OPERATING PROCEDURES STATEMENT

When calls are received by CSSRs from customers with this preferred treatment they ask for customer permission to access account information.
2. Customers are given an opportunity to "opt-out" of CPNI usage beginning with the install of service. Additionally, customers may "opt-out" at any time.
3. Notice regarding customer CPNI rights and Montana Sky's duty to protect CPNI is provided to all new and existing customers via the web site www.montanasky.net. In addition, the notice is also printed each month as a message on the customer's billing statement.
4. Employees are trained on the proper use and/or disclosure of CPNI. Additionally, procedures are documented and readily available to all employees on the company's internal website.
5. Access to CPNI data is limited to employees and/or entities with proper authorization as allowed under Commission rules. All employees and/or entities with such access operate under policies and/or contract requiring nondisclosure of confidential information.
6. All marketing campaigns and materials are reviewed by a supervisory panel. This will include any use of CPNI data used in any given marketing effort. Please note that as of this time Montana Sky has not used CPNI data in this manner but the proper safeguards are in place should it be used.
7. Improper use or disclosure of CPNI is subject to Montana Sky's work rules and disciplinary policies as outlined in its policy manual. The policy manual is readily accessible by all employees.

8. Valid Photo Identification is required when customers come into the Montana Sky office requesting assistance/access to any account information.
9. Call detail is only provided in a customer initiated call where the customer identifies the call record consistent with the FCC 07-22. Absent that information call detail will not be released during a customer initiated call. Montana Sky employees have been instructed to mail the detail to the address of record.
10. Montana Sky does not currently, and has no plans to provide CPNI to a third party for the purposes of marketing.
11. Customer initiated changes in passwords or addresses result in a generic notification to the customer using the address of record consistent with FCC rules.
