OCT 11 2018

WC Docket Number 18-155 regarding:
Updating the Intercarrier Compensation Regime Including
Conference Calling Services. Eliminating Conference calling would Negatively
Impact our churches we have some older disabled people that use it.
It will also force me to change my Business.

As a taxpayer, and a free conference calling client, I ask you to please reconsider
acting on WC Docket No. 18-155. My free conference calling services are currently at
risk of being completely eliminated and costing me, millions of others and our
businesses.

I am urging you to refrain from eliminating services that I and millions of other
Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free
conference calling services are left alone. In fact, they stand to gain upwards of \$80
million.

However, if the FCC does decide to remove these services, I and millions of other
American citizens and American businesses will be immediately and negatively
affected. We will no longer be able to use these services for free and will instead be
forced to pay for conferencing services provided by the long-distance carriers if we
want to reach our non-profit organizations, our families, our churches, singing calls,
news calls, prayer groups, support groups, board meetings, committee meetings,
startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free
conference calling.

Do not take away my free conference calling services and further line the pockets of
major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its
rulemaking in WC Docket No. 18-155.

Signed,

Your Name: Henry Yoder

OCT 11 2018

September 28, 2018 FCC Mail Room

To whom it may concern,

As a taxpayer, I ask you to please reconsider action on WC Docket No 18-155. My free conference calling services are currently at risk of being completely eliminated. This will cost me, and millions of other individuals, non profit organizations, churches, and businesses for a service we have utilized for free in the past.

I am urging you to refrain from action eliminating these services and the negative effects it will cause to the million who use them regularly.

Long distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

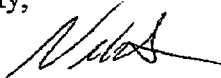

However, if the FCC does decide to remove these services, millions of American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provide by long distance carriers. This will cause hardship to many of our families, non profit organizations, churches, singing calls, news calls, prayer group calls, support groups, board meetings, clergy meetings, committee meetings, startups, schools, and global corporate communities and families.

Many of my elderly friends and acquaintances are not tech savvy and use these services instead of the social media many of the younger use. These elderly citizens are a group who will suffer the greatest impact of this proposed change.

Do not take away my free conference calling services and further line the pockets of major long distance carriers.

Again, I ask the FCC to refrain from proceeding with it's rulemaking in WC Docket No. 18-155.

Sincerely,

Nelson Sensenig

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated, and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

Signed,

Your Name, Raymond K. Wise Date 9-28-18

I like to listen to the news

I also like to get church services when I can't go to church.

I also enjoy listening to conversations of different areas.

WC Docket number 18-155 regarding: Updating the Inter-carrier Compensation Regime including conference calling services.

Hello - I am a widow that very much enjoys the conference calls of church services singing and news calls. It helps lift my spirits when I am alone. I would be very dissapointed to have it eliminated!
