**PETITION FOR LIMITED WAIVER AND EXTENSION OF  
ETC DESIGNATION DEADLINE**

Pursuant to 47 C.F.R. § 1.3 and for good cause, Tombigbee Communications, LLC (“Tombigbee”) through its below-named counsel, respectfully requests a limited waiver of the Eligible Telecommunications Carrier (“ETC”) Designation deadline of February 25, 2019 for the Federal Communications Commission’s (the “FCC,” or, in the alternative, the “Commission”) Connect America Fund II (“CAF”) Auction 903, and an extension of said deadline to ten (10) days after the FCC issues its order.

**I. Introduction and Background**

Tombigbee was formed in June 2017 to construct and operate a new state-of-the-art Fiber To The Home (“FTTH”) network to provide high-speed broadband Internet access and Voice over Internet Protocol (“VoIP”) services to underserved residents of north west Alabama who currently lack sufficient and affordable access to such services.<sup>1</sup> Tombigbee applied for and was awarded support to serve 100 census blocks (279 locations) in the State of Alabama<sup>2</sup> pursuant to

the CAF Auction 903.<sup>3</sup> To finalize a CAF II award, the Commission requires documentation of ETC Designation within 180 days from the date of the award.<sup>4</sup> Because the Commission announced its CAF II awards on August 28, 2018, the deadline to establish ETC designation is February 25, 2019.<sup>5</sup> Tombigbee has filed a petition for ETC designation with the Commission, but such petition has not yet been acted upon and ETC designation awarded.

## **II. Due Diligence on the Part of Tombigbee with Respect to ETC Designation Justifies a Waiver and a Brief Extension of Time**

Within thirty days of notice of the CAF award, Tombigbee contacted legal counsel to investigate the process for obtaining ETC designation from the Alabama Public Service Commission for the areas located within the state of Alabama. Legal counsel for Tombigbee investigated the process and ultimately contacted Darrell A. Baker, Director, Utility Services Division for the Alabama Public Service Commission, to discuss the process for obtaining ETC designation in the State of Alabama for such areas. Legal counsel for Tombigbee was informed that the APSC could designate Tombigbee as an ETC prior to the filing deadline and described the applications and process that would be required. Operating with the understanding that the APSC would exercise jurisdiction over Tombigbee's ETC designation, Tombigbee, through its legal counsel, prepared a voluminous application for submission to the APSC in accordance with APSC rules for such designation.

However, in January of 2019, counsel for Tombigbee was informed by the APSC that the APSC would not be exercising jurisdiction over broadband internet and VoIP and that

Tombigbee would still need to submit its application to the APSC but that the APSC would not act upon it and would instead issue a denial of jurisdiction that would need to be filed with the FCC for ETC Designation. Following research and discussions with various parties, Tombigbee proceeded to obtain the letter from the APSC and filed a petition with the FCC for ETC designation on February 22, 2019.

Tombigbee filed its petition with the FCC for ETC designation prior to the February 25, 2019 deadline. Correspondence received from Auction 903 on Tuesday, February 19, 2019 stated that “As a reminder, the final Auction 903 long-form application deadline is 6:00 p.m. ET on February 25, 2019. All required information must be uploaded to the FCC Form 683 long-form application and you must click the CERTIFY & SUBMIT button on the “Certify & Submit” screen prior to 6 p.m. ET to meet the deadline.” It went on to say that “If you have already filed an ETC application with the FCC, you do not need to file a petition for waiver of the deadline if the FCC has not yet issued an ETC designation order. If you plan to file an ETC application with the FCC but have not yet filed such an application, you will need to file a petition for waiver of the deadline with your FCC Form 683 long-form application.” Counsel for Tombigbee discussed this language with Nissa Laughner with the FCC and was led to believe that a petition for waiver of the ETC designation was not required if the petition for ETC designation had been filed prior to the February 25, 2019 deadline. In subsequent discussions with Ms. Laughner on February 25, 2019, she advised counsel for Tombigbee to nevertheless file a petition for waiver out of an abundance of caution. Accordingly, Tombigbee, by and through its legal counsel, is hereby notifying the FCC that Tombigbee has filed a request for ETC designation with the FCC that is pending and hereby requests a limited waiver and an extension of time to file such designation pending action of the FCC on Tombigbee’s petition for ETC

designation.

### **III. Grant of the Requested Limited Waiver and Extension of Time is Warranted and Would Serve the Public Interest**

Pursuant to Section 1.3 of its Rules, the Commission may waive any provision of the Rules for good cause shown or where, due to special circumstances, deviation from a rule would better serve the public interest and the Commission's the Commission's purposes than strict enforcement of the Rule.<sup>6</sup> In Tombigbee's case, there is good cause to grant the limited waiver and extension of time for ETC Designation in Alabama, and strict compliance with the FCC's February 25<sup>th</sup> deadline is contrary to the public interest.

The FCC's objective in establishing the Connect America Fund was to close "the digital divide for all Americans, including those in rural areas of our country."<sup>7</sup> Consistent with the Commission's CAF II objectives, Tombigbee would provide underserved consumers in designated rural Alabama census blocks broadband internet and VoIP service.

Tombigbee is a wholly-owned subsidiary of Tombigbee Electric Cooperative, Inc. ("TEC"), a non-profit electric distribution cooperative incorporated in 1941 to provide electric services to rural areas of Marion, Lamar, and portions of Fayette counties in Alabama. TEC has over 6,500 members located in areas served by over 2,175 miles of electric service lines primarily in Marion, Lamar, Winston and Fayette Counties in Alabama. TEC formed Tombigbee in June 2017 to construct and operate a new state-of-the-art Fiber To The Home ("FTTH") network to provide high-speed broadband Internet access and Voice over Internet Protocol ("VoIP") services to cooperative members and other residences of those counties who

currently lack sufficient and affordable access to such services. As of October 2018, Tombigbee has more than 425 miles of both transport and distribution fiber built, with over 3,000 customers currently receiving broadband Internet services and/or VoIP services and more than 3,000 customers signed up and waiting for construction to be completed in their geographic area.

While the heart of Tombigbee's service area is in rural areas that do not have cable or other high- speed fixed line options, the number of persons who have signed up for service in such a short period of time and the number of persons requesting services are a testament to the need for this service in the areas for which Tombigbee has requested ETC designation from the FCC.

#### **IV. Conclusion**

Because Tombigbee diligently pursued ETC designation following its award of CAF II funding, and because it would serve the public interest, Tombigbee, by and through its counsel, respectfully requests a limited waiver of the February 25<sup>th</sup> deadline for ETC designation and an extension of ten (10) days following the FCC's issuance of its order approving Tombigbee's ETC designation in the census blocks in Alabama for which such designation is sought.

Tombigbee also respectfully requests expeditious Commission action on this request.

Respectfully submitted,  
**Tombigbee Communications, LLC**
