**Re: Verizon Public Notice of Network Change(s), 47 C.F.R. §§51.325–51.335**  
**Copper Retirement ID No. 2017-03-A-PA Revised**  
**WC Docket No. 18-46; NCD-2752**

Dear Ms. Dortch:

Attached is a revised version of Verizon's Public Notice of Copper Retirement under rule 51.332. On August 23, 2017, Verizon filed a public notice of the replacement of copper distribution and loop facilities with fiber-to-the-home facilities in the Ambler, Baldwin, Conshohocken, Dewey, Doylestown, Eddington, Germantown, Ivyridge, Lansdale, Lansdowne, Line Lexington, Orchard, and Poplar, PA wire centers. That notice also incorrectly included nine additional wire centers. The Commission has recently docketed the notice in WC Docket No. 18-46 and NCD-2752. Verizon requests that the version currently on file with the Commission be replaced with the attached revised notification, which removes the inadvertently included locations.

Although we inadvertently filed an incorrect version of the August 23, 2017 copper retirement notice with the Commission, we posted the correct version on our website and sent the correct version to interconnecting carriers, the Pennsylvania Public Utilities Commission, Governor Tom Wolf, and the Department of Defense. Therefore, no party has been adversely impacted.

Please contact me should you need any further information.

Sincerely,

6929 N. Lakewood Avenue  
Tulsa, OK 74117

**All of Verizon's copper retirement notices may be viewed on Verizon's website at**

**Description of the planned network change(s):**

Verizon intends to retire the copper facilities in the Ambler, Baldwin, Conshohocken, Dewey, Doylestown, Eddington, Germantown, Ivyridge, Lansdale, Lansdowne, Line Lexington, Orchard, and Poplar, PA wire centers. Verizon has deployed or plans to deploy its fiber-to-the-home network in these areas and intends to provide services over a fiber network infrastructure.

**Description of reasonably foreseeable impact(s) of the planned change(s):**

After the retirement of the copper facilities, Verizon will: (1) no longer offer services over copper facilities; and (2) cease maintaining the copper facilities.

**Description of any changes in prices, terms, or conditions that will accompany the planned change(s):**

As a general matter, the retirement of copper facilities will not result in changes to rates, terms, and conditions in cases where the affected service is converted to a like-for-like service that is available on fiber facilities. Interconnecting entities, however, should review the applicable tariff or agreement for certain terms that may apply specifically in cases where the service is provisioned on fiber. In cases where interconnecting entities elect to replace the affected service with an alternative service that Verizon offers on fiber facilities, the rates, terms and conditions will be as set forth in the tariff or agreement under which Verizon offers the replacement service that the interconnecting entity selects. Verizon, separately from this notice, will provide interconnecting entities with further information regarding service migration options that Verizon offers.
