Washington, D.C. 20554

> *In re:* **Nomination for Universal Service Administrative Company Board of Directors (CC Docket Nos. 96-45, 97-210**

Dear Chairman Pai:

The State Educational Technology Directors Association (SETDA) nominates Julia Benincosa Legg to serve on the Universal Service Administrative Company (USAC) Board of Directors. We appreciate this opportunity to submit her nomination for your consideration.

Julia currently serves as the State E-rate Coordinator for the West Virginia Department of Education (WVDE). She has served in that role for nearly 14 years and is the only state coordinator to file applications covering both Telecommunications and Internal Connections at the state consortia level. She also assists 20 school districts with their local E-rate applications and is a member of the West Virginia Broadband Enhancement Council, Education Committee. Her experiences teaching online learning, K-12, and professional-graduate level courses afford her distinctive insights to inform USAC's administration, training and outreach.

Julia has graduate degrees in both Educational Leadership and Educational Technology Leadership. The related coursework and projects in attaining those degrees have been critical in developing the skills necessary to engage as a board member on behalf of applicants relating to both technical and leadership perspectives.

During her career, she has built important relationships with FCC leaders and staff, including:

- Jessica Rosenworcel, Commissioner, who played an integral role in the West Virginia Broadband Summit;
- Ryan Palmer, Division Chief, Telecommunications Access Policy Division (our former WV Public Service Commissioner);
- Lisa Hone, Associate Bureau Chief, Wireline Competition Bureau; and
- Trent Harkrader, Associate Bureau Chief.

At USAC, Julia has built strong relationships with executive staff including Catriona Ayer, Leslie Frelow, Jeff Walsh, John Noran and many others.

In her role as the West Virginia State E-rate Coordinator, she has led important programmatic changes, including permanent E-rate policy changes such as:

- Eligibility for telecommunications and Internal Connections (Category 2) in dormitories and housing for "special schools," through an approved waiver request.
- Launch of the Schools Spots initiative, also the result of a waiver request, permitting schools to utilized untapped broadband during off-hours.

Julia would be an excellent asset to the USAC Board of Directors not only due to her current role and experience, but also her energy, dedication, and strong work ethic. Her unique skill set and experiences would help her represent all school applicants.

Julia's Curriculum Vitae is attached for your review.
Should you have any questions, please email Candice Dodson, SETDA Executive Director, cdodson@setda.org.

Thank you for your consideration of this nomination.

Sincerely,

Laurel Ballard
Chair, SETDA Board of Directors
Wyoming Department of Education

TEACHING EXPERIENCE

Van Horn Elementary, Salem, WV
Computer Teacher, Library Media Specialist,
Network Administrator, County Technology Committee   **1999-2004**
Local School LAN and Jostens/Compass Administrator
Presented staff development sessions in technology for Harrison County Schools
Selected to present at the West Virginia Reading Conference in December 2001 and 2003.
(High Technology Integration in Reading)
Managed school Library and Technology budgets; leveraged contract and other pricing with
multiple vendors for technology purchases
Member of Title I and technology planning teams that utilized data disaggregation to
determine school planning for technology to improve student achievement; wrote technology plan,
assisted in writing School-wide Title I plan
Provided yearly copyright training and day-to-day support

Salem International University
Adjunct Professor, Educational Technology Leadership Graduate Program   **2004-2005**
Developed online coursework to serve students accessing coursework from other states
and unable to attend "brick and mortar" sessions, as well as, blended delivery content for
face-to-face courses.
Developed and instructed ISTE-based standards and content for EDU 540 and 542
(Tools for Technology Integration into the Curriculum) courses

Harrison County Schools Virtual School
Virtual School Teacher, Business Computing   **2002-2004**
Developed (in WYSIWYG and HTML) and instructed first online Computer Applications
credit course of its kind in the state of West Virginia, instructing on Microsoft Office and
Internet use based on SREB and West Virginia Content Standards
Developed online course standards for Computer Applications course
Enrolled students directly and through virtual school contacts
Communicated with parents regarding student progress and academic issues relating to online coursework
Developed online registration pages for all Harrison County Virtual Schools Courses
Developed online etiquette and chat policies for course

Lumberport Middle School, Lumberport, WV
Library Media Specialist, Journalism Instructor, Technology Committee   **1998-1999**
Advisor to Yearbook and Newspaper (published monthly)
Trained by Eagle Technologies (TCBC) in Server Management

Notre Dame High School, Clarksburg, WV
Library Media Specialist, Reading 8, English 10, Technology Coordinator,
Tenth Grade Class Advisor   **1997-1998**
Successful grant writing to establish school's first Internet connection.
Developed school's Acceptable Use Policy as Technology Coordinator

RELATED EXPERIENCE

West Virginia Department of Education, Charleston, WV
Instructional Technology, Technology Integration Specialist,
State E-rate Coordinator & School Library Media Specialist Contact   **2005-present**

Developed personal work plan to feed into division and department work plans
Provided statewide trainings and present at statewide conferences across department offices
Provide assistance in copyright law and filtering issues at the state level
Designed state-level database with programmer for administration of Tools for Schools and E-rate projects
Participated as a member on Office of Educational Performance Audit (OEPA) teams

Broadband Deployment
Member of WV State Broadband Council Education Subcommittee. Participated in brainstorming and presented opportunities for statewide broadband deployment.
Participated in National Telecommunications and Information Administration (NTIA) Broadband Technology Opportunities Program (BTOP) training and assisted in documentation for K12 for grant application. Later worked with counties in BTOP implementations with in order to leverage both E-rate and BTOP funding to advance telecommunications networks
Experience with Federal Enhancing Education Through Technology (EETT) regulations for technology planning and have previously worked with EETT program in grant evaluation process in Harrison County Schools

E-rate
E-rate support for state and local applications to include statewide network
Utilize and developed criteria for E-rate database construction; familiar with database development; utilized online database and developed online forms for data collection and registrations
Developed the Children's Internet Protection Act (CIPA) application for collection of required compliance data
Worked with Federal Communications Commission (FCC) and State E-rate Coordinators Alliance (SECA) to affect change at the federal programmatic level in the E-rate program through comment filings and direct communications
Engaged in waiver development to further the E-rate program for our schools in West Virginia – results included funding for dormitories at special schools like the WV School for the Deaf and Blind and permission for all schools nationwide to open their doors for community use. Proposed waiver to permit off-site use of Internet connectivity for the Kanawha County Schools Wi-Fi on the Bus Program (pending). Currently preparing to affect change in Federal Communications Commission (FCC) policy restricting community access to fiber projects.
Successful audit experience
Participated in E-rate Roundtables with Senator Rockefeller (Internet Safety) and the Universal Services Administrative Company (USAC) that administers E-rate for input on program improvement.
Member of USAC Vice President of Schools and Libraries "Kitchen Cabinet."

Library Media and Technology Integration Specialists (TIS)
Developed and maintained grant program to train library media specialists in technology integration.
TIS-Library Media training sessions including collaborative Google technologies
Planned and executed multiple conferences a year for trainings
Developed face-to-face professional development sessions, and online content for TIS cohorts within WVLEARNS platform based on WV Content Standards
Facilitated TIS-Library Media program including development of online professional learning communities within WVLEARNs, Google and Thinkfinity Community platforms
Owner of statewide Librarian Listserv—share tools and technologies that support learning, integration and Content Standards

Developed a Grant to Partner with Woodsdale Elementary, Model Information Media Center (TIS-Library Media Project)

Books on the Bus grant - worked with Office of Professional Preparation and other TIS coordinators to develop TIS credentialing requirements and documentation

Developed grant for ebooks and readers to be utilized on school buses during long commutes and during the school day in Career Technical Classrooms.

Procurement

Developed state mini-bid process for procurement on state master contract.

Co-developed mini-bid and contract management SharePoint tools.

Developed Internet Access and Networking, Enterprise & Technologies Request for Proposals and managed yearly contract renewals, resulting in millions in cost-savings for the state of West Virginia

Assisted in development of multiple statewide contracts including two Tools for Schools networking and device contracts, Data Circuit Multi-Protocol Label Switching (MPLS), Data Transport, and Voice over IP.

Assisted in development of local District contracts and utilization of state master contracts

Developed eReader pilot based on State Board Goals and Superintendent Priorities. Supervised initiative development among multiple offices (Special Education, Career Technical and Title I) along with development of professional development and rollout.

State Network

Collaborate for WV State K12 Network planning and funding. Familiar with 10. (local) and 168.216 (public) IP addressing systems.

Deep understanding of network schematics, technologies, budgetary and bandwidth needs for expansion each year.

State Policy Development

Developed and assisted in updates to State Board Policy 2460 (Acceptable Use, Technology and Copyright)

Involved in discussions of revisions of Policy 2520.17 (Library Media Educational Standards)

Provided input on Policy 8200 (School Finance)

Involved in discussions of revisions of Policy 6200

Technology Planning

Developed and maintained statewide District Technology Strategic Plan, including district training and support

Review technology plans for counties and assisted with updates

Harrison County Schools, Clarksburg, WV
Professional Development Trainer   **2002-2005**
Provided summer technology training to teachers county-wide.

Harrison County Schools
Project S.A.F.E. Webmaster   **2002-2004**
Developing web presence for public relations of Harrison County Schools' Project S.A.F.E.

Harrison County Federation of Teachers
Webmaster   **2002-2003**
Developing web presence for public relations of Harrison County division of American Federation of Teachers
