

Sonic Systems Inc.

STATEMENT OF POLICY REGARDING CUSTOMER PROPRIETARY NETWORK INFORMATION

Set forth below is a statement summarizing the policies and procedures of Sonic Systems Inc. ("SonicCommunication") which ensure adequate compliance with the Federal Communications Commission's ("FCC") CPNI regulations. See 47 C.F.R. § 64.200l et seq. SonicCommunication provides telecommunications services exclusively as a private service provider and wholesale supplier to the prepaid calling services industry.

As a wholesale prepaid services provider, the company does not have access to CPNI. Prepaid services customers do not "subscribe" to the services of SonicCommunication in the same manner as customers of non-prepaid service providers; rather, these customers decide for themselves if they will use the company's services. These customers do not receive bills from SonicCommunication. SonicCommunication does not have information concerning the quantity, technical configuration, type, destination, location, or amount of use of telecommunications services which can be associated with any individual customer. Indeed, because the company's prepaid services may lawfully be utilized by any authorized user of the purchased services, SonicCommunication has no means of identifying the particular individual which has placed any particular call.

Nevertheless, SonicCommunication has adopted a confidentiality policy that addresses proper handling, use and storage of CPNI and, furthermore, the company has informed its employees of the company's CPNI compliance policy. SonicCommunication does not release or distribute CPNI to unauthorized individuals; neither does SonicCommunication use CPNI in violation of § 64.200 § et seq. of the FCC's Rules.

To the extent Call Detail Records ("CDRs") exist, they are not associated with any individually identifiable customer and do not constitute CPNI. To the extent that such CDR information exists in paper, removable magnetic or optical form, it is maintained by SonicCommunication in a secure location which is not accessible by employees of SonicCommunication without going through the company's established security procedures. When such information is maintained on a computer, the computer and/or the individual file is password protected.

As noted above, SonicCommunication does not maintain CPNI in any manner which would give rise to the unauthorized disclosure of confidential information. Even in cases dealing with the limited information which is necessary to facilitate customer purchases of prepaid telecommunications services, SonicCommunication takes steps prior to providing any requested information to assure itself that the individual making the request is authorized to obtain it.

Moreover, any call detail information obtained by SonicCommunication is not made available to end-user customers or third parties over the telephone, online, or in retail stores. However, such information may be disclosed: (a) in response to a proper subpoena, court order or other judicial process; or (b) to the transmitting or receiving carriers for billing-relating purposes. In the event of unauthorized CPNI access, SonicCommunication will notify the requisite law enforcement agencies, and the customer when possible.

SonicCommunication did not have any breach of its call detail records during the past year, nor has the company received any customer complaints in the past year concerning the unauthorized release of or access to CPNI. Because SonicCommunication does not have any presubscribed customers, and does not

know the identity of end-users whose traffic is routed through SonicCommunication, it cannot notify those end-user customers directly if a breach occurs. However, SonicCommunication has processes and procedures in place to maintain records of any security breaches and to notify affected carriers and law enforcement of such breaches. Finally, the company has no information, other than publicly reported information regarding the processes that pretexters or data brokers are using to attempt to access CPNI.

Sonic Systems Inc.
Annual CPNI Certification
47 C.F.R. § 64.2009(e)
EB Docket No. 06-36

COMPANY NAME: Sonic Systems Inc.
REPORTING PERIOD: January 1, 2017 - December 31, 2017
FILER ID: 830693
OFFICER: Andre DeMattia
TITLE: CEO/COO

I, Andre DeMattia, hereby certify that I am an officer of Sonic Systems Inc. ("SonicCommunication") and that I am authorized to make this certification on behalf of SonicCommunication. I have personal knowledge that SonicCommunication has established operating procedures that are adequate to ensure compliance with the Federal Communications Commission's rules governing Customer Proprietary Network Information ("CPNI"), to the extent that such rules apply to SonicCommunication or to any of the information obtained by SonicCommunication. See 47 C.F.R. § 64.2001 et seq.

Attached to this certification is an accompanying statement explaining the procedures SonicCommunication employs to ensure that it complies with the requirements set forth in 47 C.F.R. § 64.2001 et seq. of the Commission's rules, to the extent that such requirements apply to SonicCommunication or to the information obtained by SonicCommunication.

Signed:

On behalf of Sonic Systems Inc.
