

WC Docket # 18-155 : Updating the Intercarrier <sup>Reconsideration</sup> ~~Reconsideration~~ <sup>Regime</sup> ~~Regime~~

Oct. 1, 2018

OCT 11 2018

To whom it may concern:

We are an elderly husband and wife <sup>FCC Mail Room</sup> who have been blessed by this conference calling feature. We are hoping it won't be taken away because if it were it would cause some hardships, not just for us but for many others as well.

DOCKET FILE COPY ORIGINAL

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

We enjoy these Conference lines because you can call in a Church service if you are sick at home... But it is not all bout us. We think of the handicap people out there. There are times, where you can not make it to a funeral you can call in. But we do think of those who can not do nothing at all. They enjoy the singings.

We have two <sup>Handicaps</sup> in our family. Phone- 540-867-9668

**WC Docket number 18-155 regarding: Updating the Inter-carrier Compensation Regime including conference calling services.** FCC Mail Room

Upon hearing about this docket I was very disappointed. I'm a 57 year old woman that has asthma and is often sick. Every Sunday that I can't go to church, which is quite often, I call in to listen to our church service. Some Sundays I listen to a service in the morning and another in the evening. It would cost me dearly, money that I don't have to spend if the conference calling service is not free anymore. This would affect all the older ones and the others with sickness that always uses the free conference calling service also.

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

We like to listen to the funerals, we can't go to in other places. Also to the ordinations, singing etc. We are old people, so it is a help to us. Thank you for doing it for us. God Bless you for doing it for us.

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

Signed,

Your Name:

Elvin R. Oberholzer

WC Docket No. 18-155 regarding: Updating the Intercarrier Compensation Regime including conference calling services.

To those in office at the FCC,

As a tax payer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses unnecessary expense.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly. Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of 80 million dollars.

However, if the FCC does decide to remove the services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use the services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our nonprofit organizations, our families, our churches, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Please do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I hereby petition the Federal Communications Commission to refrain from proceeding with its rule making in WC Docket No. 18-155.

Thank you for 'hearing' me, and I am praying you will make the right decision! God bless you in the work He has called you to do!

Sincerely,  
Joseph Gingerich

*We are asking for your help in keeping the free Conference calling services that we use to keep in contact with our support group of special needs children, listening to Church services we are unable to attend, singing calls, & more.*

*This is something we use quite often & would be costly to us should you allow it to be discontinued. Thank you for your reconsideration.*

To whom it may concern;

I would like voice my concern on the impact of removing free conference calling will have on us. We will no longer be able to listen to our church services, if we are unable to attend, without a cost we cannot afford. The same thing applies to keeping in touch with our family.

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.
