

WC Docket number 18-155

Received & inspected

OCT 11 2018

FCC Mailroom

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that ~~harm~~ millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, ~~10.4~~ millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

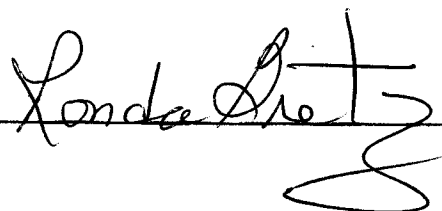

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

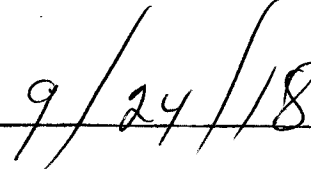

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

Signed, 315-543-3117

Please notice

I am asking you to not allow Big Phone companies to take away our free conference line calls.

My wife and I enjoy listening to our friends and families on the conference line. We pay over \$200.00 per month for unlimited long distance. Now they want to charge us even more.

Please do not allow Big Phone companies to charge us more.

WC DOCKET 18-155

WC Docket Number 18-155 regarding: updating the Inter carrier Compensation Regime including Conference calling services. I am asking you to please reconsider to the FCC's intentions, I'm a senior citizen and enjoy to listen to our Free calling Church services Line, and the Handicap Conference calling line. Please do not take away my Free Calling Service,
Thank you.

FCC Mail Room

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

W C Docket #18-155 Regarding Updating the intercarrier
compensation regime including conference calling services.

As a tax paying U.S. citizen using the toll free long distance
conference lines; I am urging you to refrain from eliminating
these toll free services that many of us use.

We like to listen to news calls ,history calls, singing calls,
(no we do not have radio or television; nor do we desire to have them)
and also church services .

Think of the lonely individuals who can use these services to help
feel connected, since this is an interactive setting.

Please consider those on fixed incomes and respond accordingly
by not bowing to Corporate interests.

Respectfully Submitted

Edwin K. Wise
