**Re: *Ex Parte* Communication: WC Docket No. 10-90**

Dear Ms. Dortch:

On October 26, 2017, Genny Morelli and the undersigned of ITTA met with Jamie Susskind of the Office of Commissioner Brendan Carr regarding the above-captioned proceeding.<sup>1</sup>

In our meeting, we emphasized the benefits and efficiencies that would be realized from funding the A-CAM Plan at \$200 per location this year, including the application of additional, specific build-out obligations.<sup>2</sup> Funding the A-CAM Plan at this level would make broadband at speeds of at least 10/1 Mbps available to at least approximately 46,000 unserved and 25,000 underserved consumers. We stressed that while the Commission needs to reevaluate high-cost program funding as a whole due to expiration of the \$4.5 billion annual budget at the end of this year, funding the A-CAM Plan at \$200 per location by the end of this year will ensure that the tens-of-thousands of unserved and underserved consumers standing to benefit from the attendant broadband build-out obligations will not be subject to losing this benefit or having it delayed as a result of uncertainty surrounding the future high-cost program budget.

Please do not hesitate to contact the undersigned with any questions regarding this submission.

Respectfully submitted,

/s/

Michael J. Jacobs  
Vice President, Regulatory Affairs

cc: Jamie Susskind
