The Company understands that the approval or disapproval to use, disclose, or permit access to a customer's CPNI obtained by the Company must remain in effect until the customer revokes or limits such approval or disapproval.

The Company maintains records of approval, whether oral, written or electronic, for at least one year.

5. Customer Notification and Authorization Process

The Company has trained employees with a need and/or responsibility for obtaining customer authorization to use CPNI for marketing purposes, regarding the notice and approval requirements under Section 64.2008.

Prior to any solicitation for customer approval, the Company provides notification to the customer of the customer's right to restrict use of, disclosure or, and access to that customer's CPNI.

The Company maintains a record of notification, whether oral, written or electronic, for at least one year.

Individual notice to customers is provided when soliciting approval to use, disclose, or permit access to customers' CPNI.

The notification provides sufficient information to enable the customer to make an informed decision as to whether to permit the Company to use, disclose, or permit access to the customer's CPNI.

The notification states that the customer has a right, and the Company has a duty, under federal law, to protect the confidentiality of CPNI.

The notification specifies the types of information that constitute CPNI and the specific entities that will receive the CPNI, describes the purposes for which CPNI will be used, and informs the customer of his or her right to disapprove those uses, and deny or withdraw access to CPNI at any time.

The notification advises the customer of the precise steps the customer must take in order to grant or deny access to CPNI, and clearly states that a denial of approval will not affect the provision of any services to which the customer subscribes.

The notification is comprehensible and not misleading.

The notification does not include any statement attempting to encourage a customer to freeze third-party access to CPNI.

The notification states that any approval or denial of approval for the use of CPNI outside of the services to which the customer already subscribes is valid until the customer affirmatively revokes or limits such approval or denial.
