar year 2017.

INFORMATION ABOUT PRETEXTERS

Detel has not developed any information with respect to the processes pretexters are using to attempt to access CPNI but does take steps to protect CPNI by adhering to the guidelines described herein for access to CPNI. Detel is committed to notify the FCC of any new or novel methods of pretexting that it encounters and of any actions Detel takes against pretexters and data brokers.
