Atlantic Datacom, Inc.
Statement of Customer Proprietary Network Information (CPNI)
Operating Procedures and Compliance

Atlantic Datacom, Inc. ("ADCom"), in accordance with section 64.2009(e), submits this statement summarizing how ADCom's operating procedures are designed to ensure compliance with the Commission's CPNI rules. This statement summarizes the procedures that the company has implemented to safeguard the CPNI of its customers.

USE OF CPNI

ADCom values its customers' privacy and takes measures to ensure that it protects CPNI. It is ADCom's policy to protect the confidentiality of its customers' information. ADCom does have CPNI, including quantity, technical configuration, type, location and use of telecommunications services provided by the Company. However, this information is only made available to customers pursuant to procedures described herein. ADCom does not use, disclose, or permit access to its customers' CPNI except as such use, disclosure, or access is permitted under Section 222 of the Communications Act of 1934, as amended, and the Commission's implementing rules.

As necessary, ADCom may use CPNI for the permissible purposes enumerated in the Act and the Commission's rules, including, but not limited to, initiating, rendering, billing, and collecting for telecommunications services. The company also may use CPNI to protect its rights or property.

ADCom does not use CPNI to market products and services to customers outside of the category of service to which the customer already subscribes. ADCom also does not share CPNI with any affiliates or third parties for marketing purposes. If, in the future, ADCom seeks to use CPNI for these purposes, then it will provide the appropriate notice to customers and will maintain a list of customer preferences. ADCom also will maintain a record of any marketing campaign in accordance with the Commission's rules.

PROTECTION OF CPNI

As set forth below, ADCom has put into place processes to safeguard its customers' CPNI from improper use or disclosure by employees; and to discover and protect against attempts by third parties to gain unauthorized access to customer CPNI. ADCom systems are monitored to determine if and when intrusion attempts are made by outside sources or by internal personnel.

Customer requests for information must be sent in writing by the authorized party of record for the customer. ADCom responds back in writing, to the authorized customer representative at the primary address of record.

The company trains its employees regarding its procedures for protecting CPNI on an ongoing basis and monitors the interactions of its employees with customers to ensure that procedures are being followed. ADCom has an express disciplinary process in place for violation of the company's CPNI policies, up to and including termination of employment.

DISCLOSURE OF CALL DETAIL OVER THE PHONE

ADCom has a process in place for verifying its customers' identity during an in-bound call. ADCom does not release call detail information during an in-bound call. ADCom does not disclose CPNI over the telephone in response to a customer-initiated telephone inquiry. If it elects to do so in the future, it will follow the applicable rules set forth in 47 CFR Subpart U, including the implementation of authentication

procedures that do not require the use of readily available biographical information or account information and customer notification of account changes.

In some instances involving a business customer with a dedicated account representative, the Company may have agreements that address authentication procedures for disclosing CPNI that differ from those described above.

DISCLOSURE OF CPNI ONLINE

ADCom does not disclose CPNI online at this time. Should it choose to do so in the future, it will institute authentication procedures to safeguard the disclosure of CPNI online.

DISCLOSURE OF CPNI AT RETAIL LOCATIONS

ADCom does not have any retail locations and therefore does not disclose CPNI in-store.

ACTIONS AGAINST DATA BROKERS

ADCom has not taken any actions against data brokers in the past year.

NOTIFICATION OF LAW ENFORCEMENT

ADCom takes reasonable measures to discover and protect against attempts to gain against unauthorized access to CPNI. ADCom has practices and procedures in place to notify law enforcement, and customers, if permitted, of a security breach that result in the unauthorized access to, use, or disclosure of CPNI. ADCom will maintain a record of the notification in accordance with the Commission's rules.

INFORMATION ABOUT PRETEXTERS

The Company does not have any information outside of the information filed in Docket No. 96-115 or that is publically available regarding the processes that pretexters are using to attempt to access CPNI. The Company has taken steps to protect CPNI, which are described throughout this document.

ANNUAL CERTIFICATION

ADCom has designated an officer, as an agent for the company, to sign and file a CPNI compliance certificate on an annual basis.
