**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Hi! I'm one of the many of a remote workforce. This allows me to work from home on some days, such as when there's commuting problems, or I have things to do. This flexibility is great, and it's great when my other coworkers do it, such as on days when there's extreme weather.

But this wouldn't be possible without a competitive provider. My ISP is "webpass", a relatively small ISP compared to comcast and at&t. They manage to be profitable while still giving me a deal that is significantly better.

This is what competition looks like, and it's awesome.
