**Re: Verizon Public Notice of Network Changes and Certification Under
Rules 51.325–51.335**

Dear Ms. Dortch:

Pursuant to Sections 51.325 - 51.335 of the Commission's rules, Verizon submits the attached Certification of Public Notice of Network Change under rule 51.329(a). Specifically, Verizon is providing notification of the network changes that result in the decommissioning of the Hanover MA DMS-100 switch (HNVRMACODS0) located at 319 Columbia Rd., Hanover, MA.

Please contact me should you need any further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Debra P. Dexter", with a checkmark at the end.

**CERTIFICATION OF PUBLIC NOTICE OF NETWORK CHANGE
UNDER RULE 51.329(a)**

On February 26, 2018, the following Public Notice of Network Change has been made by Verizon pursuant to Code of Federal Regulation 47, Subsections 51.325 – 51.335.

The Public Notice(s) can also be obtained at the Internet at:

<http://www.verizon.com/about/terms-conditions/network-disclosures>

Title(s) of Network Notification(s):

Planned Network Changes – Hanover, MA switch retirement

Verizon Wireline Network Operations
99 Shawan Rd & York Rd, 05 Floor Room 5w17a
Cockeysville, MD 21030
410-856-2512

Implementation Date: On or after September 8, 2018

Planned Network Change(s) will occur at the following location(s) in Massachusetts:

Verizon Central Office	Address	CLLI
HANOVER DMS-100 Switch	319 Columbia Rd., Hanover, MA 02339	HNVRMACODS0
NEWTON Packet End Office (PEO) Switch	787 Washington St., Newton, MA 02160	NWTNMAWAPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Hanover, MA DMS-100 switch are associated with CLI code HNVRMACODS0 and will not be repeated throughout this notice.
- All references to the Newton, MA Packet End Office (PEO) switch are associated with CLI code NWTNMAWAPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Hanover, MA DMS-100 switch, located at 319 Columbia Rd., Hanover, MA 02339, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Newton, MA PEO switch located at 787 Washington St., Newton, MA 02160. All traffic to be migrated includes, but is not limited to Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Newton, MA PEO switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) interconnections with access connectivity in the Hanover, MA DMS-100 switch will be required to reposition the codes to the Newton, MA PEO switch.

All ASRs for the Newton, MA PEO switch must be received no later than July 10, 2018 in order to provide sufficient time to migrate the traffic described above. DEOT interconnections will support traffic migration for the Hanover, MA DMS-100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Hanover, MA DMS-100 switch (**on or after September 8, 2018**). This will serve to guide interconnect re-routes of traffic for the two (2) native codes currently served by the Hanover, MA DMS-100 switch to reflect the Newton, MA PEO switch as the new home switch. All ASRs for the Newton, MA PEO switch must carry the project code of **HNVRMACODS0**.
