# **Statement of Compliance with the FCC's Customer Proprietary Network Information "CPNI" Rules and Regulations**

Allband Communications Cooperative's ("Allband") operating procedures certify that Allband is in compliance with the FCC's rules and regulations regarding Customer Proprietary Network Information (CPNI).

All of Allband's employees are aware that disclosure of our customers' CPNI information without obtaining the proper customer approval is a violation of the FCC's rules set forth in 47 U.S.C. 222 and Subpart U of Title 47 of the Code of Federal Regulations; 47 C.F.R. 64.2001 through 64.2009.

Allband has taken the steps and has internal procedures in place so as to educate its employees through training regarding the FCC's rules and regulations as to when and where CPNI information may be released. The employees that have access to this information are aware that the FCC prohibits the disclosure of such information without the proper customer consent and as allowed by law and the FCC's rules.

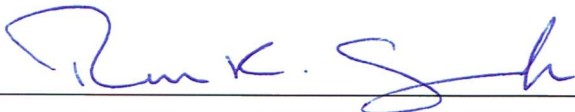

- Any employee that violates Allband's CPNI operating procedures is subject to disciplinary action, up to dismissal.
  - Allband mandates yearly CPNI training for all employees to ensure up to date compliance with any new regulations.
  - Allband has implemented safeguards for our customers' protection against pretexters consistent with the FCC's requirements in Section 47 C.F.R. 64.2010.

**ANNUAL CERTIFICATION**  
**Customer Proprietary Network Information Procedures of**  
**Allband Communications Cooperative**

I, Ron K. Siegel, as an Officer of the company named above do hereby certify that I have personal knowledge that Allband Communications Cooperative (Allband) has established procedures regarding the Customer Proprietary Network Information related to the subscribers of Allband.

These procedures, described on the attached page, are in compliance with Section 222 of the Communications Act of 1934, as amended (47 U.S.C. 222) and 47 CFR § § 64.2001-64.2009.

## **Certification of CPNI Filing**

### **Allband Communications Cooperative**

Allband Communications Cooperative (“Allband” or “Company”) hereby submits that its procedures regarding its subscribers’ Customer Proprietary Network Information (“CPNI”) are in compliance with Section 222 of the Communications Act of 1934, as amended (47 U.S.C. 222) and 47 CFR § § 64.2001-64.2009.

Allband certifies that it protects and utilizes its customers’ CPNI in compliance with the Commission’s rules in 47 CFR § § 64.2001-64.2009 and does not sell or disclose subscriber CPNI to outside entities.

#### **Allband Company Waiver**

All employees have signed a company waiver stating that they have received CPNI training (annually) and are aware of the FCC’s CPNI regulations as well as the related federal regulations and Allband’s statutory responsibility to its customers. All requests for subscriber CPNI are forwarded to Senior Management personnel and any unauthorized use, sale, or disclosure of CPNI by any employee would subject the employee to disciplinary action, up to and including dismissal.

#### **Carrier Authentication Requirements**

Allband prohibits its employees from releasing a customer’s phone call records when a customer calls except when the customer provides a password. If a customer does not provide a password, Allband will not release the customer’s phone call records except by sending it to an address of record or by calling the customer at the telephone of record. Allband also provides mandatory password protection for online account access. Allband will provide all CPNI, including customer phone call records, to customers based on in-store contact with a valid government photo ID.

### **Notice to Customer of Account Changes**

Allband notifies the customer immediately when the following are created or changed:

- (1) a password; (2) a back-up for forgotten passwords; (3) the address of record, or
- (4) an online account.

### **Joint Venture and Independent Contractor Use of CPNI**

Allband requires explicit consent from a customer before disclosing their CPNI to a joint venture partner or independent contractors for the purposes of marketing communications-related services to that customer. In addition, Allband does not disclose nor allow access by others to subscribers' CPNI for the purpose of identifying customers placing calls to competing carriers.

### **Business Customer Exemption**

Allband may bind itself contractually to authentication regimes other than those described in this Section for services it provides to its business customers that have both a dedicated account representative and a contract that specifically addresses the Company's protection of CPNI.

### **Notice of Unauthorized Disclosure of CPNI**

A notification process is established for both law enforcement and Allband customers in the event of a CPNI breach. Allband's Senior Management shall notify law enforcement of a breach of its customers' CPNI no later than seven business days after a reasonable determination of a breach by sending electronic notification to the United States Secret Service (USSS) and the Federal Bureau of Investigation (FBI). Allband may notify the customer and/or disclose the breach publicly after seven business days following notification to the USSS and the FBI, if the USSS and the FBI have not requested to postpone the disclosure.

However, Allband may immediately notify a customer or disclose the breach publicly after consultation with the relevant investigative agency, if Allband believes that there is an extraordinarily urgent need to notify a customer or class of customers in order to avoid immediate and irreparable harm.

Additionally, Allband will maintain a record of any discovered breaches, notifications to the USSS and the FBI regarding those breaches, as well as the USSS and the FBI response to the notifications for a period of at least two years. These records will include, if available, the date that Allband discovered the breach, the date that Allband notified the USSS and the FBI, a detailed description of the CPNI that was breached, and the circumstances of the breach.

### **Opt-In / Opt-Out Approvals**

Allband maintains records of opt-in and opt-out approvals by customers, including a history of notices to customers. All outbound marketing campaigns are approved by the General Manager.
